Citizens of the Sea Dec 11 2021 In this refreshing, reader-friendly, and colorfully illustrated book about the ocean, renowned marine scientist Knowlton presents an overview of the hundreds of species that have been discovered in the past decade.

A Year by the Sea Feb 19 2020 The basis for the major motion picture of the same name. An entrancing memoir of how one woman's journey of self-discovery gave her the courage to persevere in re-creating her life. Life is a work in progress, as ever-changing as a sandy shoreline along the beach. During the years Joan Anderson was a loving wife and supportive mother, she had slowly and unconsciously replaced her own dreams with the needs of her family. With her sons grown, however, she realized that the family no longer centered on the home she provided, and her relationship with her husband had become stagnant. Like many women in her situation, Joan realized that she had neglected to nurture herself and, worse, to envision fulfilling goals for her future. As her husband received a wonderful job opportunity out-of-state, it seemed that the best part of her own life was finished. Shocking both of them, she refused to follow him to his new job and decided to

retreat to a family cottage on Cape Cod. At first casting about for direction, Joan soon began to take pleasure in her surroundings and call on resources she didn't realize she had. Over the course of a year, she gradually discovered that her life as an "unfinished woman" was full of possibilities. Out of that magical, difficult, transformative year came *A Year by the Sea*, a record of her experiences and a treasury of wisdom for readers.

At the Sea Feb 25 2023 A visit to the seashore leads to many discoveries for two siblings looking for adventure. Follow young Plum and her little brother Robin, discovering different facets of the sea-fauna, flora-tide phenomenon, fishing etc. and all through the book, ecological issues.

The Sound of the Sea: Seashells and the Fate of the Oceans Aug 07 2021 A Science Friday Best Science Book of the Year A Kirkus Reviews Best Nonfiction Book of the Year A Library Journal Best Science and Technology Book of the Year A Tampa Bay Times Best Book of the Year A stunning history of seashells and the animals that make them that "will have you marveling at nature...Barnett's account remarkably spirals out, appropriately, to become a much larger story about the sea, about global history and about environmental crises and preservation" (John Williams, New York Times Book Review). Seashells have been the most coveted and collected of nature's creations since the dawn of humanity. They were money before coins, jewelry before gems, art before canvas. In *The Sound of the Sea*, acclaimed environmental author Cynthia Barnett blends cultural history and science to trace our long love affair with seashells and the hidden lives of the mollusks that make them. Spiraling out from the great cities of shell that once rose in North America to the warming waters of the Maldives and the slave castles of Ghana, Barnett has created an unforgettable history of our world through an examination of the unassuming seashell. She begins with their childhood wonder, unwinds surprising histories like the origin of Shell Oil as a family business importing exotic shells, and charts what shells and the soft animals that build them are telling scientists about our warming, acidifying seas. From the eerie calls of early shell trumpets to the evolutionary miracle of spines and spires and the modern science of carbon capture inspired by shell, Barnett circles to her central point of listening to nature's wisdom—and acting on what seashells have to say about taking care of each other and our world.

This picture book about the power of friendship by new talent Cale Atkinson is brought to life by charming, dynamic illustrations.

Flowers for the Sea Mar 14 2022 A Library Journal Editor's Pick! Flowers for the Sea is a dark, dazzling debut novella that reads like Rosemary's Baby by way of Octavia E. Butler We are a people who do not forget. Survivors from a flooded kingdom struggle alone on an ark. Resources are scant, and ravenous beasts circle. Their fangs are sharp. Among the refugees is Iraxi: ostracized, despised, and a commoner who refused a prince, she's pregnant with a child that might be more than human. Her fate may be darker and more powerful than she can imagine. Zin E. Rocklyn's extraordinary debut is a lush, gothic fantasy about the prices we pay and the vengeance we seek. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Good Will Come From the Sea Dec 31 2020 A collection of blistering, darkly humorous stories that upend the idyllic image of the Greek holiday island. Seeking to escape the paralyzing effects of the Greek economic crisis, a group of Athenian friends move to an Aegean island in the hopes of starting over. Viewed with suspicion and disdain by the locals, they soon find themselves enmeshed in the same vicious cycle of money, power, and violence they thought they had left behind.

