Jeannie's dad has moved out, her mom is always tired and snappish, and her older brother just wants to play video games in his room all day. Jeannie doesn't understand what's going on, but she knows one thing: she really, REALLY wants a hamster. Her mom promised she could buy one with her Christmas money, but it's been WEEKS since the holidays and Jeannie's beginning to worry she'll never get her pet. But maybe if she does, her dad will come to visit. Maybe a hamster will make everything better. Narrated by Jeannie and Sapphire in alternating chapters, *Sapphire the Great and the Meaning of Life* is a touching middle-grade novel by award-winning author Beverley Brenna that explores themes of family, friendship, togetherness, and self-identity. Revolution from Within Mar 14 2022 Newly updated: The bestseller "that could bring the human race a little closer to rescuing itself" from the subject of the film *The Two Glorias* (Naomi Wolf). Without self-esteem, the only change is an exchange of masters; with it, there is no need for masters. When trying to find books to give to "the countless brave and smart women I met who didn't think of themselves as either brave or smart," Steinem realized that books either supposed that external political change would cure everything or that internal change would. None linked internal and external change together in a seamless circle of cause and effect, effect and cause. She undertook to write this book, and ended up transforming her life, as well as the lives of others. The result of her reflections is this truly transformative book: part personal collection of stories from her own life and the lives of many others, part revolutionary guide to finding community and inspiration. Steinem finds role models in a very young and uncertain Gandhi as well as unlikely heroes from the streets to history. *Revolution from Within* addresses the core issues of self-authority and unjust external authority and argues that the first is necessary to transform the second. This edition features an illustrated biography of Gloria Steinem including rare images from the author's personal collection, as well as a new preface and list of book recommendations from Steinem.

During a fishing expedition with his two best friends and new favorite doggy companion golden retriever Joe, he's convinced that he glimpsed some kind of sw creature. All Scab needs to do is get permission to go back out on Beeson's Lake with another fishing rod (and some special handcrafted dinosaur-spying inventions, of course!) and he'll be able to find proof. Before she'll let him back out on the water, Scab's mom insists that he pass the swimming class he's being forced to take with his "smart time" twin sister Isabelle. That means Scab has to master swimming in the super deep end of the pool, and Scab is NOT ready for that! So, it's back to his top secret lab to diagram some special schemes and plans for the occasion. Will any of them go awry? Well, it wouldn't be any fun if they didn't, would it?

**Apr 03 2021** Jeska doesn't know why her mother keeps the curtains drawn so tightly every day. And what exactly is she trying to drown out when she floods the house with Mozart? What are they hiding from? When Jeska's grandmother accidentally calls her by a stranger's name, she seizes her first clue to uncovering her family's past and hopefully to all that's gone unsaid. With the help of an old family photo album, her father's encyclopedia collection, and the unquestioning friendship of a stray cat, the silence begins to melt into frightening clarity: Jeska's family survived a terror that they've worked hard to keep secret all her life. And somehow, it has both nothing and everything to do with her, all at once. A true story of navigating generational trauma as a child, *I'll Keep You Close* is about what comes after disaster: how survivors move forward, what they bring with them when they do, and the promise of beginning again while always keeping the past close.

They Jun 05 2021 A dark, dystopian portrait of artists struggling to resist violent suppression—"queer, English, a masterpiece." (Hilton Als) Set amid the rolling hills and the sandy shingle beaches of coastal Sussex, this disquieting novel depicts an England in which bland conformity is the terrifying order of the day. Violent gangs roam the country destroying art and culture and brutalizing those who resist the purge. As the menacing "They" creep ever closer, a loosely connected band of dissidents attempt to evade the chilling mobs, but it's only a matter of time until their luck runs out. Winner of the 1977 South-East Arts Literature Prize, Kay Dick's *They* is an uncanny and prescient vision of a world hostile to beauty, emotion, and the individual.

*Travels with My Family* Jun 24 2020 Marie-Louise Gay and David Homel combine their writing and illustrating talents with their own family memories to produce a very unique travelogue. Family vacations are supposed to be something to look forward to. Unless, that is, your parents have a habit of turning every outing into a risky proposition -- an accident, of course. So instead of dream vacations to Disney World and motels with swimming pools, these parents are always looking for that off-the-way destination where other tourists don't go. Their adventures involve eating grasshoppers in Mexico, forgetting the tide schedule while collecting sand dollars off the coast of Georgia, and mistaking alligator for logs in the middle of Okefenokee Swamp. *Travels with My Family* is told from the point of view of a long-suffering big brother who must take many roles in this eccentric family: keep little brother out of trouble, humor artist Mom, and discourage Dad from pulling out the road map search for yet another off-the-beaten-track destination. Husband-and-wife team Marie-Louise Gay and David Homel and have combined their prodigious writing and illustrating talents with their own family memories to produce a very different travelogue. The Mosquito Brothers Oct 09 2021 Accompanied by quirky line drawings by Spanish illustrator Erica Salcedo, this is a gently humorous and remarkably informative nature-adventure story about an unlikely pointy-nosed hero with big dreams and an even bigger heart. After he nearly drowns in a parking-lot puddle, Dinnn Needles is fearful of many things, including flying. When his four hundred siblings swarm off without him, he finds time to dream —about family stories, a lost brother adventure in The Wild and, above all, how to be cool. At school in an abandoned air-conditioner, Dinnn learns about the deadly Pondhawk dragonfly and other dangers that lie beyond his home under a drive-in theater screen. But Dinnn never really takes to city life. Lonely and left out, he is filled with an unexplained longing. He sips spilled cola from abandoned pop cans, but it is not as tasty as flower nectar. He tries to make friends with the local street mosquitoes, but that just lands him in a sewer filled with spiders and water snakes. He hears about the red mini-van that brought his parents together and wonders about his extended family in the country. He even finds a great black jacket in a roadside ditch, but it doesn't make him cool. And then one day, as fate would have it, the red mini-van reappears, giving Dinnn a chance to visit to his relatives in The Wild, where new perils await an inexperienced city mosquito — being struck by a raindrop, zapped by a porch light or snapped up by a hungry fish at dusk. But in the end Dinnn discovers that being cool is a matter of what you do, especially for one's friends and family, including two new brothers. Apr 22 2020 Rand McNally's Cosmopolitan World Atlas is a beautiful illustration of what atlases are all about. There are plenty of additional tables providing populations and zip codes for U.S. cities, and statistics on the countries of the world, but the core of the atlas is its maps, and they are splendid. There are 160 full-page color maps that are easy to read, and above all, easy on the eyes (a surprising rare atlas quality). Color borders distinguish country from country and state from state, and the topography gradations don't interfere with clean lines and legible place names. Cosmopolitan World Atlas is the standard against which other atlases should be compared. --- Amazon.com.
