The Making of a Nation in the Balkans Jan 01 2021 "The book contains a presentation and critical consideration of the ideas of historians on the major problems, processes, events, and personalities of the era of the Bulgarian (national) Revival. It is dominated by the effort to understand how the Bulgarian Revival has been conceived of and imagined while keeping a certain distance from the various views presented, whether critical, ironic, or simply that inherent in the presentation of another person's view."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Dream of a Nation Sep 09 2021 Across the nation countless individuals and organizations are dreaming a new future. Dream of a Nation is a comprehensive resource for any reader interested in gaining critical information and deepening their role as an empowered citizen. This handbook provides statistics and accessible analyses of the many interconnected social and environmental issues we face with compelling stories of individuals and institutions that are creating the changes necessary

for our country to be more environmentally oriented, peaceful, equitable, and tolerant. Applicable for readers aged 16+ of all political and religious persuasions and anyone concerned with restoring balance in the world. The issues come alive through four color authentic images, and accessible graphics and illustrations. Contributors include: Alice Walker, Vice President Gore, Time 100 Visionary Geoffrey Canada, NASA Astronaut Jerry Linenger, Frances Moore Lappe, Union of Concerned Scientists, New America Foundation, United for a Fair Economy, Veterans for Peace (and nearly 50 more) Over 60 interconnected issues are explored and organized across twelve chapters including: Building an Equitable and Green Economy, Waging Peace, Citizen Leadership, Strengthening Community, Environmental Stewardship, Ending Poverty, Deepening Democracy, Improving Health, Media Reform, Key Education Innovations, Re-Imagining Business, and Creating a Nation that Shines. Dream of a Nation restores faith that humanity can solve our current looming environmental, economic and societal challenges.

The Measure of a Nation Oct 22 2022 Compares the United States with other affluent democracies in such areas as health, crime and violence, education, democracy, and equality, and suggests ways the country might improve its standing in these areas.

Letters of a Nation Aug 20 2022 Spanning 350 years of American history and culture, a collection of more than two hundred letters, many never before published, reveals the personalities and feelings of Americans great and small, from Amelia Earhart to Elvis Presley to Malcolm X. Reprint.

A Nation of Victims Nov 23 2022 Charles Sykes's ProfScam sparked a furious debate over the mission and the failure of our universities. Now he turns his attention to an even more controversial subject. A Nation of Victims is the first book on the startling decay of the American backbone and the disease that is causing it. The spread of victimism has been widely noted in the media; indeed, its symptoms have produced best-selling books, fueled television ratings, spawned hundreds of support groups, and enriched tens of thousands of lawyers across the country. The plaint of the victim - Its not my fault - has become the loudest and most influential voice in America, an instrument of personal and lasting political change. In this incisive, pugnacious, frequently hilarious book, Charles Sykes reveals a society that is tribalizing, where individuals and groups define themselves not by shared culture, but by their status as victims. Victims of parents, of families, of men, of women, of the workplace, of sex, of stress, of drugs, of food, of college reading lists, of personal physical characteristics - these and a host of other groups are engaged in an ever-escalating fight for attention, sympathy, money, and legal or governmental protection. What's going on and how did we get to this point? Sykes traces the inexorable rise of the therapeutic culture and

the decline of American self-reliance. With example after example, he shows how victimism has co-opted the genuine victories of the civil-rights movement for less worthy goals. And he offers hope: the prospect of a culture of renewed character, where society lends compassion to those who truly need it. Like Shelby Steele, Charles Murray, and Dinesh D'Souza, Charles Sykes defines the ground of what will be a significant national debate.

A Contested Nation Jun 25 2020 This book examines the ways in which the Swiss defined their national identity in the long nineteenth century, in the face of a changing domestic and international background. Its narrative begins in 1761, when the first Swiss patriotic society of national significance was founded, and ends in 1891, when the Swiss celebrated their 600-year existence as a nation in a monumental national festival. While conceding that the creation of a nation-state in 1848 marked a watershed in the history of Swiss nation-formation, the author does not focus one-sidedly - as many others have done - on the activities of the nationalizing state. Instead, he attributes a key role to the competitive and contentious struggles over the shaping of public institutions and over the symbolic representation of the nation. These struggles, to which the nation-state and civil society contributed in equal measure, were framed increasingly along national lines.

