The Man Who Never Was

Apr 23 2020 Can the man who never was catch the criminals

who never get caught? John Milton is used to operating in the shadows, weaving his way through dangerous places behind a fake identity. Now, to avenge the death of a close friend, he must wear his mask of deception once more. Beau Baxter was brutally murdered by a drugs cartel but that doesn't stop Milton from blaming himself for his friend's death. With the help of a trusted team of undercover experts and Beau's son, Milton

is determined to track down the killers. And he isn't just after the man who gave the order. He's heading right for the top. Milton plans to follow the trail of cocaine from the nightclubs of Amsterdam all the way to its source in Colombia. Disguised as an ambitious buyer, he's prepared to work his way up the cartel hierarchy one rung at a time. But the ladder can be slippery and, as Milton travels deeper into a world of violence,

ruthlessness and greed, he finds himself in a jungle that could prove impossible to escape.

The Man Who Made Parks

Oct 22 2022 The story of Olmsted who designed some of North America's most famous public spaces When the great cities of North America were being built, little thought was given to the idea of creating "green spaces." But these oases from the dirt, gravel, and noise of the crowded city streets were exactly what were needed. One of the few people to recognize this fact was Frederick Law Olmsted, North America's first landscape architect. Combining his love of nature with his admiration for the structured beauty found in the great public parks of London and Paris, Olmsted turned neglected, swampy

acres on the edge of New York City into one of the most acclaimed parks in the world: Central Park. But Olmsted's success was not earned overnight. He spent many years wandering from job to job, searching for the perfect career. And when he finally discovered his passion, few people were confident in his abilities. But Olmsted fought for the preservation of areas like Yosemite in the USA, and his perseverance would be rewarded: he went on to design some of the most famous public spaces in North America.

The Man Who Quit Money
Aug 08 2021 Grand Prize
Winner of the 2015 Green Book
Festival Mark Sundeen's new
book, *The Unsettlers*, is coming
in January 2017 from

Riverhead Books In 2000, Daniel Suelo left his life savings—all thirty dollars of it—in a phone booth. He has lived without money—and with a newfound sense of freedom and security—ever since. *The Man Who Quit Money* is an account of how one man learned to live, sanely and happily, without earning, receiving, or spending a single cent. Suelo doesn't pay taxes, or accept food stamps or welfare. He lives in caves in the Utah canyonlands, forages wild foods and gourmet discards. He no longer even carries an I.D. Yet he manages to amply fulfill not only the basic human needs—for shelter, food, and warmth—but, to an enviable degree, the universal desires

for companionship, purpose, and spiritual engagement. In retracing the surprising path and guiding philosophy that led Suelo into this way of life, Sundeen raises provocative and riveting questions about the decisions we all make, by default or by design, about how we live—and how we might live better.

[The Man Who Made the Movies](#)

Dec 20 2019 A riveting story of ambition, greed, and genius unfolding at the dawn of modern America. This landmark biography brings into focus a fascinating brilliant entrepreneur—like Steve Jobs or Walt Disney, a true American visionary—who risked everything to realize his

bold dream of a Hollywood empire. Although a major Hollywood studio still bears William Fox's name, the man himself has mostly been forgotten by history, even written off as a failure. Now, in this fascinating biography, Vanda Krefft corrects the record, explaining why Fox's legacy is central to the history of Hollywood. At the heart of William Fox's life was the myth of the American Dream. His story intertwines the fate of the nineteenth-century immigrants who flooded into New York, the city's vibrant and ruthless gilded age history, and the birth of America's movie industry amid the dawn of the modern era. Drawing on a

decade of original research, *The Man Who Made the Movies* offers a rich, compelling look at a complex man emblematic of his time, one of the most fascinating and formative eras in American history. Growing up in Lower East Side tenements, the eldest son of impoverished Hungarian immigrants, Fox began selling candy on the street. That entrepreneurial ambition eventually grew one small Brooklyn theater into a \$300 million empire of deluxe studios and theaters that rivaled those of Adolph Zukor, Marcus Loew, and the Warner brothers, and launched stars such as Theda Bara. Amid the euphoric roaring twenties, the

early movie moguls waged a fierce battle for control of their industry. A fearless risk-taker, Fox won and was hailed as a genius—until a confluence of circumstances, culminating with the 1929 stock market crash, led to his ruin.

