This book starts with a meticulous explanation of terminology used in astronomy and astrology. This can be considered as a splendid example of how to explain strictly scientific notions to readers who are not necessarily skilled in the exact sciences. From an astronomical point of view, the most interesting part of the work is the presentation of the old Egyptian world system, which the author concludes was the same as the system of Tycho Brahe (1546-1601). He considers this astronomical system not just as a transitory historical conception, but as something which possesses permanent value. The author's deep historical studies made it possible for him also to solve the problem of the interchange of Mercury and Venus, something indicated many years ago by Rudolf Steiner. This is an important achievement in the history of astronomy. The main astrological finding of this book is that the zodiac of the stars (sidereal zodiac) - as employed by the Babylonians, Egyptians, and ancient Greeks - is the authentic zodiac. Moreover, the author promotes a new type of astrological chart (hermetic chart) for the conception, birth, and death of personalities under consideration, in addition to the customary geocentric horoscope and in place of the heliocentric horoscope promoted by Willi Sucher (1902-1985). With the hermetic chart the author places a new tool in the hands of astrologers and opens up new possibilities for astrology as a science. On this basis he develops his two "laws" of reincarnation, illustrating them by striking examples. These "laws" express themselves by way of certain planetary configurations coinciding at the moments of birth and death in successive incarnations. He believes that with these "laws" the significance of the tropical zodiac is disproved. This work of Robert Powell, presenting a new astrological system, is a valuable step in the development of a new wisdom of the stars in line with the ideas of Willi Sucher. Willi Sucher's books and articles are full of charm - deep in a spiritual sense - representing a star wisdom in an embryonic state. With this book by Robert Powell, the ideas of Willi Sucher are born as an earthly reality and something new is brought into the world. No planets, trines, squares or oppositions to confuse you. New Astrology for Lovers is a guide which examines the compatibilities between all 24 astrological signs: 12 Chinese and 12 western. Suzanne White has matched all pairings of both zodiacs and come up with remarkably accurate results.For example: A fire-breathing Taurus/Dragon might very well get along famously with a home-loving Cancer/Monkey. But if you are a proud Leo born in a starchy Ox year, there is not much hope for you with a dreamy Pisces born Goat. White gives each match a compatibility score. 4 hearts = Bed of Roses 3 Hearts = Bed & Breakfast 2 hearts = Breakfast in Bed 1 heart = pillow fights. And Zero hearts = Bed of Nails!Couples and friends as well as family members and business partners work best together when their signs match harmoniously. If your relationship with another person is rocky and difficult to sustain, there are reasons. This book reveals those reasons and advises you how to better choose your partners. Before you commit or take the plunge, find out if you two are compatible. Should you marry? Have a brief fling? Live together? Have kids? Or... if you are terminally incompatible with a partner, maybe you ought to split up? It's up to you. But whatever you do, don't take up with an unknown quantity. To be sure of the possible stability of any relationship, read about your signs in The New Astrology for Lovers. And do it now. Before it's too late. Suzanne White has done it again!!! Her World Famous Yearly Horoscopes are back for 2020 - The Year of the Metal Rat. This captivating book includes the whole year's forecasts for all 24 Zodiac signs - both western and Chinese. Your "New Astrology" sign is a combination of your celestial Astrology sign and your Chinese animal sign. It's eerie how precise Suzanne White's predictions can be. Her prophecies are not only accurate, they are wildly amusing. Common Sense Comprehensive Advice throughout. Rest assured. 2020 New Astrology Horoscopes is not just another boring new age astrology book - this book was written for everybody. And it really really sings! Interest in astrology has been universal through the ages, but for 2000 years its link with the realm of the visible stars has been lost. Unknown to the public at large, an unresolved debate divides astrologers into two camps, neither of whom observe the skies. Quest for the Zodiac exposes this bizarre situation and reveals the eloquent design of the true Stellar Zodiac, based on the visible constellations. Conventional astrology uses a Sign-based format which ignores the real sky panorama. Signs are invisible and abstract, like time-zones on a world map with the world removed, but the constellations are observable star-patterns which have been associated with rich mythological lore in all cultures through the ages. What happens when the ordinary horoscope is transported into the graphic format of the Stellar Zodiac? Human fate is realigned to the stars and astrology gains a new look, even a new dimension. The recovery of the real-sky Zodiac has immense ramifications for both sides of the argument over astrology. By upgrading inherited star-wisdom, this book enables us to reassess the age-old dilemmas of destiny and spiritual guidance. It combines genetics and mythology in a startling new vision of human potential. The vivid format of Star Base, applied in the Starchild Cycle, locates each