This is an urban and commuting cyclist's handbook, both inspirational and practical, showing us how to live safer, more enjoyable and healthier lives, both physically and mentally, while reducing our impact on the planet. Author of numerous bestselling bike books, Chris Sidwells, begins with a brief

introduction which shows how cycling is already forming a crucial part of future urban transport, good for the environment as well as our health. Current urban transport models, heavily dependent as they are on cars, are unsustainable both in terms of our health and the environment. Cycling offers the perfect mass transport, health and wellbeing solution. As well as being an easy way to improve the fitness of the whole family, with some simple know-how, which Chris shares in this book, it can be perfectly safe even in busy cities. Increasingly, local authorities are seeing the essential role that cycling has to play in transport infrastructure; Chris looks at the many different schemes, both financial and infrastructural, to encourage people onto bikes. Commuting by bike also offers a financial benefit to individuals and societies. Chris shows how to get the right bike for you for commuting and urban cycling, whether that's an electric-assisted bike or pedal-powered only, and how to adjust it properly for your unique build. He looks at cycling clothing and accessories, including helmets, masks, locks and safety equipment. Chris explains how to keep cycling safely despite inclement weather and the different ways to transport what you need to and from work. A chapter on bike care and maintenance shows how to carry out basic repair jobs like adjusting gears, mending punctures and adjusting brakes. Chris explains cycling skills to give you confidence when cycling, including bike control, braking and how to make the most of your gears. He shows when and how to use the extra power provided by an electric bike and offers encouragement to new and returning cyclists. An extended chapter covers road safety, perhaps the biggest barrier to people commuting by bike. Chris shows how to co-exist safely with other road users and the potential hazards that every cyclist should be aware of. He explains the rules that every cyclist must follow and gives step-by-step guidance on how to carry out manoeuvres on the road. Chris shows how to choose the best route to and from work. He gives details of the various schemes to encourage

commuting by bike, including insurance and where to find information. Cycling is regarded by many as the best way to regain and maintain fitness. As well as improving both physical and mental wellbeing, cycling can boost our immune system. Cycling also gives self-sufficiency and enhances self esteem. Carlos and Sam want to play a game in the city so they have to get creative. Describes different types of trucks and what they are used for in the city, such as garbage trucks, delivery trucks, and street sweepers. Get ready to explore the city! Dominika Lipniewska takes us on a magical journey through a day in the life of a city. With bold and distinctive graphics and lots of detail for children to explore, *In the City* covers every aspect of the features one is likely to find in cities throughout the world - from buildings of every shape and size, the many different modes of transport, bustling market places, parks and zoos and all the different people one is likely to find. An analysis of the ways film and media create topographies of cities, architecture, and metropolitan experiences. *Narrating the City* examines how film and related visual media offer insights and commentary on the city as both a constructed object and a lived social experience. It brings together filmmakers, architects, digital artists, designers, and media journalists who critically read, reinterpret, and create narratives of the city. Analyzing a variety of international films and placing them in dialogue with video art, photographic narratives, and emerging digital image-based technologies, the authors explore the expanding range of "mediated" narratives of contemporary architecture and urban culture from both a media and a sociological standpoint. The authors explore how moving-image narratives can create cinematic topographies, presenting familiar cities and modes of seeing in unfamiliar ways. The authors then turn to the new age of digital image making and consumption, revealing new techniques of representation, mediation, and augmentation of sensorial reality for city dwellers. The book's emphasis on narrative also offers insights into critical

societal issues including cultural identity, diversity, memory, and spatial politics, as they are both informed by and represented in various media. Three-time Hugo Award-winning and New York Times bestselling author N.K. Jemisin crafts her most incredible novel yet, a "glorious" story of culture, identity, magic, and myths in contemporary New York City. In Manhattan, a young grad student gets off the train and realizes he doesn't remember who he is, where he's from, or even his own name. But he can sense the beating heart of the city, see its history, and feel its power. In the Bronx, a Lenape gallery director discovers strange graffiti scattered throughout the city, so beautiful and powerful it's as if the paint is literally calling to her. In Brooklyn, a politician and mother finds she can hear the songs of her city, pulsing to the beat of her Louboutin heels. And they're not the only ones. Every great city has a soul. Some are ancient as myths, and others are as new and destructive as children. New York? She's got six. For more from N. K. A little girl's belief in Santa is restored in this ode to the magic of Christmas. This is a holiday gift readers will treasure for years to come! It's two weeks before Christmas, and Deja is worried that Santa might not be able to visit her--after all, as a city kid, she doesn't have a chimney for him to come down and none of the parking spots on her block could fit a

