Disability Rights Law May 24 2020 This casebook is designed to enable students to grapple with the conceptual issues in the area of disability rights law. It covers all of the major issues in disability rights law.

Family Law Mar 02 2021

Fundamentals of Modern Property Law Apr 22 2020 The sixth edition tracks contemporary trends in property law with particular attention to emerging issues of environmental sustainability. The sixth edition continues to use the problem method because lawyers attempt to solve specific problems. The problem-based structure of the casebook comports with the student learning outcomes and assessment approach emphasized in recent years by the American Bar Association and the Carnegie Endowment report. The sixth edition also provides a comprehensive introduction to Intellectual Property law. The novel legal problems raised by advances in technology demand that students receive early exposure to this area of law. This edition also emphasizes a planning perspective. The first-year of law school tends to focus on controversies and may mislead students into thinking that lawyers spend all their time resolving controversies when most lawyers devote substantial time to planning.

Food and Drug Law Dec 23 2022 Hardbound - New, hardbound print book.

Legal Methods Aug 27 2020 Ginsburg's casebook provides detailed information on legal methods and the tools for fast, easy, on-point research. Part of the University Casebook Series®, it includes selected cases designed to illustrate the development of a body of law on a particular subject. Text and explanatory materials designed for law study accompany the cases.

Studies in Contract Law Dec 31 2020 The new edition contains many new features, including an introductory chapter that provides an overview of the course in the first two weeks. The authors created a new annotated outline of the textbook, allowing adopters to see the structure of the book. They also included improved teaching materials that make it easier for adopters of other casebooks to switch. The eighth edition covers new cases on contract issues growing out of the foreclosure crisis, plus new cases from the Supreme Court's arbitration jurisprudence. The authors added new coverage of unilateral "change of terms" provisions in consumer contracts, as well as new materials covering the Constitution's contract clause in relation to current state pension crisis.

Constitutional Law Apr 27 2023 The Nineteenth Edition is an updated version of this classic casebook, adding new materials on the Supreme Court's most recent decisions on federal power, free speech, equal protection and religious freedom to its existing comprehensive coverage of separation of powers, federalism, civil rights and civil liberties. This casebook provides a unique combination of clearly structured and lawyerly coverage of the cases with rich historical, theoretical, and philosophical materials that illuminate the development of our constitutional law. In the 19th edition, you will find the latest decisions on gay marriage, street signs and confederate flags, campaign contribution limits, congressional power over voting rights, and religious exemptions from health care mandates, among many others. The note materials and questions in the casebook make it easy to structure classes and promote lively discussion. And comparative examples from the constitutional law of other nations are provided throughout.

Studies in Contract Law Nov 22 2022 CasebookPlus Hardbound - New, hardbound print book includes lifetime digital access to an eBook, with the ability to highlight and take notes, and 12-month access to a digital

Learning Library that includes self-assessment quizzes tied to this book, leading study aids, an outline starter, and Gilbert Law Dictionary.

Legislation and Regulation Nov 10 2021

Hardbound - New, hardbound print book.

Insurance Law and Regulation, Cases and Materials Oct 29 2020

This casebook, which has been used as the principal text in more than one hundred law schools, contains extensive material on insurance contract formation and interpretation; insurance regulation; insurable interest and liability for bad-faith breach; property, health, life, and disability insurance; commercial general liability and directors & officers liability insurance; auto insurance; and reinsurance. The casebook gives equal emphasis to personal and commercial insurance, and reprints within the relevant chapters four standard-form insurance policies. The Seventh Edition includes a new stand-alone chapter on health insurance as well as new materials addressing the American Law Institute's Restatement of the Law of Liability Insurance and long-term care insurance. It also includes substantially updated materials on a range of issues, including liability insurers' duty to settle, concurrent causation, and the number of "occurrences." The new edition also includes some updated standard-form insurance policies and declaration pages.

Social Science in Law Oct 21 2022

Administrative Law Feb 13 2022 The third edition of this innovative administrative law

casebook retains and enhances its unique features: Focus on five representative agencies to provide students with a more holistic understanding of agencies and provide context. Use of a consistent unit design that maximizes student learning and facilitates the use of the book with a wide variety of teaching styles, including traditional methods and the "flipped" classroom. Incorporation of cutting-edge cases and problems that focus on the practical application of administrative law doctrines. By focusing on five important and representative agencies (the EPA, NLRB, SSA, IRS, and FCC), the book addresses two key problems for teaching and learning administrative law: (1) students' lack of familiarity with agencies and what they do; and (2) the difficulty of understanding new and different agencies and their organic statutes for each new administrative law case. Extended treatment of these five agencies, including one chapter for each agency that focuses on its use of a particular kind of agency action (rulemaking, policymaking adjudication, mass adjudication, informal action, and enforcement) provides students with a more complete picture of what agencies do and how they do it. Because the principal cases and problems involve the same five agencies throughout the book, the need to learn about new agencies and understand new organic statutes is greatly reduced, enabling students and teachers to focus on the administrative law issues in the cases. The book uses a consistent "unit" format throughout.

