**From Manual Workers to Wage Laborers Apr 27 2023** In this monumental book, sociologist Robert Castel reconstructs the history of what he calls "the social question," or the ways in which both labor and social welfare have been organized from the Middle Ages onward to contemporary industrial society. Throughout, the author identifies two constants bearing directly on the question of who is entitled to relief and who can be excluded: the degree of embeddedness in any given community and the ability to work. Along this dual axis the author locates virtually the entire history of social welfare in early-modern and contemporary Europe. This work is a systematic defense of the meaningfulness of the category of "the social," written in the tradition of Foucault, Durkheim, and Marx. Castel imaginatively builds on Durkheim's insight into the essentially social basis of work and welfare. Castel populates his sociological framework with vivid characterizations of the transient lives of the "disaffiliated": those colorful itinerants whose very existence proved such a threat to the social fabric of early-modern Europe. Not surprisingly, he discovers that the cruel and punitive measures often directed against these marginal figures are deeply implicated in the techniques and institutions of power and social control. The author also treats the flipside of the problem of social assistance: namely, matters of work and wage-labor. Castel brilliantly reveals how the seemingly objective line of demarcation between able-bodied beggars those who are capable of work but who chose not to do so and those who are truly disabled becomes stretched in modernity to make room for the category of the "working poor." It is the novel crisis posed by those masses of population who are unable to maintain themselves by their labor alone that most deeply challenges modern societies and forges recognizably modern policies of social assistance. The author's gloss on the social question also offers us valuable perspectives on contempo

**Metaphors and Action Schemes Apr 22 2020** All our abstract ideas are based on metaphors and action schemes. Jean Piaget did voluminous research on how thought develops in children through assimilation of action schemes. George Lakoff and Mark Johnson have done pioneering work on metaphors and action schemes in everyday thinking. This book builds on those foundations, looking at the role played by metaphors and action schemes in the history of ideas. The author begins his argument by taking a critical look at the philosophy of metaphor from Aristotle to the present. While he sees metaphor as simply conceiving one thing in terms of another, he points out that this is an inexhaustible process, because the context in which the process takes place is always changing. Change opens up new possibilities of similarity. Thus, the metaphor is an open door into a space of infinite possibilities.

**Words of the Champions 2021 Oct 09 2021** Does your child dream of winning a school spelling bee, or even competing in the Scripps National Spelling Bee in the Washington, D.C., area? You've found the perfect place to start. Words of the

Champions: Your Key to the Bee is the new official study resource from the Scripps National Spelling Bee. Help prepare your child for a 2020 or 2021 classroom, grade-level, school, regional, district or state spelling bee with this list of 4,000 spelling words. The School Spelling Bee Study List, featuring 450 words, is part of the total collection. All words in this guide may be found in our official dictionary, Merriam-Webster Unabridged (<http://unabridged.merriam-webster.com/>)

Outdoor Survival Guide Apr 15 2022 "You'll be a veritable Indiana Jones after reading this" Independent Traveller Get back to basics with this practical guide to mastering survival skills from the man who's done it all, Hugh McManners. Be ready for the great outdoors: find out the basics from what equipment to pack to how to stay warm and dry in the elements, to where you'll find water and food. Learn to survive in adverse conditions: easy-to-follow techniques from testing plants for poison to making your own compass to splinting a broken arm and surviving in a blizzard. All you need to answer the call of the wild with confidence. With updated text and illustrations, this is a practical guide to mastering outdoor skills and staying alive in challenging environments, the Outdoor Survival Guide enables everyone - expert and novice alike - to answer the call of the wild with confidence.

Contemporary Military Culture and Strategic Studies Mar 22 2020 This book explores and compares the contemporary military cultures of the United States and the United Kingdom. The last decade has witnessed astonishing global events, from 9/11 and military operations in Afghanistan in the same year, to the military intervention in Libya in 2011. Western military forces have been involved in all of these campaigns and have been engaged in continuous military operations for over ten years. It is therefore now apt to focus a spotlight on the military cultures of these state-based armed forces. This book examines how contemporary American and British military culture is formed, focusing explicitly on the six major military institutions. The author dedicates a chapter to each of these institutions with each one sharing a unifying analytical framework. These chapters explore the formation and sustenance of US/UK military culture under the rubric of common themes that include social origins, transformative events, leaders, approaches to war, technology and contemporary identity. To conclude, the book considers the impact of the War on Terror on the military cultures of the US and UK, as well as likely directions for the future. This book will be of much interest to students of military studies, strategic studies, security studies and comparative politics.

