Uncivil Mirth Dec 19 2019 How the philosophers and polemicists of eighteenth-century Britain used ridicule in the service of religious toleration, abolition, and political justice The relaxing of censorship in Britain at the turn of the eighteenth century led to an explosion of satires, caricatures, and comic hoaxes. This new vogue for ridicule unleashed moral panic and prompted warnings that it would corrupt public debate. But ridicule also had vocal

defenders who saw it as a means to expose hypocrisy, unsettle the arrogant, and deflate the powerful. *Uncivil Mirth* examines how leading thinkers of the period searched for a humane form of ridicule, one that served the causes of religious toleration, the abolition of the slave trade, and the dismantling of patriarchal power. Ross Carroll brings to life a tumultuous age in which the place of ridicule in public life was subjected to unparalleled scrutiny. He shows how the Third Earl of Shaftesbury, far from accepting ridicule as an unfortunate byproduct of free public debate, refashioned it into a check on pretension and authority. Drawing on philosophical treatises, political pamphlets, and conduct manuals of the time, Carroll examines how David Hume, Mary Wollstonecraft, and others who came after Shaftesbury debated the value of ridicule in the fight against intolerance, fanaticism, and hubris. Casting Enlightenment Britain in an entirely new light, *Uncivil Mirth* demonstrates how the Age of Reason was also an Age of Ridicule, and speaks to our current anxieties about the lack of civility in public debate.

Cicero, Philippic 2, 44-50, 78-92, 100-119 Sep 08 2021

Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to

encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

The 50 Greatest Westerns Mar 26 2023 Author Barry Stone has served his apprenticeship as a western movie geek and aficionado. *The Magnificent Seven*, *The Wild Bunch*, *Red River* – for 50 years the western has been the only genre in a life that 'just ain't big enough for two'. He has written on the history of cinema for the illustrated reference book *Historica*, is a regular attendee to western premieres for FOX Studios Australia, and was recently a guest of the Museum of Western Film History in Independence, California. Intrigued by the idea of frontier wilderness, of law and order vs lawlessness, and a firm belief that 'the better the bad guy, the better the film', he goes beyond the American south-west to pay homage to the Italian and even Australian western – and, after much deliberation, he ranks them in order...

People lived because she killed. People died because he lived. Zafira is the Hunter, disguising herself as a man when she braves the cursed forest of the Arz to feed her people. Nasir is the Prince of Death, assassinating those foolish enough to defy his autocratic father, the sultan. If Zafira was exposed as a girl, all of her achievements would be rejected; if Nasir displayed his compassion, his father would punish him in the

most brutal of ways. Both Zafira and Nasir are legends in the kingdom of Arawiya—but neither wants to be. War is brewing, and the Arz sweeps closer with each passing day, engulfing the land in shadow. When Zafira embarks on a quest to uncover a lost artifact that can restore magic to her suffering world and stop the Arz, Nasir is sent by the sultan on a similar mission: retrieve the artifact and kill the Hunter. But an ancient evil stirs as their journey unfolds—and the prize they seek may pose a threat greater than either can imagine.

Getting Tough Jan 20 2020 The politics and policies that led to America's expansion of the penal system and reduction of welfare programs In 1970s America, politicians began "getting tough" on drugs, crime, and welfare. These campaigns helped expand the nation's penal system, discredit welfare programs, and cast blame for the era's social upheaval on racialized deviants that the state was not accountable to serve or represent. *Getting Tough* sheds light on how this unprecedented growth of the penal system and the evisceration of the nation's welfare programs developed hand in hand. Julilly Kohler-Hausmann shows that these historical events were animated by struggles over how to interpret and respond to the inequality and disorder that crested during this period. When social movements and the slowing economy destabilized the U.S. welfare state, politicians reacted by repudiating the commitment to individual rehabilitation that had governed penal and social programs for decades. In its place, they championed strategies of punishment, surveillance, and containment. The architects of these tough strategies insisted they were necessary, given the failure of liberal social programs and the supposed pathological culture within poor African American and Latino communities. Kohler-Hausmann rejects this explanation and describes how the spectacle of enacting punitive policies convinced many Americans that social investment was counterproductive and the "underclass" could be managed only through coercion and force. *Getting Tough* illuminates this narrative through three legislative cases: New York's adoption of the 1973 Rockefeller drug laws, Illinois's and California's attempts

