The reprint of Henri Savall's classic *Work and People*, originally published in French in 1974, is part of the Research in Management Consulting series effort to look backward as well as forward in examining trends, perspectives, and insights – especially from different countries and cultures – into the world of management consulting. Savall's insights into the complexity of organizational life were groundbreaking, articulating the need to examine both economic and social factors as part of the same analysis, assessing technical and behavioral patterns through the lens of an integrated framework. As he has argued, there is a double-loop interaction between “the quality of functioning and economic performance,” and underestimating this socio-economic “tension” leads inevitably to reduced performance and losses, which he refers to as “hidden costs.” This approach, referred to as the socio-economic approach to management (SEAM), has significant potential for our thinking about organizational diagnosis and intervention. As Savall emphasizes, the North American tendency to cast people as human “resources” misses the essential point that human beings cannot be considered as simply another resource at the organization's disposal. People are free to give or withhold their energy as they desire, depending on the quality of formal and informal contracts and interactions they have with their organizations. As such, the SEAM approach focuses on human “potential,” underscoring the need for managers and their organizations to create the conditions under which people will want to maximize their talents on behalf of the organization. *Work and People* focuses on the ramifications of this reality, as dysfunctions – the difference between planned and emergent activities and functions – can quickly lead to a series of costs that are “hidden” from an organization's formal information systems (e.g., income statements, balance sheets, budgets). As his insightful work underscores, as organizations begin to accumulate dysfunction upon dysfunction, they inadvertently undermine their performance and create excessive operating costs, with lower productivity and less efficiency than they could achieve. As readers will discover, the frameworks, tools and ways of thinking about organizations, people and management in this volume – in essence the background to the socio-economic approach to organizational diagnosis and intervention – continue to hold great promise for our attempts to create truly integrative approaches to management and organizational improvement efforts. This important work collects studies and reflections on such relevant themes about LSP as medical English, the language of advertising and journalism, telecommunications, data processing terminology, trade and juridical English; Although most of the works are related to English, there are also works related to German or French among others. . agreement, couched in the present developments of Minimalism, Cartography, and Optimality. In this book, chapters deal with notion of agreement and its role in syntax of specific constructions such as applicatives and correlatives. Pour l'édition 2013 de Tenebres, Benoit Domis a selectionné 18 nouvelles d'auteurs français, belges, néerlandais et américains, débutants et confirmés. Les textes vont de la "ghost story" au gore, en passant par toutes les couleurs du fantastique et de l'horreur. Offering a comprehensive commentary on the Brussels I bis Regulation, chapters outline the origins and evolution of each article before delving into their interpretation in view of the case law of the European Court of Justice. Its exhaustive evaluation of the corresponding case law demonstrates key precedents which can be applied to practical problems in the field related to jurisdiction, recognition and enforcement of decisions. Pourquoi diable ai-je fait confiance à un homme ? Je n'aurais jamais imaginé combien un chèque de pension alimentaire en retard, ma culpabilité et mes responsabilités de mère allaient me compliquer la vie. Mais j'ai quand même un peu de chance dans mon malheur : j'ai décroché un job plus que lucratif auprès d'un détective privé, et je travaille de nuit ! L'inconvénient ? Je connais à présent tout des horreurs que cache notre petite ville de Charming, Mississippi. Nous ne sommes tous que des acteurs dans une vaste pièce de théâtre et nous avons tous nos petits secrets. Je suis à présent sur le point d'en découvrir un si terrible qu'il ferait même pleurer un vampire. Malheureusement pour moi, l'heure n'est pas à la crise de nerfs, d'autant plus que je ne fais que récolter ce que j'ai semé. Je dois donc prendre mes responsabilités et affronter la dure réalité de ma nouvelle vie, boire un grand verre de sang et faire de mon mieux pour être le meilleur vampire, photographe et maman possible. Après tout, je suis Rachel Jones, l'époustouflante ménagère vampire, et il est temps pour vous de découvrir mon histoire ! Make the right decisions with Horngren/Sundem/Stratton! Horngren/Sundem/Stratton's best-selling texts emphasize decision-making throughout each chapter. Decision-making is introduced in the early text chapters and also appears in many of the text features: "Making Managerial Decisions" boxes, critical thinking exercises, and more. As always, students develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. Two text versions enable faculty to select a text that only covers management accounting concepts (Chs. 1-14) or one that includes three chapters of financial accounting review (Chs. 1-17). New OneKey provides the convenience of having all text resources in a single location and available in your choice of course management platform: BlackBoard, WebCT, and CourseCompass. OneKey also includes PH Grade Assist on-line homework with automatic grading and infinite practice for students). Written for courses in Principles of Marketing at four-year and two-year colleges, this shorter overview aims to help students master the basic principles and practices of modern marketing in an enjoyable and practical way. Its coverage balances