History and Community Mar 14 2022 Norman historians have never been systematically studied, but the tradition of historical writing they created offers valuable insight into the nature of Latin historical writing in the eleventh and twelfth centuries. This book, the first to treat the Norman tradition as a whole, considers not only what the Normans wrote and what methods and models they used, but also how history was used in Normandy and who read it. Historical writing is one of the ways in which communities create themselves or imagine themselves into being. In the eleventh century, Norman historians wrote Normandy's history as a comedic

adventure, in which Normans triumphed at home and abroad. In the twelfth century, their histories took a more pessimistic tone, depicting Norman glory as threatened or eclipsed. Such histories told the Normans who they were or might be by telling them who they had been. The need for cultural reenforcement was strongest just after periods of social disruption--when dukes claimed new powers or the elite attempted to assert their independence of ducal authority or monasteries attempted to preserve their religious autonomy. Consequently, histories were the product of power relations, and were produced where power was at stake. The histories sponsored by Norman dukes circulated widely, while other histories were locally read or languished without readers. There was, as yet, no spontaneous audience for history, just as there were no agreed-upon conventions or methodologies for its composition. The potential audience, however, grew in the later Middle Ages as great princes and individuals alike found ways to use history, which in turn led to its wider dissemination and to increased methodological development. Leah Shopkow presents an insightful study of the functions and meanings of history. She makes clear that historical writing is neither simply a source for data on times past nor a form of disinterested literary expression. Medieval histories were complex cultural phenomena. Her study will be of great interest to historiographers and will become a standard work for Normanists and Anglo-Normanists. Leah Shopkow is associate professor of history at Indiana University. "By focusing on Latin historical writing in the duchy of Normandy during the apogee of its power in the eleventh and twelfth centuries, Shopkow has managed to span part of the gap between the many broad theoretical treatments of medieval historiography and the narrow examinations of single authors or works."--Choice "Necessary reading for anyone working with the historians whom it analyzes and deserves a place on the shelf of recent, exciting dissections of the corpus of medieval works of history."--Albion "This impressive work casts fresh light on a topic of the first importance: the contemporary historians of medieval Normandy. Shopkow's scholarship stands out for its interdisciplinary grasp of both historical and literary materials and for its sensitivity to new methodological techniques."--C. Warren Hollister, University of California, Santa Barbara

Table of Contents Introduction: Historical Writing and the Norman Community 1. History in the County of Normandy 2. The Norman Comedy 3. The Glorious Norman Past 4. Truth 5. Methods, Models, and Sources 6. The Purpose of History 7. Patrons and Other Readers: The Reception of Norman Histories Conclusion: The Propagation of Historical Writing in Medieval Europe

Britain in the World Economy since 1880 Jan 12 2022 Bernard Alford reviews the changing role, and diminishing influence, of Britain within the international economy across the century that saw the apogee and loss of Britain's empire, and her transformation from globe-straddling superpower to off-shore and indecisive member of the European Community. He explores the relationship between empire and economy; looks at economic performance against economic policy; and compares Britain - through and beyond the Thatcher years - with her European

partners, America and Japan. In assessing whether Britain's economic decline has been absolute or merely relative, he also illuminates the broader history of the world economy itself.