The Man Who Knew Dec 12 2021 “Exceptional . . . Deeply researched and elegantly written . . . As a description of the politics and pressures under which modern independent central banking has to operate, the book is incomparable.” —Financial Times The definitive biography of the most important economic statesman of our time Sebastian Mallaby's magisterial biography of Alan Greenspan,

the product of over five years of research based on untrammelled access to his subject and his closest professional and personal intimates, brings into vivid focus the mysterious point where the government and the economy meet. To understand Greenspan's story is to see the economic and political landscape of our time—and the presidency from Reagan to George W. Bush—in a whole new light. As the most influential economic statesman of his age, Greenspan spent a lifetime grappling with a momentous shift: the transformation of finance from the fixed and regulated system of the post-war era to the free-

for-all of the past quarter century. The story of Greenspan is also the story of the making of modern finance, for good and for ill. Greenspan's life is a quintessential American success story: raised by a single mother in the Jewish émigré community of Washington Heights, he was a math prodigy who found a niche as a stats-crunching consultant. A master at explaining the economic weather to captains of industry, he translated that skill into advising Richard Nixon in his 1968 campaign. This led to a perch on the White House Council of Economic Advisers, and then to a dazzling array of

business and government roles, from which the path to the Fed was relatively clear. A fire-breathing libertarian and disciple of Ayn Rand in his youth who once called the Fed's creation a historic mistake, Mallaby shows how Greenspan reinvented himself as a pragmatist once in power. In his analysis, and in his core mission of keeping inflation in check, he was a maestro indeed, and hailed as such. At his retirement in 2006, he was lauded as the age's necessary man, the veritable God in the machine, the global economy's avatar. His memoirs sold for record sums to publishers around the world. But then came 2008. Mallaby's story

lands with both feet on the great crash which did so much to damage Alan Greenspan's reputation. Mallaby argues that the conventional wisdom is off base: Greenspan wasn't a naïve ideologue who believed greater regulation was unnecessary. He had pressed for greater regulation of some key areas of finance over the years, and had gotten nowhere. To argue that he didn't know the risks in irrational markets is to miss the point. He knew more than almost anyone; the question is why he didn't act, and whether anyone else could or would have. A close reading of Greenspan's life provides fascinating answers to these questions, answers whose

lessons we would do well to heed. Because perhaps Mallaby's greatest lesson is that economic statesmanship, like political statesmanship, is the art of the possible. The Man Who Knew is a searching reckoning with what exactly comprised the art, and the possible, in the career of Alan Greenspan.

The Man Who Watched the Trains Go By Feb 14 2022

“One of the greatest writers of the twentieth century . . .

Simenon was unequaled at making us look inside, though the ability was masked by his brilliance at absorbing us obsessively in his stories.”

—The Guardian In this Georges Simenon classic, a Dutch clerk

flees to Paris with his crooked boss's money and meets the woman behind the man “A certain furtive, almost shameful emotion . . . disturbed him whenever he saw a train go by, a night train especially, its blinds drawn down on the mystery of its passengers.” Kees Poppinga is a respectable Dutch citizen and family man—until the day he discovers his boss has bankrupted the shipping firm he works for, and something snaps. Kees used to watch the trains go by on their way to exciting destinations. Now, on some dark impulse, he boards one at random, and begins a new life of recklessness and violence. The Man Who

Watched the Trains Go By is a chilling portrayal of a man who breaks from society and goes on the run asks who we are, and what we are capable of.