Each unit covers a particular topic and includes (1) a clear and comprehensive discussion of the basic doctrine governing the topic; (2) a principal case or cases to illustrate the application of the doctrine and highlight key issues; (3) a discussion of related matters to explore additional issues and connections between topics; and (4) a detailed administrative law problem requiring the application of the doctrine in context. This unique structure and design facilitates the use of the book with a variety of teaching methods, including the Socratic method, lecture and discussion, and the problem method. Because it combines clear exposition, illustrative principal cases, and comprehensive problems, the book is also an ideal tool for teachers who want to flip their classrooms. This unit structure also enhances the flexibility of the book, allowing teachers easily to select topics for coverage and determine the depth of coverage they wish to provide. The third edition has been thoroughly updated to provide cutting edge treatment of emerging administrative law issues and developments, including the reinvigoration of separation of powers, the erosion of Chevron deference, and constraints on agency guidance documents. The third edition also reflects changes designed to enhance the book's effectiveness as a teaching and learning tool, such as increased use of primary administrative law materials, improvements to problems, and new principal cases.

Commercial Law Sep 20 2022 The Tenth

Edition treats in detail the provisions of Article 9 (Secured Transactions) and updates the material on Articles 3 (Negotiable Instruments), 4 (Bank Deposits and Collections), 4A (Funds Transfers), 5 (Letters of Credit), and 8 (Investment Securities). It takes into account developing case law applying the 2010 Amendments to Article 9, and important developments in federal law governing payment systems, including amendments to Regulation CC. Eleven new cases have been added. While also including new notes, problems, and text, this edition retains the mix of problems and cases present in previous editions. Form agreements are included.

[Christian Legal Thought](#) Jul 26 2020

Hardbound - New, hardbound print book.

Property Law Feb 19 2020 This casebook is designed for the property professor who wants to cover not only all the traditional property issues but also emerging environmental issues in the management of land and other resources. The casebook provides in-depth coverage of real property law, including the rights of property owners, real estate transactions and finance, estates in land, land-use regulation, and takings law. But the casebook also covers related environmental issues, reflecting the reality that issues such as wetland protection, conservation easements, and water scarcity are today as important, if not in some cases more important, to many property lawyers as more traditional concerns such as the rule against perpetuities, subjacent land support, and deed

construction. Looking at property law through an environmental lens also provides new insights and new ways of conceptualizing property doctrines. The result is a readable, interesting, and cutting-edge treatment of modern property law. This new edition has been thoroughly updated. This edition provides brand new coverage of emerging issues, such as judicial takings, takings legislation, the subprime mortgage crisis, same-sex relationships, fracking, legal protection of ecosystem services, and public access to beaches (one of the hottest topics today in the collision of private and public interests in land).

Employment Law, Cases and Materials,

Concise Apr 03 2021 This abridged version of our popular law school casebook, now in its ninth edition, provides a concise overview of the constitutional, statutory, regulatory, and common law principles of employment law. The doctrinal development of the law is assessed in light of contemporary economic, technological, social, and political conditions.

[Practicing Environmental Law](#) May 04 2021

CasebookPlus Hardbound - New, hardbound print book includes lifetime digital access to an eBook, with the ability to highlight and take notes, and 12-month access to a digital Learning Library that includes self-assessment quizzes tied to this book, leading study aids, an outline starter, and Gilbert Law Dictionary.

High Court Case Summaries on

Constitutional Law Dec 19 2019 Sullivan's High Court Case Summaries on Constitutional

Law, 17th contain well-prepared briefs for each major case in this casebook. High Court briefs are written to present the essential facts, issue, decision and rationale for each case in a clear, concise manner. While prepared briefs can never substitute for the insight gained by actually reading a case, these briefs will help readers to identify, understand, and absorb the core "take away" knowledge from each case. Moreover, these briefs are followed by a useful legal analysis, which provides extra tips and contextual background about each case, connecting the case to the broader concepts being developed throughout the casebook. This book also supplies case vocabulary, which defines new or unusual legal words found throughout the cases. Finally, to enhance the reader's recall, there is a corresponding memory graphic for each brief that portrays an entertaining visual representation of the relevant facts or law of the case.

