We know the test: The Kaplan MCAT team has spent years studying every MCAT-related document available, and our experts ensure our practice questions and study materials are true to the test Comprehensive, Rigorous Prep for the MCAT At 1,162 pages, the MCAT Prep Course offers the most comprehensive and rigorous analysis of the MCAT available. Including, 1,059 practice problems! 103 MCAT-style passages, and detailed solutions to all problems! The MCAT is one of few college entrance exams that actually tests some of the subjects you will study: Biology, Chemistry, and Physics. At 6 1/4 hours, it is also one of the longest tests. For this reason, we have written the most comprehensive analysis of the MCAT Biology, Chemistry, Physics, and Verbal sections available. The MCAT has the reputation of being one of the hardest entrance exams given; it is a reputation well earned. This should not discourage you; rather it should motivate you to take the test seriously and study for it assiduously. Although the MCAT is a difficult test, it is a very learnable test. The classic MCAT Prep Course presents a clear, insightful analysis of the MCAT. Its lively prose and subtle wit makes this challenging test more palatable. The review sections are written in a user-friendly manner to simplify and reduce the student's burden when deciphering difficult concepts. At the end of each chapter, MCAT-style practice questions are included to test understanding of key concepts. Answers and explanations for the practice questions are provided after the review sections. Illustrations and tables are included wherever necessary to focus and clarify the key ideas and concepts. Garrett Biehle received his Ph.D. from Caltech. Nancy Morvillo received her Ph.D. from the State University of New York at Stony Brook. Matthew Schmidt received his Ph.D. from the State University of New York at Stony Brook. Kaplan's MCAT Biology Review 2022-2023 offers an expert study plan, detailed subject review, and hundreds of online and in-book practice questions--all authored by the experts behind the MCAT prep course that has helped more people get into medical school than all other major courses combined. Prepping for the MCAT is a true challenge. Kaplan can be your partner along the way--offering guidance on where to focus your efforts and how to organize your review. This book has been updated to match the AAMC's guidelines precisely--no more worrying about whether your MCAT review is comprehensive The Most Practice More than 350 questions in the book and access to even more online--more practice than any other MCAT biology book on the market. The Best Practice Comprehensive biology subject review is written by top-rated, award-winning Kaplan instructors. Full-color, 3-D illustrations from Scientific American, charts, graphs and diagrams help turn even the most complex science into easy-to-visualize concepts. All material is vetted by editors with advanced science degrees and by a medical

doctor. Online resources, including a full-length practice test, help you practice in the same computer-based format you'll see on Test Day. Expert Guidance High-yield badges throughout the book identify the top 100 topics most tested by the AAMC. We know the test: The Kaplan MCAT team has spent years studying every MCAT-related document available. Kaplan's expert psychometricians ensure our practice questions and study materials are true to the test. The only book on the market with updated content and tests that actually mirror what students will see on test day, along with strategies for each test section. While 18,036 students were accepted to medical school in 2008, more than 42,000 applied. Since the MCAT is the top factor admissions committees consider when reviewing applicants for medical school, MCAT Practice Tests is the ideal guide for the most test-like practice. It is the only guide on the market with updated content and tests that actually mirror what students will see on test day, and includes strategies for each test section: Physical Sciences, Biological Sciences, Organic Chemistry, General Chemistry, and Verbal. More men and women are admitted to medical school with a Kaplan MCAT course than any other curriculum of its kind. This is why our guide is created by the same team of MDs, PhDs, scientists, and test-preparation experts responsible for Kaplan's highly regarded MCAT course. In fact, students enrolled in Kaplan's popular MCAT courses overwhelmingly report that they want more practice tests to help them prepare for the difficult exam. This book includes: Two full-length practice tests with detailed answer explanations The latest test information Six full chapters of strategies for each major section of the test EXTRA PRACTICE FOR MCAT MASTERY. The Mometrix guide is filled with the critical information you will need in order to do well on your MCAT exam: the concepts, procedures, principles, and vocabulary that the Association of American Medical Colleges (AAMC) expects you to have mastered before sitting for your exam. Test sections include: \* Biological and Biochemical Foundations of Living Systems \* Chemical and Physical Foundations of Biological Systems \* Psychological, Social, and Biological Functions \* Critical Analysis and Reasoning Skills ...and much more! Our guide is full of specific and detailed information that will be key to passing your exam. Concepts and principles aren't simply named or described in passing, but are explained in detail. The Mometrix MCAT study guide is laid out in a logical and organized fashion so that one section naturally flows from the one preceding it. Because it's written with an eye for both technical accuracy and accessibility, you will not have to worry about getting lost in dense academic language. Any test prep guide is only as good as its practice questions and answer explanations, and that's another area where our guide stands out. The Mometrix test prep team has provided plenty of MCAT practice test questions to prepare you for what to expect on the actual exam. Each answer is explained in depth, in order to make the principles and reasoning behind it crystal clear. Many concepts include links to online review videos where you can watch our instructors break down the topics so the material can be quickly grasped. Examples are worked step-by-step so you see exactly what to do. We've helped hundreds of thousands of people pass standardized tests and achieve their education and career goals. We've done this by setting high standards for Mometrix Test Preparation guides, and our MCAT Prep Books 2021-2022 - MCAT Secrets Study Guide is no exception.
