Ben Horowitz, a leading venture capitalist, modern management expert, and New York Times bestselling author, combines lessons both from history and from modern organizational practice with practical and often surprising advice to help executives build cultures that can weather both good and bad times. Ben Horowitz has long been fascinated by history, and particularly by how people behave differently than you'd expect. The time and circumstances in which they were raised often shapes them—yet a few leaders have managed to shape their times. In What You Do Is Who You Are, he turns his attention to a question crucial to every organization: how do you create and sustain the culture you want? To Horowitz, culture is how a company makes decisions. It is the set of assumptions employees use to resolve everyday problems: should I stay at the Red Roof Inn, or the Four Seasons? Should we discuss the color of this product for five minutes or thirty hours? If culture is not purposeful, it will be an accident or a mistake. What You Do Is Who You Are explains how to make your culture purposeful by spotlighting four models of leadership and culture-building—the leader of the only successful slave revolt, Haiti's Toussaint Louverture; the Samurai, who ruled Japan for seven hundred years and shaped modern Japanese culture; Genghis

*Khan, who built the world's largest empire; and Shaka Senghor, a man convicted of murder who ran the most formidable prison gang in the yard and ultimately transformed prison culture. Horowitz connects these leadership examples to modern case-studies, including how Louverture's cultural techniques were applied (or should have been) by Reed Hastings at Netflix, Travis Kalanick at Uber, and Hillary Clinton, and how Genghis Khan's vision of cultural inclusiveness has parallels in the work of Don Thompson, the first African-American CEO of McDonalds, and of Maggie Wilderotter, the CEO who led Frontier Communications. Horowitz then offers guidance to help any company understand its own strategy and build a successful culture. What You Do Is Who You Are is a journey through culture, from ancient to modern. Along the way, it answers a question fundamental to any organization: who are we? How do people talk about us when we're not around? How do we treat our customers? Are we there for people in a pinch? Can we be trusted? Who you are is not the values you list on the wall. It's not what you say in company-wide meeting. It's not your marketing campaign. It's not even what you believe. Who you are is what you do. This book aims to help you do the things you need to become the kind of leader you want to be—and others want to follow. Laurie Beth Jones proves you don't have to be a mystic to possess visionary powers. The capacity to offer and receive prophecy exists in all of us, right now. Prophecy can come from anywhere. Even when couched in negative terms, prophecy can have a provocative and healing effect, spurring us on to accomplish things out of determination to prove others wrong. Showing us the force inherent in our words, Jones reveals that merely by naming something, we can call it forth. Anyone can access this power, but she encourages readers to use prophecy responsibly. From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant *Wall Street Journal* and *USA Today* Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus*

Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well. August Turak is a successful entrepreneur, corporate executive, and award-winning author who attributes much of his success to living and working alongside the Trappist monks of Mepkin Abbey for seventeen years. As a frequent monastic guest, he learned firsthand from the monks as they grew an incredibly successful portfolio of businesses. Service and selflessness are at the heart of the 1,500-year-old monastic tradition's remarkable business success. It is an ancient though immensely relevant economic model that preserves what is positive and productive about capitalism while transcending its ethical limitations and internal contradictions. Combining vivid case studies from his thirty-year business career with intimate portraits of the monks at work, Turak shows how Trappist principles can be successfully applied to a variety of secular business settings and to our personal lives as well. He demonstrates that monks and people like Warren Buffett are wildly successful not despite their high principles but because of them. Turak also introduces other "transformational organizations" that share the crucial monastic business strategies so critical for success. In a clever melding of modern business sense and ancient wisdom, Noonan has used the animal-based stories of Aesop as springboards to launch 50 essential business lessons. (Practical Life) Now in paperback, this national bestseller provides the key to visionary leadership by drawing on the lessons of the greatest leader of all. Following the example of Jesus, Laurie Beth Jones details a simple, profound, and often humorous approach to inspiring, motivating, and managing others. Copyright © Libri GmbH. All rights reserved. Corporate CEOs are headline news. Stock prices rise and fall at word of their hiring and firing. Business media debate their merits and defects as if individual leaders determined the health of the economy. Yet we know surprisingly little about how CEOs are selected and dismissed or about their true power. This is the first book to take us into the often secretive world of the CEO selection process. Rakesh Khurana's findings are surprising and

