From a renowned education writer comes a paradigm-shifting examination of the rapidly changing world of college that every parent, student, educator, and investor needs to understand. Over the span of just nine months in 2011 and 2012, the world's most famous universities and high-powered technology entrepreneurs began a race to revolutionize higher education. College courses that had been kept for centuries from all but an elite few were released to millions of students throughout the world—for free. Exploding college prices and a flagging global economy, combined with the derring-do of a few intrepid innovators, have created a dynamic climate for a total rethinking of an industry that has remained virtually unchanged for a hundred years. In *The End of College*, Kevin Carey, an education researcher and writer, draws on years of in-depth reporting and cutting-edge research to paint a vivid and surprising portrait of the future of education. Carey explains how two trends—the skyrocketing cost of college and the revolution in information technology—are converging in ways that will radically alter the college experience, upend the traditional meritocracy, and emancipate hundreds of millions of people around the world. Insightful, innovative, and accessible, *The End of College* is a must-read, and an important contribution to the developing conversation about education in this country.

Foreword by lifelong Unitarian Universalist Melissa Harris-Perry, writer, professor, political commentator, and editor-at-large at Elle.com. Ferocious and funny, penetrating and exuberant, Theft is two-time Booker Prize-winner Peter Carey's master class on the things people will do for art, for love . . . and for money. "I don't know if my story is grand enough to be a tragedy, although a lot of shitty stuff did happen. It is certainly a love story but that did not begin until midway through the shitty stuff, by which time I had not only lost my eight-year-old son, but also my house and studio in Sydney where I had once been famous as a painter could expect in his own backyard. . ." So begins Peter Carey's highly charged and lewdly funny new novel. Told by the twin voices of the artist, Butcher Bones, and his "damaged two-hundred-and-twenty-pound brother" Hugh, it recounts their adventures and troubles after Butcher's plummeting prices and spiralling drink problem force them to retreat to New South Wales. Here the formerly famous artist is reduced to being a caretaker for his biggest collector, as well as nurse to his erratic brother. Then the mysterious Marlene turns up in Manolo Blahniks one stormy night. Claiming that the brothers' friend and neighbour owns an original Jacques Liebovitz, she soon sets in motion a chain of events that could be the making or ruin of them all. Displaying Carey's extraordinary flare for language, Theft is a love poem of a very different kind. Ranging from the rural wilds of Australia to Manhattan via Tokyo - and exploring themes of art, fraud, responsibility and redemption - this great novel will make you laugh out loud. A nation born of angels, vast and intricate and surrounded by danger... a woman born to servitude, unknowingly given access to the secrets of the

realm... Born with a scarlet mote in her left eye, Phédre nó Delaunay is sold into indentured servitude as a child. When her bond is purchased by an enigmatic nobleman, she is trained in history, theology, politics, foreign languages, the arts of pleasure. And above all, the ability to observe, remember, and analyze. Exquisite courtesan, talented spy... and unlikely heroine. But when Phédre stumbles upon a plot that threatens her homeland, Terre d'Ange, she has no choice. Betrayed into captivity in the barbarous northland of Skaldia and accompanied only by a disdainful young warrior-priest, Phédre makes a harrowing escape and an even more harrowing journey to return to her people and deliver a warning of the impending invasion. And that proves only the first step in a quest that will take her to the edge of despair and beyond. Phédre nó Delaunay is the woman who holds the keys to her realm's deadly secrets, and whose courage will decide the very future of her world. Not since Dune has there been an epic on the scale of Kushiel's Dart-a massive tale about the violent death of an old age and the birth of a new. It is a novel of grandeur, luxuriance, sacrifice, betrayal, and deeply laid conspiracies. A world of cunning poets, deadly courtiers, deposed rulers and a besieged Queen, a warrior-priest, the Prince of Travelers, barbarian warlords, heroic traitors, and a truly Machiavellian villainess... all seen through the unflinching eyes of an unforgettable heroine.