Mar 23 2020 As plans got under way for the Allied invasion of Sicily in June 1943, British counter-intelligence agent Ewen Montagu masterminded a scheme to mislead the Germans into thinking the next landing would occur in Greece. The innovative plot was so successful that the Germans moved some of their forces away from Sicily, and two weeks into the real invasion still expected an attack in Greece. This extraordinary operation called

The Man Who Never Was Jan 25 2023

The Man Who Never Was, first published in 1954, is a fascinating account of the ingenious Second World War counter-intelligence plot by the British Intelligence service known as "Operation Mincemeat." The goal of the operation, which took place in 1943, was to mislead the Germans as to where the next Allied landing in the Mediterranean would occur. Operation Mincemeat, because of its thorough planning and careful execution, successfully misled the Germans into a belief that the landings would occur in Greece, rather than in

Sicily-the true invasion target. As a result, a number of German forces were removed from Sicily to prepare for the believed location of the Allied invasion. To carry out the ruse, Operation Mincemeat used a dead body, dressed as a Royal Marine officer, and carrying false information about the supposed upcoming Allied invasion of Greece. The body would, according to the plan, wash up on a beach in Spain near the town of a known Nazi agent. The body was discovered as planned, the officer's documents examined and verified by German intelligence, and action was taken. By any measure, the Allied operation was a success,

and likely saved many lives. Even two weeks into the invasion of Sicily, German leaders still believed that the main attack would be in Greece. *The Man Who Never Was* remains a classic book of a World War Two intelligence operation. Included are 25 pages of photographs and diagrams.

[The Man Who Laughs](#) May 25 2020 Moving away from the explicitly political content of his previous novels, Victor Hugo turns to social commentary in *The Man Who Laughs*, an 1869 work that was made into a popular film in the 1920s. make them more effective beggars, as well as the long-lasting emotional and social damage that this abhorrent practice inflicts upon its victims.

The Man Who Punched Jefferson Davis Oct 30 2020 Regarded as one of the most vocal, well-traveled, and controversial statesmen of the

nineteenth century, antebellum politician Henry Stuart Foote played a central role in a vast array of pivotal events. Despite Foote's unique mark on history, until now no comprehensive biography existed. Ben Wynne fills this gap in his examination of the life of this gifted and volatile public figure in *The Man Who Punched Jefferson Davis: The Political Life of Henry S. Foote*, Southern Unionist. An eyewitness to many of the historical events of his lifetime, Foote, an opinionated native Virginian, helped to raise money for the Texas Revolution, provided political counsel for the Lone Star Republic's leadership before annexation, and

published a 400-page history of the region. In 1847, Mississippi elected him to the Senate, where he promoted cooperation with the North during the Compromise of 1850. One of the South's most outspoken Unionists, he infuriated many of his southern colleagues with his explosive temperament and unorthodox ideas that quickly established him as a political outsider. His temper sometimes led to physical altercations, including at least five duels, pulling a gun on fellow senator Thomas Hart Benton during a legislative session, and engaging in run-ins with other politicians—notably a fistfight with his worst political enemy,

Jefferson Davis. He left the Senate in 1851 to run for governor of Mississippi on a pro-Union platform and defeated Davis by a small margin. Several years later, Foote moved to Nashville, was elected to the Confederate Congress after Tennessee seceded, and continued his political sparring with the Confederate president. From Foote's failed attempt to broker an unauthorized peace agreement with the Lincoln government and his exile to Europe to the publication of his personal memoir and his appointment as director of the United States mint in New Orleans, Wynne constructs an entertaining and nuanced

portrait of a singular man who constantly challenged the conventions of southern and national politics.