Financial Regulation Jan 12 2022 The Third Edition of Financial Regulation: Law and Policy continues to offer students and faculty an innovative and accessible introduction to the field. Financial regulation has long been at the intersection of technological innovation, market forces, and the political economy, punctuated from time to time by financial and economic crises. Since the turn of the millennium, we have seen these pressures intensify and multiply. We have lived through the most systemic Financial Crisis in 70 years, a major shift in regulatory design, the digital

transformation of the economy, including the financial sector, and a worldwide Pandemic with still uncertain economic impact, playing out against an increasingly divided and shifting political landscape. The Third Edition has been updated to keep pace with all of these changes. You will find extensive discussions of fintech, climate change, and racial equality across the Third Edition, as these topics move from the periphery to the center of the regulatory agenda. The Third Edition also adds a stand-alone Chapter on supervision, an important topic that we expect will be receiving more academic research and attention, as well as an expanded Chapter on enforcement. Like the Second Edition, the Third Edition analyzes and compares the market and regulatory architecture of the entire U.S. financial sector, from banks, insurance companies, and broker-dealers, to asset managers, fintech companies of many types, complex financial conglomerates, and government-sponsored enterprises. The Third Edition explores a range of financial activities, including consumer finance and investment, digital and traditional payment systems, securitization, short-term wholesale funding, money markets, and derivatives. Throughout the book, the authors note the cross-border implications of U.S. rules, and compare, where appropriate, the U.S. financial regulatory framework and policy choices to those in other places around the globe, especially the UK and the European Union.

Fundamentals of Modern Property Law Sep 08 2021 Hardbound - New, hardbound print book.
Federal Administrative Law Apr 15 2022 This casebook is designed with an emphasis on accessibility, includes many discussion problems and questions focusing on real-world application, and gives students a solid grounding in the basic principles of administrative law that they might come across in regulatory practice. While it pays due attention to the historical evolution of the doctrine in certain areas, this casebook focuses more heavily on current standards. Administrative law as a subject matter encompasses some very interesting theoretical discussions. Rather than remain strictly theoretical to the point of bordering on encyclopedic, this book tends toward the more practical, while still including enough reference to theory to enable a professor who wants to introduce more theoretical discussion into the classroom to do so. The new edition incorporates new developments through the Supreme Court's 2018-19 term, including excerpts from *Gundy v. United States* (2019) regarding the nondelegation doctrine, *Lucia v. SEC* (2018) regarding who is an Officer of the United States, *Kisor v. Wilkie* (2019) regarding Auer deference, and *Spokeo v. Robbins* (2016) regarding standing doctrine, and much more. The new edition includes sufficient material to support an advanced administrative law course taught to students with previous exposure to the regulatory state.

Constitutional Law Sep 27 2020 This casebook provides a unique combination of clearly structured and lawyerly coverage of the cases with rich historical, theoretical, and philosophical materials that illuminate the development of our constitutional law. The note materials and questions in the casebook make it easy to structure classes and promote lively discussion. And comparative examples from the constitutional law of other nations are provided throughout. The Twentieth Edition is an updated version of this classic casebook, adding new materials on the Supreme Court's most recent decisions on the First Amendment, Equal Protection, Substantive Due Process, Separation of Powers, and Federalism.
Studies in Contract Law Mar 22 2020
An Integrated Approach to Constitutional Law Feb 25 2023 This groundbreaking casebook is ideal for one-semester introductory Constitutional Law courses of 3-5 units that teach both structure and rights. Its novel approach presents constitutional law as a coherent system, not as isolated doctrines in silos. The book integrates subjects ordinarily taught in Con Law I and II; it integrates historical and doctrinal approaches; it integrates features of a casebook and a study guide; and it presents each case as an integrated whole, so that students learn relationships among doctrines while studying the details of each. Its tone is accessible, while its structure allows for sophisticated classroom discussion.

Constitutional Law Jan 20 2020 The Sixteenth Edition provides comprehensive coverage of all areas of constitutional law, including judicial review, separation of powers, federalism, due process, equal protection, free speech, and religious liberty. It emphasizes constitutional law as a species of law, and aims to enable students who use it to practice constitutional law as lawyers. It also seeks to illuminate the historical, theoretical, and philosophical background that bears on constitutional law and informs its practice. The 16th edition thoroughly revises, updates and streamlines this classic casebook, emphasizing contemporary problems in areas from the war on terror to new uses of the Internet.