disturbing. In recent years, he shows, corporations have increasingly sought CEOs who are above all else charismatic, whose fame and force of personality impress analysts and the business media, but whose experience and abilities are not necessarily right for companies' specific needs. The labor market for CEOs, Khurana concludes, is far less rational than we might think. Khurana's findings are based on a study of the hiring and firing of CEOs at over 850 of America's largest companies and on extensive interviews with CEOs, corporate board members, and consultants at executive search firms. Written with exceptional clarity and verve, the book explains the basic mechanics of the selection process and how hiring priorities have changed with the rise of shareholder activism. Khurana argues that the market for CEOs, which we often assume runs on cool calculation and the impersonal forces of supply and demand, is culturally determined and too frequently inefficient. Its emphasis on charisma artificially limits the number of candidates considered, giving them extraordinary leverage to demand high salaries and power. It also raises expectations and increases the chance that a CEO will be fired for failing to meet shareholders' hopes. The result is corporate instability and too little attention to long-term strategy. The book is a major contribution to our understanding of corporate culture and the nature of markets and leadership in general. Written to help readers get, find, and keep the work they love, *JESUS, Career Counselor* weaves together practical self-help concepts, intriguing stories, relevant statistics, and Bible scriptures. Divided into four sections centered on the four natural giftings or personalities of people, this book explores twelve dreams that God has for each individual--including rise, risk, roar, renew, regenerate, rejoice, relate, and more. It then instructs readers in how to realize each one of these dreams, no matter their natural inclination. As individual personalities of Fire, Earth, Water, and Wind are explored, the book explains how the Fire of excitement translates to Leadership Skills, how the Earth of grounding translates into Good Habits and Character Development, how the Water of life-giving becomes Relationship Skills, and how the Wind of release becomes the Creativity and Innovation, which are in high demand in every industry in the world today. Readers will learn how to discover their four greatest talents and create their personal Talent Shield, which will help them choose a meaningful career based on their Life's Mission Statement. Each chapter serves as a free-

standing career guidepost, and includes Career Exercises, pertinent Word Definitions, Career Choices for individual gifting, Self-Quizzes, and Reader Study Guides. Since 2015 the BBC has been asking CEOs and founders a simple question: 'What's the advice you wish you had when you started out?' This book is the culmination of their insights, expertise, and secrets to success. It's wisdom that can help anyone, from budding entrepreneurs to career climbers. Drawing on original interviews from the CEO Secrets series, conducted by Dougal Shaw, this book covers a range of sectors, from tech and economics to fashion and hospitality. It contains unparalleled insights on overcoming the many challenges facing entrepreneurs, providing guidance and motivation from both leaders of well-known international firms, like Airbnb, LinkedIn, Tinder, and Mumsnet, as well as smaller start-ups breaking through. If you've ever dreamed of starting your own company, or perhaps already run a business but want to become a better leader, then this is the book for you. An introduction to the secret teachings and ancient traditions of the Incas, covering initiation, tool gathering, shamanic work, the drawing of natural energies, and more. "The more I read the Bible, the more evident it becomes that everything I have ever taught or written about effective leadership over the past 25 years, Jesus did to perfection. He is simply the greatest leadership role model of all time." Effective leadership—whether on the job, in the community, at church, or in the home—starts on the inside. In this revised classic, renowned leadership expert Ken Blanchard guides you through the process of discovering how to lead like Jesus. Before you can hope to lead anyone else, you must know who you are. Every leader must answer two critical questions. One deals with your relationship to Christ. The other with your life purpose. Whose are you going to be? Who are you going to be? Learning to lead like Jesus can be described as the process of aligning two internal domains (the heart and the head) and two external domains (the hands and the habits). These four dimensions of leadership form the outline for this very practical and transformational book, from which you will learn how to: Integrate your faith with your role and responsibility as a leader Identify your priorities Build your relationship with God in a new and personal way Move from success to significance Lead out of service rather than self-interest Put the love of Jesus into action With simple yet profound principles from the life of Jesus, and dozens of stories and leadership examples from his own

life, Ken Blanchard once again shows us the way effective leaders lead. The Godmother of Silicon Valley, legendary teacher, and mother of a Super Family shares her tried-and-tested methods for raising happy, healthy, successful children using Trust, Respect, Independence, Collaboration, and Kindness: TRICK. Esther Wojcicki--"Woj" to her many friends and admirers--is famous for three things: teaching a high school class that has changed the lives of thousands of kids, inspiring Silicon Valley legends like Steve Jobs, and raising three daughters who have each become famously successful. What do these three accomplishments have in common? They're the result of TRICK, Woj's secret to raising successful people: Trust, Respect, Independence, Collaboration, and Kindness. Simple lessons, but the results are radical. Wojcicki's methods are the opposite of helicopter parenting. As we face an epidemic of parental anxiety, Woj is here to say: relax. Talk to infants as if they are adults. Allow teenagers to pick projects that relate to the real world and their own passions, and let them figure out how to complete them. Above all, let your child lead. *How to Raise Successful People* offers essential lessons for raising, educating, and managing people to their highest potential. Change your parenting, change the world. #1 Wall Street Journal Bestseller and a USA Today Bestseller Combine ancient Eastern and modern Western wisdom, mix in proven techniques from both a CEO and a legendary soul healer, and you get *Soul Over Matter*. Based on an extraordinary collaboration between Steve Forbes, chairman, CEO, and editor in chief of *Forbes Media*, and classics professor John Prevas, *Power Ambition Glory* provides intriguing comparisons between six great leaders of the ancient world and contemporary business leaders.