The Man Who Loved Books Too Much Apr 04 2021 In the

tradition of *The Orchid Thief*, a compelling narrative set within the strange and genteel world of rare-book collecting: the true story of an infamous book thief, his victims, and the man determined to catch him. Rare-book theft is even more widespread than fine-art theft. Most thieves, of course, steal for profit. John Charles Gilkey steals purely for the love of books. In an attempt to understand him better, journalist Allison Hoover Bartlett plunged herself into the world of book lust and discovered just how dangerous it can be. John Gilkey is an obsessed, unrepentant book thief who has stolen hundreds of thousands of dollars worth of

rare books from book fairs, stores, and libraries around the country. Ken Sanders is the self-appointed "bibliodick" (book dealer with a penchant for detective work) driven to catch him. Bartlett befriended both outlandish characters and found herself caught in the middle of efforts to recover hidden treasure. With a mixture of suspense, insight, and humor, she has woven this entertaining cat-and-mouse chase into a narrative that not only reveals exactly how Gilkey pulled off his dirtiest crimes, where he stashed the loot, and how Sanders ultimately caught him but also explores the romance of books, the lure to collect them, and the

temptation to steal them. Immersing the reader in a rich, wide world of literary obsession, Bartlett looks at the history of book passion, collection, and theft through the ages, to examine the craving that makes some people willing to stop at nothing to possess the books they love.

The Man Who Came and Went Jun 06 2021 *The Man Who Came and Went*, a novel of the new west, is a magically realistic story for the modern era that will tease your understanding and beliefs, and draw you into the mysteries of the universe, from the brilliant

mind of Joe Stillman, acclaimed Academy Award nominated co-writer of “Shrek.” Fifteen-year-old Belutha Mariah, our storyteller, is the oldest of three kids from three different fathers. Her life’s goal is to keep her dysfunctional mom, Maybell, from procreating yet again and then to leave the coffin-sized town of Hadley, Arizona the second she graduates high school. Along comes the new grill cook at Maybell’s Diner, Bill Bill, a mysterious drifter with the ability to mind-read orders. As word spreads in Hadley and beyond, the curious and desperate pour into this small desert town to eat at Maybell's. Some believe Bill knows the

secrets of the universe. Belutha figures he’s probably nuts. But his cooking starts to transform the lives of locals and visitors, and Belutha finds her angry heart opening, as Bill begins to show her the porous boundary between this life and what comes after. In a normal American town, something new and strange, and yet achingly familiar, begins to unfold.

The Man Who Planted Trees

Feb 26 2023 The Man Who Planted Trees is the inspiring story of David Milarch’s quest to clone the biggest trees on the planet in order to save our forests and ecosystem—as well as a hopeful lesson about how

each of us has the ability to make a difference. “When is the best time to plant a tree? Twenty years ago. The second best time? Today.”—Chinese proverb Twenty years ago, David Milarch, a northern Michigan nurseryman with a penchant for hard living, had a vision: angels came to tell him that the earth was in trouble. Its trees were dying, and without them, human life was in jeopardy. The solution, they told him, was to clone the champion trees of the world—the largest, the hardest, the ones that had survived millennia and were most resilient to climate change—and create a kind of Noah’s ark of tree genetics.

Without knowing if the message had any basis in science, or why he'd been chosen for this task, Milarch began his mission of cloning the world's great trees. Many scientists and tree experts told him it couldn't be done, but, twenty years later, his team has successfully cloned some of the world's oldest trees—among them giant redwoods and sequoias. They have also grown seedlings from the oldest tree in the world, the bristlecone pine Methuselah. When New York Times journalist Jim Robbins came upon Milarch's story, he was fascinated but had his doubts. Yet over several years, listening to Milarch and talking

to scientists, he came to realize that there is so much we do not yet know about trees: how they die, how they communicate, the myriad crucial ways they filter water and air and otherwise support life on Earth. It became clear that as the planet changes, trees and forest are essential to assuring its survival. Praise for *The Man Who Planted Trees* "This is a story of miracles and obsession and love and survival. Told with Jim Robbins's signature clarity and eye for telling detail, *The Man Who Planted Trees* is also the most hopeful book I've read in years. I kept thinking of the end of Saint Francis's wonderful prayer, 'And may God bless you with enough