The Girl Who Fell Beneath the Sea May 04 2021 A New York Times Bestseller! Axie Oh's *The Girl Who Fell Beneath the Sea* is an enthralling feminist retelling of the classic Korean folktale "The Tale of Shim Cheong," perfect for fans of *Wintersong*, *Uprooted*, and Miyazaki's *Spirited Away*. Deadly storms have ravaged Mina's homeland for generations. Floods sweep away entire villages, while bloody wars are waged over the few remaining resources. Her people believe the Sea God, once their protector, now curses them with death and despair. In an attempt to appease him, each year a beautiful maiden is thrown into the sea to serve as the Sea God's bride, in the hopes that one day the "true bride" will be chosen and end the suffering. Many believe that Shim Cheong, the most beautiful girl in the village—and the beloved of Mina's older brother Joon—may be the legendary true bride. But on the night Cheong is to be sacrificed, Joon follows Cheong out to sea, even knowing that to interfere is a death sentence. To save her brother, Mina throws herself into the water in Cheong's stead.

Swept away to the Spirit Realm, a magical city of lesser gods and mythical beasts, Mina seeks out the Sea God, only to find him caught in an enchanted sleep. With the help of a mysterious young man named Shin—as well as a motley crew of demons, gods and spirits—Mina sets out to wake the Sea God and bring an end to the killer storms once and for all. But she doesn't have much time: A human cannot live long in the land of the spirits. And there are those who would do anything to keep the Sea God from waking... Praise for *The Girl Who Fell Beneath the Sea: An ABA Indie Bestseller* "On every page I found something marvelous and new, and I was eager to keep reading because I wanted to further explore this wondrous new world." —The New York Times "A beautiful, mesmerizing retelling I wish I'd had when I was growing up. ... A heartfelt tale that I will be recommending for years to come." —Elizabeth Lim, New York Times bestselling author of *Six Crimson Cranes* "A clever, creative, and exquisitely written tale of sacrifice, love, and fate." —Stephanie Garber, New York Times bestselling author of *Caraval*

The Sea, The Sea (Vintage Classics Murdoch Series) Sep 27 2020 "I saw a monster rising from the waves.' **A BBC BETWEEN THE COVERS BIG JUBILEE READ PICK** **Winner of the Man Booker Prize 1978** Charles Arrowby has determined to spend the rest of his days in hermit-like contemplation. He buys a mysteriously damp house on the coast, far from the heady world of the theatre where he made his name, and there he swims in the sea, eats revolting meals and writes his memoirs. But then he meets his childhood sweetheart Hartley, and memories of her lovely, younger self crowd in - along with more recent lovers and friends - to disrupt his self-imposed exile. So instead of 'learning to be good', Charles proceeds to demonstrate how very bad he can be. WITH AN INTRODUCTION BY DAISY JOHNSON VINTAGE CLASSICS MURDOCH: Funny, subversive, fearless and fiercely intelligent, Iris Murdoch was one of the great writers of the twentieth century. To celebrate her centenary Vintage Classics presents special editions of her greatest and most timeless novels.

Paddle-to-the-Sea Oct 21 2022 A small canoe carved by an Indian boy makes a journey from Lake Superior all the way to the Atlantic Ocean.