to reform welfare through criminalization and work mandates, and California's passing of a 1976 sentencing law that abandoned rehabilitation as an aim of incarceration. Spanning diverse institutions and weaving together the perspectives of opponents, supporters, and targets of punitive policies, *Getting Tough* offers new interpretations of dramatic transformations in the modern American state.

Lawbreaking Ladies Feb 25 2023 Discover 50 fascinating tales of female pirates, fraudsters, gamblers, bootleggers, serial killers, madams, and outlaws in this illustrated book of lawbreaking and legendary women throughout the ages. Many of us are familiar with the popular slogan "Well-behaved women seldom make history." But that adage is taken to the next level in this book, which looks at women from the past who weren't afraid to break the law or challenge gender norms. From pirates to madams, gamblers to bootleggers, and serial killers to outlaws, women throughout the ages haven't always decided to be sugar, spice, and everything nice. In *Lawbreaking Ladies*, author Erika Owen tells the stories of 50 remarkable women whose rebellious and often criminal acts ought to solidify their place in history, including: - The swashbuckling pirate Ching Shih - "Queen of the Bootleggers" Gloria de Casares - The Prohibition-era gangster Stephanie Saint-Clair - And a band of prisoners who came to be known as the Goree Girls The perfect gift for true crime fans and lovers of little-known women's history, *Lawbreaking Ladies* serves as an engaging and informative guide to gals who were daring, defiant, and sometimes downright dangerous.

Pain Management and the Opioid Epidemic Mar 02 2021 Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the

U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

Stalin's Genocides Jun 24 2020 The chilling story of Stalin's crimes against humanity Between the early 1930s and his death in 1953, Joseph Stalin had more than a million of his own citizens executed. Millions more fell victim to forced labor, deportation, famine, bloody massacres, and detention and interrogation by Stalin's henchmen. Stalin's Genocides is the chilling story of these crimes. The book puts forward the important argument that brutal mass killings under Stalin in the 1930s were indeed acts of genocide and that the Soviet dictator himself was behind them. Norman Naimark, one of our most respected authorities on the Soviet era, challenges the widely held notion that Stalin's crimes do not constitute genocide, which the United Nations defines as the premeditated killing of a group of people because of their race, religion, or inherent national qualities. In this gripping book, Naimark explains how Stalin became a pitiless mass killer. He looks at the most consequential and harrowing episodes of Stalin's systematic destruction of his own populace—the liquidation and repression of the so-called kulaks, the Ukrainian famine, the purge of nationalities, and the Great Terror—and examines them in light of other genocides in history. In

addition, Naimark compares Stalin's crimes with those of the most notorious genocidal killer of them all, Adolf Hitler.

This volume combines the stories found in *The Wild Birds* (1985), *Fidelity* (1992), and *Watch with Me* (1994), together with a map and a charting of the complex and interlocking genealogies.

Worldmaking After Empire Aug 07 2021 Decolonization revolutionized the international order during the twentieth century. Yet standard histories that present the end of colonialism as an inevitable transition from a world of empires to one of nations—a world in which self-determination was synonymous with nation-building—obscure just how radical this change was. Drawing on the political thought of anticolonial intellectuals and statesmen such as Nnamdi Azikiwe, W.E.B Du Bois, George Padmore, Kwame Nkrumah, Eric Williams, Michael Manley, and Julius Nyerere, this important new account of decolonization reveals the full extent of their unprecedented ambition to remake not only nations but the world. Adom Getachew shows that African, African American, and Caribbean anticolonial nationalists were not solely or even primarily nation-builders. Responding to the experience of racialized sovereign inequality, dramatized by interwar Ethiopia and Liberia, Black Atlantic thinkers and politicians challenged international racial hierarchy and articulated alternative visions of worldmaking. Seeking to create an egalitarian postimperial world, they attempted to transcend legal, political, and economic hierarchies by securing a right to self-determination within the newly founded United Nations, constituting regional federations in Africa and the Caribbean, and creating the New International Economic Order. Using archival sources from Barbados, Trinidad, Ghana, Switzerland, and the United Kingdom, Worldmaking after Empire recasts the history of decolonization,

