There are a lot of books out there that show collections of logos. But David Airey's "Logo Design Love" is something different: it's a guide for designers (and clients) who want to understand what this mysterious business is all about. Written

in reader-friendly, concise language, with a minimum of designer jargon, Airey gives a surprisingly clear explanation of the process, using a wide assortment of real-life examples to support his points. Anyone involved in creating visual identities, or wanting to learn how to go about it, will find this book invaluable. - Tom Geismar, Chermayeff & Geismar In Logo Design Love, Irish graphic designer David Airey brings the best parts of his wildly popular blog of the same name to the printed page. Just as in the blog, David fills each page of this simple, modern-looking book with gorgeous logos and real world anecdotes that illustrate best practices for designing brand identity systems that last. David not only shares his experiences working with clients, including sketches and final results of his successful designs, but uses the work of many well-known designers to explain why well-crafted brand identity systems are important, how to create iconic logos, and how to best work with clients to achieve success as a designer. Contributors include Gerard Huerta, who designed the logos for Time magazine and Waldenbooks; Lindon Leader, who created the current FedEx brand identity system as well as the CIGNA logo; and many more. Readers will learn: Why one logo is more effective than another How to create their own iconic designs What sets some designers above the rest Best practices for working with clients 25 practical design tips for creating logos that last Hunt Marketing emphasizes the universal importance of marketing, in business, but also in the lives of students, despite their major! Hailed as “stunning” (New York Post), “authoritative” (Kirkus Reviews), and “comprehensively researched” (Shelf Awareness), a shocking exposé of the widespread abuses of our personal online data by a leading specialist on Web privacy. Social networks, the defining cultural movement of our time, offer many freedoms. But as we work and shop and date over the Web, we are opening ourselves up to intrusive privacy violations by employers, the police, and aggressive data collection companies that sell our information to any and all takers. Through groundbreaking research, Andrews reveals how routinely colleges reject applicants due to personal information searches, robbers use vacation postings to target homes for break-ins, and lawyers scour our social media for information to use against us in court. And the legal system isn't protecting us—in the thousands of privacy violations brought to trial, judges often rule against the victims. Providing expert advice and leading the charge to secure our rights, Andrews proposes a Social Network Constitution to protect us all. Now is the time to join her and take action—the very future of privacy is at stake. Log on to [www.loriandrews.com](http://www.loriandrews.com) to sign the Constitution for Web Privacy. This is the story of Mary Fields, 'Stagecoach Mary', who got her nickname at the turn of the 20th Century. She earned this nickname by working for the United States Postal System delivering the United States Mail through adverse conditions that would have discouraged the most hardened frontiersmen of that period. All by herself, she never missed a day for 8 years, carrying the U. S. Mail and other important documents that helped settle the wild open territory of central west Montana. Mary had no fear of man, nor beast, and this sometimes got her into trouble. She delivered the mail regardless of the heat of the day, cold of night, wind, rain, sleet, snow, blizzards, Indians and Outlaws. Mary was 6 feet tall, and weighed over 200 pounds, and even with 'those' extraordinary extremes, there were two more facts that made 'her' history. Mary was the second woman in 'history' to carry the U. S. Mail, however, even that was a matter of simplicity, for a fact, she was a Negro Woman, and the only 'Negro', for hundreds and hundreds of miles when she first arrived in Montana. This feature story covers Mary's colorful life, from the plantation where she was born a slave in 1832, to the famous Steamboat race between the "Robert E. Lee" and the "Natchez" on the Mississippi River, to her death in Cascade, Montana, 1914. Stagecoach Mary was a cigar smoking, shotgun and pistol toting Negro Woman, who even frequented saloons drinking whiskey with the men, a privilege only given to 'her', as a woman. However, not even this fact, sealed the credentials given to her, her credentials boasted that, 'she could knock out any man with one punch', who stepped upon her womanhood, a claim she proved true. keywords: Mary Fields, Mail, African American, Black History, Montana, Stagecoach, Outlaws, Cowboys, Postal