sleigh, let alone eight reindeer! But with a little help from her family, community, and Santa himself, Deja discovers that the Christmas spirit is alive and well in her city. With bold, colorful illustrations that capture the joy of the holidays, this picture book from award-winning author Tiffany D. Jackson and illustrator Reggie Brown is not to be missed. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE LOS ANGELES TIMES, THE SEATTLE TIMES, AND PUBLISHERS WEEKLY. When a murdered woman is found in the city of Beszel, somewhere at the edge of Europe, it looks to be a routine case for Inspector Tyador Borlú of the Extreme Crime Squad. To investigate, Borlú must travel from the decaying Beszel to its equal, rival, and intimate neighbor, the vibrant city of Ul Qoma. But this is a border crossing like no other, a journey as psychic as it is physical, a seeing of the unseen. With Ul Qoman detective Qussim Dhatt, Borlú is enmeshed in a sordid underworld of nationalists intent on destroying their neighboring city, and unificationists who dream of dissolving the two into one. As the detectives uncover the dead woman's secrets, they begin to suspect a truth that could cost them more than their lives. What stands against them are murderous powers in Beszel and in Ul Qoma: and, most terrifying of all, that which lies between these two cities. BONUS: This edition contains a The City & The City discussion guide and excerpts from China Miéville's Kraken and Embassytown. Otis the horse loves the children who come to visit him at the farm, but when he finds he has many questions about them, he ventures into the city to find answers. *The Verge's Science Fiction and Fantasy Book We're Looking Forward to in 2019 *AV Club's 15 Most Anticipated Books of 2019 *Book Riot's Most Anticipated Books of 2019 *Kirkus' 30 Speculative Fiction Books You Should Read in February 2019 *Bookish's Winter's Must-Read Sci-fi & Fantasy *Bookbub's Best Science Fiction Books Coming Out in 2019 *YA Books Central's Buzzworthy Books of 2019 "This generation's Le Guin." —Andrew Sean Greer, Pulitzer Prize-winning author of Less

Charlie Jane Anders, the nationally bestselling author of *All the Birds in the Sky* delivers a brilliant new novel set in a hauntingly strange future with #10 LA Times bestseller *The City in the Middle of the Night*. "If you control our sleep, then you can own our dreams... And from there, it's easy to control our entire lives." January is a dying planet—divided between a permanently frozen darkness on one side, and blazing endless sunshine on the other. Humanity clings to life, spread across two archaic cities built in the sliver of habitable dusk. But life inside the cities is just as dangerous as the uninhabitable wastelands outside. Sophie, a student and reluctant revolutionary, is supposed to be dead after being exiled into the night. Saved only by forming an unusual bond with the enigmatic beasts who roam the ice, Sophie vows to stay hidden from the world, hoping she can heal. But fate has other plans—and Sophie's ensuing odyssey and the ragtag family she finds will change the entire world. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. This sequel to *The Carrie Diaries* brings surprising revelations as Carrie learns to navigate her way around the Big Apple, going from being a country "sparrow" to the person she always wanted to be. With her signature wit and sparkling humor, Candace Bushnell reveals the irresistible story of how Carrie met Samantha and Miranda, and what turned a small-town girl into one of New York City's most unforgettable icons, Carrie Bradshaw. Summer is a magical time in New York City, and Carrie is in love with all of it—the crazy characters in her neighborhood, the vintage-clothing boutiques, the wild parties, and the glamorous man who has swept her off her feet. Best of all, she's finally in a real writing class, taking her first steps toward fulfilling her dream. But as it becomes increasingly difficult to reconcile her past with her future, Carrie realizes that making it in New York is much more complicated than she ever imagined. 2018 Green Earth Book Award Finalist Lionel lives in a Paris apartment building but loves keeping bees

