Meet the Giant Dinosaurs Mar 26 2023 In this title, early fluent readers meet some of the biggest dinosaurs as they survive in their prehistoric habitats. Read along as we meet nine

different creatures and learn about their hunting techniques, diets, and behaviors. Vibrant illustrations and carefully leveled text will engage young readers in a supportive educational fiction reading experience. Children can learn more about giant dinosaurs using Fact Surfer, our safe online search engine that provides relevant, age-appropriate websites. This book also features tools for teachers and caregivers, a glossary, a timeline, an index, and a table of contents. Grasshopper Books offers simple, fun fiction for emerging readers. Meet the Giant Dinosaurs is part of Jump!'s Meet the Dinosaurs!: When Reptiles Ruled series.

The Giant's Journey Oct 09 2021 The Giant's Journey By: Erik Kiessling Enrique has all of the typical college student problems. Grades, his part-time job, an obnoxious roommate, the fact that he's really a 400-year-old fae named Burgone who's destined to either save the world or die trying. Typical stuff. Add that to the fact that he's stumbled into a forbidden romance with a rival clan of fae and the top general of the kingdom either wants him by his side or six feet under. Plus there's a dragon and some unicorns (because there always have to be dragons and unicorns). All he has going for him is some advice from an elderly couple, a talking dinosaur, and a couple decades of action movies for guidance. Okay, maybe it's not so typical.

Five Stones Nov 10 2021 Our most important battles are not always with the 'giants out there'--those external challenges which we all face. The greatest battles are often within ourselves. Too often, we diminish our own potential in ministry, business, and in life. Shane Stanford and Brad Martin frame their powerful book on one of the most well-known and well-loved stories in history: David and Goliath. We all feel like the seemingly powerless, scrawny boy David sometimes. And we all must face "giants"--those challenges that threaten to overwhelm us in ministry, work-life, and in our personal lives. Five Stones is a series of clear and compelling lessons. Each lesson arms the reader with practical and powerful tools of self-discovery, so that the reader's own liabilities, opportunities, convictions, and capabilities are revealed. Like modern-day Davids, readers will leave this book empowered to conquer challenges, in ministry and in life, with clear-eyed confidence and well-grounded hope.

The Giant of Jum Apr 22 2020 The Giant of Jum is feeling a bit munchy. "Fee!" he says, and "Fi!" he says, and "Fo!" he says and "Fum!" And off he goes, in search of that sweet snack of a boy named Jack. On his hunt, he'll meet children of all sorts. But before he can gobble them up, he finds himself waylaid by pleas for help. What's a hungry giant to do? Bright illustrations and

sweet characters bring this fun and funny story to life—a wonderful read-aloud with a chorus everyone will want to shout out together!

The Trailsman (Giant): Desert Duel Jan 20 2020
Fargo chases down a Celestial star. After going bust in a San Francisco Fargo poker game, Fargo is desperate for cash. So when a Chinese gentleman offers him a thousand dollars to find the man's missing daughter, Fargo reluctantly agrees. But his search quickly turns into something much more. Other Chinese have been disappearing—and a trail of tears and terror leads Fargo all the way to the wastelands of Death Valley, where the monstrous Tobias Cain has transformed the desert landscape into an oasis fed by a secret water source and an unlimited supply of Chinese slave labor. Now, Fargo is going to take Cain and his entire vile operation down, and turn the desert paradise into bloody perdition...

