Recent headlines regarding Enron and others
spotlight the need for fraud prevention ? in
both business and private entities. Hundreds
of thousands of incidents occur each year
because of poor or inadequate accounting and
financial control and security. Written by
one of the foremost experts in the area of
forensic accounting, this innovative book
teaches companies and professionals how to
reduce fraud losses ? and how to effectively
work to eliminate future frauds. It offers
comprehensive coverage of fraud detection,
warning signs, technology tools,
investigation techniques (for auditors,

security personnel and managers), financial statement screening, fraud risk in e-commerce, pro-active fraud risk and much more. The cost of fraud can be devastating. Fraud Examination and Fraud Prevention is an invaluable resource to accountants, financial officers, managers, business owners, attorneys, auditors and many others. Accountants have historically had an important role in the detection and deterrence of fraud. As Joe Wells' Principles of Fraud Examination 4th edition illustrates, fraud is much more than numbers; books and records don't commit fraud - people do. Widely embraced by fraud examination instructors across the country, Principles of Fraud Examination, 4th Edition, by Joseph Wells, is written to provide a broad understanding of fraud to today's accounting students - what it is and how it is committed, prevented, detected, and resolved. This 4th edition of the text includes a chapter on frauds perpetrated against organizations by individuals outside their staff—a growing threat for many entities as commerce increasingly crosses technological and geographical borders. Forms for solving end-of-chapter problems are perforated for easy removal and use.

The authors show how employees and managers can help keep the company safe from fraud, by learning the most important steps in prevention, detection, and investigation. Capacity is born out of integrity, and integrity is born of actions. A leader inspires others to go beyond thoughts and fears and take action. their capacity, that lift them to higher levels, and to higher standards. A leader with integrity will inspire others by example (modeling) and teaching (labeling) in a way that will increase their capacity to learn, love, live, and leave a significant legacy.
