Book

Illustrated with 10 images. This
book will be a descriptive
grammar of the Esperanto
language invented by L. L.
Zamenhof, which will be
complete and comprehensive in
regards to a) the grammar of
Esperanto as first outlined by
Zamenhof in Fundamento de
Esperanto and other
foundational documents, and b)
Esperanto as it is spoken today
by the most committed
Esperantists. (Proposed
reforms to the Esperanto
language will be discussed if
they have serious support from
a significant fraction of
Esperanto enthusiasts). This
book was started practically on
a dare from the August 2006

issue of Bob's Poetry Magazine, in which Robert Happelberg boasted that he could print a complete and comprehensive grammar of Esperanto in just one 6 by 7 inch page. While this is obviously wrong, it's not too far off the mark. When completed, this book will require several standard size (8.5 by 11 in the USA) pages, but will still be much shorter than a complete grammar of a natural language like English or Slovene. In view of this goal, the number of examples provided for each concept will be kept to a bare minimum. Those wishing to build their Esperanto vocabularies are also referred to the Esperanto textbooks. It is acceptable in the beginning to word the text in an accessible manner like in a textbook, but the goal should be for all the text to be technical with a full command of linguistic jargon. Is regarded as the most important response to the philosophies of desire, as expounded by thinkers such as de Sade, Nietzsche, Bataille, Foucault and Deleuze and Guattari. It is a major work not

only of philosophy, but of sexual politics, semiotics and literary theory, that signals the passage to postmodern philosophy. This is the eBook version of the print title.