Dancing With Giants Apr 03 2021
What do a U.S. lawyer and a Singaporean banker have in common? When it comes to infrastructure finance, Mitchell A. Silk and Seth Tan have just about seen it all. They have witnessed the inner workings of international development projects—ranging from bilateral economic agreements between countries to multibillion-dollar infrastructure financings—from both legal and financial angles. In

alternating chapters, they share their experiences over the last several decades working on infrastructure projects on almost every continent and at the highest levels of government and corporate organizations. Infrastructure finance took off in the 1980s. Today, it is a major focus as the world grapples with the challenges of private capital mobilization to meet the giant global infrastructure funding gap. Mitchell A. Silk and Seth Tan were there for its growth into a giant industry. Praise for *Dancing With Giants* "An extraordinary collection of real world experiences from the front lines of global infrastructure finance. Mitch Silk and Seth Tan, two leading practitioners of infrastructure finance over the past 30 years, illuminate the essential role of private investment in meeting the world's energy needs." - Andrés Gluski, President and CEO, The AES Corporation

"Infrastructure in the next 30 years may be very different from today or not yet exist as needs will change and technology advancement can offer new solutions. But the past can offer good principles to follow for future development. It is great to read about two practitioners, Mitch and Seth, who have lived and breathed infrastructure in the last 30 years." - Marie Lam-Frendo, CEO, Global Infrastructure Hub (a G20 initiative) About the Authors Mitchell A. Silk Mitchell is the immediate past Assistant Secretary for International Markets at the U.S. Department of the Treasury. In that position,

Mitch designed and implemented an inter-agency growth initiative in international infrastructure finance, and the \$94 billion CARES Act programs that benefitted over 700,000 American aviation industry workers. Prior to joining U.S. Treasury, Mitch was a senior partner in the global law practice of Allen & Overy in Hong Kong and New York, where he specialized in energy and infrastructure matters, asset management, and banking and finance. Mitch is fluent in Mandarin and Cantonese Chinese, and his favorite language of Yiddish. He lives in Brooklyn, New York. He and his wife, Yocheved Rivka, are the proud parents of eight children and four grandchildren. Seth Tan Seth was most recently the head of Infrastructure Asia, a regional infrastructure facilitation office under the Singapore government. Initiatives he led include bringing top private sector companies to co-create bankable Asian infrastructure. Seth has worked in the infrastructure sector for 25 years, spanning a broad spectrum of infrastructure and a large geographical area (even economies further away from Asia like Zambia, Nigeria, and Ghana). Thanks to esteemed employers like BNP Paribas, Babcock and Brown, Standard Bank, and DBS Bank, Seth worked outside Singapore for 15 years and traveled to almost 80 cities across the globe. His favorite cities are Beijing (where he lived for nine years) and Singapore (home). He now lives in Singapore with his wife, Li Xiang, and their children, Zoey and Evan.

Meet the Giant Panda Dec 23 2022 Giant pandas live in China. For a long time many people thought a panda was a bear. Some thought it was a raccoon. Now they know that they are really bears. They look like a huge, cuddly bear. They have four legs and a short, stubby tail. They also have a face that looks like a bear face. This book is a shortened version of our popular "Giant Pandas: Cuddly Bamboo Lovers" and is intended for beginning readers. With only 1124 easy to read words, young children can experience for themselves the joy of learning about the giant panda. They will find out the answers to these questions: How big is a newborn panda cub? How often does a panda eat? What are five things that a panda will eat? And many more! Ages 5-8 Reading Level: 2.4 LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

A Giant's Trek Mar 14 2022 Ash isn't the biggest giant living in Haven-Home. He's not even as big as his twin brother, Oak, who's on the path to taking over from their father as village chief one day. Unlike the warriors in his family, Ash wants to learn incantation: the magic of wood, stone, water and fire. Now that they're twelve, Ash and Oak must go on a dangerous trek to prove

themselves giant warriors, and they must each bring back something with which to defend Haven-Home from the prowling wolves that threaten all who live there. Will Ash's quest for incantation serve him well on the trek? Or will it bring even greater danger to Haven-Home? *A Giant's Trek* is a vividly imagined adventure about courage and following your true path. Nick Stella lives in Sydney, where he works as a public servant. *A Giant's Trek*, which started out as a bedtime story for his children, is his first novel.

