Slipped into a werewolf skin suit recently? Or discovered a ghost living next door? How about ventriloquist dummies? Have any warm and cozy feelings about those creepy little things? Didn't think so. In 1995, R.L. Stine's best-selling children's horror stories were brought to the small screen with the live-action Goosebumps television series. Do you want to know what happens to wayward kids who would not listen to their mothers? Kids like this would enrage the Mombie so much; that she would grab any delinquent kid she would find after dark and drag them up to the mountain to her shack and chain them up to teach them a lesson. This book is an anthology that tells us three different tales about the Mombies. Read through, have fun and enjoy the adventures that Michael, Orbie, Youcee and the other kids had. The village of Satama on Broom Island was founded by Finns escaping tsarist rule in the early 1900s. The name, Satama, means harbor or haven. But Satama proved to be anything but. What really happened to the Lemerriant family in the fire of 1927? Who is killing the residents of Broom Island? Is it really a rogue cougar? Why do the children chant, "Beware the laughing blackbirds and the Loogy-Roo...If they don't stop laughing, then they've come for you." A sleepy community with a dark past awakened by the arrival of young 10 year old Gabrielle Choate. "In this book, young children are introduced to a ravenous monster that eats everything in its path. Apples, leaves, trees, and even cows don't stand a chance as he ploughs his way through the woods satisfying his enormous appetite. Who will his next victim be? Be careful! His favourite dish is little children! But don't worry. The surprise ending will make children sigh with relief--and laugh out loud."-- You may know about Queen Victoria. But you don't know about her sister, who would do anything to take Victoria's place as Queen. In Europe, the General Data Protection Regulation (GDPR) — a single law across all of EU — comes into force from May 2018. There are also strict laws in the US that govern the processing of personal data. Over a hundred countries in the world have a comprehensive data protection law and it is very easy for individuals and companies to breach these laws. Data or privacy breaches are on the rise and businesses can be prosecuted under data protection laws. Fines for non-compliance can be from S\$1 million in Singapore, up to three years jail in Malaysia, and up to 4% of global revenues for EU countries. The focus on this book is operational compliance. The book is for everyone as all of us in the course of our daily work process personal data. Organised into sections, each idea provides practical advice and examples of how a breach of the law may happen. Examples cover HR, Finance, Admin, Marketing, etc, allowing the reader to relate to his or her own area of work "Possibly the greatest need in the world today is real and lasting peace. Daily we are faced with things that come to steal our peace. Yet, our covenant with God promises peace that is beyond our mental grasp. It must be embraced in the heart. "Wayne Hancock gives us a clear and practical guide to keeping our life in harmony with God. As you read through the pages of Beware of the Peace Thief, you will also discover insights that will help you recognize the strategies waged against you to steal your peace and keep you defeated in your Christian life." Battle scarred and still suffering from a severe brain injury, Chad Hunnley returned home to his wife and son, Chad Jr. Faced with the daunting task of running the huge Brierwood Plantation did not end up being his most formidable task. His biggest challenge was trying to deal with his ex-slave holder neighbor, Tyler Jeppson, a Ku Klux Clan leader. Bestselling author Jeffrey Archer's Be Careful What You Wish For opens with Harry Clifton and his wife Emma rushing to hospital to learn the fate of their son Sebastian, who has been involved in a fatal car accident. But who died, Sebastian or his best friend Bruno? When Ross Buchanan is forced to resign as chairman of the Barrington Shipping Company, Emma Clifton wants to replace him. But Don Pedro Martinez intends to install his puppet, the egregious Major Alex Fisher, in order to destroy the Barrington family firm just as the company plans to build its new luxury liner, the MV Buckingham. Back in London, Harry and Emma's adopted daughter wins a scholarship to the Slade Academy of Art where she falls in love with a fellow student, Clive Bingham, who asks her to marry him. Both families are delighted until Priscilla Bingham, Jessica's future mother-in-law, has a visit from an old friend, Lady Virginia Fenwick, who drops her particular brand of poison into the wedding chalice. Then, without warning, Cedric Hardcastle, a bluff Yorkshireman who no one has come across before, takes his place on the board of Barringtons. This causes an upheaval that none of them could have anticipated, and will change the lives of every member of the Clifton and Barrington families. Hardcastle's first decision is who to support to become the next chairman of the board: Emma Clifton or Major Alex Fisher? And with that decision, the story takes yet another twist that will keep you on the edge of your seat. Be Careful What You Wish For showcases the master storyteller's talent as never before – when the Clifton and Barrington families march forward into the sixties, in this epic tale of love, revenge, ambition and betrayal. The primary purpose of the three-part fictional story in this book is to graphically illustrate, on the one hand, the dangerous impact that can occur in their lives should the old and the young allow themselves to be politically seduced by the plaudits, promises , and entreaties of those power-hungry individuals demanding their support for their own selfish, self-serving reasons. In this book, an explanation is given on how one originally well-meaning, extremely wealthy individual evolved into becoming such a personality and what happened to him and others around him as a result. On the other hand, it outlines how such wealth in the right hands