The Legend of Dr. Kaminko by J.M. Sewall The town of Littleroot, Maine, is full of crazy urban myths, but one of the strangest is probably about a house on top of a hill, supposedly haunted by the ghost of the alleged mad scientist, Dr. Ivan Kaminko. But, of course, nobody's been able to prove it. It's just a silly legend, after all. There's no such thing as haunted houses or ghosts. Or so people say. When teenager Terry Welling decides to investigate Dr. Kaminko's house for history class, his best friend, Billy Martin, tries to tell him it's a bad idea. And when even the mayor, Angus Hamilton, tells him there's nothing to investigate, Terry becomes suspicious, so he and Billy, along with Billy's cousin, Casey, and her best friend Allison, decide to go inside the house, hoping to learn something useful. But once they step inside, they make discoveries about the house and its alleged owner beyond anything they ever imagined. Deep in the woods on top of a desolated hilltop, stood the most haunted cemetery ever known, called "Haunted Hills Cemetery." Legend has it, that in 1855, a man by the name of Jester Flats was the new Sheriff in town. One thing the townspeople had no idea about when Jester Flats was appointed the new Sheriff in the town of Deadsville was that the Sheriff had his own idea of how he wanted to bring law and order in the town of Deadsville. His way would be, by way of an axe. He was the most feared Sheriff the town of Deadsville has ever known. According to the son of the sheriff, just after he was born, Jester's wife was caught in bed with another man in his own home. Jester happened to forget his axe that day and never left home without it, but this day would be a day he'd never forget. Jester noticed a horse was tied to a tree next to his house. Jester didn't like the looks of it, so he cautiously opened the front door of his house. Jester heard laughter coming from his upstairs bedroom. Jester took his axe out of the closet and went upstairs to investigate. Jester slowly opened the bedroom door and there lying on his bed was his wife and another man. What do devil dogs, witches, haunted houses, Daniel Boone, Railroad Bill, "Justice John" Crutchfield, and lost silver mines have in common? All are among the subjects included in the vast collection of legends gathered between 1937 and 1942 by the field workers of the Virginia Writers Project of the WPA. For decades following the end of the project, these stories lay untouched in the libraries of the University of Virginia. Now, folklorist Thomas E. Barden brings to light these delightful tales, most of which have never been in print. Virginia Folk Legends presents the first valid published collection of Virginia folk legends and is endorsed by the American Folklore Society. Most residents believe there is only one horror lurking in this legendary haunted town -- the urban sprawl slowly eroding Arkham's old New England beauty. Rushing by neon signs and mega-marts on a quest to obtain even more material possessions, no one has time to notice the more disturbing, underlying qualities of the city -- the grotesque vegetation sprouting in some places, the sometimes-odd taste from the reservoir's drinking water, the disturbingly high rate of birth defects, and the too-frequent child abductions. Presents a history and critique of a selection of the famous ghost stories from different countries, organized by such common themes as spectral armies, phantom women in white, haunted houses, screaming skulls, crisis apparitions, and ghostly lights. That's what many are calling Old Louisville, an extensive preservation district with hundreds of old mansions and beautiful homes in Kentucky's largest city. Wherever you go in this eye-popping neighborhood, it seems that a haunted house is not far away. Or a haunted church, a haunted street corner, or a haunted park. Over the last decade, so many stories of paranormal activity have surfaced that Old Louisville has gained the reputation as being one of the spookiest locations in the country. David Dominé discovered this for himself after purchasing an old home on Old Louisville's famed Millionaires Row in 1999. A self-proclaimed skeptic, the food writer dismissed rumors of a mischievous resident poltergeist named Lucy when he moved in, but he quickly found himself at a loss to explain the disembodied footsteps and mysterious odors that seemed to plague the old house. Soon, he was talking to neighbors and fellow homeowners, and it seemed that everyone had stories of strange events and supernatural occurrences in their own dwellings. As a result, David set out to document and research these reports and began writing about the neighborhood; in the process he uncovered a wealth of fascinating history and ghostly tales that convinced him this historic neighborhood is like no other in the country. If you liked David Dominé's Ghosts of Old Louisville series, you'll love True Ghost Stories and Eerie Legends from America's Most Haunted Neighborhood. Edited and updated, this collection brings together the most popular and chilling tales from his previous books about one of the most fascinating neighborhoods in the country. This tourist destination is rich in folklore and legend—from rumors of a magical mountain volcano to the ghost of a white owl. Learn the stories and firsthand accounts of hauntings and the hard to explain. Listen to the voices winding through the hemlocks, or is it just the wind? Includes photos! "Ghosts are the only monsters that most people actually believe in." A folklorist friend of mine said this to me when I was in the early stages of working on this project. His words really colored the scope of this book, which in its entries not only explains certain ghost lore and ghost-related phenomena, but considers the psychological and sociological reasons that representations of the ghost exist almost by necessity in different cultures and throughout time. Of course, most of the entries deal with tales and motifs associated with legend and popular culture, but readers of this text should be cognizant that despite the nature of these tales, such stories of ghosts and hauntings are believed by many. This makes the ghost a different sort of monster. While there are extensive bodies of folklore about zombies and vampires, most people in modern societies do not believe them to be real--these same people who rationally deny the possible existence of vampires and zombies are also the same people who will admit, in confidence, that they experienced what they call a feeling, something not quite right, while touring a plantation home that is reputed to be haunted, or while explaining that they saw a parent's image, which appeared to them on the night of his/her death. The television genre that can be termed paranormal television attests to this belief in ghosts: the vast majority of these programs concern ghost hunters who go in search of the truth behind a legend of a haunting, or seek to debunk a medium who claims to be able to speak to the dead"-- The legend of the ghostly Bloody Mary involves seeing a woman's bloody image appear in the mirror. But where does this eerie legend originate? Some say she is the spirit of Queen Mary I of England. Queen Mary I wanted England to embrace Catholicism, and her bloody persecution of Protestants led to her nickname, Bloody Mary. No matter its origin, this spooky story has haunted people around the world for centuries.