- Great leaders not only have vision but know how to build structures to effect it. Cyrus the Great did so in creating an empire based on tolerance and inclusion, an approach highly unusual for his or any age. Jack Welch and John Chambers built their business empires using a similar approach, and like Cyrus, they remain the exceptions rather than the rule.
- Great leaders know how to build consensus and motivate by doing what is right rather than what is in their self-interest. Xenophon put personal gain aside to lead his fellow Greeks out of a perilous situation in Persia—something very similar to what Lou Gerstner and Anne Mulcahy did in rescuing IBM and Xerox.
- Character matters in leadership. Alexander the Great had exceptional leadership skills that enabled him to conquer the eastern half of the ancient world, but he was ultimately destroyed by his inability to manage his phenomenal success. The corporate world is full of similar examples, such as the now incarcerated Dennis Kozlowski, who, flush with success at the head of his empire, was driven down the highway of self-destruction by an out-of-control ego.
- A great leader is one who challenges the conventional wisdom of the day and is able to think out of the box to pull off amazing feats. Hannibal did something no one in the ancient world thought possible; he crossed the Alps in winter to challenge Rome for control of the ancient world. That same innovative way of thinking enabled Serge Brin and Larry Page of Google to challenge and best two formidable competitors, Microsoft and Yahoo!
- A leader must have

ambition to succeed, and Julius Caesar had plenty of it. He set Rome on the path to empire, but his success made him believe he was a living god and blinded him to the dangers that eventually did him in. The parallels with corporate leaders and Wall Street master-of-the-universe types are numerous, but none more salient than Hank Greenberg, who built the AIG insurance empire only to be struck down at the height of his success by the corporate daggers of his directors. • And finally, leadership is about keeping a sane and modest perspective in the face of success and remaining focused on the fundamentals—the nuts and bolts of making an organization work day in and day out. Augustus saved Rome from dissolution after the assassination of Julius Caesar and ruled it for more than forty years, bringing the empire to the height of its power. What made him successful were personal humility, attention to the mundane details of building and maintaining an infrastructure, and the understanding of limits. Augustus set Rome on a course of prosperity and stability that lasted for centuries, just as Alfred Sloan, using many of the same approaches, built GM into the leviathan that until recently dominated the automotive business. “Leaders have a chance, here and now, to create something better than before. We need, like Jesus, to guard our energy. We need to aim for what is noble, not just profitable. We need to become turn-around specialists, seeking better ways of doing things. We need to break ranks and be bold. We need leaders who recognize that we are all connected in a chain of interdependence.”

WALL STREET JOURNAL BESTSELLER From Michael Dell,

renowned founder and chief executive of one of America's largest technology companies, the inside story of the battles that defined him as a leader. In 1984, soon-to-be college dropout Michael Dell hid signs of his fledgling PC business in the bathroom of his University of Texas dorm room. Almost 30 years later, at the pinnacle of his success as founder and leader of Dell Technologies, he found himself embroiled in a battle for his company's survival. What he'd do next could ensure its legacy—or destroy it completely. *Play Nice But Win* is a riveting account of the three battles waged for Dell Technologies: one to launch it, one to keep it, and one to transform it. For the first time, Dell reveals the highs and lows of the company's evolution amidst a rapidly changing industry—and his own, as he matured into the CEO it needed. With humor and humility, he recalls the mentors who showed him how to turn his passion into a business; the competitors who became friends, foes, or both; and the sharks that circled, looking for weakness. What emerges is the long-term vision underpinning his success: that technology is ultimately about people and their potential. More than an honest portrait of a leader at a crossroads, *Play Nice But Win* is a survival story proving that while anyone with technological insight and entrepreneurial zeal might build something great—it takes a leader to build something that lasts. Many business leaders love their work and their company, but don't know what else to do to get their employees to love it, too. China has become the powerhouse of the world economy, its incredible boom overseen by the elite members of the secretive and all-powerful communist party. But since the election of Xi Jinping as General Secretary, life at the top in China has changed. Under the guise of a corruption crackdown, which has seen his rivals imprisoned,