Style Guide Sep 08 2021 This expanded twelfth edition of the bestselling guide to style is based on the Economist's own updated house style manual, and is an invaluable companion for everyone who wants to communicate with the clarity, style and precision for which the Economist is renowned. As the introduction says, 'clarity of writing usually follows clarity of thought.' The Economist Style Guide gives general advice on writing, points out common errors and clichés, offers guidance on consistent use of punctuation, abbreviations and capital letters, and contains an exhaustive range of reference material - covering everything from accountancy ratios and stock market indices to laws of nature and science. Some of the numerous useful rules and common mistakes pointed out in the guide include: \*Which informs, that defines. This is the house that Jack built. But: This house, which Jack built, is now falling down. Discreet means circumspect or prudent; discrete means separate or distinct. Remember that "Questions are never indiscreet. Answers sometimes are" (Oscar Wilde). Flaunt means display, flout means disdain. If you flout this distinction you will flaunt your ignorance Forgo means do without; forego means go before. Fortuitous means accidental, not fortunate or well-timed. Times: Take care. Three times more than X is four times as much as X. Full stops: Use plenty. They keep sentences short. This helps the reader.

Brands and Branding Jul 06 2021 With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company ' s brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of Brands and Branding provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, Brands and Branding sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

Manual de estimulación temprana Nov 22 2022

Lords of Things Sep 27 2020 Lords of Things offers a fascinating interpretation of modernity in late nineteenth and early twentieth century Siam by focusing on the novel material possessions and social practices adopted by the royal elite to refashion its self and public image in the early stages of globalization. It examines the westernized modes of consumption and self-presentation, the residential and representational architecture, and the public spectacles appropriated by the Bangkok court not as byproducts of institutional reformation initiated by modernizing sovereigns, but as practices and objects constitutive of the very identity of the royalty as a civilized and civilizing class. Bringing a wealth of new source material into a theoretically informed discussion, Lords of Things will be required reading for historians of Thailand and Southeast Asia scholars generally. It represents a welcome change from previous studies of Siamese modernization that are almost exclusively concerned with the institutional and economic dimensions of the process or with foreign relations, and will appeal greatly to those interested in transnational cultural flows, the culture of colonialism, the invention of tradition, and the relationship between consumption and identity formation in the modern era.

Culture and History in the Pacific Feb 01 2021 Culture and History in the Pacific is a collection of essays originally published in 1990. The texts explore from different perspectives the question of culture as a repository of historical information. They also address broader questions of anthropological writing at the time, such as the relationship between anthropologists' representations and local conceptions. This republication aims to make the book accessible to a wider audience, and in the region it discusses, Oceania. A new introductory essay has been included to contextualize the volume in relation to its historical setting, the end of the Cold War era, and to the present study of the Pacific and indigenous scholarship. The authors of Culture and History in the Pacific include prominent anthropologists of the Pacific, some of whom – Roger Keesing and Marilyn Strathern, to name but two – have also been influential in the anthropology of the late 20th and early 21st century in general.

The Complete Wilderness Training Manual Feb 25 2023 A practical guide to mastering outdoor skills and staying alive in challenging environments.

Official Manual, State of Missouri Jan 24 2023

Africans Jun 24 2020 An updated and comprehensive single-volume history covering all periods from human origins to contemporary African situations.

A History of Modern India, 1480-1950 Dec 19 2019 Praise for the hardback edition: 'an impressively scholarly and immensely detailed text... a welcome and strongly recommended contribution to World History and India History collections.' Library Bookwatch "Recommended" -- Choice A History of Modern India provides a comprehensive chronological analysis of India's vibrant and diverse history. As well as examining the evolution of the relationship between the society and the state in its various economic, social, cultural and political forms, A History of Modern India analyses the major empires in modern India from the Moghuls (1580-1739) to the Raj

(1818-1947), and discusses the economic, social and intellectual dynamism that accompanied intervening periods of political fragmentation. The book explores the difficulties confronting the rise of Indian nationalism and the consequent confrontation between religious communities: what should have been the crowning victory of a pacifist anti-colonial movement was instead brutally resolved with the violence of Partition in 1947.