The Other Side of the Sea Apr 22 2020 *The Other Side of the Sea*, the first novel by this major Haitian author to be

translated into English, is riveted on the other shore--whether it is the ancestral Africa that still haunts Haitians, the America to which so many have emigrated, or even that final shore, the uncertain afterlife awaiting us all. With a grandmother and her grandson sharing the narration, this rich and concise tale covers an impressive span of Haitian history and emotion. Too old to leave her veranda, Noubòt reflects on her past, touching on the 1937 Parsley Massacre, in which thousands of Haitians died at the hands of Dominican soldiers, and laments the exodus of so many young people from Haiti, although, ironically, she dreamed of making the trip herself (her name means New Boat in Creole). Her story is juxtaposed with that of her grandson, Jonas, as he suffers the abandonment of friends--including his lover--who emigrated during the Duvalier dictatorships, even feeling an urge to join them. Perhaps most striking is the addition of a third voice--that of an anonymous passenger in steerage recounting a slave ship's progress to the New World from Africa. This voice from long ago provides a powerful depiction of the sights, sounds, and smells of the Middle Passage and a fascinating counterpoint to the evocations of modern Haiti. Lucy by the Sea Nov 10 2021 NEW YORK TIMES BESTSELLER • From Pulitzer Prize-winning, #1 New York Times bestselling author Elizabeth Strout comes a poignant, pitch-perfect novel about a divorced couple stuck together during lockdown—and the love, loss, despair, and hope that animate us even as the world seems to be falling apart. “No novelist working today has Strout’s extraordinary capacity for radical empathy. . . . May droves of readers come to feel enlarged, comforted, and genuinely uplifted by Lucy’s story.”—The Boston Globe ONE OF THE BEST BOOKS OF THE YEAR: The New Yorker With her trademark spare, crystalline prose—a voice infused with “intimate, fragile, desperate humanness” (The Washington Post)—Elizabeth Strout turns her exquisitely tuned eye to the inner workings of the human heart, following the indomitable heroine of *My Name Is Lucy Barton* through the early days of the pandemic. As a panicked world goes into lockdown, Lucy Barton is uprooted from her life in Manhattan and bundled away to a small town in Maine by her ex-husband and on-again, off-again friend, William. For the next several months, it’s just Lucy, William, and their complex past together in a little house nestled against the moody, swirling sea. Rich with empathy and emotion, *Lucy by the Sea* vividly captures the fear and struggles that come with isolation, as well as the hope, peace, and possibilities that those long, quiet days can inspire. At the heart of this story are the deep human connections that unite us even when we’re apart—the pain of a beloved daughter’s suffering, the emptiness that comes from the death of a loved one, the promise of a new friendship, and the comfort of an old, enduring love.

Rewilding the Sea Jun 17 2022 'Desperately needed' - Isabella Tree 'I doubt any more important book will published this

year' - Stephen Fry In this indispensable follow up to his acclaimed *The End of the Line- How Overfishing is Changing the World*, Charles Clover chronicles how determined individuals are proving that the crisis in our oceans can be reversed, with benefits for both local communities and entire ecosystems. *Rewilding the Sea* celebrates what happens when we step aside and let nature repair the damage- whether it is the overfishing of bluefin tuna across the Atlantic, the destruction of coral gardens by dredgers in Lyme Bay or the restoration of oysters on the East Coast of America. The latest scientific research shows that trawling and dredging create more CO2 than the aviation industry and damage vast areas of our continental shelves, stopping them soaking up carbon. We need to fish in different ways, where we fish at all. We can store carbon and have more fish by stepping aside more often and trusting nature. Essential and revelatory, *Rewilding the Sea* propels us to rethink our relationship with nature and reveals that saving our oceans is easier than we think.

