The Ages of Globalization May 04 2021 Today's most urgent problems are fundamentally global. They require nothing less than concerted, planetwide action if we are to secure a long-term future. But humanity's story has always been on a global scale. In this book, Jeffrey D. Sachs, renowned economist and expert on sustainable development, turns to world history to shed light on how we can meet the challenges and opportunities of the twenty-first century. Sachs takes readers through a series of seven distinct waves of technological and institutional change, starting with the original settling of the planet by early modern humans through long-distance migration and ending with reflections on today's globalization. Along the way, he considers how the interplay of geography, technology, and institutions influenced the Neolithic revolution; the role of the horse in the emergence of empires; the spread of large land-based empires in the classical age; the rise of global empires after the opening of sea routes from Europe to Asia and the Americas; and the industrial age. The dynamics of these past waves, Sachs demonstrates, offer fresh perspective on the ongoing processes taking place in our own time—a globalization based on digital technologies. Sachs emphasizes the need for new methods of international governance and cooperation to prevent conflicts and to achieve economic, social, and environmental objectives aligned with sustainable development. The Ages of Globalization is a vital book for all readers aiming to make sense of our rapidly changing world.

Ordinary Wolves Dec 11 2021 Eskimo and white culture collide in this national bestselling novel of life in the contemporary Alaskan wilderness: "A magnificently realized story" (New York Times Book Review). *Ordinary Wolves* depicts a life different from what any of us has known: Inhuman cold, the taste of rancid salmon shared with shivering sled dogs, hunkering in a sod igloo while blizzards moan overhead. But this is the only world Cutuk Hawcley has ever known. Born and raised in the Arctic, he has learned to provide for himself by hunting, fishing, and trading. And yet, though he idolizes the indigenous hunters who have taught him how to survive, when he travels to the nearby Inupiaq village, he is jeered and pummeled by the native children for being white. When Cutuk ventures into the society of his own people, two incompatible realities collide, perfectly capturing "the contrast between the wild world and our ravaging consumer culture". In a powerful coming of age story, a young man isolated by his past must choose between two worlds, both seemingly bent on rejecting him (Louise Erdrich). Winner of the Milkweed National Fiction Prize "As a revelation of the devastation modern America brings to a natural lifestyle, it's a tour de force and may be the best treatment of the Northwest and its people since Jack London's works."—Publishers Weekly, starred review

The SideRoad Kids Jul 18 2022 *The SideRoad Kids* follows a group of boys and girls as they enter the sixth grade in a small town in Michigan's Upper Peninsula during 1957 - 58. This meandering collection of loosely-connected short stories is often humorous, poignant, and sometimes mysterious. Laugh as the kids argue over Halloween treats handed out in Brimley. Recall Dorothy's Hamburgers in Sault Ste. Marie. Follow a Sugar Island snowshoe trail as the kids look for Christmas trees. Wonder what strange blue smoke at Dollar Settlement signifies. Discover the magic hidden in April snowflakes. Although told by the kids, adults will remember their own childhood as they read about Flint, Candy, Squeaky, Katie, and their friends. "Katie, Blew, Squeaky, and Daisy grew up on farms instead of high rises and used their imagination instead of fancy gadgets to make their own fun. An entertaining read for youngsters. And parents, you might enjoy a nostalgic flashback as well. I know I did." --Allia Zobel-Nolan, author of *Cat Confessions* "The stories in *The SideRoad Kids* are often humorous. However, underlying them is a sensitive awareness that being a kid, rural or urban, then or now, is not easy. This is an enjoyable read that will enlighten today's kids about the past and rekindle memories for older readers." --Jon Stott, author of *Paul Bunyan in Michigan* "Sharon's stories capture the essence of childhood and growing up in a small community. The antics of *The SideRoad Kids* will keep you entertained and take you back to a simpler time." --Renee Glass, Senior Production Artist, *Mackinac Journal* "Sharon Kennedy is an amazing writer who draws you into the lives of her characters and keeps everything relatable. She makes you laugh, makes you think, and makes you want to keep reading. *The SideRoad Kids* is an entertaining book about a group of children growing up in Northern Michigan." --Kortny Hahn, Senior Staff Writer, *Cheboygan Daily Tribune* Learn more at www.AuthorSharonKennedy.com From Modern History Press www.ModernHistoryPress.com

Decade of Change Nov 22 2022 Change is often an abstract concept, discussed in business conferences and academic seminars. But it's been all too real this past decade. The momentousness of change during the past 10 years has inspired the Gallup Management Journal, an online business magazine that posts articles weekly for nearly 300,000 subscribers, to review how it covered and evaluated events during this period; how it tried to make sense of rapid change right as it was unfolding; and most importantly, how Gallup's most visionary people, as well as the great minds with whom Gallup regularly associates, helped organizational leaders navigate the most tumultuous years in memory. In these pages, you'll find insights and wisdom into how to manage, and make the most of, change. Nobel Prize winner Daniel Kahneman probes the nature of decision-making. Lieutenant General Russel Honoré, of Hurricane Katrina fame, offers leadership lessons he applied in the crucible of crisis. Vinton Cerf, one of the creators of the Internet, tells how he'll get six billion people online. Visionary executive Ray Anderson makes a powerful business case for environmental sustainability. Gallup Chairman and CEO Jim Clifton reveals what everyone in the globe most wants, And a host of other executives and thinkers tackle everything from mitigating the fear of layoffs, to promoting wellbeing in the workplace, to building customer engagement

amid the post-crash "new normal." Some of the best business and organizational minds can be found in these pages, steering leaders through the various crises of the past decade, and helping find a way forward to what we all hope will be a brighter and more prosperous future. Decade of Change is as much a look backward as it is a roadmap for what lies ahead.

Papers address design for a snowmobile using E10 gasoline (10% ethanol mixed with pump gasoline). Performance technologies that are presented include: • Engine Design: application of the four-stroke engine • Applications to address both engine and track noise • Exhaust After-treatment to reduce emissions The SAE International Clean Snowmobile Challenge (CSC) program is an engineering design competition. The program provides undergraduate and graduate students the opportunity to enhance their engineering design and project management skills by reengineering a snowmobile to reduce emissions and noise. The competition includes internal combustion engine categories that address both gasoline and diesel, as well as the zero emissions category in which range and draw bar performance are measured. The goal of the competition is designing a cleaner and quieter snowmobile. The competitors' modified snowmobiles are also expected to be cost-effective and comfortable for the operator to drive.

was not the first murder of its kind, and it wont be the last. Across the mountain, a web of murder and mystery is woven that entangles all that get too close to the . . . Trail Stalker