System, Historical, 1914, 1832 Harness the power of Cocoa's object-oriented software development environment with this book that is completely updated for Mac OS X 10.2. Take a Moment was created to bring joy and healing to others through words and photos that have continued to be uplifting, inspiring, and meaningful to me during my cancer recovery and healing. My husband, after my surgery eleven years ago, would craft a daily message for me to keep me focused on my healing. Each consisted of a picture, a quote, and a short affirmative summary upon which I started my day. Whether before driving to the office, before traveling, or before starting up my computer from home, he gifted me with his inspiring thoughts. I created binders of all his creations so I could occasionally go through them, several at a time, to feel his love and his positive affirming words. I also thought that someday I would do something with them. They became my inspiration for Take a Moment. Knowing how much I benefited from these daily reflections, I knew that others would too. So if you are feeling overwhelmed, challenged in your personal or professional life, have a tendency towards negative thinking, or just need to reset your balance, let Take a Moment bring you that uplifting, positive nourishment for your mind, body, and spirit. Just take a moment to be inspired, be enlivened, be nourished, be at peace, be happy, be rejuvenated, be in the moment, be grateful, be thankful, be appreciative. With healing love, Karen "This book accounts the terrifying hours following Knight Capital's August 1, 2012 trading debacle, with news-breaking research regarding the firm's 17 years of tumultuous existence as an independent company. Knightmare on Wall Street is the definitive behind-the-scenes story of Knight Capital. The firm, founded by Kenneth Pasternak and Walter Raquet in 1995, had seen its fortunes change as U.S. regulators made a series of changes in the structure of financial markets and computers were progressively expanding their share of trading. The Flash Crash, the infamous 1,000 point drop of the DJIA on May 6, 2010 (the largest one-day point decline in history), illustrated how market structure problems could almost instantaneously cascade from one market participant to the rest. This book provides a fascinating account of what it took to elevate the firm to the cusp of the retail investing revolution of the late 1990s, to struggle through booms and busts, and to bring the firm down, to end up ultimately being ignominiously bought up by a competitor."--Extracted from Edgar Perez website. On January 10, 1901, Beaumont awoke to the historic roar of the Spindletop gusher. A flood of frantic fortune seekers heard its call and quickly descended on the town. Over the next three decades, Texas's first oil rush transformed the sparsely populated rural state practically beyond recognition. Brothels, bordellos and slums overran sleepy towns, and thick, black oil spilled over once-green pastures. While dreams came true for a precious few, most settled for high-risk, dangerous jobs in the oilfields and passed what spare time they had in the vice districts fueled by crude. From the violent shanties of Desdemona and Mexia to Borger and beyond, wildcat speculators, grifters and barons took the land for all it was worth. Author Barte Haile explores the story of these wild and wooly boomtowns. The secrets of high-frequency trading revealed! "Edgar's book is fantastic . . . I recommend it highly." —Bart Chilton, Commissioner, United States Commodity Futures Trading Commission (CFTC) "I have interviewed the most successful high-frequency traders in New York and Chicago, but I have learned so much more by reading Perez's book. He covers the most relevant topics we need to know today and tomorrow." —Mark Abeshouse, Chairman, Augustus Capital "Alternating between an annotated timeline of the development of high-frequency trading and interviews with top high-frequency traders, Perez illuminates the world of speed. All in all, an enlightening book." —Brenda Jubin, contributor to Seeking Alpha "This is a comprehensive and compelling summary of the trading industry in general, as well as high-frequency trading. If you are interested in this field or of knowing a critical component of all future markets—read this book." —Paul Dowding, Managing Director, Meridian Equity Partners "Very timely, covers the 2010 Flash Crash and the current high-frequency trading environment." —Patrick Sweeney, Vice President, JP Morgan Chase "There is a new day in trading and speed is the key. Edgar Perez is the poster child." —Eugene Steele, Managing Partner, Trading Rooms World Wide About the Book: High-frequency traders have been called many things—from masters of the universe and market pioneers to exploiters, computer geeks, and even predators. Everyone in the