[The Founding of a Nation](#) Dec 20 2019 "This wonderfully rich volume challenges those who claim that political history is arid, narrow, or worse, irrelevant to our own concerns. Jensen's study explores popular political mobilization on the eve of American independence. It reconstructs the complex decisions that slowly, often painfully transformed a colonial rebellion into a genuine revolution. Jensen's well-paced narrative never loses sight of the ordinary men and women who confronted the most powerful empire in the world." --T.H. Breen, William Smith Mason Professor of American History, Northwestern University

Imagining a Nation Feb 20 2020 In *Imagining a Nation*, Ruramisai Charumbira analyzes competing narratives of the founding of Rhodesia/Zimbabwe constructed by political and cultural nationalists both black and white since occupation in 1890. The book uses a wide array of sources—including archives, oral histories, and a national monument—to explore the birth of the racialized national memories and parallel identities that were in vigorous contention as memory sought to present itself as history. In contrast with current global politics plagued by divisions of outsider and insider, patriot and traitor, Charumbira invites the reader into the liminal spaces of the region's history and questions the centrality of the nation-state in understanding African or postcolonial history today. Using an interdisciplinary methodology, Charumbira offers a series of case studies, bringing in characters from far-flung places to show that history and memory in and of one small place can have a far-reaching impact in the wider world. The questions raised by these stories go beyond the history of colonized or

colonizer in one former colony to illuminate contemporary vexations about what it means to be a citizen, patriot, or member of a nation in an ever-globalizing world. Rather than a history of how the rulers of Rhodesia or Zimbabwe marshaled state power to force citizens to accept a single definition of national memory and identity, *Imagining a Nation* shows how ordinary people invested in the soft power of individual, social, and collective memories to create and perpetuate exclusionary national myths. *Reconsiderations in Southern African History*

The Fall of a Nation Mar 23 2020 This Is A New Release Of The Original 1916 Edition.

Fabric of a Nation Jun 06 2021 A mother stitches a few lines of prayer into a bedcover for her son serving in the Union army during the Civil War. A formerly enslaved African American woman creates a quilt populated by Biblical figures alongside celestial events. A Diné woman weaves a blanket for a U.S. Army soldier stationed in the Southwest. A quilted Lady Liberty, George Washington, and Abraham Lincoln mark the resignation of Richard Nixon. These are just a few of the diverse and sometimes hidden stories of the American experience told by quilts and bedcovers from the collection of the Museum of Fine Arts, Boston. Spanning more than four hundred years, the fifty-six works of textile art in this book express the personal narratives of their makers and owners and connect to broader stories of global trade, immigration, industry, marginalization, and territorial and cultural expansion. Made by Americans of European, African, Native, and Hispanic heritage, these engaging works of art range from family heirlooms to acts of political protest, each with its own story to tell.

It Takes a Nation Apr 16 2022 "In this impeccably researched book, Rebecca Blank demonstrates that government aid has been far more effective in reducing poverty than most people think. *It Takes a Nation* argues that federal, state, and local assistance should go hand in hand with private efforts at community development and personal empowerment and change."-- Jacket

Song of a Nation May 25 2020 The greatest story never told, this formidable and gorgeously written biography documents the amazing and controversial short life of Calixa Lavallée--the composer of "O Canada"--and the tumult of 19th-century North America. He was a composer, a performer, an entrepreneur, and an educator; played pop and classical music; and appeared in his quasi-colonial society, tragically, just ahead of his time. Calixa Lavallee, the French Canadian composer of "O Canada," has a compelling, almost unbelievable personal story. He left home at 12 and worked as a blackface minstrel, travelling throughout the United States for more than a decade; he fought and was injured in the American Civil War in perhaps the most important battle of that war, at Antietam Creek; performed for President Lincoln several times; produced the first opera in Quebec and wrote two of his own; became a leading figure in American music education, representing

American music in London; journeyed to Paris to study for two years; tried and failed to create a Quebec national conservatory. And he wrote our national anthem. But Lavallée also represents all the contradictions and confusions of Canadian identity as our country came together in the last half of the nineteenth century. To understand "O Canada," and to understand the man who wrote it, is to return to the Canada of the mid-nineteenth century, a Canada just forming as a nation, bringing together ancient racial hatreds and novel political possibilities, as culture faced culture, religion faced religion, economy faced economy. Calixa Lavallée is the most famous Canadian you have never heard of, living a life and ultimately composing a song that stands the test of time.

