*Holy Spirit Downloads ...and Other Cool Stuff* Feb 25 2023 These pages contain a selection of what I refer to as "Holy Spirit bombs." That is, they were penetrating downloads from the Lord, which He dropped in my spirit (2009 - 2019) and had the effect of drawing me ever closer into His Kingdom-perspective of life. But one can't really use the word "bomb" in the title of a book without raising some eyebrows. Not that I'm against raising eyebrows, mind you. It's just that when I do, I hope it won't be simply because of a book title. So I've substituted "downloads" for "bombs." Don't tell anyone. "Other cool stuff" is a smorgasbord of inspirational, random, and winsome thoughts. Together, I hope these inspire you to hear Holy Spirit giving you your own downloads (Jeremiah 33:3; 1 Corinthians 2:9-12), and to have a really great day.

**How to Draw Cool Stuff** Jul 26 2020 Five minutes may not seem like a lot of time to allow yourself to work on a drawing, as artists have been known to take days, months, and even years to complete a single work of art. However, as this book will prove, you can draw some really cool stuff in just under five minutes. By limiting their time, artists will start to see only the most essential parts of a subject while communicating action, movement, and expression into one timed drawing. This book is jam-packed with step-by-step lessons for drawing cool objects quickly - in 5-minutes or less! Author, artist, and instructor Catherine V. Holmes will start by teaching you how to quickly interpret basic information onto paper using simple but meaningful lines made with purpose. Start by observing, then draw the main shapes within your object. Next, you'll find simple lines and smaller shapes that build on the original ones, blocking in areas with lines and curves to represent the major details of your subject. The final steps should be filling your subject in with tone and refining shadows and highlights. Drawing under a time limit is a wonderful exercise that will help you learn how to draw more instinctively and gain a better understanding of form. The final outcome is not meant to be a polished drawing, but rather an all-around practice exercise that will improve your game and help you draw really some cool stuff with ease. The fifth book in the *How To Draw Cool Stuff* series, this exciting new title will teach you how to create simple illustrations using basic shapes and a drawing technique that simplifies the process of drawing, all while helping you construct height, width, and depth in your work. It will guide you through the creative thought process and provide plenty of ideas to get you started.

Practical Paracord Projects Dec 19 2019 Parachute cord, which is now universally known as paracord, is a lightweight nylon rope originally used by paratroopers during World War II. It is now employed as a general purpose utility cord by military personnel and civilians alike. Paracord is an ideal material for making whips, for example, due to its durability and flexibility. Hikers and other outdoor enthusiasts have made "survival bracelets" from paracord, which are meant to be unraveled when needed to secure cargo, lash together poles, and fix broken straps and laces. As more colors become available, crafters are discovering that paracord makes an excellent material for fun and stylish friendship bracelets, lanyards, belts, dog leashes, key chains, and more. Originating from Instructables, a popular project-based community made up of all sorts of people with a desire to pass on their wisdom to others, Practical Paracord Projects contains ideas from a number of authors who show just how easy it is to make virtually anything from paracord. Practical Paracord Projects provides step-by-step instructions on a variety of useful and fun objects involving paracord. Guided by detailed photographs, the reader will create such practical and unusual projects as: A laptop harness A can koozie An eyeglass lanyard A hanging chair Sandals A leatherman pouch And much more!

**How to Draw Cool Stuff** Nov 10 2021 "How to Draw Cool Stuff: Basics, Shading, Texture, Pattern and Optical Illusions" is the second book in the How to Draw Cool Stuff series. Inside you will find simple illustrations that cover the necessities of drawing cool stuff. Specific exercises are provided that offer step-by-step guidelines for drawing a variety of subjects. Each lesson starts with an easy-to-draw shape that will become the basic structure of the drawing. From there, each step adds elements to that structure, allowing the artist to build on their creation and make a more detailed image. Starting with the basic forms, the artist is provided a guide to help see objects in terms of simplified shapes. Instructions for shading to add depth, contrast, character and movement to a drawing are then covered. The varieties of texture and pattern that can be included in an artwork offer another layer of interest and depth to a design. These elements are necessary to indicate the way something looks like it feels in a work (texture) or creating the repetition of shapes, lines or colors (patterns). Illustrated optical illusions involve images that are sensed and perceived to be different from what they really are, showing examples of how the mind and the eyes can play tricks on each other. All you need is a piece of paper, a pencil and an eraser and you are ready to draw cool stuff. Once the drawing is complete, it can be colored, shaded or designed in any way you like to make it original. Following these exercises is a great way to practice your craft and begin seeing things in terms of simple shapes within a complex object.

**The Fun Stuff** Oct 09 2021 Following *The Broken Estate*, *The Irresponsible Self*, and *How Fiction Works*—books that established James Wood as the leading critic of his generation—*The Fun Stuff* confirms Wood's preeminence, not only as a discerning judge but also as an appreciator of the contemporary novel. In twenty-three passionate, sparkling dispatches—that range over such crucial writers as Thomas Hardy, Leon Tolstoy, Edmund Wilson, and Mikhail Lermontov—Wood offers a panoramic look at the modern novel. He effortlessly connects his encyclopedic, passionate understanding of the literary canon with an equally in-depth analysis of the most important authors writing today, including Cormac McCarthy, Lydia Davis, Aleksandar Hemon, and Michel Houellebecq. Included in *The Fun Stuff* are the title essay on Keith Moon and the lost joys of drumming—which was a finalist for last year's National Magazine Awards—as well as Wood's essay on George Orwell, which Christopher Hitchens selected for the Best American Essays 2010. *The Fun Stuff* is indispensable reading for anyone who cares about contemporary literature.

*Rock & Roll Poetry and Other Cool Stuff* Jan 24 2023 "I see you in the shadows of every broken heart, and in the blood of unknown martyrs that never got their start. From the echoes of the weeping, and church bells never rung - you'll be lurking in the shadows of every long song never sung" - Excerpt from "In The Shadows". This powerful compilation of poems, ranges from what the author calls "Rock & Roll Poetry" (a cross between the styles of an ee cummings and a Harry Chapin/Eric Burdon) to matters of the heart to questions of life to the macabre. You will find yourself inspired in thought and emotion, and asking for more, each time you re-read it.
