**What I'd Teach Your Horse** Jun 26 2020 Question: "I just bought a horse. What do I do now?" Answer: "Buy my book, 'What I'd Teach Your Horse.'" If I had a dollar for every email I get asking "what to do" to make a riding horse out of the mare Uncle Emo just traded for the old RV - or how to retrain a horse that's grown rusty - or some version on either theme, I'd be the world's first gazillionaire. With the publication of this book then, I'm hoping to grab that distinction. If you broke your horse to saddle and rode it for the first time yesterday, this book (chapter 1) is where you'd start tomorrow. If you have an older horse and you've taught him everything you know and he still don't know nothin', this book is where you'd start, (chapter 2). It's a roadmap to building the foundation every horse needs, regardless of age, breed or background, regardless of what you've got ultimately planned for that horse. Afterwards, when your horse knows this book back to front, go train for barrels, roping, eventing, jumping or dressage. But today, basics are basics. Section I is the stuff your horse needs to know. Section II is the stuff (the theory) you need to know. Practice the first handful of chapters in order, as written. Beyond that, you should feel free to mix and match depending on your needs or abilities. Some chapters are dependent upon others - but in those cases, I've spelled out necessary prerequisites. Contents: SECTION I BASICALLY TRAINING YOUR HORSE - Legs Mean Move (Step 1 if This Is "Day 2" for Your Young Horse) - Hip Control, Part I - Hip Control, Part II - Classic Serpentine - Train Your Horse to Travel Straight - Clockwork: How to Teach Anything to Your Horse - Shoulder Control - The Reverse Arc Circle - How to Fix Leaning Shoulders - Serpentine: Indirect to Direct - Speed Control - Slow Down, Part I: Move the Hip - Slow Down, Part II: Wherein We Train the Brain - Balking Horses: Comatose One Minute, Hot to Trot the Next - Crossing Creeks and Scary Stuff - Teach Your Horse to Lower Its Head While Standing - Better Back Ups - Simple Steps to Power Steering - Diagonal Movement ("Leg Yields Without the Legs") - Softening - Getting Leads - A Fix for Cross-Firing (aka "Cross-Cantering") - Hips-in (aka "Haunches-in" or "Travers") - Neck Reining How-To SECTION II TEACHING YOU, THE THEORY BEHIND THE PRACTICE - The First Thing I Do Here's the first thing you should do with your horse today. - Each Time You Mount Up, Do This Here's a small thing you can do to keep your horse's attitude in check. - How to Pick Up Your Reins Like a Pro How to pick up, handle, and release your reins - Training Magic: Release on the Thought Two days from now your friends at the barn will be blown away by the overnight improvements you've made. - What You're Feeling For A trained horse will read your body language and act. - Learning When things are going awry, it's often because something small hasn't been taught. - Reins Tell Direction, Legs Tell Speed Maybe you're burning out your cues, using them as both a "heads-up" and motivator. - Talking Horse Tell your horse exactly what you were looking for when you're riding. - See Yourself Leading When Riding One simple change you can make for big changes immediately. - Perfect the First Time Here's how to soften your horse quickly. - Six Easy Ways to Improve Your Training Here are 6 training tips to simplify your training and make big changes fast. - Rider Checklists Here are 3 "Rider Checklists." Together, they'll keep you safer—and accelerate your training. - Diagnosing Problems Which cues is your horse ignoring? Second Edition

**Clinton Anderson Philosophy** Oct 31 2020 The key to enjoying a safe, fun, and fulfilling partnership with your horse is having the knowledge and confidence to lead and train him. All great partnerships are based on three elements: trust, respect, and communication. Whenever one element is lacking, the partnership fails to form or ceases to exist. When it comes to interacting with horses, we unintentionally tend to be our own worst enemies. By design, horses and humans perceive the world from opposite ends of the scale: horses are prey animals with an ingrained flight or fight response, and humans are predators. Because of this, before you train a horse, you have to understand basic horse psychology and what makes your horse tick. When you know how the horse processes his thoughts and why he does the things that he does, both good and bad, you can accomplish anything. If you don't understand how your horse perceives the world around him, then you will struggle with your horsemanship goals. Clinician Clinton Anderson knows good horsemanship isn't always easy. With over 20 years of experience working with horses and helping people safely train them, Clinton has become an expert at bringing out the best in both. In this highly illustrated book, he shares his philosophy, knowledge and wisdom, detailing what he feels every person should know about horses before working with them. Breaking down the crucial elements of his method of horsemanship, Clinton explains how to become an effective leader that your horses will look to for guidance and how to successfully start a mutually enjoyable partnership. Readers will learn what motivates horses, the basics of respect and why it must be established, and the role pressure and body language play in communicating. Clinton prescribes a tried-and-true formula to train a well broke horse and discusses the three elements that go into becoming an all-around great horseman. Filled with commonsense explanations and personal anecdotes from Clinton's life, the lessons in Philosophy provide the instruction and inspiration needed to help you achieve your horsemanship dreams.