Soul of a Nation Dec 24 2022 In the period of radical change that was 1963-83, young black artists at the beginning of their careers in the USA confronted key questions and pressures. How could they make art that would stand as innovative, original, formally and materially complex, while also making work that reflected their concerns and experience as black Americans? This significant new publication, accompanying an exhibition at Tate Modern, surveys this crucial period in American art history, bringing to light previously neglected histories of twentieth-century black artists, including Sam Gilliam, Melvin Edwards, Jack Whitten, William T. Williams and Frank Bowling. This book features substantial essays from co-curators Mark Godfrey and Zoe Whitley, writing on abstraction and figuration respectively. It will also explore the art historical and social contexts with subjects including black feminism; AfriCOBRA and other artist-run groups; the role of museums in the debates of the period; and where visual art sat in relation to the Black Arts Movement. 00Exhibition: Tate Modern, London, United Kingdom (12.07.2017-22.10.2017).

Fabric of a Nation Jul 07 2021 In 2014, College Board rolled out a new AP® U.S. History course, which centered less on memorizing content and more on developing skills. Since then, the course has been modified here and there, but very little has changed in AP® textbooks--content is still king. Until now. Fabric of a Nation is the first book to truly embrace this dramatic shift in the AP® course and in how history is taught. Built from the ground up by long-time AP® leaders Jason Stacy and Matthew Ellington, this book offers a new approach to AP® US History by seamlessly integrating: A brief historical narrative AP® skills practice Primary source documents Exact alignment to the AP® course Now, that's revolutionary!

A Nation Within Aug 28 2020 Examines land-use patterns and economic development on the Navajo Nation, telling a story about resource exploitation and tribal sovereignty.

D.W. Griffith's the Birth of a Nation Apr 28 2023 In this deeply researched and vividly written volume, Melvyn Stokes

illuminates the origins, production, reception and continuing history of this ground-breaking, aesthetically brilliant, and yet highly controversial movie. By going back to the original archives, particularly the NAACP and D. W. Griffith Papers, Stokes explodes many of the myths surrounding *The Birth of a Nation* (1915). Yet the story that remains is fascinating: the longest American film of its time, Griffith's film incorporated many new features, including the first full musical score compiled for an American film. It was distributed and advertised by pioneering methods that would quickly become standard. Through the high prices charged for admission and the fact that it was shown, at first, only in "live" theaters with orchestral accompaniment, *Birth* played a major role in reconfiguring the American movie audience by attracting more middle-class patrons. But if the film was a milestone in the history of cinema, it was also undeniably racist. Stokes shows that the darker side of this classic movie has its origins in the racist ideas of Thomas Dixon, Jr. and Griffith's own Kentuckian background and earlier film career. The book reveals how, as the years went by, the campaign against the film became increasingly successful. In the 1920s, for example, the NAACP exploited the fact that the new Ku Klux Klan, which used Griffith's film as a recruiting and retention tool, was not just anti-black, but also anti-Catholic and anti-Jewish, as a way to mobilize new allies in opposition to the film. This crisply written book sheds light on both the film's racism and the aesthetic brilliance of Griffith's filmmaking. It is a must-read for anyone interested in the cinema.

The Beginners of a Nation Sep 28 2020 This Is A New Release Of The Original 1899 Edition. A History Of The Source And Rise Of The Earliest English Settlements In America With Special Reference To The Life And Character Of The People.

Nation Within a Nation Apr 04 2021 From the Constitutional Convention to the Civil War to the civil rights movement, the South has exerted an outsized influence on American government and history while being distinctly anti-government. It continues to do so today with Tea Party politics. Southern states have profited immensely from federal projects, tax expenditures, and public spending, yet the region's relationship with the central government and the courts can, at the best of times, be described as contentious. *Nation within a Nation* features cutting-edge work by lead scholars in the fields of history, political science, and human geography, who examine the causes--real and perceived--for the South's perpetual state of rebellion, which remains one of its most defining characteristics. *Nation within a Nation* features cutting-edge work by lead scholars in the fields of history, political science, and human geography who examine the causes--real and perceived--of the South's perpetual state of rebellion, which remains one of its most defining characteristics.