Our Wives Under the Sea Jul 06 2021 Fathomlessly inventive and original, Julia Armfield's *Our Wives Under the Sea* is a portrait of marriage as we've never seen it before. "Shocking...Achingly poetic...Sharp and beautiful as coral polyps...Armfield exercises an exquisite—even sadistic—sense of suspense." —Ron Charles, *The Washington Post* "A wonderful novel, deeply romantic and fabulously strange. I loved this book." —Sarah Waters "Without a doubt, one of the best books I've ever read." —Kristen Arnett Leah is changed. A marine biologist, she left for a routine expedition months earlier, only this time her submarine sank to the sea floor. When she finally surfaces and returns home, her wife Miri knows that something is wrong. Barely eating and lost in her thoughts, Leah rotates between rooms in their apartment, running the taps morning and night. Whatever happened in that vessel, whatever it was they were supposed to be studying before they were stranded, Leah has carried part of it with her, onto dry land and into their home. As Miri searches for answers, desperate to understand what happened below the water, she must face the possibility that the woman she loves is slipping from her grasp. By turns elegiac and furious, wry and heartbreaking, *Our Wives Under the Sea* is an exploration of the unknowable depths within each of us, and the love that compels us nevertheless toward one another.

Living with the Sea Apr 03 2021 The seas and oceans are currently taking centre stage in academic study and public consciousness. From the plastics littering our seas, to the role of climate change on ocean currents from unequal access of marine resources to the treacherous experiences of seafarers who keep our global economy afloat; now is a crucial time to examine how we live with the sea. This ambitious book brings together an interdisciplinary and international cohort of contributors from within and beyond academia. It offers a range and diversity of insights unlike previous collections. An 'oceanic turn' is taking place, with a burgeoning of academic work that takes seriously the place of seas and oceans in

understanding socio-cultural and political life, past and present. Yet, there is a significant gap concerning the ways in which we engage with seas and oceans, with a will to enliven action and evoke change. This book explores these challenges, offering insights from spatial planning, architectural design, geography, educational studies, anthropology and cultural studies. An examination through these lenses can help us to better understand human relationships with the seas and oceans, and promote an ethic of care for the future.

The Edge of the Sea Aug 27 2020 "The edge of the sea is a strange and beautiful place." A book to be read for pleasure as well as a practical identification guide, *The Edge of the Sea* introduces a world of teeming life where the sea meets the land. A new generation of readers is discovering why Rachel Carson's books have become cornerstones of the environmental and conservation movements. New introduction by Sue Hubbell. (A Mariner Reissue)

To Make Room for the Sea Feb 13 2022 "The more I sit with these poems, the more they resonate with me and with universal patterns and themes—existential inquiries, loneliness, spiritual doubts." —Green Mountains Review *To Make Room for the Sea* reckons with the notion that nothing in this world is permanent. Led by an introspective speaker, these poems examine a landscape that resists full focus, and conclude that "it's easier to love what we don't know." "I hold this leaf I think / you should see, but I can't quite / say why," Adam Clay writes, as he navigates a variety of both personal and ecological fixations: disembodied bullfrog croaks, the growth of his child, a computer's dreaded blue screen of death. The observations in *To Make Room for the Sea* convey both grief for the Anthropocene and hope for the future. The poems read like field notes from someone who knows the world and hopes to know it differently. On the precipice of great change and restructured perspective, Clay's poems linger in "the second between taking in a vision and processing it," in the moment when the world is less a familiar system and more a palette of colors and potential. *To Make Room for the Sea* delights as much as it mourns. It looks forward as much as it reflects. Deft and hopeful, the poems in this collection gently encourage us to take another look at a world "only some strange god might have thought up / in a drunken stumble." "That's the magic of this book—the way Adam Clay, line after line, enacts the mind on the page." —Maggie Smith "Draws from an impressive repertoire of forms to tease out complex questions regarding time, epistemology, and memory." —Publishers Weekly

From the River to the Sea Jan 20 2020 "A sweeping and lively history of one of the most dramatic stories never told--of the greatest railroad war of all time, fought by the daring leaders of the Santa Fe and the Rio Grande to seize, control, and create the American West"--