individual on the learning curve of our species. Thus we all can claim a special endowment that comes by transpersonal inheritance from the Genius of humanity. Rather than converting anyone to astrology, Quest for the Zodiac will convert astrology itself. It changes the game and introduces a genuine alternative astrology. Going beyond the horoscope, it breaks a 2000-year-old monopoly on our view of the cosmos as a mirror of human experience. Sun Sign astrology is not proven wrong on its own terms, but it is wrongly defined as 'the language of the stars'. This book corrects this bias and reinstates the cosmic code envisioned by the Ancients. What's the difference between astrology, horoscopes and zodiacs? How do they work? Which are the moon signs and which ones are sun or fire signs and why? How do the different zodiac signs relate? How compatible are they? And can they influence which career choices you should opt for? What other aspects of your life does your horoscope have influence over? These and many others will be answered in this book. The book will also show you the place of planets in astrology, a breakdown of various birth signs and horoscopes and much more. By the end of this short book, you will have an above average knowledge of astrology, horoscopes and zodiac signs, including how to read stars, how you can read your birth sign and a lot more. What makes the book unique is that it is written in a beginner friendly language so you don't have to refer anywhere else to understand anything mentioned in this book. While it won't make you an expert on the topic, it will help you to understand a lot of background information about astrology, zodiacs and horoscopes so that you are not clueless when reading your stars, be it online or offline on a newspaper or magazine. Whether it is 2019 or 2100, this book will still be relevant in your life. What are you waiting for? Click Buy Now in I-Click or Buy NOW at the top of this page to start reading! Science of Astrology: X-rays of The Divine has been written to provide readers with a general foundation in astrology and to address subject matter which is either absent or given insufficient coverage elsewhere; meanwhile explanations of rulership, exaltation and debility are excluded here, not least because the more elaborate parts of these systems seem to have been established rather arbitrarily. An understanding all of the technical explanations in this book is not required to have a good understanding of astrology; at the same time the mathematics used to illustrate physical laws here is not exhaustive. In Science of Astrology: X-rays of The Divine, the traditional system of horoscope construction is acknowledged and explained; however a new system of horoscope construction is introduced - one which represents the ecliptic in the form it takes independently of the Earth's daily motion, at the same time as accommodating the season and standpoint of the observation. According to the new system, a new system of house distribution has been devised and ascendant and descendant points are given to the Moon. The new system, expounded in the chapter Mapping the Zodiac is intended to exist alongside the traditional system; however for simplicity it is used independently throughout the book. Other original subject matter in this book includes the incorporation of childhood location changes into the horoscope and the role of orbital resonance in informing planetary aspects. Science of Astrology: X-rays of The Divine begins with an explanation of the basic physical laws of the solar system which is intended to help enthusiasts adopt a more scientific approach to the study of astrology; the research presented towards the end of the book is intended to impress upon sceptics the value of the horoscope as a signifier of natural phenomena. Although the ephemeral conditions of meteor and extreme weather events are notable for their singularity rather than for any features which can be specifically attributed to the phenomena they accompany, there are certain astrological features which are distinctly recognisable among recorded cases of earthquake activity and it is possible that astrology will eventually form a part of preventative strategies in this field. Research is also presented which concerns the relationship between IQ and the planet Mercury. Just as for disciples of psychology or genetics the ardent practitioner of astrology is prone to adopting a two-dimensional view of his or her subject; as the practitioner become more calculating, they also become less amenable to other manifestations of truth. Clearly, to understand human nature and to render a true service to humanity, the practitioner must adopt a holistic view. The book is named Science of Astrology: X-rays of The Divine because just as how an x-ray reveals the skeleton of an organism, so astrology reveals the bare outline of God's design. And just as how too much exposure to x-rays imperils the health of the organism, so can too great a study of this outline make the practitioner oblivious to the manifestations of the living God - that which exists beyond the dead indices of the celestial bodies. Hermes Trismegistus recognised the relationship between terrestrial events and the configuration of celestial objects and sought to render certain influences more enduring by soliciting their investment in inanimate objects. These objects were then assumed to promulgate the conditions extant at their inception. Part of Science of Astrology: X-rays of The Divine is concerned with the establishment of rituals, or active prayers, designed to ameliorate or relieve