The Invention of a Nation Nov 11 2021 A comprehensive overview of the various ideologies that constitute Zionism,

ranging from Marxist-Zionism to National Religious Zionism to that of the far-right Abba Achimeir. This book makes explicit the debt the Zionists owed to French thinkers and European ideologues, notably those associated with the French Revolution and the Enlightenment.

Symbol of a Nation Jan 21 2020 Furry anthology showcasing stories using the national animals of different countries and cities.

Soul of a Nation Mar 03 2021 Published on the occasion of an exhibition of the same name held at Tate Modern, London, July 12-October 22, 2017; Crystal Bridges Museum of American Art, Bentonville, Arkansas, February 3-April 23, 2018; and Brooklyn Museum, New York, September 7, 2018-February 3, 2019.

The Soul of a Nation Feb 26 2023 In *The Soul of a Nation: America as a Tradition of Inquiry and Nationhood*, Chris Altieri contends that the *forma mentis* of the founders of the political society often viewed--by its members and by those external to it--as the non plus ultra of modernity, i.e., the United States of America, is really steeped in the more ancient tradition of thinking that began in Athens and continued through the Christian centuries. Engaging the twentieth-century philosophers Eric Voegelin, Alasdair MacIntyre, and Stanley Cavell--in critical conversation with the founding fathers--the author shows that a broad conversation regarding the constitution of society is constitutively present in the public discourse of the people that began to recognize itself during the imperial crisis of the late eighteenth-century British America; that the participants in that conversation have at least an inchoate awareness of society as at once cosmic and anthropological; and that that political society is therefore an apt field of study in and for the general science of order.

The Wealth of a Nation May 17 2022 The United States is entering a period of profound uncertainty in the world political economy--an uncertainty which is threatening the liberal economic order that its own statesmen created at the end of the Second World War. The storm surrounding this threat has been ignited by an issue that has divided Americans since the nation's founding: international trade. Is America better off under a liberal trade regime, or would protectionism be more beneficial? The issue divided Alexander Hamilton from Thomas Jefferson, the agrarian south from the industrializing north, and progressives from robber barons in the Gilded Age. In our own times, it has pitted anti-globalization activists and manufacturing workers against both multinational firms and the bulk of the economics profession. Ambassador C. Donald Johnson's *The Wealth of a Nation* is an authoritative history of the politics of trade in America from the Revolution to the Trump era. Johnson begins by charting the rise and fall of the U.S. protectionist system from the time of Alexander Hamilton to the Smoot-Hawley Tariff of 1930. Challenges to protectionist dominance were frequent and often serious, but the

protectionist regime only faded in the wake of the Great Depression. After World War II, America was the primary architect of the liberal rules-based economic order that has dominated the globe for over half a century. Recent years, however, have seen a swelling anti-free trade movement that casts the postwar liberal regime as anti-worker, pro-capital, and--in Donald Trump's view--even anti-American. In this riveting history, Johnson emphasizes the benefits of the postwar free trade regime, but focuses in particular on how it has attempted to advance workers' rights. This analysis of the evolution of American trade policy stresses the critical importance of the multilateral trading system's survival and defines the central political struggle between business and labor in measuring the wealth of a nation.

The Evolution of a Nation Jan 25 2023 The book also examines the effects of early legal systems.

A Nation of Nations Jan 13 2022 “An incisive look at immigration, assimilation, and national identity” (Kirkus Reviews) and the landmark immigration law that transformed the face of the nation more than fifty years ago, as told through the stories of immigrant families in one suburban county in Virginia. In the years since the 1965 Immigration and Nationality Act, the foreign-born population of the United States has tripled. Americans today are vastly more diverse than ever. They look different, speak different languages, practice different religions, eat different foods, and enjoy different cultures. In 1950, Fairfax County, Virginia, was ninety percent white, ten percent African-American, with a little more than one hundred families who were “other.” Currently the Anglo white population is less than fifty percent, and there are families of Asian, African, Middle Eastern, and Latin American origin living all over the county. “In A Nation of Nations, National Public Radio correspondent Tom Gjelten brings these changes to life” (The Wall Street Journal), following a few immigrants to Fairfax County over recent decades as they gradually “Americanize.” Hailing from Korea, Bolivia, and Libya, the families included illustrate common immigrant themes: friction between minorities, economic competition and entrepreneurship, and racial and cultural stereotyping. It’s been half a century since the Immigration and Nationality Act changed the landscape of America, and no book has assessed the impact or importance of this law as A Nation of Nations. With these “powerful human stories...Gjelten has produced a compelling and informative account of the impact of the 1965 reforms, one that is indispensable reading at a time when anti-immigrant demagoguery has again found its way onto the main stage of political discourse” (The Washington Post).