with his Aunt Celine at her farm outside the city. But when her bees start dying, how can he help? The solution, he realizes, is in the rooftop gardens and window boxes of his apartment neighbors, representing a varied and continuously blooming array of flowers that the bees will love. Aunt Celine must bring her bees to Paris! But first he and his friends Alice and Samir must convince their skeptical neighbors and landlord, Mr. Dubi, that this is a good idea. Adorned with Parisian skylines, *Bees in the City* is a love letter to the City of Light and a celebration of the can-do spirit of kids. Sarah McMenemy's illustrations recall the Parisian magic of Madeleine. The book's backmatter explores urban beekeeping and rooftop gardening in greater depth. Fountas & Pinnell Level P A young girl imagines what her father's commute looks like as he makes his way home to her. From acclaimed author-illustrator Dan Yaccarino comes an exhilarating adventure—set in a richly imagined alternate future—celebrating autonomy, community, and the power of reading, perfect for fans of *The Rock From the Sky*. Bix lives with her family in a city where people rarely talk or play together, and no longer read books. Instead, they stare at small portable screens, monitored by giant eyeballs. The Eyes are here to help! With everything. But Bix would like to do things for herself. Running from an Eye, she discovers another world: the City Under the City. There, she befriends a rat who leads her to a library and its treasure trove of books and knowledge. As she explores the abandoned city, she's thrilled to learn about the people who lived there, with no Eyes. But she misses her family, and decides to head home, where, just maybe, she can help defeat the intrusive Eyes—and show her people how to think for themselves and enjoy each other's company. Told through Dan Yaccarino's stunning graphic style, this page-turning picture book/early reader crossover will spark a new appreciation of reading, books, independence, friendship, and family. In this nuanced and groundbreaking history, Donna Murch argues that the Black Panther Party (BPP)

started with a study group. Drawing on oral history and untapped archival sources, she explains how a relatively small city with a recent history of African From tenements to alleyways to latrines, twentieth-century American cities created spaces where pests flourished and people struggled for healthy living conditions. In *Pests in the City*, Dawn Day Biehler argues that the urban ecologies that supported pests were shaped not only by the physical features of cities but also by social inequalities, housing policies, and ideas about domestic space. Community activists and social reformers strived to control pests in cities such as Washington, DC, Chicago, Baltimore, New York, and Milwaukee, but such efforts fell short when authorities blamed families and neighborhood culture for infestations rather than attacking racial segregation or urban disinvestment. Pest-control campaigns tended to target public or private spaces, but pests and pesticides moved readily across the porous boundaries between homes and neighborhoods. This story of flies, bedbugs, cockroaches, and rats reveals that such creatures thrived on lax code enforcement and the marginalization of the poor, immigrants, and people of color. As Biehler shows, urban pests have remained a persistent problem at the intersection of public health, politics, and environmental justice, even amid promises of modernity and sustainability in American cities. Rothman Award Finalist in the Western Writers of America Spur Award for the Western Nonfiction Contemporary category (2008). The San Francisco Bay Area is one of the world's most beautiful cities. Despite a population of 7 million people, it is more greensward than asphalt jungle, more open space than hardscape. A vast quilt of countryside is tucked into the folds of the metropolis, stitched from fields, farms and woodlands, mines, creeks, and wetlands. In *The Country in the City*, Richard Walker tells the story of

how the jigsaw geography of this greenbelt has been set into place. The Bay Area's civic landscape has been fought over acre by acre, an arduous process requiring popular mobilization, political will, and hard work. Its most cherished environments--Mount Tamalpais, Napa Valley, San Francisco Bay, Point Reyes, Mount Diablo, the Pacific coast--have engendered some of the fiercest environmental battles in the country and have made the region a leader in green ideas and organizations. This book tells how the Bay Area got its green grove: from the stirrings of conservation in the time of John Muir to origins of the recreational parks and coastal preserves in the early twentieth century, from the fight to stop bay fill and control suburban growth after the Second World War to securing conservation easements and stopping toxic pollution in our times. Here, modern environmentalism first became a mass political movement in the 1960s, with the sudden blooming of the Sierra Club and Save the Bay, and it remains a global center of environmentalism to this day. Green values have been a pillar of Bay Area life and politics for more than a century. It is an environmentalism grounded in local places and personal concerns, close to the heart of the city. Yet this vision of what a city should be has always been informed by liberal, even utopian, ideas of nature, planning, government, and democracy. In the end, green is one of the primary colors in the flag of the Left Coast, where green enthusiasms, like open space, are built into the fabric of urban life. Written in a lively and accessible style, *The Country in the City* will be of interest to general readers and environmental activists. At the same time, it speaks to fundamental debates in environmental history, urban planning, and geography. It can be a little scary to be small in a big city, but this child has some good advice for a very special friend in need. Winner of the Ezra Jack Keats Award A New York Times/New York Public Library Best Illustrated Book of the Year Winner of the CILIP Kate Greenaway Medal It can be a little scary to be small in a big city, but it helps to know you're not