reconsiders the failure of anticolonial nationalism, and offers a new perspective on debates about today's international order.

Outlaw Tales of the Old West: Fifty True Stories of Desperados, Crooks, Criminals, and Bandits Jun 17 2022 This collection of fifty outlaw tales includes well-knowns such as Butch Cassidy and the Sundance Kid, Frank and Jesse James, Belle Starr (and her dad), and Pancho Villa, along with a fair smattering of women, organized crime bosses, smugglers, and of course the usual suspects: highwaymen, bank and train robbers, cattle rustlers, snake-oil salesmen, and horse thieves. Men like Henry Brown and Burt Alvord worked on both sides of the law either at different times of their lives or simultaneously. Clever shyster Soapy Smith and murderer Martin Couk survived by their wits, while the outlaw careers of the dimwitted DeAutremont brothers and bigmouthed Diamondfield Jack were severely limited by their intellect, or lack thereof. Nearly everyone in these pages was motivated by greed, revenge, or a lethal mixture of the two. The most bloodthirsty of the bunch, such as the heartless (and, some might argue, soulless) Annie Cook and trigger-happy Augustine Chacón, surely had evil written into their very DNA.

Liquidated Mar 14 2022 Financial collapses—whether of the junk bond market, the Internet bubble, or the highly leveraged housing market—are often explained as the inevitable result of market cycles: What goes up must come down. In *Liquidated*, Karen Ho punctures the aura of the abstract, all-powerful market to show how financial markets, and particularly booms and busts, are constructed. Through an in-depth investigation into the everyday experiences and ideologies of Wall Street investment bankers, Ho describes how a financially dominant but highly unstable market system is understood, justified, and produced through the restructuring of corporations and the larger economy. Ho, who worked at an investment bank herself, argues that bankers' approaches to financial markets and corporate America are inseparable from the structures and strategies of their workplaces. Her ethnographic analysis of those workplaces is filled with the voices of stressed first-year

associates, overworked and alienated analysts, undergraduates eager to be hired, and seasoned managing directors. Recruited from elite universities as "the best and the brightest," investment bankers are socialized into a world of high risk and high reward. They are paid handsomely, with the understanding that they may be let go at any time. Their workplace culture and networks of privilege create the perception that job insecurity builds character, and employee liquidity results in smart, efficient business. Based on this culture of liquidity and compensation practices tied to profligate deal-making, Wall Street investment bankers reshape corporate America in their own image. Their mission is the creation of shareholder value, but Ho demonstrates that their practices and assumptions often produce crises instead. By connecting the values and actions of investment bankers to the construction of markets and the restructuring of U.S. corporations, *Liquidated* reveals the particular culture of Wall Street often obscured by triumphalist readings of capitalist globalization.

The Other Wes Moore Dec 31 2020 NEW YORK TIMES BESTSELLER • From the governor-elect of Maryland, the "compassionate" (People), "startling" (Baltimore Sun), "moving" (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. Selected by Stephen Curry as his "Underrated" Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper.

After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

The Racial Contract May 24 2020 The Racial Contract puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. The Racial Contract argues that the society we live in is a continuing white supremacist state. As this 25th anniversary edition—featuring a foreword by Tommy Shelbie and a new preface by the author—makes clear, the still-urgent The Racial Contract continues to inspire, provoke, and influence thinking about the intersection of the racist underpinnings of political philosophy.

Pre-Incident Indicators of Terrorist Incidents Mar 22 2020 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents.