The Extreme Life of the Sea Dec 19 2019 A thrilling tour of the sea's most extreme species, coauthored by one of the world's leading marine scientists The ocean teems with life that thrives under difficult situations in unusual environments. The Extreme Life of the Sea takes readers to the absolute limits of the ocean world—the fastest and deepest, the hottest and oldest creatures of the oceans. It dives into the icy Arctic and boiling hydrothermal vents—and exposes the eternal darkness of the deepest undersea trenches—to show how marine life thrives against the odds. This thrilling book brings to life the sea's most extreme species, and tells their stories as characters in the drama of the oceans. Coauthored by Stephen Palumbi, one of today's leading marine scientists, The Extreme Life of the Sea tells the unforgettable tales of some of the most marvelous life forms on Earth, and the challenges they overcome to survive. Modern science and a fluid narrative style give every reader a deep look at the lives of these species. The Extreme Life of the Sea shows you the world's oldest living species. It describes how flying fish strain to escape their predators, how predatory deep-sea fish use red searchlights only they can see to find and attack food, and how, at the end of her life, a mother octopus dedicates herself to raising her batch of young. This wide-ranging and highly accessible book also shows how ocean adaptations can inspire innovative commercial products—such as fan blades modeled on the flippers of humpback whales—and how future extremes created by human changes to the oceans might push some of these amazing species over the edge.

Soul of the Sea Nov 29 2020 This publication draws upon the fields of science, economics and business strategy to chart the future of humankind's relationship to the ocean. A healthy ocean provides the basis for a prosperous world, and oceans have been largely ignored as a driver of human well-being until now. Ocean health has been in a serious state of decline for the past 100 years from a range of pressures including human population growth, energy consumption and use of natural resources. Humanity will exceed the resources and environmental conditions necessary to exist, within the next century if nothing changes. Solutions to these challenges lie not only in traditional resource conservation management, but in new fields of technology, governance and innovation.

Financial Times _____ On a late November afternoon Saleh Omar arrives at Gatwick Airport from Zanzibar, a far away island in the Indian Ocean. With him he has a small bag in which lies his most precious possession - a mahogany box containing incense. He used to own a furniture shop, have a house and be a husband and father. Now he is an asylum seeker from paradise; silence his only protection. Meanwhile Latif Mahmud, someone intimately connected with Saleh's past, lives quietly alone in his London flat. When Saleh and Latif meet in an English seaside town, a story is unravelled. It is a story of love and betrayal, seduction and possession, and of a people desperately trying to find stability amidst the maelstrom of their times.

The Most Important Fish in the Sea Sep 20 2022 In this brilliant portrait of the oceans' unlikely hero, H. Bruce Franklin shows how menhaden have shaped America's national—and natural—history, and why reckless overfishing now threatens their place in both. Since Native Americans began using menhaden as fertilizer, this amazing fish has greased the wheels of U.S. agriculture and industry. By the mid-1870s, menhaden had replaced whales as a principal source of industrial lubricant, with hundreds of ships and dozens of factories along the eastern seaboard working feverishly to produce fish oil. Since the Civil War, menhaden have provided the largest catch of any American fishery. Today, one company—Omega Protein—has a monopoly on the menhaden “reduction industry.” Every year it sweeps billions of fish from the sea, grinds them up, and turns them into animal feed, fertilizer, and oil used in everything from linoleum to health-food supplements. The massive harvest wouldn't be such a problem if menhaden were only good for making lipstick and soap. But they are crucial to the diet of bigger fish and they filter the waters of the Atlantic and Gulf coasts, playing an essential dual role in marine ecology perhaps unmatched anywhere on the planet. As their numbers have plummeted, fish and birds dependent on them have been decimated and toxic algae have begun to choke our bays and seas. In Franklin's vibrant prose, the decline of a once ubiquitous fish becomes an adventure story, an exploration of the U.S. political economy, a groundbreaking history of America's emerging ecological consciousness, and an inspiring vision of a growing alliance between environmentalists and recreational anglers.

