***The Hidden Curriculum Jan 25 2023 Offers advice and suggestions for acceptable social skills for individuals with social-cognitive problems.***

***The Hidden Curriculum in Doctoral Education Oct 22 2022 This book explores the concept of the 'hidden curriculum' within doctoral education. It highlights the unofficial channels of genuine learning typically acquired by doctoral students independent of the physical***

***and metaphorical walls of academia. The doctorate is a huge and complex undertaking which requires a range of support beyond academic foundations. The exchange between official and hidden curricula is therefore key, not just for achieving the qualification, but to also achieve transformative growth. This book offers a framework for a 'doctoral learning ecology model' to scaffold learning and sustain wellbeing by leveraging both formal and hidden curricula. This illuminating book will be of interest and value to doctoral researchers, supervisors, and mentors.***

***The Hidden Curriculum in Health Professional Education Feb 26 2023 The hidden curriculum (HC) in health professional education comprises the organizational and institutional contexts and cultural subtexts that shape how and what students learn outside the formal and intended curriculum. HC includes informal social processes such as role modeling, informal conversations and interactions among faculty and students, and more subterranean forces of organizational life such as the structure of power and privilege and the architectural layout of work environments. For better and sometimes for worse, HC functions as a powerful vehicle for learning and requires serious attention from health professions educators. This volume, of interest to medical and health professionals, educators, and students, brings together twenty-two new essays by experts in various aspects of HC. An introduction and conclusion by the editors contextualizes the essays in the broader history and literature of the field.***

***Implicit Pedagogy for Optimized Learning in Contemporary Education May 25 2020 In addition to the content prescribed by the official curriculum of any given educational establishment, students learn other information and skills outside of the intended and taught information (such as sharing, communication, and conflict-resolution). These learned skills, otherwise unaccounted for in the education process, can be considered as a part of a hidden or unwritten curriculum. Implicit Pedagogy for Optimized Learning in Contemporary Education is a pivotal reference source that provides vital research on the application of assessment methods for the evaluation of indirect and direct educational methods. While highlighting topics such as language development, teacher agency, and learning process, this publication explores hidden curricula as well as the methods of learning outside of the prescribed school curriculum. It is ideally designed for educators, administrators, students, and researchers seeking current research on the effect of hidden curricula on the education process.***

***Mentoring At-Risk Students through the Hidden Curriculum of Higher Education Feb 14 2022*** ***Mentoring At-Risk Students through the Hidden Curriculum of Higher Education*** reveals how the institutional culture and social networks of universities influence the academic success of underrepresented students. This book is based on a qualitative study that integrates a sociological and higher education theoretical framework to examine the impact of mentoring programs on students' acquisition of institutional cultural capital and social capital during their college experience. This book offers an innovative mentoring model that illuminates how students can navigate the hidden curriculum of higher education. In addition, the book provides practical strategies on how to avoid academic mine fields in order to thrive in college. This book is written for administrators, faculty, student affairs professionals and students to promote retention, academic success, and create a more transparent, inclusive, and equitable higher education system. See here for an article by the author on mentoring programs in colleges and universities published in Inside Higher Ed: <http://www.insidehighered.com/news/2014/08/04/book-argues-mentoring-programs-should-try-unveil-colleges-hidden-curriculum> To learn about a recent presentation by the author, see here: [http://diverseeducation.com/article/66772/?utm\\_campaign=Diverse%20Newsletter%203&utm\\_medium=email&utm\\_source=Eloqua&elq=82772667e2334157934731fc05a8fe9c&elqCampaignId=358](http://diverseeducation.com/article/66772/?utm_campaign=Diverse%20Newsletter%203&utm_medium=email&utm_source=Eloqua&elq=82772667e2334157934731fc05a8fe9c&elqCampaignId=358)

***The Hidden Curriculum Apr 28 2023*** A revealing look at the experiences of first generation students on elite campuses and the hidden curriculum they must master in order to succeed College has long been viewed as an opportunity for advancement and mobility for talented students regardless of background. Yet for first generation students, elite universities can often seem like bastions of privilege, with unspoken academic norms and social rules. The Hidden Curriculum draws on more than one hundred in-depth interviews with students at Harvard and Georgetown to offer vital lessons about the challenges of being the first in the family to go to college, while also providing invaluable insights into the hurdles that all undergraduates face. As Rachel Gable follows two cohorts of first generation students and their continuing generation peers, she discovers surprising similarities as well as striking differences in their college experiences. She reveals how the hidden curriculum at legacy universities often catches first generation students off guard,

***and poignantly describes the disorienting encounters on campus that confound them and threaten to derail their success. Gable shows how first-gens are as varied as any other demographic group, and urges universities to make the most of the diverse perspectives and insights these talented students have to offer. The Hidden Curriculum gives essential guidance on the critical questions that university leaders need to consider as they strive to support first generation students on campus, and demonstrates how universities can balance historical legacies and elite status with practices and policies that are equitable and inclusive for all students.***