constitutional weakness or tension. Illness often has its origin in bad habits so by staging a ritual for a moment which is fortuitous to the individual, the individual can be emboldened to enact the necessary abnegation. If a ritual, be it direct naturopathic intervention or abstention from unhealthy practices, is staged to coincide with ephemeral conditions which offer reinforcement or stability to weaker or unstable elements of the constitution - upon interaction with the nativity, the ritual becomes as a talisman and reinforces the assimilation of the lesson prefigured by the ritual. Of course, the moment will be special whether or not it is deliberately ascribed ritual significance, but by consciously assigning an appropriate ritual to a fortuitous moment, the exertions of the intellect can be aligned to the exertions of the will. By combining the astrological systems of the traditional Chinese (terrestrial) with that of the occult (celestial), White demonstrates that every person is governed by two signs--such as a Capricorn Tiger or a Leo Dog. The Horoscope of the United States An Interpretation using the New Astrology Interpreted by: Dr. Douglas M. Baker B.A., M.R.C.S., L.R.C.P., F.Z.S. Featuring Analysis: For the Years 1776 & 1994 With Progressions: For the years 2000 & 2100 The new astrology is very flexible and the technique can be applied to mundane, planetary conditions as well as to human and esoteric matters. We find that combinations of symbols can be used to describe everything that exists in our world: ourselves, a nation, a group of nations, a planet, and so forth. In the following pages you will find this method of interpretation applied to the horoscope of the U.S.A. The term 'New Astrology' is synonymous with 'Esoteric Astrology and is used for today's reformulation of this most ancient art & science. "It is intuitional astrology which must eventually supersede what is today called astrology, thus bringing about a return to the knowledge of that ancient science which related the constellations and our solar system, drew attention to the nature of the zodiac and informed humanity as to the basic interrelations which govern and control the phenomenal and subjective worlds." — Alice A. Bailey, Esoteric Astrology THE NEW ASTROLOGY(tm) FOR THE 21ST CENTURY is GENIUS! Suzanne White's revolutionary book of astral character study offers her readers A Unique Blend Of Chinese and Western Astrology. Indeed there are not 12 but 144 signs of the zodiac! By blending the two zodiacs, White has hatched a synthesis of the World's Two Greatest Astrological systems. White's accuracy with character reading is positively uncanny! You will wonder if she has been reading your mail. It is only perhaps once in a generation that a thoroughly new, totally original way of looking at the zodiac is discovered. THE NEW ASTROLOGY FOR THE 21ST CENTURY is that system. For those convinced that there is nothing new under the sun--or the stars--Suzanne White offers a startling and provocative thesis: There are not only 12 but 144 signs of the zodiac, each distinct, each unique, each vital to everyone's quest for self-understanding. In combining the astrological systems of the traditional Chinese (terrestrial) with that of the Occident (celestial), Suzanne White discovered that each of us is governed by not one, but two signs. Hence, a Capricorn/Tiger quite different from a Capricorn/Cat, as is a Leo/Dog from a Leo/Dragon, and so on. This comprehensive blend of

Western and Chinese Astrology gives detailed analyses of each of the 144 signs, including individualized sections on love, sex and romance, business, money, careers, home life and compatibility (or lack of it) with other signs. It is simple to understand, yet remains a powerful tool, capable of providing a solid foundation for the comprehension of this broad and magnificent subject. This textbook, like most of Dr. Baker's printed books, eBooks and DVDs, enhances your studies via many charts, lists, tables and images (over 100 in this one). This major work is a very comprehensive introduction for those who want to study this subject in earnest, and for the more advanced student it will serve as an essential reference manual. In today's computer-based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds, and with 100% accuracy! Consequently the needless paraphernalia, usually associated with learning astrology, has been stripped away. Emphasis is placed on the application of astrology to the unique problems of the modern world, its use as a method of revealing purpose and meaning in life, and ultimately as a key to the psychosynthesis of personality. The horoscope is described in comprehensive detail, with special attention given to the esoteric ruling planets of the zodiac signs, which are more relevant than orthodox rulers in the charts of spiritually-minded people. The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the externa of the modern world. The significance of karma is represented for it gives dramatic effect to our daily actions, and the third factor of esoteric psychology, lying beyond our understanding of heredity and environment, is given full prominence. This integrative and enriching work can be read alone, as a fascinating introduction and foundation to the New Astrology, or can be followed up with the author's extensive range of astrological books and video tapes, audio lectures and the all-embracing Dictionary of Astrology for the 21st Century. Together they provide a complete system for the professional and novice alike, containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology.
