The Best Advice I Ever Gave May 17 2022 Barbara Sher is a careers counselor, life coach and best-selling author whose books, programs and workshops provide down-to-earth, nuts-and-bolts methods for uncovering natural talent, pinpointing goals and turning dreams into reality. She is a pioneer of the life design movement and has earned the nicknames "godmother of life coaching" and "resistance whisperer". During her long career, many of Barbara's clients have thanked her for one special piece of advice that stayed with them and helped them transform their lives. She carefully wrote down these favorite nuggets of wisdom for future use, and later recorded some of them as audio tips to include with her newsletters. But most of them remained unpublished until now. But at last here they are, all gathered together in this new book. It's not a long book, but it has the power to seriously improve your life because it contains a lot of very effective advice, condensed into 94 individual tips. If you are unfamiliar with Barbara's work, it's an excellent introduction to her unique approach to discovering your dreams, setting goals, and creating a successful, purposeful and happy life on your own terms. If you are already a fan, it's a companion book that you can take with you everywhere, like a pocket mentor, and dip into whenever you need to remind yourself, "What would Barbara say about that?" If you love Barbara Sher's previous books, such as *Wishcraft*, *Live The Life You Love*, *I Could Do Anything If I Only Knew What It Was*, *It's Only Too Late If You Don't Start Now* or *Refuse to Choose*, this one will make a great addition to your personal library.

Jitterbug Perfume Dec 20 2019 *Jitterbug Perfume* is an epic. Which is to say, it begins in the forests of ancient Bohemia and doesn't conclude until nine o'clock tonight (Paris time). It is a saga, as well. A saga must have a hero, and the hero of this one is a janitor with a missing bottle. The bottle is blue, very, very old, and embossed with the image of a goat-horned god. If the liquid in the bottle actually is the secret essence of the universe, as some folks seem to think, it had better be discovered soon because it is leaking and there is only a drop or two left.

Four Thousand Weeks May 25 2020 AN INSTANT NEW YORK TIMES BESTSELLER "Provocative and appealing . . . well worth your extremely limited time." —Barbara Spindel, *The Wall Street Journal* The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged with advice on becoming more productive and efficient, and "life hacks" to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on "getting everything done," *Four Thousand Weeks* introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we've come to think about time aren't inescapable, unchanging truths, but choices we've made as individuals and as a society—and that we could do things differently.

Trump - The Best Real Estate Advice I Ever Jul 27 2020 Donald Trump has gathered in one book the best advice on real estate from the brightest and most experienced people... "Don't try to take the last penny off the tab? make sure that the people who buy from you also make money. If not, they won't buy from you again." -Michael Shvo, Founder of the Shvo Group and "the most successful young real estate broker in New York" "Mom said, 'If you don't have big breasts, put ribbons in your pigtails.' Good salesmanship is nothing more than maximizing the positive and minimizing the negative. Although your competition might offer something you can't match, that doesn't matter. What matters is that you identify and play up what you've got." -Barbara Corcoran, Founder of the Corcoran Group, New York City's leading real estate company "Real estate can be so much fun you almost feel guilty earning money at it!" -Monda Bassil, President of Prestigious Properties of New York "When you sell real estate, pay tax only if you want, when you want, and in the amount you decide." -Gary Gorman, Founder of 1031 Exchange Experts, LLC, and author of *Exchanging UP!* "Whether it is a real estate deal or any other venture, the key is to find something you enjoy doing, and then do it better than anyone else--because success comes easier to people who follow their passion." -Donald Trump, J r., Executive Vice President of Development and Acquisitions for The Trump Organization

Bad Advice Sep 09 2021 Science doesn't speak for itself. Neck-deep in work that can be messy and confounding, and naïve in the ways of public communication, scientists are often unable to package their insights into the neat narratives that the public requires. Enter the celebrities, the advocates, the lobbyists, and the funders behind them, who take advantage of scientists' reluctance to provide easy answers, flooding the media with misleading or incorrect claims about health risks. Amid this onslaught of spurious information, Americans are more confused than ever about what's good for them and what isn't. In *Bad Advice*, Paul A. Offit shares hard-earned wisdom on the do's and don'ts of battling misinformation. For the past twenty years, Offit has been on the front lines in the fight for sound science and public health. Stepping into the media spotlight as few scientists have done—such as being one of the first to speak out against conspiracy theories linking vaccines to autism—he found himself in the crosshairs of powerful groups intent on promoting pseudoscience. *Bad Advice* discusses science and its adversaries: not just the manias stoked by slick charlatans and their miracle cures but also corrosive, dangerous ideologies such as Holocaust and climate-change denial. Written with wit and passion, Offit's often humorous guide to taking on quack experts and self-appointed activists is a must-read for any American disturbed by the recent uptick in politicized attacks on science.

