In Singlewide, Sonya Salamon and Katherine MacTavish explore the role of the trailer park as

a source of affordable housing. America's trailer parks, most in rural places, shelter an estimated 12 million people, and the authors show how these parks serve as a private solution to a pressing public need. Singlewhite considers the circumstances of families with school-age children in trailer parks serving whites in Illinois, Hispanics in New Mexico, and African Americans in North Carolina. By looking carefully at the daily lives of families who live side by side in rows of manufactured homes, Salamon and MacTavish draw conclusions about the importance of housing, community, and location in the families' dreams of opportunities and success as signified by eventually owning land and a conventional home. Working-poor rural families who engage with what Salamon and MacTavish call the "mobile home industrial complex" may become caught in an expensive trap starting with their purchase of a mobile home. A family that must site its trailer in a land-lease trailer park struggles to realize any of the

anticipated benefits of homeownership. Seeking to break down stereotypes, Salamon and MacTavish reveal the important place that trailer parks hold within the United States national experience. In so doing, they attempt to integrate and normalize a way of life that many see as outside the mainstream, suggesting that families who live in trailer parks, rather than being "trailer trash," culturally resemble the parks' neighbors who live in conventional homes. Starting from the premise that movie trailers can be considered a film genre, this study explores conventions as features of the genre & offers a primer for reading the rhetoric of movie trailers. Advises sailors and powerboaters on selecting, maintaining, and using trailers and tow vehicles to transport their boats. Buckle up as Douglas Keister takes you for a decidedly retro ride in the world of diminutive travel trailers in *Teardrops and Tiny Trailers*. The demand for vintage trailers-the smaller the better-has risen dramatically in

recent years, with the most in-demand trailers being "teardrops," first manufactured in the 1930s and containing just indoor sleeping space and an outdoor exterior kitchen. Also profiled in the book are "canned ham" trailers, whose shape resembles the profile of a can of ham; small-size examples of America's most beloved vintage trailer, the Airstream; miniscule gypsy caravans in Europe; and fiberglass trailers made in Canada. Two hundred color photographs showcase these trailers' sleek exteriors, retro-styled interiors, and, in many cases, the restored classic cars that tow them. Teardrops and Tiny Trailers includes a resource section chock-full of places to locate vintage trailers, clubs to join, and rallies to attend. Photographer/writer Douglas Keister has authored thirty-six critically acclaimed books. His books on classic recreational vehicles include Ready to Roll, Silver Palaces, and Mobile Mansions. In addition, he has authored twenty-five books on architecture, including Inside the Bungalow,

Storybook Style, Red Tile Style, Classic Cottages, and Cottages. Keister also writes and illustrates magazine articles and contributes photographs and essays to dozens of magazines, newspapers, books, calendars, posters, and greeting cards worldwide. He lives in Chico, California. The iconic shape and appearance of a streamline aluminum trailer sitting at a campsite or being pulled down the highway has captivated collectors and vacationing hobbyists for nearly

90 years. During this time, the exterior appearance of the trailer has changed very little, so recollections can range from seeing a 1937 Dodge Pickup to a 1969 Impala hauling one of these beauties. Today, restored rarities from Airstream, Silver Streak, Boles Aero, Clipper, and Spartan can command as much as \$100,000 in the marketplace. These trailers have become symbols of American pop culture for several generations. Until now, very little information has been available to help you when it comes to restoring and updating one of these trailers. Daniel Hall, of the vintage restoration company Camper Repairadise, addresses all items of streamline trailer restoration thoroughly in this one-stop-shopping book. Details on your trailer and how to restore it are covered from trailer tongue to trailing bumper. Key restoration components including chassis, floor, exterior/interior skin, electrical elements, insulation, doorjamb refabrication, LP, plumbing, and polishing are all covered

comprehensively in a visual, step-by-step format. Whether you're a collector car enthusiast, resident of a trailer campground, or a vacationing addict, owning this restoration guide will be an essential tool in keeping your trailer active, updated, and in immaculate condition.