alone. When you're small in the city, people don't see you, and loud sounds can scare you, and knowing what to do is sometimes hard. But this little kid knows what it's like, and knows the neighborhood. And a little friendly advice can go a long way. Alleys can be good shortcuts, but some are too dark. Or, there are lots of good hiding places in the city, like under a mulberry bush or up a walnut tree. And, if the city gets to be too much, you're always welcome home, where it's safe and quiet. In the first book that he has both written and illustrated, award-winning artist Sydney Smith spins a quiet, contemplative tale about seeing a big world through little eyes. In the face of several major earthquakes and floods, riots and economic insecurity, police brutality and mass incarceration, some young black Angelenos turned to holy hip hop—a movement merging Christianity and hip hop culture—to “save” themselves and the city. Converting street corners to open-air churches and gangsta rap beats into anthems of praise, holy hip hoppers used gospel rap to navigate complicated social and spiritual realities and to transform the Southland's fractured terrains into musical Zions. Armed with beats, rhymes, and bibles, they journeyed through

black Lutheran congregations, prison ministries, African churches, reggae dancehalls, hip hop clubs, Nation of Islam meetings, and Black Lives Matter marches. Zanfagna's fascinating ethnography provides a contemporary and unique view of black LA, offering a much-needed perspective on how music and religion intertwine in people's everyday experiences. In this off-the-beaten-sidewalk debut, native New Yorker Daphne Uviller reveals the secrets of a sexy, story-filled Big Apple, where a mystery lurks behind every apartment door—and a savvy but slightly lost young woman unexpectedly finds herself holding the keys. In a city brimming with opportunities for heroism, twenty-seven-year-old Zephyr Zuckerman has often fantasized about committing acts of bravery that would make front-page news. Now she may get her big break—though it may require plunging a few toilets. When the superintendent of her parents' Greenwich Village brownstone is led away in handcuffs, unemployed Zephyr takes over his post and unleashes her inner sleuth: discovering titillating secrets about her tenants—from a smoky-voiced Frenchwoman who entertains throngs of unsavory visitors to a moody musician who just has to be hiding something—and realizing that her new reality is far more intriguing than her imagination. Soon Zephyr has sussed out wrongs that stretch from losers on the Internet to art fraud and an international crime ring. The mob thinks she's in the FBI, and the FBI thinks she's in the mob—a predicament she needs to clear up fast. But perhaps not before the cute, surly exterminator helps her solve the mystery of what to do with the rest of her life.... Shortlisted for the Financial Times and McKinsey Best Book of the Year Award in 2011 "A masterpiece." —Steven D. Levitt, coauthor of *Freakonomics* "Bursting with insights." —The New York Times Book Review A pioneering urban economist presents a myth-shattering look at the majesty and greatness of cities America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly . . . or are they? In this revelatory book, Edward

Glaeser, a leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent, eloquent case for the city's importance and splendor, offering inspiring proof that the city is humanity's greatest creation and our best hope for the future. This book presents interdisciplinary research to examine the ongoing debates around nonhuman animals in urban spaces. It explores how we can better appreciate and accommodate animals in the city, while also exploring the ecological, health, ethical, and cultural implications of the same. The book addresses seven interrelated themes such as blurred boundaries between the human and the nonhuman, the right of nonhuman species to the city, interactions between the human and nonhuman animals, the fabric of urban space, human and nonhuman complex systems, and collective welfare that forms the basis of a transspecies urban theory. It explains how a holistic understanding of the city requires that these blurred boundaries are acknowledged and critically examined. Chapters analytically consider the need to bring interspecies relationships to the fore to tackle questions of legitimacy and who has the "right" to the city. These also consider important intersections between the economic, political, social, and cultural aspects of the urban experience. The research contained in this book focuses on the development of an urban theory that would eradicate the divide between humans and other species in cities, and it depicts nonhuman animals as social actors that have voices within urban spaces. With global insights on human-animal relationships in a contemporary context, this book will be useful reading for scholars and students of urban studies, animal sciences, animal law, animals and public policy, anthropology, and environmental studies who are interested in the study of animals in cities. Two star-crossed teenagers fall in love during the 2019 Hong Kong protests in this searing YA contemporary debut about coming of age in a time of change. Sixteen-year-old Phoenix bombs her SATs, jeopardizing her dream of attending Yale in the United States. But when she goes to a Hong Kong protest with her brother and begins to document the growing movement, she realizes there might be more to life than grades and test scores. Kai is a seventeen-year-old artist from mainland China. When his mother dies, he's forced to move back to Hong Kong and trains to become a police officer, just like his estranged father. When he accidentally swaps phones with Phoenix and