Birth of a Nation'hood Mar 27 2023 Co-edited and introduced by Toni Morrison, winner of the Nobel Prize in Literature, Birth of a Nation'hood elucidates as never before the grim miasma of the O.J. Simpson case, which has elicited gargantuan fascination. As they pertain to the scandal, the issues of race, sex, violence, money, and the media are refracted through

twelve powerful essays that have been written especially for this book by distinguished intellectuals--black and white, male and female. Together these keen analyses of a defining American moment cast a chilling gaze on the script and spectacle of the insidious tensions that rend our society, even as they ponder the proper historical, cultural, political, legal, psychological, and linguistic ramifications of the affair. With contributions by: Toni Morrison, George Lipsitz, A. Leon Higginbotham, Jr., with Aderson Bellegarde Francois and Linda Y. Yueh, Nikol G. Alexander and Drucilla Cornell, Kimberlé Williams Crenshaw, Ishmael Reed, Leola Johnson and David Roediger, Andrew Ross, Patricia J. Williams, Ann duCille, Armond White, Claudia Brodsky Lacour

Pieces of a Nation Mar 15 2022 South Sudan became independent in 2011 after decades of rebel wars with the Government of Sudan. Independence prompted discussions about South Sudanese identity and shared history, in which material objects and cultural heritage featured as vitally important resources. However, the long-term effects of colonialism and conflict had largely precluded any concerted attempts to preserve material culture within the country; museums remained in Khartoum, the capital of the formally united Sudan. Furthermore, tens of thousands of objects had been removed from what is now South Sudan during the nineteenth and twentieth centuries to museum and private collections around the world. Up to now there have been few attempts to reconnect the history of these South Sudanese museum collections with people in or from South Sudan. *Pieces of a Nation* is the first extended study of South Sudanese material cultural heritage in museum collections and beyond. The chapters discuss a range of different objects and practices - from museum objects taken from South Sudan in the context of enslavement and colonialism in the nineteenth and twentieth centuries to efforts by South Sudanese to preserve their country's cultural heritage during recent conflicts. With essays by 32 contributors in Europe, South Sudan, Uganda, and Australia, this book delivers a unique range of perspectives on museum objects from South Sudan and on heritage practices in the country and among its diaspora. Written by curators, academics, heritage professionals, and artists in accessible and engaging style, it is intended for scholars, museum professionals, and a wide range of individuals interested in South Sudan, African arts and cultures, the history of museum collecting and colonialism, and/or the role of material heritage in peacebuilding and refugee contexts. At a time of widespread, prominent debates over the provenance of museum collections from Africa and calls for restitution, this book provides an in-depth empirical study of the circumstances and practices that led to South Sudanese objects entering foreign museum collections and the importance of these objects in South Sudan and around the world today.

[The Birth of a Nation](#) Sep 21 2022 This official tie-in to the highly acclaimed film, *The Birth of a Nation*, surveys the history

and legacy of Nat Turner, the leader of one of the most renowned slave rebellions on American soil, while also exploring Turner's relevance to contemporary dialogues on race relations. Based on astounding events in American history, *The Birth of a Nation* is the epic story of one man championing the spirit of resistance as he leads a rough-and-tumble group into a revolt against injustice and slavery. Breathing new life into a story that has been rife with controversy and prejudice for over two centuries, the film follows the rise of the visionary Virginian slave, Nat Turner. Hired out by his owner to preach to and placate slaves on drought-plagued plantations, Turner eventually transforms into an inspired, impassioned, and fierce anti-slavery leader. Beautifully illustrated with stills from the movie and original illustrations, the book also features an essay by writer/director, Nate Parker, contributions by members of the cast and crew, and commentary by educator Brian Favors and historians Erica Armstrong Dunbar and Daina Ramey Berry who place Nat Turner and the rebellion he led into historical context. *The Birth of a Nation* reframes the way we think about slavery and resistance as it explores the passion, determination, and faith that inspired Nat Turner to sacrifice everything for freedom.