upon three essential pillars - (1) theory and concepts; (2) practices and applications; and (3) pedagogy - cultivating an efficient, effective teaching and learning environment. This sixth edition provides revised content throughout, and reflects the major trends and forces that are impacting marketing in this new, connected millennium. It includes new thinking and expanded coverage on a wide variety of topics, for example: relationship marketing; connecting technologies; the company value chain; value-delivery networks; and global marketing. This book examines if the conceptual underpinnings of competition law and international regulatory mechanisms can properly deal with the new economy. Suite des aventures d'Andreas Doppler, de son fils Gregus et de l'élan Bongo qui cette fois arpentent les forêts suédoises. Doppler rencontre une vieille femme âgée de 92 ans, Maj Britt, qui va tenter de le manipuler pour se venger de Volvo Trucks qu'elle tient pour responsable de la mort de son mari, et de son voisin, un scout vieillissant... Viven bajo el recuerdo de la época en la que lograron ser habitantes del mismo Olimpo. Con la URSS en el poder, los cinco miembros de esta organización llamada El Grupo se sintieron dioses y aún conservan privilegios que alguien les quiere arrebatar. Cinco secretos tendrán que proteger con su vida, pues si fueran desvelados todo cuanto conocen habría terminado. Así es mi historia, la de un chiquillo periodista bautizado como Alberto Rodríguez y que se sumerge en este nuevo océano de letras después de que le despertaran con un bofetón del sueño de ser "plumilla" en su ciudad natal, Salamanca. Corpus-based Approaches to Contrastive Linguistics and Translation Studies presents readers with up-to-date research in corpus-based contrastive linguistics and translation studies, showing the high degree of complementarity between the two fields in terms of research methodology, interests and objectives. Offering theoretical, descriptive and applied perspectives, the articles show how translation and contrastive approaches to grammar, lexis and discourse can be harmoniously combined through the use of monolingual, bilingual and multilingual corpora and how contrastive information needs to inform translation research and vice versa. The notion of contrastive linguistics adopted here is broad; thus, alongside comparisons of Malay/English idioms and the French imparfait and its English equivalents, there are articles comparing different varieties of French, and sign language with spoken language. This collection should be of interest to researchers in corpus linguistics, contrastive linguistics and translation studies. In addition, the section on corpus-based teaching applications will be of great value to teachers of translation and contrastive linguistics. Salvos of sane and humorous dissent from the worship of the almighty market. L'écriture de Roosevelt Jean-Francois, limpide, argumentée, dense, est accessible au grand public. Ce qui est très rare de nos jours. Quel esprit vif, sincère, passionné! Pierre Raymond Dumas, Le Nouvelliste Un coup de flache qui permet d'éclairer les nouvelles pistes de progrès. Stephen Phelps Une analyse très lucide et pleine de vérité Guido Hop on Pop showcases the work of a new generation of scholars—from fields such as media studies, literature, cinema, and cultural studies—whose writing has been informed by their ongoing involvement with popular culture and who draw insight from their lived experiences as critics, fans, and consumers. Proceeding from their deep political commitment to a new kind of populist grassroots politics, these writers challenge old modes of studying the everyday. As they rework traditional scholarly language, they search for new ways to write about our complex and compelling engagements with the politics and pleasures of popular culture and sketch a new and lively vocabulary for the field of cultural studies. The essays cover a wide and colorful array of subjects including pro wrestling, the computer games Myst and Doom, soap operas, baseball card collecting, the Tour de France, karaoke, lesbian desire in the Wizard of Oz, Internet fandom for the series Babylon 5, and the stress-management industry. Broader themes examined include the origins of popular culture, the aesthetics and politics of performance, and the social and cultural processes by which objects and practices are deemed tasteful or tasteless. The commitment that binds the contributors is to an emergent perspective in cultural studies, one that engages with popular culture as the culture that "sticks to the skin," that becomes so much a part of us that it becomes increasingly difficult to examine it from a distance. By refusing to deny or rationalize their own often contradictory identifications with popular culture, the contributors ensure that the volume as a whole reflects the immediacy and vibrancy of its objects of study. Hop on Pop will appeal to those engaged in the study of popular culture, American studies, cultural studies, cinema and visual studies, as well as to the general educated reader. Contributors. It investigates how neo-liberalisation has transformed the company into a promoter of lean production, at the expense of the workers' needs. The volume describes the frequency, the forms and the functions of different cleft construction types across two language families: the Romance languages (with discussion of Italian, French and Spanish data) and the Germanic languages (with focus on English, German, Swiss German and Danish). Confirming his moniker as "America's philosopher of democracy," John Dewey engaged in a series of public debates over the course of his lifetime, vividly demonstrating how his thought translates into action. These debates made Dewey a household name and a renowned public intellectual during the early to mid-twentieth century, a time when the United States fought two World Wars, struggled through an economic depression, experienced explosive economic growth and spawned a grassroots movement that characterized an entire era: Progressivism. Unfortunately, much