Structure in the Sea Mar 26 2023 *Structure in the Sea: The Science, Technology and Effects of Purpose-Built Reefs and Related Surfaces* provides a review of the history, development, status and emerging trends in research, technology and applications of artificial reef habitats and sea floor structures. The book helps readers understand, utilize and add to the research of modern reef deployment efforts, presenting a guide to equip stakeholders requiring technical foundations and best practices. Topics include materials, designs and construction methods, along with the ecology of these structures,

including key aspects of the life history of plants and animals associated with artificial reefs. Rigorous research addressing ecological, economic and engineering questions, coupled with the innovative deployment of structures worldwide by diverse stakeholders, have created a synergy that makes the book a valuable synthesis and analysis for this growing subject. Thus, its broad audience includes marine (coastal and ocean) environmental sciences, including aquatic ecologists, those working in ocean sustainability and conservation, benthic habitat and coral reef restoration practitioners, and more. Presents a new perspective on how we might save natural wonders under threat Provides a representation of reefs, showing the economic and humanitarian value of these natural ecosystems Unlocks potentials for solutions for conservation by including global case studies

In the Heart of the Sea Aug 19 2022 From the author of *Mayflower*, *Valiant Ambition*, and *In the Hurricane's Eye*--the riveting bestseller tells the story of the true events that inspired Melville's *Moby-Dick*. Winner of the National Book Award, Nathaniel Philbrick's book is a fantastic saga of survival and adventure, steeped in the lore of whaling, with deep resonance in American literature and history. In 1820, the whaleship *Essex* was rammed and sunk by an angry sperm whale, leaving the desperate crew to drift for more than ninety days in three tiny boats. Nathaniel Philbrick uses little-known documents and vivid details about the Nantucket whaling tradition to reveal the chilling facts of this infamous maritime disaster. *In the Heart of the Sea*, recently adapted into a major feature film starring Chris Hemsworth, is a book for the ages.

seas is just what it takes to get little one clean.

The Sea Jul 26 2020 “There is nothing more enticing, disenchanting, and enslaving than the life at sea,” wrote Joseph Conrad. And there is certainly nothing more integral to the development of the modern world. In *The Sea: A Cultural History*, John Mack considers those great expanses that both unite and divide us, and the ways in which human beings interact because of the sea, from navigation to colonization to trade. Much of the world’s population lives on or near the coast, and as Mack explains, in a variety of ways, people actually inhabit the sea. *The Sea* looks at the characteristics of different seas and oceans and investigates how the sea is conceptualized in various cultures. Mack explores the diversity of maritime technologies, especially the practice of navigation and the creation of a society of the sea, which in many cultures is all-male, often cosmopolitan, and always hierarchical. He describes the cultures and the social and technical practices characteristic of seafarers, as well as their distinctive language and customs. As he shows, the separation of sea and land is evident in the use of different vocabularies on land and on sea for the same things, the change in a mariner’s behavior when on land, and in the liminal status of points uniting the two realms, like beaches and ports. Mack also explains how ships are deployed in symbolic contexts on land in ecclesiastical and public architecture. Yet despite their differences, the two realms are always in dialogue in symbolic and economic terms. Casting a wide net, *The Sea* uses histories, maritime archaeology, biography, art history, and literature to provide an innovative and experiential account of the waters that define our worldly existence.

The Sea Apr 15 2022 BOOKER PRIZE WINNER • NATIONAL BESTSELLER • An “extraordinary meditation on mortality, grief, death, childhood and memory” (USA Today) about a middle-aged Irishman who has gone back to the seaside to grieve the loss of his wife. In this luminous novel, John Banville introduces us to Max Morden, a middle-aged Irishman who has gone back to the seaside town where he spent his summer holidays as a child to cope with the recent loss of his wife. It is also a return to the place where he met the Graces, the well-heeled family with whom he experienced the strange suddenness of both love and death for the first time. What Max comes to understand about the past, and about its indelible effects on him, is at the center of this elegiac, gorgeously written novel—among the finest we have had from this masterful writer.
