There are over 125,000 places in the United States alone to take your automotive vehicle for service. On average, these businesses employ three Service Advisors which means on any given day, there are over 375,000 of these positions. Also, on any given day, approximately ten percent or 37,500 of these positions, go unfilled. What's even crazier is that this job pays an average of \$65,000 per year! People making that amount of annual income are in the top fifteen percent of income earners in the United States! Many make more than that and a fair number make over \$100,000 a year! With all of this you may be wondering why so many of these jobs are not filled? Two reasons; one is not enough people apply for the jobs and the other reason is simply that many who get the job fail because they do not know how to do the job. This book will show you how to do the job and land yourself on a service drive for a rewarding career to come!