recent Dewey scholarship neglects to situate Dewey's ideas in the broader context of his activities and engagements as a public intellectual. This project charts a path through two of Dewey's actual debates with his contemporaries, Leon Trotsky and Robert Hutchins, to two reconstructed debates with contemporary intellectuals, E.D. Hirsch and Robert Talisse, both of whom criticized Dewey's ideas long after the American philosopher's death and, finally, to two recent debates, one on home schooling and the other on U.S. foreign policy, in which Dewey's ideas offer a unique and compelling vision of a way forward. A book that lists French language words and gives their equivalent in English, and English language words with their equivalent in French. During the years of Mexican President Calderone, drug cartels fought pitched battles against other cartels, the police, the army, and the good citizens of Mexico. Kidnappings, murder, threats, and intimidation by drug cartels impinged on every facet of Mexican life. This story of the de la Vega family in Culiacan, the state capital of the Mexican state of Sinaloa, tells of their struggles with the death of their beloved sister and the courageous brothers who become a force exacting revenge on the Pacific cartel ... Dans un coin paumé de la campagne suédoise, Maj Britt, condamnée en justice pour avoir mutilé le bec de ses perruches, noie sa rage dans les vapeurs de haschich et les rengaines de Bob Marley. Face à elle, von Borring, vieux donneur de leçons, spécialiste des noeuds inutiles et fondu d'oiseaux. Pour Maj, l'heure de la vengeance semble avoir sonné, le jour où Doppler, un original déjanté en quête du sens de la vie, apparaît à sa porte. Cet homme providentiel pourrait bien liquider ses différends de voisinage avec von Borring. Mais on ne piège pas aussi facilement

un boy-scout sur le retour ! Que choisira Doppler : la marginalité licenciée de Maj Britt ou le spartiate mais vivifiant quotidien de von Borring ? We all know scientists study a predictable set of organisms when performing research, whether they be mice, fruit flies, or less commonly known but widely used species of snail or worm. But when we think of the so-called humanistic social sciences, we envision a different kind of research attuned to historical power relations or the unique experiences of a social group. In *Model Cases*, sociologist Monika Krause uncovers the ways the humanities and social sciences are shaped by and dependent on a set of canonical research objects of their own, often in unacknowledged ways. Krause shows that some research objects are studied repeatedly and shape the understanding of more general categories in disproportionate ways. For instance, Chicago comes to be the touchstone for studies of the modern city, or Michel Foucault's analysis of Bentham's prison a guiding light for understanding contemporary power relations. Moving through classic cases in the social sciences, Krause reveals the ways canonical examples and sites have shaped research and theory, showing how they can both help and harm the production of knowledge. In the end, she argues, model cases have great potential to serve scholarship--as long as they are acknowledged and examined with acuity.

Lecciones Cristianas tiene como propósito ayudar a las personas adultas hispanas a crecer en su comprensión de la Biblia y relación de ésta con la vida. Japan is now the world's largest producer of cars but it only began to catch up with its competitors after World War II by studying and modifying the Ford system of mass production implemented first in the USA in the early part of the century. Other countries have also developed the system in their own ways with varying degrees of success. The papers in this volume will examine and compare the experiences of different countries in modifying the Ford system, and the impact of the 'quality control movement' and lean production in Japan. Some issues include special catalog, survey and directory number.

El sector automoción está inmerso en una transformación incuestionable. Es un momento de transición y de disrupción, donde la tecnología, la movilidad y la sostenibilidad concurren en este momento de tiempo y han alcanzado ya una madurez en su demanda y su aceptación como commodities de hecho. A esto debemos sumarle la complejidad experimentada por el consumidor, debido a la confluencia de tipos diversos de consumidores que acceden todos ellos a los mismos productos y servicios..., pero con necesidades e intereses muy distintos. Esto obliga a las empresas a tener que adaptar sus productos, pero también sus mensajes, a las necesidades de buyers personas muy diversos. En este contexto, Volvo Cars decide abordar una estrategia empresarial encaminada hacia una profunda evolución de sus productos, que va hacia la electrificación de sus automóviles. Su visión y su propósito están definidos, pero existen determinados aspectos que afectan de manera no muy positiva a Volvo Cars y que se deben trabajar y corregir, ya que podrían ser auténticos stoppers en el camino que debe recorrer.

Fruit d'une étroite collaboration entre la recherche universitaire et le monde de l'industrie, cet ouvrage traite de la robotique industrielle, et tout particulièrement de l'étalonnage des robots manipulateurs. Il développe les aspects suivants : la représentation des structures des robots manipulateurs sériels et parallèles ; les principes généraux de l'étalonnage ; les méthodes d'étalonnage spécifiques aux robots sériels et parallèles ; l'innovation en robotique, ses réussites et ses échecs. Théorique et pragmatique, il s'adresse aux étudiants et aux chercheurs, aux techniciens et aux ingénieurs et à tous ceux qui désirent appréhender la robotique industrielle. Patrick Maurine est maître de conférences à l'INSA de Rennes. Ses travaux portent sur la précision et l'étalonnage des robots manipulateurs industriels. Jean-François Quinet est consultant en robotique appliquée à l'ensemble de l'industrie internationale depuis 1973. Ses activités portent aussi sur la mesure tridimensionnelle statique et dynamique.