***The Hidden Curriculum - Faculty Made Tests in Science Jan 01 2021***

***The Hidden Curriculum for Understanding Unstated Rules in Social Situations for Adolescents and Young Adults Aug 08 2021 In this edition, the authors narrow their target to issues common to adolescents and young adults. While many of the features of the original book have been maintained, information on evidence-based practice has been added. Further, a series of instructional strategies are provided that can be used to teach the hidden curriculum. Instructional aids include charts, forms, and templates designed to make the job of teaching and learning the hidden curriculum more effective.***

This book offers easy, simple to follow suggestions for how to avoid the social minefields in getting and keeping a job.--Publisher.***

***Special Places, Special People Aug 28 2020 The research project "Special Places; Special People" is designed to provide insight and advice in the management of schools and their grounds for the benefit of children. This document describes the project's research methodology and findings, explores some of the wider implications arising from the study, and suggests ways in which schools might embark upon effecting change. Research findings are discussed on***

**how children read the external environment and school grounds. Issues arising from these findings examine the importance of school grounds to children in a modern society, the messages school grounds convey about the ethos of schools, and children's attitudes and behavior that are determined by the school grounds and the way they are managed. The report's concluding section contains an alphabetical listing of references and resource information on school grounds development, play theory, children and the environment, children's games, and lunchtime supervision and management. (GR)**

***The Hidden Curriculum—Faculty-Made Tests in Science* May 05 2021 This resource manual for college-level science instructors reevaluates the role of testing in their curricula and describes innovative techniques pioneered by other teachers. part I examines the effects of the following on lower-division courses: changes in exam content, format, and environment; revisions in grading practices; student response; colleague reaction' the sharing of new practices with other interested professionals, and more. The book includes a comprehensive introduction, faculty-composed narratives, commentaries by well-known science educators, and a visual index to 100 more refined innovations.**

***The Hidden Curriculum and Moral Education* Oct 30 2020**

***The Hidden Curriculum* Nov 23 2022 "Many feel that kids come in; the teachers teach them and simply deal with disciplinary problems accordingly. There is much more to that, hence, *The Hidden Curriculum*," states author and high school teacher Anthony F. Loporchio, Jr. In *The Hidden Curriculum* Loporchio presents a semi-autobiographical account of his experiences in the classroom while offering commentary on the ups and downs of teaching. For the person considering a career in education or one who seeks an insider's look at life in public schools, *The Hidden Curriculum* is a must-read.**

***The Hidden Curriculum in Higher Education* Mar 27 2023 This text includes original essays focusing on every aspect of the hidden curriculum, from sexism in science departments to the politics of the dissertation committee to the training of capitalism's foot soldiers by business schools.**

***The Hidden Curriculum* Sep 21 2022 This yearbook contains 19 papers (selected by referees) that concentrate on the "hidden curriculum"--integrated topics often taught or needing emphasis, but having limited coverage in classroom textbooks. The book is organized in three parts. Part I calls attention to the subject of**

*excellence versus mediocrity, introduces the reader to current trends in the work force, and describes the role of the educator as a facilitator of the hidden curriculum. Paper titles and authors are as follows: "The Hidden Curriculum: An Opportunity: (Burford, Arnold); "Defining the Work Force of the 1990s: Implications for Curriculum Development and Instructional Practice" (Haynes); and "The Teacher as Facilitator of the Hidden Curriculum" (O'Neil, Schmidt). Part II concentrates on a range of content areas and presents strategies for learning, reinforcing, and evaluating curricula, in the following papers: "Hidden Agendas for Reading Skills" (Olsen); "Hidden Agendas for Proofreading Skills" (Joyner); "Hidden Agendas for the Basic Business Subjects" (Echternacht); "The Hidden Agenda for Communication" (Brewer, Bloom); "Listening: A Partner for Career Enhancement and Establishment" (Bennington); "Evaluation: A Tool for Learning and Identifying Talent" (Kleen); "Characteristics of Learning and Associated Outcomes" (Drennan, Sawyer); "Active Learning through Structured Grouping in the Classroom" (Miller, Monthei); "Lifelong Learning" (Cochrane); "The Need to Incorporate the Work Ethic and Ethics into Business Education Curricula" (Wayne, Chapman); "Social and Personality Development" (Prigge, Ray); and "Education for Employment" (Sink, Dugal). Part III reviews selected features of the hidden curriculum and presents strategies for using telecommunication, youth organizations, and work partnerships to improve business education. Papers are as follows: "Teaching the Hidden Curriculum in Technology Courses" (Clark, Winzurk); "Youth Organizations and Their Role in Enhancing Elements of the Hidden Curriculum" (Newton); "Education and Work Partnerships" (Zahn, Poole); and "Networking Telecommunications into the Business Curriculum: Activities and Student Objectives" (Labonty, Jimeno). (KC)*