Antifa Feb 13 2022 The National Bestseller “ Focused and persuasive... Bray ’ s book is many things: the first English-language transnational history of antifa, a how-to for would-be activists, and a record of advice from anti-Fascist organizers past and present. ” —THE NEW YORKER "Insurgent activist movements need spokesmen, intellectuals and apologists, and for the moment Mark Bray is filling in as all three... The book ’ s most enlightening contribution is on the history of anti-fascist efforts over the past century, but its most relevant for today is its justification for stifling speech and clobbering white supremacists." —Carlos Lozada, THE WASHINGTON POST “ [Bray ’ s] analysis is methodical, and clearly informed by both his historical training and 15 years of organizing, which included Occupy Wall Street...Antifa: The Anti-Fascist Handbook couldn ’ t have emerged at a more opportune time. Bray ’ s arguments are incisive and cohesive, and his consistent refusal to back down from principle makes the book a crucial intervention in our political moment. ” —SAN FRANCISCO CHRONICLE In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the "antifa" opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it come from? As long as there has been fascism, there has been anti-fascism — also known as “ antifa. ” Born out of resistance to Mussolini and Hitler in Europe during the 1920s and ’ 30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with balaclavas covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers, and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, "The anti-fascists saved our lives.") Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, Antifa details the tactics of the movement and the philosophy behind it, offering insight into the growing but little-understood resistance fighting back against fascism in all its guises.

A History of Argentina in the Twentieth Century Dec 31 2020 A History of Argentina in the Twentieth Century, originally published in Buenos Aires in 1994, attained instant status as a classic. Written as an introductory text for university students and the general public, it is a profound reflection on the “ Argentine dilemma ” and the challenges that the country faces as it tries to rebuild democracy. Luis Alberto Romero brilliantly and painstakingly reconstructs and analyzes Argentina ’ s tortuous, often tragic modern history, from the “ alluvial society ” born of mass immigration, to the dramatic years of Juan and Eva Perón, to the recent period of military dictatorship. For this second English-language edition, Romero has written new chapters covering the Kirchner decade (2003–13), the upheavals surrounding the country ’ s 2001 default on its foreign debt, and the tumultuous years that followed as Argentina sought to reestablish a role in the global economy while securing democratic governance and social peace.

Games People Played Nov 10 2021 This first global history of sports offers all spectators and participants reason to cheer—and to think. Games People Played is, surprisingly, the first global history of sports. The book shows how sports have been practiced, experienced, and made meaningful by players and fans throughout history. It assesses how sports developed and diffused across the globe, as well as many other aspects, from emotion, discrimination, and conviviality; politics, nationalism, and protest; and how economics has turned sports into a huge consumer industry. It shows how sports are sociable and health-giving, and also contribute to charity. However, it also examines their dark side: sports ’ impact on the environment, the use of performance-enhancing drugs, and match-fixing. Covering everything from curling to baseball, boxing to motor racing, this book will appeal to anyone who plays, watches, and enjoys sports, and wants to know more of their history and global impact.

The Cambridge Guide to the Worlds of Shakespeare May 24 2020 This transhistorical, international and interdisciplinary work will be of interest to students, theater professionals and Shakespeare scholars.

Stereophile May 16 2022

Turkey Mar 02 2021 This volume aims to shed light on Turkish political issues. The discussions range over national and international politics, democracy and freedom of the press, voting patterns, official control of indigenous music, and conditions in industrial estates.

Sitting in Darkness Nov 29 2020 Sitting in Darkness explores how fiction of the Reconstruction and the New South intervenes in debates over black schools, citizen-building, Jim Crow discrimination, and U.S. foreign policy towards its territories and dependencies. The author urges a reexamination not only of the contents and formal innovations of New South literature but also its importance in U.S. literary history. Many rarely studied fiction authors (such as Ellwood Griest, Ellen Ingraham, George Marion McClellan, and Walter Hines Page) receive generous attention here, and well-known figures such as Albion Tourgee, Frances E. W. Harper, Sutton Griggs, George

Washington Cable, Mark Twain, Thomas Dixon, Owen Wister, and W. E. B. Du Bois are illuminated in significant new ways. The book's readings seek to synthesize developments in literary and cultural studies, ranging through New Criticism, New Historicism, postcolonial studies, black studies, and "whiteness" studies. This volume posits and answers significant questions. In what ways did the "uplift" projects of Reconstruction-their ideals and their contradictions-affect U.S. colonial policies in the new territories after 1898? How can fiction that treated these historical changes help us understand them? What relevance does this period have for us in the present, during a moment of great literary innovation and strong debate over how well the most powerful country in the world uses its resources?