discovers she's part of a secret protest network, he's given an assignment: infiltrate the group and report their plans back to the police. As Kai and Phoenix join the struggle for the future of Hong Kong, a spark forms between them, pulling them together even as their separate worlds try to force them apart. Yet their relationship, built on secrets and deception, is on a collision course for disaster. When the lies fall away, will they still love the person left behind?

Cities are staging more events than ever. Within this macro-trend, there is another less acknowledged trend: more events are being staged in public spaces. Some events have always been staged in parks, streets and squares, but in recent years events have been taken out of traditional venues and staged in prominent urban spaces. This is favoured by organisers seeking more memorable and more spectacular events, but also by authorities who want to animate urban space and make it more visible. This book explains these trends and outlines the implications for public spaces. Events play a positive role in our cities, but turning public spaces into venues is often controversial. Events can denigrate as well as animate city space; they are part of the commercialisation, privatisation and securitisation of public space noted by commentators in recent years. The book focuses on examples from London in particular, but it also covers a range of other cities from the developed world. Events at different scales are addressed and, there is dedicated coverage of sports events and cultural events. This topical and timely volume provides valuable material for higher level students, researchers and academics from events studies, urban studies and development studies. Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for

pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition. Dive into the mating habits of privileged New Yorkers in this hilarious collection of Bushnell's newspaper columns that inspired the hit HBO series. Sex and the City is a fantastic and sometimes terrifying foray into the hearts, minds, and mating habits of modern-day New Yorkers. Traveling in packs from lavish parties to high-end clubs, Bushnell's vividly candid characters live out the never-ending search for the perfect relationship. Bushnell's firsthand commentary on the behavior of the rich and famous is by turns witty and shocking, and always boldly true. In these pages you will meet "Carrie," the young writer looking for love in all the wrong places; "Samantha Jones," the successful proto-cougar who approaches sex just like a man; and "Mr. Big," the captain of industry who jumps from one bed to the next. Equal parts soap opera, gossip page, sociological study, and dating manual, Sex and the City, Candace Bushnell's former New York Observer column, has attracted a cult following and been adapted into two major motion pictures and one of the most popular TV series of our time. This is the groundbreaking work that both decoded and shaped a culture and a generation. Praise for Sex and the City "An Armistead Maupin-like canvas tinged with a liberal smattering of Judith Krantz." —Publishers Weekly "Fascinating . . . Hilarious . . . Welcome to the cruel planet that is Manhattan." —The Los Angeles Times "Bushnell is a deft writer, possessing a sly sense of humor and sharp insight into human behavior." —People Elana Shohamy is a professor and chair of the

Earl Jeffrey Richards' acclaimed translation is used nationwide in the most eminent colleges and universities in America, from Columbia to Stanford. What makes a healthy church? Specifically, what defines a successful church in heavily populated, richly diverse areas? This book will: Explore what it means to be a church for the city God has called you to engage. Help you learn from past success stories as well as past mistakes in urban ministry. Guide you in developing a philosophy of ministry that can lead to restoration and renewal in your city. According to the United States Census Bureau, over 80% of the population lives in urban areas. Churches in or near cities have to work hard to minister effectively to a diverse group of people, welcoming those of different backgrounds, engaging both the poor and marginalized as well as the wealthy and influential. Church-planters Matt Carter and Darrin Patrick explain the biblical, theological, and historical foundations of ministry within the urban core and how to plant churches where the gospel is faithfully shared and brings substantial benefits to those living in the community. For the City relates the wisdom gleaned from years of serving their cities for the sake of God's kingdom. Carter and Patrick practically equip church leaders and Christians to look at their city as a mission field where individuals and churches can faithfully proclaim the gospel and live out the reality of a community changed and transformed by its message. "Original and arresting....[Jones's] stories will touch chords of empathy and recognition in all readers." —Washington Post "These 14 stories of African-American life...affirm humanity as only good literature can." —Los Angeles Times A magnificent collection of short fiction focusing on the lives of African-American men and women in Washington, D.C., *Lost in the City* is the book that first brought author Edward P. Jones to national attention. Winner of the Pulitzer Prize, the National Book Critics