#NeverAgain Feb 20 2020 NEW YORK TIMES BESTSELLER • From two survivors of the Parkland, Florida, shooting comes a declaration for our times, and an in-depth look at the making of the #NeverAgain movement. On February 14, 2018, seventeen-year-old David Hogg and his fourteen-year-old sister, Lauren, went to school at Marjory Stoneman Douglas High School, like any normal Wednesday. That day, of course, the world changed. By the next morning, with seventeen classmates and faculty dead, they had joined the leadership of a movement to save their own lives, and the lives of all other young people in America. It's a leadership position they did not seek, and did not want--but events gave them no choice. The morning after the massacre, David Hogg told CNN: "We're children. You guys are the adults. You need to take some action and play a role. Work together. Get over your politics and get something done." This book is a manifesto for the movement begun that day, one that has already changed America--with voices of a new generation that are speaking truth to power, and are determined to succeed where their elders have failed. With moral force and clarity, a new generation has made it clear that problems previously deemed unsolvable due to powerful lobbies and political cowardice will be theirs to solve. Born just after Columbine and raised amid seemingly endless war and routine active shooter drills, this generation now says, Enough. This book is their statement of purpose, and the story of their lives. It is the essential guide to the #NeverAgain movement.

The Best Advice I Ever Got Apr 28 2023 NEW YORK TIMES BESTSELLER • For anyone who wants to see how today's best and brightest got it right, got it wrong, and came out on top. What was the tipping point for Malcolm Gladwell? What unscripted event made Meryl Streep who she is? In this inspiration-packed book, Katie Couric reports from the front lines of the worlds of politics, entertainment, sports, philanthropy, the arts, and business—distilling the ingenious, hard-won insights of leaders and visionaries, who tell us all how to take chances, follow our passions, cope with criticism, and, perhaps most important, commit to something greater than ourselves. Among the many voices to be heard here are financial guru Suze Orman on the benefits of doing what's right, not what's easy; director Steven Spielberg on listening rather than being listened to; quarterback Drew Brees on how his (literal) big break changed his life; and novelist Curtis Sittenfeld on the secrets of a great long-term relationship (she suggests marrying someone less neurotic than you); not to mention: • Michael Bloomberg: "Eighty percent of success is showing up . . . early." • Eric Stonestreet: "Remember that the old lady who's taking forever in line is someone's grandma." • Joyce Carol Oates: "Read widely—what you want to read, and not what someone suggests that you should read." • Jimmy Kimmel: "When in doubt, order the hamburger." • Apolo Ohno: "It's not about the forty seconds; it's about the four years, the time it took to get there." • Madeleine K. Albright: "Never play hide-and-seek with the truth." Along the way, Couric reflects on the good advice—and the missteps—that have guided her from her early days as a desk assistant at ABC to her groundbreaking role as the first female anchor of the CBS Evening News. She reveals how the words of Thomas Jefferson helped her deal with her husband's tragic death from cancer, and what encouraged her to leave the security of NBC's Today show for a new adventure at CBS. Delightful, empowering, and moving, *The Best Advice I Ever Got* is the perfect book for anyone who is thinking about the future, contemplating taking a risk, or daring to make a leap into the great unknown.

Make Your Bed Apr 23 2020 Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. The Best Advice in History Sep 28 2020 The nuances of language can get lost in translation. Never is this truer than in the area of philosophy. As philosophy professor and scholar Christopher Largent discovered during the numerous courses he has taught on the subject, ancient philosophy can start sounding like a game of telephone. Some of the most famous lectures of the ancient world have been lost to time. All that remains are notes from admiring listeners. One such listener was Arrian, a follower of the legendary Epictetus. Epictetus's work was so incendiary it got him kicked out of Rome. The philosopher spoke mostly about the art of living well. It is his most famous speech, the subject of Arrian's Enchiridion, that Largent is finally bringing to life. Largent brings Epictetus to a new audience by reconstructing this famous lecture. Through Largent, Epictetus speaks from beyond the grave and lectures listeners on the following: • The practical life-philosophy rule • The impact of our judgments and expectations • The human ability to respond to phenomena • Numerous insights into behavior Epictetus rose from his humble beginnings as a slave to become a famous orator. His work and his life still offer inspiration and meaning two thousand years later.