The Green Giant Aug 27 2020 A young girl, Bea, and her dog, Iris, are staying with her grandad in the country. Bea is bored, but Iris's adventures lead them to the small and rusty old greenhouse next door. Inside the greenhouse, Bea finds... a giant. A giant made entirely of plants and greenery. Bea is scared, but the giant reassures her and explains that he has escaped from the grey city. Bea and the giant become friends, but can they do anything to make the grey city, and the world, a greener place? A brilliant new picture book that highlights our concern for the environment, greening our cities, guerrilla gardening and making the world a better place. Katie Cottle was the winner of the Batsford Prize 2017 and is a rising star in the picture book world.

Ancient Aliens and the Age of Giants: Through the Wormhole Sep 27 2020 Analyze thousands of years of giant skeletons from 7 to 15 feet tall, along with DNA evidence, genetic mutations, newspaper articles, archeological notes, and excerpts from the Smithsonian Institution's own records. Meet a living tribe of 19th century Stone Age giants. A leading anthropologist compared their bones to Cro-Magnon skeletons. Do they represent the original humans prior to the arrival of extraterrestrial giants, or the biblical Nephilim? Explore the advanced technology of the extraterrestrial giants: two-way radios,

aircraft, self-propelled boats, wormholes, military vehicles, and aerial weapons that blasted Earth. Historical accounts, first-person encounters, plus legends and mythology tell us who they were, where they came from, how they interacted with humans, and left us with predictions of their return. There is a systematic attack on the evidence, however, that keeps giants mired in disbelief and ridicule. Documents are being rewritten one word at a time to give us an altered history that completely erases extraterrestrial giants, except in the realm of fairytales and fantasy. Dissect several alleged hoaxes and questionable discoveries for an in-depth look at how debunkers twist the facts: How does Area 51 and several missing witnesses fit into one of the biggest hoaxes in giant history? Were giant mummies used as a diversion for the Roswell UFO crash? Take an expanded look at the mummified, red-haired Lovelock giant found in Lovelock Cave, Nevada, and see how debunkers twisted the facts. Revisit the Los Lunas Decalogue Stone, and see how the Navajo translation was summarily dismissed by casting a shadow of doubt on the credentials of the translator - a translator whose credentials are impeccable. What happened to King Solomon's Cave in Montana? What turned this cave of giants into a giant hoax? The easiest way to hide the truth is to bury it under accusations of incompetency, hoaxes and frauds, so that archeologists and anthropologists distance themselves from the controversy, and

everyone questions the authenticity of the bones or artefacts. Meet specific giants including Goliath, King Og, Hiawatha, Odin, and The Watchers of the Bible. Go deep inside the Bible and its forbidden books. Compare Bible translations about the extraterrestrial Grigori giants and their landing site on Mount Hermon. Meet their hybrid descendants: the Nephilim giants, Elioud, Anakim, Rephaim, and others. Benevolent giants lifted humans up out of savagery and taught us agriculture, raising livestock, building shelters, reading and writing, astrology, astronomy, medicine, warfare, and road building. This coincides with the Neolithic Revolution that took us from the Stone Age into the Bronze Age. Human-Giant hybrids destroyed what their parents built, and they became cannibals. Chilling accounts of these giant cannibals span the entire world, leaving us with a truth that's almost too horrific to contemplate. The Fourth World of Native American mythology was the age of giants, and it was attacked by gods who left amazing evidence of their technology. Stolen artefacts, witch hunts, and the total annihilation of the bones of heretics and biblical giants eliminated a big chunk of evidence. The gruesome fate of old bones in general plunges us into a Twilight Zone of the bizarre. Today the Battle of the Bones rages on over old hoaxes and new laws. The fate of the giant bones goes far beyond denial or government cover-up, however. More important than the

controversy over missing evidence is what will happen when the extraterrestrial giants return. Conspiracy theories keep humans busy with finger pointing and demands for the truth, when what we should really be focused on is who the extraterrestrial giants were, and what to expect when they return. Are we ready? Look at the evidence, and judge for yourself.