AMERICA Oct 10 2021 *AMERICA* takes a fresh and compelling look at the birth of our nation, with lavish illustrations and interactive novelty spreads on every page. Revealed through the lens of an anonymous journal, readers will take a chronological journey through watershed moments of American History. From the Founding Fathers' signing of the Declaration of Independence through current events of the 21st century, *AMERICA* offers an in-depth look at the making of our nation in an accessible volume that will speak to readers of every age. Chockfull of innovative novelty components, including lift-the-flap postcards, removable song lyrics, and even a foldout replica of the Declaration of Independence, *AMERICA* offers readers a captivating exploration of the ideals and values our nation was built upon.

Ataturk Aug 08 2021

Map of a Nation Jul 19 2022 This “absorbing history of the Ordnance Survey”—the first complete map of the British Isles—“charts the many hurdles map-makers have had to overcome” (The Guardian, UK). *Map of a Nation* tells the story of the creation of the Ordnance Survey map, the first complete, accurate, affordable map of the British Isles. The Ordnance Survey is a much beloved British institution, and this is—amazingly—the first popular history to tell the story of the map and the men who dreamt and delivered it. The Ordnance Survey's history is one of political revolutions, rebellions and regional unions that altered the shape and identity of the United Kingdom over the eighteenth and nineteenth centuries. It's also a deliciously readable account of one of the great untold British adventure stories, featuring intrepid individuals lugging brass theodolites up mountains to make the country visible to itself for the first time.

A Nation of Immigrants Dec 12 2021 “In this book, President Kennedy tells us what immigrants have done for America, and what America has done for its immigrants. It is one of the dramatic success stories of world history.... It can stand as a testament to a cause President Kennedy cherished, and which we should carry on.” — Robert F. Kennedy Throughout his presidency, John F. Kennedy was passionate about the issue of immigration reform. He believed that America is a nation of people who value both tradition and the exploration of new frontiers, deserving the freedom to build better lives for themselves in their adopted homeland. This 60th anniversary edition of his posthumously published, timeless work—with a foreword by Jonathan Greenblatt, the National Director and CEO of the ADL, formerly known as the Anti-Defamation League—offers President Kennedy’s inspiring words and observations on the diversity of America’s origins and the influence of immigrants on the foundation of the United States. The debate on immigration persists. Complete with updated resources on current policy, this new edition of A Nation of Immigrants emphasizes the importance of the collective thought and contributions to the prominence and success of the country.

The Beginners of a Nation Apr 23 2020

The Birth of a Nation Jul 27 2020 Over one hundred years since it premiered on cinema screens, D. W. Griffith's controversial photoplay The Birth of a Nation continues to influence American film production and to have relevance for race relations in the United States. This work challenges the idea the United States has moved beyond racial problems and highlights the role of film and representation in the continued struggle for equality.

A Colony in a Nation Jun 18 2022 New York Times Bestseller New York Times Book Review Editors’ Choice "An essential and groundbreaking text in the effort to understand how American criminal justice went so badly awry." —Ta-Nehisi Coates, author of Between the World and Me In A Colony in a Nation, New York Times best-selling author and Emmy Award-winning news anchor Chris Hayes upends the national conversation on policing and democracy. Drawing on wide-ranging historical, social, and political analysis, as well as deeply personal experiences with law enforcement, Hayes contends that our country has fractured in two: the Colony and the Nation. In the Nation, the law is venerated. In the Colony, fear and order undermine civil rights. With great empathy, Hayes seeks to understand this systemic divide, examining its ties to racial inequality, the omnipresent threat of guns, and the dangerous and unfortunate results of choices made by fear.

The Evolution of a Nation Nov 30 2020 Although political and legal institutions are essential to any nation's economic development, the forces that have shaped these institutions are poorly understood. Drawing on rich evidence about the development of the American states from the mid-nineteenth to the late twentieth century, this book documents the

mechanisms through which geographical and historical conditions--such as climate, access to water transportation, and early legal systems--impacted political and judicial institutions and economic growth. The book shows how a state's geography and climate influenced whether elites based their wealth in agriculture or trade. States with more occupationally diverse elites in 1860 had greater levels of political competition in their legislature from 1866 to 2000. The book also examines the effects of early legal systems. Because of their colonial history, thirteen states had an operational civil-law legal system prior to statehood. All of these states except Louisiana would later adopt common law. By the late eighteenth century, the two legal systems differed in their balances of power. In civil-law systems, judiciaries were subordinate to legislatures, whereas in common-law systems, the two were more equal. Former civil-law states and common-law states exhibit persistent differences in the structure of their courts, the retention of judges, and judicial budgets. Moreover, changes in court structures, retention procedures, and budgets occur under very different conditions in civil-law and common-law states. The Evolution of a Nation illustrates how initial geographical and historical conditions can determine the evolution of political and legal institutions and long-run growth.