Xi Jinping has been quietly building one of the most powerful leaderships modern China has ever seen. In CEO China, the noted China expert Kerry Brown reveals the hidden story of the rise of the man dubbed the 'Chinese Godfather'. Brown investigates his relationship with his revolutionary father, who was expelled by Mao during the Cultural Revolution, his business dealings and allegiances in China's regional power struggles and his role in the internal battle raging between the old men of the Deng era and the new super-rich 'princelings'. Xi Jinping's China is powerful, aggressive and single-minded and this book will become a must-read for the Western world. For the millions of Americans who want spirituality without religion, Sam Harris's latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, Waking Up is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in the experiences of such figures as Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. Waking Up is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it. Chief Executive Officers (CEOs) have become the cultural icons of the 21st century. Figures like Steve Jobs and Mark Zuckerberg are held up as role models who epitomise the modern pursuit of innovation, wealth and success. We now live, Bloom and Rhodes argue, in a 'CEO society' – a society where corporate leadership has become the model for transforming not just business, but all spheres of life, where everyone from politicians to jobseekers to even those seeking love are expected to imitate the qualities of the lionized corporate executive. But why, in the wake of the failings exposed by the 2008 financial crisis, does the corporate ideal continue to exert such a grip on popular attitudes? In this insightful new book, Bloom and Rhodes examine the rise of the CEO society, and how it has started to transform governments, culture and the economy. This influence, they argue, holds troubling implications for the

future of democracy - as evidenced by the disturbing political rise of Donald Trump in the US - and for our society as a whole. Experience is making a comeback. Learn how to repurpose your wisdom. At age 52, after selling the company he founded and ran as CEO for 24 years, rebel boutique hotelier Chip Conley was looking at an open horizon in midlife. Then he received a call from the young founders of Airbnb, asking him to help grow their disruptive start-up into a global hospitality giant. He had the industry experience, but Conley was lacking in the digital fluency of his 20-something colleagues. He didn't write code, or have an Uber or Lyft app on his phone, was twice the age of the average Airbnb employee, and would be reporting to a CEO young enough to be his son. Conley quickly discovered that while he'd been hired as a teacher and mentor, he was also in many ways a student and intern. What emerged is the secret to thriving as a mid-life worker: learning to marry wisdom and experience with curiosity, a beginner's mind, and a willingness to evolve, all hallmarks of the "Modern Elder." In a world that venerates the new, bright, and shiny, many of us are left feeling invisible, undervalued, and threatened by the "digital natives" nipping at our heels. But Conley argues that experience is on the brink of a comeback. Because at a time when power is shifting younger, companies are finally waking up to the

value of the humility, emotional intelligence, and wisdom that come with age. And while digital skills might have only the shelf life of the latest fad or gadget, the human skills that mid-career workers possess--like good judgment, specialized knowledge, and the ability to collaborate and coach - never expire. Part manifesto and part playbook, *Wisdom@Work* ignites an urgent conversation about ageism in the workplace, calling on us to treat age as we would other type of diversity. In the process, Conley liberates the term "elder" from the stigma of "elderly," and inspires us to embrace wisdom as a path to growing whole, not old. Whether you've been forced to make a mid-career change, are choosing to work past retirement age, or are struggling to keep up with the millennials rising up the ranks, *Wisdom@Work* will help you write your next chapter. What happened to the ancient Egyptians? The Persians? The Romans? The Mayans? ARE WE THEIR DESCENDANTS? Recent genetic discoveries are uncovering surprising links between us and the peoples of old—links that rewrite race, ethnicity, and human history. Today's Native Americans descend from Central Asians who arrived in the early A.D. era. Abraham, Isaac,

and Jacob still have clearly identifiable descendants, albeit rare ones. Every people group on earth can genetically trace their origins to Noah and his three sons. Laurie Beth Jones has given hundreds of thousands of business readers insight into how the ideas of Jesus can be used to enhance performance. One of the most critical work areas for anyone, whether a manager or a CEO, a teacher or a pastor, is cooperative teamwork. Leaders today face their greatest challenges not only in defining strategies and getting updated information but also in getting diverse human beings to pull together without falling apart. Jesus can be a role model for team leaders everywhere. When Jesus called out to his future disciples, "Follow me, and I will make you fishers of men," he transformed them from people who worked for themselves to people who were part of a larger team. Jesus was constantly exhorting his people to "gather in my name" and "go out two by two" and always think and pray "as one." Jesus' final prayer was "that they might be one, Father, even as you and I are one," which is ultimately about union and communion, common values and purpose—all of which form the bedrock of an inspired team. *Teach Your Team to Fish* offers dozens of stories from the Bible showing how Jesus managed his team of disciples and other followers, with suggestions for how to apply these lessons to real-world teambuilding and management problems. It offers guidance and inspiration on: * how to excite your team in order to motivate them; * how to ground them so they'll be realistic about what can be achieved; * how to transform them into a truly well-functioning team; * and how to release them into the world to improve other teams elsewhere. Along the way, the book gives examples of companies in which teams work well together and offers lessons that can help team leaders everywhere sustain themselves and achieve their common goals.