business of investing has an opinion of speed traders, but how many really understand how they operate? The shadow people of the investing world, today's high-frequency traders have decidedly kept a low profile—until now. In *The Speed Traders*, Edgar Perez, founder of the prestigious business networking community Golden Networking, opens the door to the secretive world of high-frequency trading (HFT). Inside, prominent figures of HFT drop their guard and speak with unprecedented candidness about their trade. Perez begins with an overview of computerized trading, which formally began on February 8, 1971, when NASDAQ launched the world's first electronic market with 2,500 over-the-counter stocks and which has evolved into the present-day practice of making multiple trades in a matter of microseconds. He then picks the brains of today's top players. Manoj Narang (Tradeworx), Peter van Kleef (Lakeview Arbitrage), and Aaron Lebovitz (Infinium Capital Management) are just a few of the luminaries who decided to break their silence and speak openly to Perez. Virtually all of the expertise available from the world of speed trading is packed into these pages. You'll get insight from HFT's most influential trailblazers on the important issues, including: The basics of launching an HFT platform The important role speed traders play in providing market liquidity The real story behind the "flash crash" of May 2010 Emerging global HFT markets M&A and consolidation among the world's biggest exchanges *The Speed Traders* is the most comprehensive, revealing work available on the most important development in trading in generations. High-frequency trading will no doubt play an ever larger role as computer technology advances and the global exchanges embrace fast electronic access. Essential reading for

regulators and investors alike, *The Speed Traders* explains everything there is to know about how today's high-frequency traders make millions—one cent at a time. *The Backward Flying Angel* gives the reader examples that demonstrate how experiences, family, institutions of education and religion shape our view of life. The author briefly compares five living generations, and different approaches to parenting. The author also reflects on himself in each of these three roles as a grandparent, parent and child. Carter, the fifth generation member, tells the story from his perspective while traveling to and on vacation in Colorado, and deals with subjects such as communicating, discipline, comedy and tragedy, patience, temper, bad language, love and bonding. Keywords: Communication, Discipline, Comedy, Tragedy, Patience, Temper, Bad Language, Love, Bonding. The colors of LEGO bricks cover a wide gamut. Winston Churchill's Scottish goddaughter, Mattie McGary, the adventure-seeking Hearst photojournalist, reluctantly returns to Nazi Germany in the summer of 1934 and once again finds herself in deadly peril in a gangster state where widespread kidnappings and ransoms by the SA and SS are sanctioned by the new government. Mattie turns down an initial request by her boss Hearst to go to Germany to report on how Hitler will deal with the SA Brown Shirts of Ernst Rohm who want a true socialist 'second revolution' to follow Hitler's stunning first revolution in 1933. Having been away from Germany for over a year, her reputation as "Hitler's favorite foreign journalist" is fading and she wants to keep it that way. Instead, at Churchill's behest, she persuades Hearst to let her investigate one of the best-kept secrets of the Great War--that in 1915, facilitated by a sinister German-American working for Henry Ford, British and Imperial German officials agreed to a treasonous trade with the enemy--Britain would sell badly needed raw rubber to Germany while it would sell precision optical equipment to Britain. Why? To keep the war going and the profits flowing on both sides of the conflict. After Mattie interviews Ford's German-American go-between, however, agents of Scotland Yard's Special Branch are sent by Churchill's political opponents in the British government to rough her up and warn her she will be prosecuted under the Official Secrets Act unless she backs off the story. Left no choice, Mattie sets out for Germany to investigate the story from the other side and interview the Imperial German nobleman who negotiated the trading with the enemy deal on Germany's behalf. There, Mattie lands right in the middle of what Hearst originally wanted her to investigate--Ernst Rohm's 'second revolution' and Adolf Hitler's ruthless response. Mattie learns that Hitler has ordered the SS to assassinate all the senior leadership of Ernst Rohm's SA Brown Shirts as well as many other political enemies on Saturday 30 June, an event known to History as 'The Night of the Long Knives'. Mattie's life is in danger because the German-American working for Henry Ford not