The family has just moved to an old farmhouse in a new town, where the only good thing seems to be Miri's ten-sided attic bedroom. But when Miri gets sent to her room after accidentally bashing her big brother on the head with a shovel, she finds herself in the same room . . . only not quite. Without meaning to, she has found a way to travel back in time to 1935 where she discovers Molly, a girl her own age very much in need of a loving family. And when a disastrous oil leak threatens the bayou, she knows she may also be the only one who can help. Does she have what it takes to be a hero? Jewell Parker Rhodes weaves a rich tale

Christians face a conundrum when it comes to naming God, for if God is unnamable, as theologians maintain, he can also be called by every name. His proper name is thus an open-ended, all-encompassing list, a mystery the Church embraces in its rhetoric, but which many Christians have found difficult to accept. To explore this conflict, Valentina Izmirlieva examines two lists of God ' s names: one from The Divine Names, the classic treatise by Pseudo-Dionysius, and the other from The 72 Names of the Lord, an amulet whose history binds together Kabbalah and Christianity, Jews and Slavs, Palestine, Provence, and the Balkans. This

unexpected juxtaposition of a theological treatise and a magical amulet allows Izmirlieva to reveal lists' rhetorical potential to create order and to function as both tools of knowledge and of power. Despite the two different visions of order represented by each list, Izmirlieva finds that their uses in Christian practice point to a complementary relationship between the existential need for God's protection and the metaphysical desire to submit to his infinite majesty—a compelling claim sure to provoke discussion among scholars in many fields. "... containing the names and the disposition made of more than 20,000 pictures, from ... May 15th, 1915, up to the end of the year 1917. This list will be supplemented by further lists presented at the end of each half yearly period."--Pennsylvania State Board of Censors of Moving Pictures. Report, 1918, p. 7.

Every Tool's a Hammer is a chronicle of my life as a maker. It's an exploration of making, but it's also a permission slip of sorts from me to you. Permission to grab hold of the things you're interested in, that fascinate you, and to dive deeper into them to see where they lead you. Through stories from forty-plus years of making and molding, building and breaking, along with the lessons I learned along the way, this book is meant to be a toolbox of problem solving, complete with a shop's worth of notes on the tools, techniques, and materials that I use most often. Things like: In Every Tool There Is a Hammer—don't wait until everything is

perfect to begin a project, and if you don't have the exact right tool for a task, just use whatever's handy; Increase Your Loose Tolerance—making is messy and filled with screwups, but that's okay, as creativity is a path with twists and turns and not a straight line to be found; Use More Cooling Fluid—it prolongs the life of blades and bits, and it prevents tool failure, but beyond that it's a reminder to slow down and reduce the friction in your work and relationships; Screw Before You Glue—mechanical fasteners allow you to change and modify a project while glue is forever but sometimes you just need the right glue, so I dig into which ones will do the job with the least harm and best effects. This toolbox also includes lessons from many other incredible makers and creators, including: Jamie Hyneman, Nick Offerman, Pixar director Andrew Stanton, Oscar-winner Guillermo del Toro, artist Tom Sachs, and chef Traci Des Jardins. And if everything goes well, we will hopefully save you a few mistakes (and maybe fingers) as well as help you turn your curiosities into creations. I hope this book serves as “creative rocket fuel” (Ed Helms) to build, make, invent, explore, and—most of all—enjoy the thrills of being a creator. A child lists things a mommy does, such as chasing monsters away, that show she is magic, even if she does not have a wand or magic hat. **55% OFF for Bookstores!! LAST DAYS***

Editor's Choice "More than just a story of an abiding cultural preoccupation, *The Longing For Less* peels back the commodified husk of minimalism to reveal something surprising and thoroughly alive." -Jenny Odell, author of *How to Do Nothing* "Less is more": Everywhere we hear the mantra. Marie Kondo and other decluttering gurus promise that shedding our stuff will solve our problems. We commit to cleanse diets and strive for inbox zero. Amid the frantic pace and distraction of everyday life, we covet silence-and airy, Instagrammable spaces in which to enjoy it. The popular term for this brand of upscale austerity, "minimalism," has mostly come to stand for things to buy and consume. But minimalism has richer, deeper, and altogether more valuable gifts to offer. Kyle Chayka is one of our sharpest cultural observers. After spending years covering minimalist trends for leading publications, he now delves beneath this lifestyle's glossy surface, seeking better ways to claim the time and space we crave. He shows that our longing for less goes back further than we realize. His search leads him to the philosophical and spiritual origins of minimalism, and to the stories of artists such as Agnes Martin and Donald Judd; composers such as John Cage and Julius Eastman; architects and designers; visionaries and misfits. As Chayka looks anew at their extraordinary lives and explores the places where they worked-from Manhattan lofts to the Texas high desert and the back alleys of Kyoto-he reminds us that what we most require is presence, not absence. The result is an elegant new synthesis of our minimalist desires and our profound emotional needs. Use this beautiful Magic Wand notebook as a diary, organizer, exercise book, address book or just as you like. Who can use this notebook? Adults and Children who love magical things, wizards and witches What does the notebook offer - over 100 pages dotted, without margin, plenty of space for your thoughts and ideas: to organize for stories for lists for sketches and drawings for addresses for passwords for recipes and much more. A Book Of Magical Lists: Manifest Your Desires Through Words Of Power The Hidden Book Of Lists is based upon a very old mysterious book now lost to time. The only remnant that is left is this reproduction (from memory) of the practicing Qabalist and 19th-century Magician "Frater Gethom". The work is based upon the magical use of secret lists, describing the characteristics of one's desires. Choose a name for your list carefully - during the correct phase of the Moon, lock it away secretly in some hidden place and bring it into reality! Believing in magic or not, the book is a cool-looking addition to any bookshelf, with a weathered, faux-vintage cover design! Guaranteed to catch

attention, the book itself has a strange aura about it. It has an odd evocation that if read aloud grants "great power" over the Hidden Lists (the actual language and meaning is lost). Enjoy this strange and mysterious little book, and may all your wishes come true!