Track and Field Coaching Manual Jul 18 2022 A compilation of the latest techniques and up-to-date coaching principles to help athletes at every level improve their track and field performances. This manual details effective training programs for track and field events. Over 200 illustrations will enhance your athletes' knowledge of proper form and mechanics. Knowledge of the Pragmatici Apr 03 2021 Knowledge of the pragmatici analyses pragmatic normative literature in colonial Ibero-America. It explores the circulation and the functions of these media in the Iberian peninsula, New Spain, Peru, New Granada and Brazil.

Peace Through Peace Media? Jun 05 2021 How does the media contribute to peacebuilding and reconciliation in a post-conflict environment? This dissertation examines the question with respect to the media's involvement during the UN and NATO mission in Kosovo (UNMIK and KFOR), from 1999 to 2008. The theoretical part of the book deals with existing approaches to peace journalism, effective organizational communication, and media effects theories. In the empirical part, the evaluation first focuses on the content of the media produced by UNMIK and KFOR in Kosovo, followed by the assessment of media production processes in both missions. The book also explores the impact of UNMIK's and KFOR's media within the local Kosovar population. It argues that "peace media" can have a positive impact in a post-conflict environment, provided that it features de-escalation oriented content and is framed according to the preferences and attitudes of target audiences. Dissertation. (Series: Schriftenreihe der Stipendiatinnen und Stipendiaten der Friedrich-Ebert-Stiftung - Vol. 43)

Labor Relations Reference Manual Mar 26 2023 Vols. 9-17 include decisions of the War Labor Board.

Salsa Dancing into the Social Sciences Aug 27 2020 " You might think that dancing doesn ' t have a lot to do with social research, and doing social research is probably why you picked this book up in the first place. But trust me. Salsa dancing is a practice as well as a metaphor for a kind of research that will make your life easier and

better. ” Savvy, witty, and sensible, this unique book is both a handbook for defining and completing a research project, and an astute introduction to the neglected history and changeable philosophy of modern social science. In this volume, Kristin Luker guides novice researchers in: knowing the difference between an area of interest and a research topic; defining the relevant parts of a potentially infinite research literature; mastering sampling, operationalization, and generalization; understanding which research methods best answer your questions; beating writer ’ s block. Most important, she shows how friendships, non-academic interests, and even salsa dancing can make for a better researcher. “ You know about setting the kitchen timer and writing for only an hour, or only 15 minutes if you are feeling particularly anxious. I wrote a fairly large part of this book feeling exactly like that. If I can write an entire book 15 minutes at a time, so can you. ”

**The Complete Wilderness Training Book** Sep 20 2022 Whether you are an avid outdoors person or would simply like some survival knowledge just in case you need it, *The Complete Wilderness Training Book* teaches you all the skills necessary for living off the land -- even in the most adverse conditions. Illustrated with more than 950 color photographs and illustrations, including many step-by-step sequences, *The Complete Wilderness Training Book* offers an unparalleled understanding of the outdoors. It contains hundreds of specific techniques for staying warm and dry, obtaining food and water, traveling and getting help, including making a foliage bed, testing plants for poison, making a compass, splinting a broken arm, and surviving a blizzard. During his 16 years in the British Army, Hugh McManners served as a paratrooper and combat-survival instructor. Here he shares with you the knowledge that has meant the difference between life and death for him on a number of occasions.

**Basic Methods of Policy Analysis and Planning** -- Pearson eText Aug 07 2021 Updated in its 3rd edition, *Basic Methods of Policy Analysis and Planning* presents quickly applied methods for analyzing and resolving planning and policy issues at state, regional, and urban levels. Divided into two parts, *Methods* which presents quick methods in nine chapters and is organized around the steps in the policy analysis process, and *Cases* which presents seven policy cases, ranging in degree of complexity, the text provides readers with the resources they need for effective policy planning and analysis. Quantitative and qualitative methods are systematically combined to address policy dilemmas and urban planning problems. Readers and analysts utilizing this text gain comprehensive skills and background needed to impact public policy.