only wants her story on trading with the enemy killed, he wants her dead along with it. Worse, Mattie's nemesis, Reinhard Heydrich--the 'Blond Beast' of the SS--is in charge of carrying out Hitler's deadly purge and he's secretly put her name on his list Michael McMenamin is the co-author with his son Patrick of the first five award winning 1930s era historical novels featuring Winston Churchill and his fictional Scottish goddaughter, the adventure-seeking Hearst photojournalist Mattie McGary. The first five novels in the series--The DeValera Deception, The Parsifal Pursuit, The Gemini Agenda, The Berghof Betrayal and The Silver Mosaic--received a total of 15 literary awards. He is currently at work with his daughter Kathleen McMenamin on the eighth Mattie + Winston historical adventure, The Prussian Memorandum. Kathleen McMenamin, the other half of the father-daughter writing team, has been editing her father's writing for longer than she cares to remember. She is the co-author with her father of the 2018 novella, Appointment in Prague, A Mattie McGary + Winston Churchill World War II Adventure. She also is the co-author with her sister Kelly of the critically acclaimed Organize Your Way: Simple Strategies for Every Personality [Sterling, 2017]. One element that the Korn shell does not contain is portability. Bruce Blinn focuses on shells that are portable, known as Bourne Shells. This practical book treats the shell like a

programming language. Lists over 250 major shell examples. Dwarves craft their marvelous treasures in cavern forges, dragons slumber on piles of stolen treasure, wizards plot revenge with their terrible powers, and giant monsters threaten all that is good--this is not Lord of the Rings. It is Norse mythology In this book you will discover the rich mythology that has inspired everything from Beowulf to the works of J.R.R. Tolkien to the Thor superhero series. In this textbook 13 script-stories re-tell the most popular Norse myths--tales of might Thor, wise Odin, and wily Loki. Also included is the Saga of the Volsungs, often called the Iliad of the Norsemen. Supplemental materials include a Ragnarok end-of-the-world battle game for up to thirty players, a Valhalla Find-It picture puzzle, a glossary of important characters, and a name pronunciation guide. The Reaching Olympus series uses classroom-tested Reader's Theater script-stories specifically designed for 6th-12th grade students to retell the great myths and legends of world mythology. Reader's Theater is an innovative and powerful teaching tool that allows students to break away from silent reading and share in an "acting-out" experience where words and myth come to life Each script is prefaced by a teacher guide providing a synopsis of the myth, relevant background information and commentary on the myth, anticipatory questions for pre-play discussion, essential questions to help analyze the "big ideas" behind each myth, recall questions to check reading comprehension, and instructions for teaching commonly-tested terms and literary devices using each story. This book is about how type should look and how to make it look that way--in other words, how to set type like a professional. It explains in practical terms how to use today's digital tools to achieve the secret of good design: well set type. An essential reference for anyone who works with type: designers, print production professionals, and corporate communications managers can go to straight to the index to find focused answers to specific questions, while educators and students can read it as a text book from cover to cover. Influenced by the exotic, lush landscapes of his childhood and youth in Hawaii and Nicaragua, Hunt Slonem paints richly colored, impressionistic visions that are celebrated worldwide--and particularly sought-after are his paintings of birds. Now for the first time, Slonem's bird paintings are collected into a single volume, published in a lavish hardcover edition, as a follow-up to the exquisite Bunnies. In Birds, the Louisiana-born artist pays homage to these remarkable creatures through hundreds of engaging works. Dramatic and vivid, Slonem's avian subjects seem unconfined to a flat surface, as the paintings brim with texture and movement. At the same time, the painter's unique "cross-hatching" technique unmistakably evokes the bars of a birdcage. The compelling nature of these paintings lies in the tension between the birds' ability to soar and their often captive state (though Slonem's own birds are often spotted flying around his studio). Sure to please bird-lovers and fine-art aficionados alike, this is an impressively luxe hardcover volume that features metallic ink and silver-gilded edges, a ribbon marker, and an acetate jacket. Describes the celebration of Christmas in Brazil and includes several carols, recipes, and instructions for making tree ornaments.