foolishness to believe that you can make a difference in the world, so that you can do what others claim cannot be done.'"—Alexandra Fuller, author of *Don't Let's Go to the Dogs Tonight* "Absorbing, eloquent, and loving . . . While Robbins's tone is urgent, it doesn't compromise his crystal-clear science. . . . Even the smallest details here are fascinating."—Dominique Browning, *The New York Times Book Review* "The great poet W. S. Merwin once wrote, 'On the last day of the world I would want to plant a tree.' It's good to see, in this lovely volume, that some folks are getting a head start!"—Bill McKibben, author of *Eaarth*:

Making a Life on a Tough New Planet “Inspiring . . . Robbins lucidly summarizes the importance and value of trees to planet Earth and all humanity.”—The Ecologist “ ‘Imagine a world without trees,’ writes journalist Jim Robbins. It’s nearly impossible after reading *The Man Who Planted Trees*, in which Robbins weaves science and spirituality as he explores the bounty these plants offer the planet.”—Audubon

The Man Who Caught the Storm

Apr 28 2023 The life and death saga of one of history's greatest storm chasers: a tour-de-force tale of obsession, ingenuity, and the race to understand nature's fiercest phenomenon—the tornado. "An instant classic of Americana." —Hampton Sides "Many a novel is not written this memorably." —The Philadelphia Inquirer "Masterful. This is what man versus nature is all about." —Skip Hollandsworth "Hargrove is one today's great science writers." —The Washington Post At the turn of the twenty-first century, the

tornado was one of the last true mysteries of the modern world. It was a monster that ravaged the American heartland a thousand times each year, yet science's every effort to divine its inner workings had ended in failure. Researchers all but gave up, until the arrival of an outsider. In a field of PhDs, Tim Samaras didn't attend a day of college in his life. He chased storms with brilliant tools of his own invention and pushed closer to the tornado than anyone else ever dared. When he achieved what meteorologists had deemed impossible, it was as if he had snatched the fire of the gods. Yet even as he transformed the field, Samaras kept on pushing.

As his ambitions grew, so did the risks. And when he finally met his match—in a faceoff against the largest tornado ever recorded—it upended everything he thought he knew. Brantley Hargrove delivers a masterful tale, chronicling the life of Tim Samaras in all its triumph and tragedy. He takes readers inside the thrill of the chase, the captivating science of tornadoes, and the remarkable character of a man who walked the line between life and death in pursuit of knowledge. Following the tradition of *Into Thin Air* and *The Perfect Storm*, Hargrove's debut offers an unforgettable exploration of obsession and the extremes of the natural

world.

The Man Who Melted Feb 20 2020 The Man Who Melted is a warning for the future. It is the Brave New World and 1984 for our time, for it gives us a glimpse into our own future — a future ruled by corporations that control deadly and powerful forms of mass manipulation. It is a prediction of what could happen...tomorrow. The Man Who Melted examines how

technology affects us and changes our morality, and it questions how we might remain human in an inhuman world. Will the future disenfranchise or empower the individual? Here you'll find new forms of sexuality, new perversions, new epiphanies, and an entirely new form of consciousness. Would you pay to "go down" with the Titanic? In this dystopia the Titanic is brought back from the bottom of the sea and refurbished, only to be sunk again for those who want the ultimate decadent experience. Some passengers pay to commit suicide by "going under" with the ship. The Man Who Melted has been called "one of the greatest science

fiction novels of all time" by Science Fiction Age and is considered a genre classic. It is the stunning odyssey of a man searching through the glittering, apocalyptic landscape of the next century for a woman lost to him in a worldwide outbreak of telepathic fear. Here is a terrifying future where people can gamble away their hearts (and other organs) and telepathically taste the last flickering thoughts of the dead. From the Trade Paperback edition.