A People and a Nation Oct 30 2020 Developed to meet the demand for a low-cost, high-quality history book, this economically priced version of A PEOPLE AND A NATION, Tenth Edition, offers readers the complete narrative while limiting the number of features, photos, and maps. All volumes feature a paperback, two-color format that appeals to those seeking a comprehensive, trade-sized history book. A PEOPLE AND A NATION is a best-selling text offering a spirited narrative that tells the stories of all people in the United States. The authors' attention to race and racial identity and their inclusion of everyday people and popular culture brings history to life, engaging readers and encouraging them to imagine what life was really like in the past.

Germany Feb 02 2021 For the past 140 years, Germany has been the central power in continental Europe. Twenty-five years ago a new German state came into being. How much do we really understand this new Germany, and how do its people understand themselves? Neil MacGregor argues that, uniquely for any European country, no coherent, overarching narrative of Germany's history can be constructed, for in Germany both geography and history have always been unstable. Its frontiers have constantly shifted. Königsberg, home to the greatest German philosopher, Immanuel Kant, is now Kaliningrad, Russia; Strasbourg, in whose cathedral Wolfgang von Goethe, Germany's greatest writer, discovered the distinctiveness of his country's art and history, now lies within the borders of France. For most of the five hundred years covered by this book Germany has been composed of many separate political units, each with a distinct history. And any comfortable national

story Germans might have told themselves before 1914 was destroyed by the events of the following thirty years. German history may be inherently fragmented, but it contains a large number of widely shared memories, awarenesses, and experiences; examining some of these is the purpose of this book. MacGregor chooses objects and ideas, people and places that still resonate in the new Germany—porcelain from Dresden and rubble from its ruins, Bauhaus design and the German sausage, the crown of Charlemagne and the gates of Buchenwald—to show us something of its collective imagination. There has never been a book about Germany quite like it.

A Nation within a Nation May 05 2021 Poet and playwright Amiri Baraka is best known as one of the African American writers who helped ignite the Black Arts Movement. This book examines Baraka's cultural approach to Black Power politics and explores his role in the phenomenal spread of black nationalism in the urban centers of late-twentieth-century America, including his part in the election of black public officials, his leadership in the Modern Black Convention Movement, and his work in housing and community development. Komozi Woodard traces Baraka's transformation from poet to political activist, as the rise of the Black Arts Movement pulled him from political obscurity in the Beat circles of Greenwich Village, swept him into the center of the Black Power Movement, and ultimately propelled him into the ranks of black national political leadership. Moving outward from Baraka's personal story, Woodard illuminates the dynamics and remarkable rise of black cultural nationalism with an eye toward the movement's broader context, including the impact of black migrations on urban ethos, the importance of increasing population concentrations of African Americans in the cities, and the effect of the 1965 Voting Rights Act on the nature of black political mobilization.

Death of a Nation Feb 14 2022 Now a major motion picture! Who is killing America? Is it really Donald Trump and a GOP filled with white supremacists? In a major new work of historical revisionism, Dinesh D'Souza makes the provocative case that Democrats are the ones killing America by turning it into a massive nanny state modeled on the Southern plantation system. This sweeping alternative history of the Democratic Party goes back to its foundations in the antebellum South. The slaveholding elite devised the plantation as a means of organizing labor and political support. It was a mini welfare state, a cradle to grave system that bred dependency and punished any urge to independence. This model impressed northern Democrats, inspiring the political machines that traded government handouts for votes from ethnic immigrant blocs. Today's Democrats have expanded to a multiracial plantation of ghettos for blacks, barrios for Latinos, and reservations for Native Americans. Whites are the only holdouts resisting full dependency, and so they are blamed for the bigotry and racial exploitation that is actually perpetrated by the left. *Death of a Nation's* bracing alternative vision of American history

explains the Democratic Party's dark past, reinterprets the roles of figures like Van Buren, FDR and LBJ, and exposes the hidden truth that racism comes not from Trump or the conservative right but rather from Democrats and progressives on the left.
