Updated throughout, the 7th edition of *Bradt's Antarctica: a Guide to Wildlife* is the most practical guide to the flora and fauna available for those 'going south'. Celebrating the amazing and often unique species of this spectacular environment, the title features chapters on the region's famous whales and penguins, and also on lesser known species such as skuas and sheathbills, with full coverage of plumage and identification. Each chapter is accompanied by vibrant illustrations from Dafila Scott to help bring species to life. Tony Soper's immaculate and engaging text remains the

indispensable choice for the intrepid wildlife enthusiast. Antarctica's wildlife is under threat. The Southern Ocean is warming and the most obvious effect is on the continental ice shelves. Spectacular retreats and monster carvings from the west coast of the peninsula have been seen in recent decades. Less ice means fewer krill, which depend on the ice-edge for the algae which nourish them. In turn, this will impact on seal and whale numbers. In the case of penguins, while kings and macaronis, for instance, are doing well, the magnificently adapted and truly Antarctic species, Adélies and emperors, are in decline. In the case of emperors, maybe by as much as 50%.

Bradt's Antarctica not only helps you to identify and understand species and habitats, it also explains the issues faced by this extraordinary continent, regarded by many as one of the most precious places on the planet. The number one solution to the global teacher retention crisis. "This book is overflowing with kindness, insight, depth and above all...love." - Katherine Woodward Thomas: New York Times Bestselling Author of Calling in "The One" If you are interested in deepening your emotional awareness and in developing your emotional intelligence in ways that enhance conscious co-creative living, then this book is for you. It is a drop of peace in the ocean of our busy lives. Do you understand the role that your emotions play in your capacity for free will and conscious living? Are you interested in the power of conscious choice? Do you feel as though you are in charge of the decisions that you make in your life, of navigating your own journey? Designed to be read in just 10-15 minutes a day for 7 days, this deeply philosophical and highly transformational book guides readers through a 7-day journey of emotional discovery and expanding spiritual relatedness. Each day, practical and pragmatic suggestions integrated with emotional insight deepen our understanding and awareness of the way in which empathy sits in relationship with spirituality and emotional intelligence, supporting us in enriching the quality of our personal well-being, our relationships and our everyday lives. Our emotions sit at the core of our ability to build successful, healthy relationships in all areas of our lives. They play a key role in our self-development and in our ability to navigate our lives through conscious choice and conscious intention. Empathy isn't simply a listening ear and something that we can offer others. In essence, true empathy is a state of being; a way of living that opens a pathway of spiritual relatedness with life itself. Spiritual empathy transforms our ability to relate with our full experience of life at a level of mindful and conscious awareness; awareness of ourselves, of others, and awareness of a greater, universal intelligence of which we are an integral and dynamic part. This is the first in a series of books about the intelligence of our emotions, each written to support and enable deepening layers of relational growth and understanding. Florence invites readers on a journey of self-discovery, beautifully combining conceptual knowledge of emotional intelligence with practical and pragmatic application. The format of the book is deliberate. Its bite-sized chapters make it accessible, easy to read and translatable into a kind of emotional toolkit that can pragmatically help to integrate emotional awareness into daily living in ways that will enhance all aspects of who we are and who we wish to become. Drawing on her extensive 25 year career as a therapist, Jenny Florence's books are a journey of self-awareness, connecting the intelligence and creative capacity of our mind with emotional knowledge and understanding. She has a unique ability to talk about the complexities of our mind and emotions in a language that is accessible and without jargon. "We cannot change our

past but we can change our relationship to our past. In doing so, we create change within our present, which changes the shape of our future. If we work on the premise that we are the source of change, it becomes clear that we will need to listen to ourselves without fear or judgment." Our emotions are a powerful, human commodity. They can be our strongest, most supportive ally or they can disable us, leaving us feeling blocked, out of control and in pieces. Jenny believes it is our ability to listen and decide that will make the difference between a breakthrough or a break down.