Circle Award, and numerous other honors for his novel *The Known World*, Jones made his literary debut with these powerful tales of ordinary people who live in the shadows in this metropolis of great monuments and rich history. *Lost in the City* received the Pen/Hemingway Award for Best First Fiction and was a National Book Award Finalist. This beautiful 20th Anniversary Edition features a new introduction by the author, and is a wonderful companion piece to Jones's masterful novel and his second acclaimed collection of stories, *All Aunt Hagar's Children*. From Caldecott Award-winning and New York Times bestselling author Chris Raschka, this tender and fun-filled picture book celebrates unexpected friendship and city life from the perspective of pigeons! How do two friends find each other? Why choose this one, not another? Are two friends just meant to be— I for you and you for me? Two pigeons fly through the city hoping to find a friend—but where do friends come from? In this brightly illustrated love letter to cities, the fine, feathered characters discover the magical, unlikely connections that happen best in the hustle and bustle of a big city.

No.1 New York Times bestselling author Dean Koontz is at the peak of his storytelling powers with this major new novel - a rich, multi-layered story that moves back and forth across decades and generations as a gifted musician relates the 'terrible and wonderful' events of his childhood in 1967. this is the story of a boy and a city... Jonah Kirk's childhood has been punctuated by extraordinary moments - like the time a generous stranger helped him realize his dream of learning the piano. Nothing is more important to him than his family and friends, and the electrifying power of music. But now Jonah has a terrifying secret. And it sets him on a collision course with a group of dangerous people who will change his life forever. For one bright morning, a single earth-shattering event will show Jonah that in his city, good is entwined with malice, and sometimes the dark side of humanity triumphs. But it will also teach him that courage and honour are found in the most

unexpected places, and the way forward lies buried deep inside the heart. If he can just survive to find it... 'A story of broken families, race, fathers, sons, love and hate, and how these things can bubble in the cauldron of the city. the most gripping thing I've read in a long, long time. You sense you are reading a master still at the peak of his powers.' Matt Haig, author of the Humans In this whimsical fantasy adventure, a novelist's search for an author takes him to a magical city, a villainous literary scholar, and perilous catacombs. Optimus Yarnspinner's search for an author's identity takes him to Bookholm—the so-called City of Dreaming Books. On entering its streets, our hero feels as if he has opened the door of a gigantic second-hand bookshop. His nostrils are assailed by clouds of book dust, the stimulating scent of ancient leather, and the tang of printer's ink. Soon, though, Yarnspinner falls into the clutches of the city's evil genius, Pfistomel Smyke, who treacherously maroons him in the labyrinthine catacombs underneath the city, where reading books can be genuinely dangerous . . . In *The City of Dreaming Books*, Walter Moers transports us to a magical world where reading is a remarkable adventure. Only those intrepid souls who are prepared to join Yarnspinner on his perilous journey should read this book. We wish the rest of you a long, safe, unutterably dull, and boring life! Praise for *The City of Dreaming Books* "German author and cartoonist Moers returns to the mythical lost continent of Zamonia in his uproarious third fantasy adventure to be translated into English, a delightfully imaginative mélange of Shel Silverstein zaniness and oddball anthropomorphism à la Terry Pratchett's *Discworld*. . . . A wonderfully whimsical story that will appeal to readers of all ages." —Publishers Weekly "A salmagundi of whimsy, imagination and book lore—remarkable fun." —Cleveland Plain Dealer "Moers puts Tolkien through some sort of Willy Wonka sweetening process and comes up with characters such as Optimus Yarnspinner, who, names being fate and all, just has to be a storyteller." —Kirkus Reviews

This volume envisions social practices surrounding mosques, shrines and public spaces in urban contexts as a window on the diverse ways in which Muslims in different regional and historical settings imagine, experience, and inhabit places and spaces as »sacred«. Unlike most studies on Muslim communities, this volume focuses on cultural, material and sensuous practices and urban everyday experience. Drawing on a range of analytical perspectives, the contributions examine spatial practices in Muslim societies from an interdisciplinary perspective, an approach which has been widely neglected both in Islamic studies and social sciences. At the height of the 1930s Depression, Harry Fabian pursues his dream of becoming the top wrestling promoter in London, making money by pimping, blackmail, and scams that send him spiraling ever further into the depths of depravity and immorality.