**The Johns Hopkins Guide to Literary Theory and Criticism** Jun 17 2022 Publisher Description

**Moody's OTC Industrial Manual** Dec 23 2022 Companies traded over the counter or on regional conferences.

**Elite and Everyman** Oct 21 2022 This book examines the middle classes — who they are and what they do — and their influence in shaping contemporary cultural politics

in India. Describing the historical emergence of these classes, from the colonial period to contemporary times, it shows how the middle classes have changed, with older groups shifting out and new entrants taking place, thereby transforming the character and meanings of the category. The essays in this volume observe multiple sites of social action (workplaces and homes, schools and streets, cinema and sex surveys, temples and tourist hotels) to delineate the lives of the middle classes and show how middle-class definitions and desires articulate hegemonic notions of the normal and the normative.

The New York Times Manual of Style and Usage, 5th Edition Aug 19 2022 The premier source for journalists, now revised and updated for 2015. Does the White House tweet? Or does the White House post on Twitter? Can "text" be a verb and also a noun? When should you link? For anyone who writes--short stories or business plans, book reports or news articles--knotty choices of spelling, grammar, punctuation and meaning lurk in every line: Lay or lie? Who or whom? That or which? Is Band-Aid still a trademark? It's enough to send you in search of a Martini. (Or is that a martini?) Now everyone can find answers to these and thousands of other questions in the handy alphabetical guide used by the writers and editors of the world's most authoritative news organization. The guidelines to hyphenation, punctuation, capitalization and spelling are crisp and compact, created for instant reference in the rush of daily deadlines. The 2015 edition is a revised and condensed version of the classic guide, updated with solutions to problems that plague writers in the Internet age: · How to cite links and blogs · How to handle tweets, hashtags and other social-media content · How to use current terms like " transgender, " or to choose thoughtfully between "same-sex marriage" and "gay marriage" With wry wit, the authors have created an essential and entertaining reference tool.

The American Printer Dec 11 2021 Reprint of the original, first published in 1871.

The Dictator's Handbook Jan 20 2020 Ever wonder if the world's tyrants are all using the same instruction manual? They are: here it is. From getting to power to dividing your enemies, suppressing revolution, stealing elections, and making your fortune, this 320 page volume shows you how the pros have been doing it for centuries. Fully factual, with a complete bibliography and footnotes, the Dictator's Handbook gives you a road map to tyranny, step by step. Beautifully illustrated by a professional artist, the text is funny and deadly serious. This is truly a practical manual for the aspiring tyrant.

Essential Words for the GRE Jul 26 2020 An extensive working vocabulary is a prerequisite for test-taking success on the GRE Graduate Record Exam. This revised and updated test preparation guide presents 800 college-graduate-level words with definitions that frequently appear on the exam, while also familiarizing test takers with how the words are generally used in various contexts. Additional features include a pretest that serves as a diagnostic, a lengthy word list with extensive sentence-completion exercises, and a chapter that discusses and analyzes essential word roots. The book concludes with a detailed posttest. Answers are provided for all

exercises and for all questions in the posttest.

Department of Defense Dictionary of Military and Associated Terms May 04 2021  
Information Feb 19 2020 "Information technology shapes nearly every part of modern life, and debates about information--its meaning, effects, and applications--are central to a range of fields, from economics, technology, and politics to library science, media studies, and cultural studies. This rich, unique resource traces the history of information with an approach designed to draw connections across fields and perspectives, and provide essential context for our current age of information. Clear, accessible, and authoritative, the book opens with a series of articles that provide a narrative history of information from premodern practices to twenty-first-century information culture. This section focuses on major developments in the creation, storage, search, exchange, management, and manipulation of information, as well as the many meanings and uses of information over time. Coverage spans Europe, North America, and many other places and periods, including the medieval Islamic world and early modern East Asia, as well as the emergence of global networks. A second, alphabetical section includes more than 100 concise articles that cover specific concepts (e.g., data, intellectual property, privacy); formats and genres (books, databases, maps, newspapers, scrolls, social media); people (archivists, diplomats and spies, readers, secretaries, teachers); practices (censorship, forecasting, learning, surveilling, translating); processes (digitization, quantification, storage and search); systems (bureaucracy, platforms, telecommunications); technologies (algorithms, cameras, computers), and much more. The book concludes with an informative glossary, defining terms from "analog/digital" to "World Wide Web." "--