*Emotion and School May 17 2022 The book differs from other books on emotions in teaching by acknowledging all relationships within the complex system of schools and the ways that emotion influences the relationship and practice of the those working within schools-administration, teacher-peer, teacher- student, and veteran- novice.*

*2008 Hidden Curriculum One-A-Day Calendar Feb 20 2020 Plan ahead with one of AAPC's best-sellers, The 2008 Hidden Curriculum One-A Day Calendar. This unique resource offers you much more than a calendar. Its 365 social 'rules' were created to help individuals with ASD of all ages cope with everyday social encounters and other challenges. As such, the daily tips will*

**promote conversations between parents, professionals and those with ASD. The calendar is designed to sit on a desk or a table.**

***Making Inequality Sep 28 2020***

***Rituals of Failure Apr 04 2021 The book is an examination of how Canadian schools are failing not just children but society as a whole. Through candid portraits of life in our schools, Sandro Contenta lays bare the "hidden curriculum"-the almost invisible ways in which schools are slowly breaking the spirits of many children and destroying their years of education. The text proposes a restructuring of schooling based on two themes: education for social change, or critical pedagogy, and a holistic understanding of our world.***

***The Hidden Curriculum of Online Learning Oct 10 2021***

***Challenging the current understandings of equity and social justice in the field of online education, The Hidden Curriculum of Online Learning analyses how cultural hegemony creates unfair learning experiences through cultural differences. It argues that such inequitable learning experiences are not random acts but rather represent the existing inequities in society at large through cultural reproduction. Based on an ethnographic work, the book discusses the concept of social absence (in relation to social presence) to discuss how individuals perform their identities within group contexts and to create awareness of social justice issues in online education. It draws upon critical pedagogy and cultural studies to show that while online learning spaces are frequently promoted by local or federal governments and higher education institutions as overwhelmingly inclusive and democratic, these premises do not operate with uniformity across all student cohorts. The Hidden Curriculum of Online Learning It will be of great interest to academics, post-graduate students, and researchers in the fields of digital learning and inclusion, education research, and cultural studies.***

***Dumbing Us Down Nov 11 2021 This radical treatise on public education has been a New Society Publishers' bestseller for 10 years! Thirty years of award-winning teaching in New York City's public schools led John Gatto to the sad conclusion that compulsory governmental schooling does little but teach young people to follow orders as cogs in the industrial machine. In celebration of the ten-year anniversary of Dumbing Us Down and to keep this classic current, we are renewing the cover art, adding new material about John and the impact of the book, and a new Foreword.***

***A Postmodern View of the Hidden Curriculum Sep 09 2021 Author's abstract: This dissertation will address the hidden curriculum and the impact that it has on the contemporary classroom. In the twentieth century, America is facing a variety of crises, one being the state of the national educational system, and part of this crisis is the public image that the educational system presents to the public eye through the hidden curriculum. Every institution has a public image or the side of it which first meets the eye, but often these images are deceptive. Schools present a public image in that schools teach much more than they claim to teach and they complete this task through rules, curriculum, and responses to all events and situations. The hidden curriculum actually functions in the open through the practices of the school, and is only hidden in the fact that these practices go unacknowledged by teachers, administrators, parents and students. My research goal is to expose the hidden curriculum in my classroom and in the school where I teach in order to improve my teaching style and facilitate school improvement.***

***A Field Guide to Grad School Aug 20 2022 Introduction -- Choosing a program -- Building your team -- Deciphering academic jargon -- Reading and writing about other people's research -- Staying on track in your program -- Doing research and finding funding -- Writing about your research -- Publishing and promoting your work -- Talking about your research -- Going to conferences -- Navigating the job market -- Balancing teaching, research, service and life -- Conclusion.***

***Supplementary Education Jun 18 2022 In Supplementary Education, the editors argue that while access to schools that enable and expect academic achievement is a necessary ingredient for the education of students, schools alone may not be sufficient to ensure universally high levels of academic development. Supplemental educational experiences may also be needed. The idea of supplementary education is based on the assumption that high academic achievement is closely associated with exposure to family and community-based activities and learning experiences that occur both in and out of school in support of academic learning. For low income and some ethnic minority student groups, opportunities to participate in such activities are generally under-resourced and underutilized in comparison to the access to and participation in such activities by many European- and Asian- Americans from mid to high socio-economic backgrounds. This book makes the case for supplementary education. Specifically, it focuses on the need for universal access to high levels of academic achievement, and the***

**challenge of reducing the 'achievement gap' that exists between Asian American and European American students and their African American, Latina/o, and Native American counterparts. Having posed the problem, the editors define the construct and provide in-depth descriptions of some of the more colloquial expressions of supplementation in after school care, youth development, and other forms of supplemental education. The editors close with a discussion of the emerging institutionalization and need for more thoughtful and rigorous research of the supplementary education movement.**