**Horse Sense and the Human Heart** Dec 01 2020 Can horses really teach us to be better human beings? In this groundbreaking work, you will discover that the answer is a resounding "Yes". While working with severely disturbed youths, therapists Adele and Deborah McCormick discovered the best healers were their herd of Peruvian Paso horses. Through their work with horses, the McCormicks' patients were initiated into the hidden world of animal energy and instinct, and found a safe and natural way to learn about their own dualistic natures. Patients learned to tap into their primal "animal" mind and energies and apply them toward more creative and responsible living. What took days or months to uncover in an office setting took onyl minutes when patients were on a horse. You will read case after fascinating case of people discarded by society and the psychiatric community whose lives were turned around by the intuitive guidance and friendship of their equine therapists. What People are saying...

"This book got me. It is about personal growth and the cultivation of wisdom, and is one of the wisest contributions I have come across in years...Its implications for healing are utterly profound. Horse Sense and the Human Heart is a breakthrough work." -- Larry Dossey, M.D. author Prayer is Good Medicine and Healing Words "Horse Sense and the Human Heart is an eye-opening and heartwarming adventure. In sharing their pioneering therapeutic discoveries, Adele and Deborag McCormick take us on a shamanic interspecies odyssey. They reveal a secret world governed by wise equine masters, availalbe to help heal our psyches, and guide the human spirit on its journey toward wholeness." --David Jay Brown, author, Brainchild and Mavericks of the Mind

**Horse Sense for the Leader Within** May 06 2021 Horse Sense for the Leader Within is a must read for everyone! With innovative vision and grounded experience, Ariana Strozzi bridges two seemingly different worlds, creating a powerful new platform for human development, growth and learning. She eloquently reveals how horses mirror our inner world and provide dramatic, transformative shifts in the way we perceive ourselves. Strozzi takes the reader on a journey into the natural world where a wealth of knowledge already exists about what it means to be a leader of one's life. She defines a path to leadership that begins with understanding ourselves from a biological perspective. Leadership as followership comes to life as she encourages the reader to step

outside of the human's narrow view of leadership. "Are you leading your life or is it leading you?" becomes the topic of exploration. By becoming aware of our animal nature and our innate drive for survival, we develop the capacity to respond with choice versus react to the pressures of life. The journey continues with insights into the powerful elements of intuitive and emotional intelligence and the significance of nonverbal communication. Ariana demonstrates how horses reflect our patterns of behavior, thought, perceptions and performance in a thousand pounds of visual imagery. They show us the gap between how we actually present ourselves to others distinct from how we think we are being. They ask, "Who is leading?" and expect us to know what we care about and believe in ourselves. In so doing, they help us understand that leadership begins with the self we are. Horses teach us how to find self-acceptance in a world of judgment. As we learn to think more like a horse, we develop our intuitive imagination and can create new possibilities for our lives. Rather than focusing on what is wrong with us, we shift our attention towards what we are naturally good at. On this path of becoming, we focus on staying connected to what has meaning and purpose.

**Equipping Your Horse Farm** Feb 21 2020 Cherry Hill and Richard Klimesh provide in-depth information on every aspect of selecting, maintaining, and using the most essential pieces of equipment on any horse farm — tractors, horse trailers, and trucks. They also discuss the smaller farm implements that many farms use, including loaders, discs, harrows, manure spreaders, mowers, post-hole diggers, hay balers, and wagons. Equipping Your Horse Farm is an authoritative, comprehensive handbook that every horse farmer will want to consult before investing in farm equipment.

**What's the Most Beautiful Thing You Know about Horses?** Mar 16 2022 On January's coldest day of the year in a small community in the Northwest Territories, a stranger to horses searches among family and friends for answers to an important question. It's forty below in the little town of Fort Smith in the Northwest Territories of Canada -- so cold that the ravens refuse to fly and author Richard Van Camp can't go outside. He belongs to the Dogrib tribe, whose people traditionally haven't used horses. To help pass the time, he decides to pose the question, "What's the most beautiful thing you know about horses?" to family members, friends, and artist George Littlechild, who is Plains Cree and knows a lot about horses. The answers range from zany to profound: Horses can run sideways; they have secrets; they can always find their way home. In this delightful new book, Littlechild's fanciful paintings perfectly capture Van Camp's gentle world-view. Together, they inspire readers to see the world in entirely new ways.

**Knowing Your Horse** Apr 29 2023 If you understand how your horse learns and why your training is effective, you can train faster, more ethically, and more sympathetically. **Know Your Horse** May 26 2020 Aiming to bridge the gap between the mathematical treatment often used by specialist control engineers and the (necessarily) narrow descriptive literature of a particular manufacturer, this book covers the requirements of DoT and all BTEC and SCOTVEC syllabuses for Marine Engineer Officers and Cadets. Test examples and specimen exam questions are provided, along with many explanatory diagrams. This book is written primarily for those with a good general engineering background who have had little experience in instrumentation and control. It favours marine engineering, but students and engineers in other industries should find it a useful reference as the subject has a common basis. The text is presented from basic principles, using analogues where appropriate.
