‘It’s amazing that this style came to be. Can you imagine being a struggling musician back then? It must take an incredible amount of restraint to play that gently.’ —Actor/comedian Fred Armisen, from his foreword to this book Just what is ‘yacht rock,’ you ask? Perhaps the easiest description is music that would not sound out of place being played while carousing aboard a yacht back in the good old days. But these songs were also some of the top pop

gems of the 1970s and '80s. And while some associate yacht rock's biggest songs with one-hit wonder artists, several of rock's most renowned artists fall under this category, too - including Fleetwood Mac, the Eagles, Steely Dan, Hall & Oates, The Doobie Brothers, Toto, and more. Yacht rock seemed to have become extinct by the early twenty-first century ... until a comedic video series, simply titled Yacht Rock, went viral and introduced captain's hats and blazers to a whole new generation - as well as the emergence of a popular cover band, the Yacht Rock Revue, and of course, Jimmy Fallon's on-air admiration of all things yacht rock. Now, yacht rock is one of the most celebrated 'yesteryear' styles of pop music, and has resonated with a new generation of musicians (including the Fred Armisen/Bill Hader-led Blue Jean Committee and soul/funk/electronica crossover act Thundercat). But despite all the hoopla, there has never been a book that told the entire story of the genre. Until now. Featuring interviews with many of the heavy hitters of the genre, including John Oates, Kenny Loggins, and Don Felder, *The Yacht Rock Book* leaves no sail unturned. This is the definitive story of the yacht rock's creation, rise, chart-smashing success, fall, and stunning rebirth. (Harp). Harp arrangements for Kenny Loggins' hit song and its sequel. Text taken from the lyrics by Kenny Loggins. A story about a special dog in his life named Moose. "More fun to read than the movie was to watch... a scene-stealing book." — The Washington Post An Entertainment Weekly "Must List" selection Caddyshack is one of the most beloved comedies of all time, a classic snobs vs. slobs story of working class kids and the white collar buffoons that make them haul their golf bags in the hot summer sun. It has sex, drugs and one very memorable candy bar, but the movie we all know and love didn't start out that way, and everyone who made it certainly didn't have the word "classic" in mind as the cameras were rolling. In Caddyshack: The Making of a Hollywood Cinderella Story film critic for Entertainment Weekly Chris Nashawaty goes behind the scenes of the iconic film, chronicling the rise of comedy's greatest deranged minds as they form The National Lampoon, turn the entertainment industry on its head, and ultimately blow up both a golf course and popular culture as we know it. Caddyshack is at once an eye-opening narrative about one of the most interesting, surreal, and dramatic film productions there's ever been, and a rich portrait of the biggest, and most revolutionary names in Hollywood. So, it's got that going for it...which is nice. Ages 1 to 6 years. For over fifty years Frosty the Snowman has been the number one children's song at Christmastime. "I simply needed to know I was wanted" "I simply needed to know I was wanted," Kenny Loggins once said. This comes from a man who knew how much people loved him and adored his songs, from a man who has been probably more productive in his life than

ninety nine percent of the population, from a man who lived his life discovering His Way, His Tao, and never stopped. There's a lesson to be learned here, the lesson that the great thinkers of the ages, from Laozi (Lao Tzu), Buddha and Christ, to "enlightened" era philosophers like Kant, Hegel and Schopenhauer, to the modern spiritual leaders and thinkers of our age have been pondering and yet still do not have the answer to - "Can A Man Reach Perfection, the Spirit, the Divine, if you will?" Or perhaps there's no need to actually reach perfection and it is indeed the Way, the Tao that is our lives, that matters the most? Are we drifting aimlessly in a sea of change or are we looking for a beacon to guide us? For Kenny Loggins, that connection to the spiritual has always been his ability to, as he put it, " Stop and listen to the song playing in my head." This for him was the light, the love, the sense of Interconnectedness of the world as a whole and his songs are the records of what the Spirit imparted to him when he would allow himself to listen. For the man who was so connected to his inner self and to the spiritual around him, Kenny Loggins to this day is still discovering his Tao and that idea of never stop "listening to the songs that are playing in our heads," is, perhaps, his greatest gift to us. I hope you will embark on this journey with Kenny Loggins and me and we will all emerge wiser, better, and filled with the Love that is easy to find if we just stop and listen. After reading Kenny Loggins book, The Unimaginable Life, It was obvious he had underwent a major shift in his awareness to the innerconnectiveness, truth, and love of the universal divine love. Through his music he was able to demonstrate these new principles. With the release of the album "Leap of Faith" in 1991, Loggins brought forth his joy of this awakening and desired to share the incredible sense of love and belonging he had discovered. Even though by his own admission, his music had always had a deep spiritualness to it, it was with this album that he knew he was awakened to it and truly felt it. He was singing from his soul. He was singing an universal truth that has been here since the beginning of time. With Leap of Faith, his music took on a new higher level of spiritualness that reminded me of the same type of awareness that is in Zen and in Taoism. The principles of Truth, Love, and the Innerconnectiveness is essentially the same with Kenny Loggins as with Lao Tzu. Let's take a look at Kenny Loggins music from a Zen perspective. According to Osho, "Zen is like a telegram. It believes in the very essentials. It has no nonsense around it, no rituals, no chanting, no mantras, no scriptures- just small anecdotes. If you have the

right awareness, they hit you directly in the heart. It is a very condensed and crystallized teaching, but it needs the person to be prepared for it. And the only preparation is meditative awareness. Zen and the Tao are very fragmentary, like telegrams, urgent, immediate, not giving you any explanation, but simply giving you the very essence, the perfume of thousand of flowers. You just have to be alert enough to absorb them. I'm trying to give a context, the right background, because I am talking to people who are not born in the Zen-Taoist tradition." Examples of these "telegrams" are throughout the lyrics of Loggins music. Like "Conviction of the Heart," this is a song that I believe that Lao Tzu could have written if he were alive today. This "telegram" drives home the very essence of the message with crystal clarity, "With any Conviction of the Heart, One with the earth, with the sky, One with everything in life, I believe that we'll survive, If we only try..." Your orchestra will rock the audience with Michael Story's arrangement of Kenny Loggins' hit Danger Zone" from the movie Top Gun. This flexible arrangement will work for string orchestra alone, or with as many added winds and percussionists as possible, up to full orchestra. A perfect choice for a departmental collaboration or any pops concert. (2:10) This title is available in SmartMusic." Brosh’s debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn’t me wrote it—but I soon discovered that I’m not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars\* Stories about dogs The secret to eternal happiness\* \*These are lies. Perhaps I have underestimated my sneakiness! Kenny Werner is an accomplished pianist who began to perform at age 4 and by age 11 had appeared on television. While at the Manhattan School of Music, he became restless with his musical direction and began to explore Jazz as new means of creativity and expression. Along his journey, he was inspired by the masters of the craft to rethink not only the technical aspects of creativity, but also the spiritual aspects. Effortless Mastery is not only an account of that journey, but also an insightful guide for all those wishing to remove their own barriers to creativity in life and the arts. While Mr. Werner happens to be a musician, the concepts presented here are applicable to every profession, aspiration, or lifestyle where there is a need for free-flowing effortless thinking.