Highlights of the 16th edition include the final decisions of the Rehnquist Court, a preliminary look at the first two terms of the Roberts Court, and expanded analysis of recent controversial decisions from *Hamdan v. Rumsfeld* to *Gonzales v. Raich* and *Kelo v. City of New London*. It includes all key constitutional cases through the 2006-2007 Supreme Court Term, including the Court's latest holdings on abortion, race-based assignments in the public schools, drug-related speech by public school students, and limits on campaign finance.

The Practice and Policy of Environmental Law Mar 14 2022 Hardbound - New, hardbound print book.

Domestic Violence and the Law Feb 01 2021 Elizabeth M. Schneider (Brooklyn Law School) and Clare Dalton (Northeastern University

School of Law) are joined by two new authors, Judith G. Greenberg (New England School of Law) and Cheryl Hanna (Vermont Law School) in this exciting new Second Edition. The casebook maintains its rich focus on examining domestic violence through a variety of theoretical, practical, and interdisciplinary lenses and remains the most comprehensive casebook on domestic violence. This book is widely used in law school courses and clinics on domestic violence, heavily adopted in undergraduate and graduate courses, and routinely relied upon by judges, attorneys, and other professionals who work in the field. The Second Edition captures the tremendous growth in domestic violence law and includes the many recent Supreme Court cases implicating domestic violence, including *Crawford v. Washington*, *Davis v. Washington*, *Dixon v. United States*, *Georgia v. Randolph*, *Ayotte v. Planned Parenthood of Northern New England*, and *Castle Rock v. Gonzales*. The new edition emphasizes the current expansion of case law and contains updated notes with practical problems. It adds three new chapters: sexual autonomy, reproductive rights and domestic violence; evidence in domestic violence cases and immigration, asylum and domestic violence. It streamlines the family law materials, highlights the most pressing issues in criminal law, and broadens the already significant integration of issues of diversity throughout the book including more materials on the impact of domestic violence on Native

Americans, Muslims, teens, and the elderly.

Employment Law Aug 07 2021

Comparative Law: Cases, Text, Materials Aug 19 2022

International Intellectual Property Law Jun 05 2021 This casebook organizes contemporary foreign, as well as U.S., case law and literature to equip law students with the knowledge they need to practice intellectual property law in both transactional and litigation settings in the current globalized environment. Carefully selected materials also expose students to the social, economic, and cultural considerations that underpin intellectual property law around the world. The casebook covers aspects of public international law, conflict of laws (private international law), and comparative law of intellectual property. Each area of law—copyright, patent, trademark, unfair competition, trade secrets, and industrial design—is introduced by a comprehensive authors' note placing the field in its international and comparative law context, and extensive notes on the cases and materials fill in relevant details, including current and historically important topics. Materials on the major fields of intellectual property law are accompanied by materials on other related intellectual property matters, such as the protection of databases, plant varieties, geographical indications of origin, and Internet domain names.

Principles of Patent Law, Cases and Materials Oct 09 2021

Insurance Law and Regulation Jun 24 2020

Public Welfare Law Jan 24 2023 Hardbound - New, hardbound print book.

Media Law Jun 17 2022 This edition examines new forces influencing media law while continuing to focus on foundational cases and principles that have shaped the field since its inception. New material includes increasing government secrecy and its impact on freedom of information; the latest on net neutrality; new restrictions on newsgathering including legislation involving drones; recent jurisprudential tests that unmask anonymous internet speakers; increasing potential liability for internet re-publishers despite older legal protections; newer changes in copyright protections in the wake of internet publishing; increasing judicial concerns about privacy and the reshaping of legal determinations including newsworthiness; and the increasingly difficult-to-answer question of who deserves shield law and other legal protections traditionally reserved for journalists. The casebook, written by authors who collectively have taught and researched media law for more than a century, focuses on the legal precedents that help shape judicial and legislative responses to today's new media. --From Publisher website.

Evidence Nov 29 2020 Prompted by mounting changes and mounting confusion in constitutional evidence law and by the new restyling of the Federal Rules of Evidence, this Edition presents the familiar student-friendly textbook, now with these improvements:

Presents and digests the latest Confrontation Clause caselaw, including *Williams v. Illinois*, 132 S. Ct. 2221 (2012); Fully incorporates the restyled Federal Rules of Evidence; Surveys the latest scholarship and caselaw to assess the current validity of a range of forensic sciences; Presents new cases and problems throughout, while carefully retaining tried-and-true teaching tools, however old, that have shown no sign of wear. As with past editions, this new text addresses the intricacies of evidentiary law in a way students will find both engaging and intellectually compelling.

