*On a Global Mission: The Automobiles of General Motors International Volume 3 Feb 01 2021 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export*

*operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.*

***Chevrolet, 1960-2012 Oct 09 2021 Photo by photo, discover the stories of an iconic American company and the cars they made. Images of America: Chevrolet: 1960-2012 is the second of a two-volume photographic history of Chevrolet, one of the world's best-known automotive brands, symbolized by the bow tie emblem. From 1960 to 2012, the US auto industry and Chevrolet experienced fundamental changes in their products and business plans. In the 50-plus years illustrated here, two basic changes in the marketing of motor vehicles is evident: the rising proportion of trucks among all vehicles sold and the incursion of European and Asian brands into the market. Even though the number of different Chevrolet passenger car models tripled, total car sales for the brand fell. Chevrolet: 1960-2012 relates the year-by-year evolution of the US auto business via what was once the largest-selling make.***