can effectively benefit both the unemployed and underemployed members of North Americas increasingly multicultural society. This has been effectively illustrated in the United States by the unbelievably generous gifts of incredibly wealthy individuals, such as the world-famous founding guru of the Microsoft computer empire, William Bill Gates. Past examples of the destructive impact of the first type of demagogue are legendary, as amply demonstrated by Huey Long, the governor of Louisiana in the dirty thirties, whose power-hungry march to the United States White House dramatically ended with his assassination. His appeal to the numerous underprivileged voters in his state was effectively created by his repetitively preaching catchy phrases like Youre a hick, Im a hick who will look out for you! Also in the world depression thirties, theres Adolph Hitler promising Germans a return to world power of a world war one reparation paying bankrupt Germany and Benito Mussolini promising Italians a return to the glory days of Rome. Today we have a prime example of the use of vast sums of money as an economic weapon by a money rich but natural resource limited recently established economic giant. Its granting of huge loans seemingly established it as an instrument of its foreign policy, providing governments in need with incredible-sized debt repayment obligations. In one classic case, it helped raise its national debt to a staggering level of trillions of dollars. Added to this is, its buying up vast amounts of other countries natural resources, property, even entire industries. ABOUT THE BOOK Beware! Worries Can Destroy You- Be Careful Be Bold and Be Strong. The feeling of happiness or sadness is within us. Yes Worries can surely destroy you. The only way out is to be careful bold and be strong. It is said that worry is purely our own matter. Though it has got something to do with our external circumstances. But there are certainly some positive factors within us that keep us happy and there is something negative within us also which keep us unhappy. Happy living through positive and good thoughts, is nothing more than that of living a normal life free from undue pressures, problems and tensions. If we want to live a good and happy life then we need to get rid of the negativity within us which makes us unhappy. Negative approach always complicates the problems and increases unhappiness. Most of us do the fatal mistake of looking outwards for happiness rather than looking inwards. Be positive, be strong, be bold and be courageous you are sure to find the feeling of happiness within you. Even if we are having a bad day, think of some good things that may come our way, either later that day, tomorrow, next week, or next moment. When everything seems to be beyond our control, it's almost too easy for us to slip into the grasp of negativity and unhappiness. To avoid sadness we must strive to abolish this sort of thinking through the power of thinking positively and generate the feeling of happiness within us. The art of sweet living is not a complicated kind of art difficult to learn rather a simple art of happy living feeling well, eating well, and thinking well. What we need to do is just to tune up our mind to enjoy every moment of life and let the sweet happiness follow us. This is something that needs to be looked into thoroughly. We need to focus on the positive aspects of lives, rather than on the negative setbacks and enjoy every moment of life happily and merrily. Enjoy your life with cheerful talks. Be happy and cheerful. We must remember that happy living is the reward of sweet and positive thinking. We ought to remember, only the positive thinking can bring happiness in our lives. If we cannot think positively, you cannot live happily. Be our own teacher or adviser we ought to look everything with a positive angle. Let us find something good even in most critical moments of our life and let us make positive thinking the basis of our happy living. It's a matter of thought that fools worry about the circumstances on which they have no control. The wise live on positive good and happy thoughts. A sound and positive happiness is all around. It's not far away from us. If we do not want to live happy, it's up to us. It's our own choice. We must not blame others, nor should we blame our fate or external circumstances. Another thing is that feeling confident affects the way we perceive our situations and how we decide to manage them. Think that by being more optimistic we alter our approaches to situations and take on them in a healthier manner; we think of alternatives and act according to better outcomes. All our efforts lead us to good and happy living. If we think we are positive and happy, it will be positive. It does not say to stick our heads in the soil; rather it says to think positive. Interestingly it does not say feel positive it says think positive and that is the real meaning to remain happy. Positive thinking, good and happy thoughts make us to live happily. Happiness does not come alone, it adds our minds body and soul to remain in constant touch with each other. We have to remove negative thoughts and create and atmosphere to be happy in our lives. In the superbly crafted and critically acclaimed You Have to Be Careful in the Land of the Free, James Kelman has created an unforgettable character and a darkly comic portrait of a post-9/11 America. Jeremiah Brown, a Scottish immigrant in his early thirties, has lived in the United States for twelve years. He has moved as many times, from the East Coast to the West Coast and back again, all in the hope his luck would change. To add to his restlessness and indecision, he now has a nonrefundable ticket to Glasgow--by way of Seattle, Canada, Iceland, and England--to visit his mother. On his last night in the States, Jeremiah finds himself in a town south of Rapid City, moving from bar to bar, attracting and repelling strangers, losing count of the beers he has drunk. All the while he is haunted by memories and by an acute sense of foreboding. Data protection laws are new in Singapore, Malaysia and Philippines.