Social Science in Law Jul 06 2021

Legal Ethics Jul 18 2022 Combining rigorous analysis of the professional rules of lawyer conduct with extensive interdisciplinary materials on the legal profession and ethics, this casebook offers a unique perspective on the professional challenges facing contemporary lawyers--and their opportunity to promote the public good. The book combines real-life problems, doctrinal and statutory analysis, and carefully-edited readings to offer a comprehensive and critical examination of the role of lawyers as client representatives and democratic citizens. Many of the chapters can be used as independent units for courses focusing on ethical problems in corporate practice, tax practice, family law, criminal law, and public interest law. The eighth edition also includes extensive revisions that provide new analysis of core professional rules, enhanced organizational formats, and critical additions to

the case law and professional literature. Key changes include expanded coverage of how the lawyer-client relationship begins and ends; important updates to the materials on confidentiality, conflicts of interest, and market regulation; recent media clips; and new research on access to justice, diversity and inclusion, lawyer well being and legal education.

Criminal Law Dec 11 2021 The 2008 eighth edition of *Cases and Comments on Criminal Law* continues the format of subject-matter structure that was introduced several editions before and has proven successful and eminently workable in the classroom. At the same time, the eighth edition strikes several new themes designed to modernize the book and make it more meaningful in today's justice system as well as more accessible to the students. Some older cases have been removed and new cases added to address conceptual issues in a contemporary setting. For example, the 7th and 8th editions have added thirteen new cases to Chapter 2 (four in the 8th edition) including recent United States Supreme Court decisions that have impressed themselves onto the national legal framework. The Notes and Questions have been updated where desirable to reflect variations on the principal cases in modern factual circumstances. Additionally, problems (with citations to the cases they reflect) have been added to the Notes to permit exploration of conceptual nuances in a context less directive than case analysis. Most

importantly, in the 8th edition we have added a new chapter on "Crimes Against Governmental Authority." Although the impetus for this chapter was provided by the government's response to the recent terrorist threat, the chapter covers how the state historically has dealt with both physical and sociopolitical challenges to its authority and the welfare of its citizens. After a brief history of governmental acts to defend itself, beginning with sedition at the end of the 18th Century, the chapter covers how traditional crimes have been used by the state in this capacity, and then takes up statutes that have been enacted explicitly to deal with threats to governmental authority, such as crimes aimed at communism, the USA PATRIOT Act, and at material support of terrorist organizations. We have developed this chapter to provide a contemporary setting for showing how the criminal law is utilized to combat threats in a nontraditional area of the first-year course of criminal law, and we hope it appeals to those who prefer both the contemporary and the nontraditional. As in the past, our book starts with a brief outline of criminal procedure. We believe it essential that a beginning student have an insight into the criminal justice process as a prerequisite to a proper understanding of the cases on substantive criminal law. As in prior editions, the book ends with an Appendix containing pertinent provisions of the United States Constitution and its Amendments. Since these provisions are liberally referred to in many

cases, the student has ready access to their precise wording.

[Constitutional Law](#) Mar 26 2023 This casebook provides a unique combination of clearly structured and lawyerly coverage of the cases with rich historical, theoretical, and philosophical materials that illuminate the development of our constitutional law. The note materials and questions in the casebook make it easy to structure classes and promote lively discussion. And comparative examples from the constitutional law of other nations are provided throughout. The Twentieth Edition is an updated version of this classic casebook, adding new materials on the Supreme Court's most recent decisions on the First Amendment, Equal Protection, Substantive Due Process, Separation of Powers, and Federalism.

Criminal Law, Cases and Comments May 16 2022 The eleventh edition of this casebook modernizes and streamlines the materials to focus more effectively on the study of criminal law. The new edition carves out a separate chapter on self-defense, defense of property, and defense of others, while otherwise maintaining the structure of the book from prior editions. Multiple chapters have been reworked to eliminate older cases and notes to make the book more accessible to both teachers and students. The eleventh edition also maintains the unique chapters on drug possession, drug distribution, drunk driving, and texting while driving that were added to the tenth edition. These core subjects are

addressed in greater detail in this casebook than any other criminal law textbook. The authors have also updated the introductory materials to provide students with the most current picture and statistics about what is really happening in the American criminal justice system.
