Frommer's Caribbean Ports of Call Science of Swimming Faster Ebook: Advertising and Promotion

This volume examines the mutual images formed between Japan and Germany from the mid-nineteenth to early twenty-first centuries. Exploring previously untapped historical sources, the contributions by seventeen leading scholars create a more nuanced picture of Japanese-German relations. Anthony Woodz Diaz has dreams of Hollywood, but his dreams will be more like nightmares as he struggles to overcome adversities living in the slums of New York City. With just his single mom, disconnected siblings, and no positive father figure, Anthony takes matters into his own hands and turns to the streets of Spanish Harlem for guidance and shelter. Just when the troubled teen seems to be getting his turbulent life in order, his dreams of Hollywood are shattered for good, and he is forced to say good-bye to Hollywood. The realignment of the Chinese social order that took place over the course of the Sung dynasty set the pattern for Chinese society throughout most of the later imperial era. This study examines that realignment from the perspective of specific Sung families, using data on two groups of Sung elites--the grand councilors who led the bureaucracy and locally prominent gentlemen in Wu-chou (in modern Chekiang). By analyzing kinship relationships, Beverly Bossler demonstrates the importance of family relations to the establishment and perpetuation of social status locally and in the capital. She shows how social position was measured and acted upon, how status shaped personal relationships (and vice versa), and how both status and personal relationships conditioned—and were conditioned by—political success. Finally, in a contribution to the ongoing discussion of localism in the Sung, Bossler details the varied networks that connected the local elite to the capital and elsewhere. Ebook: Advertising and Promotion Editors Riewald and Rodeo assemble many of the world's leading swimming experts to reveal the latest in research, technology, training, and performance across the sport. Authoritative and applicable, Science of Swimming Faster dives into the physiology, biomechanics, medicine, psychology, and training for swim performance while providing prescriptive advice along the way. "From the mid-seventeenth to the mid-nineteenth century, millions of Korean men from all walks of life trained in the arts of war to prepare not for actual combat but to sit for the state military examination (mukwa). Despite this widespread interest, only for a small minority did passing the test lead to appointment as a military official. Why, then, did so many men aspire to the mukwa? Eugene Y. Park argues that the mukwa was not only the state's primary instrument for recruiting aristocrats as new members to the military bureaucracy but also a means by which the ruling elite of Seoul could partially satisfy the status aspirations of marginalized regional elites, secondary status groups, commoners, and manumitted slaves. Unlike the civil examination (munkwa), however, that assured successful examinees posts in the prestigious central bureaucracy, achievement in the mukwa did not enable them to gain political power or membership in the existing aristocracy. A wealth of empirical data and primary sources drives Park's study: a database of more than 32,000 military examination graduates; a range of new and underutilized documents such as court records, household registers, local gazetteers, private memoirs, examination rosters, and genealogies; and products of popular culture, such as p'ansori storytelling and vernacular fiction. Drawing on this extensive evidence, Park provides a comprehensive sociopolitical history of the mukwa system in late Chos'n Korea." You'll never fall into the tourist traps when you travel with Frommer's. It's like having a friend show you around, taking you to the places locals like best. Our expert authors have already gone everywhere you might go—they've done the legwork for you, and they're not afraid to tell it like it is, saving you time and money. No other series offers candid reviews of so many restaurants in all price ranges. Every Frommer's Travel Guide is up-to-date, with exact prices for everything, dozens of color maps, and exciting coverage of sports, shopping, and sightseeing. You'd be lost without us! The ship is only half of the cruise experience--the other half is the time you spend ashore. Frommer's Caribbean Ports of Call offers the most complete guide to all the ports, with a critical, insider's look at all the organized shore excursions offered by the cruise lines themselves, Since it usually makes more sense to explore on your own, we'll take you to all the best beaches, golf, water sports, shopping, dining, and casinos--the attractions and activities that can easily fit into your limited time, starting from the cruise docks. You may only have a few hours, but we'll make sure you know exactly how to hit the highlights on your own. You'll also get a complete rundown of all the major ports of embarkation and maps of each destination. Most people think going to work every day and working hard are the main elements that determine wealth. Some people even think holding down two jobs will secure their financial futures. But hard work alone won't allow the average low- to middle-income individual to live well or control debt. In Look What Happened to My Pocket Change, author Rochelle Melanie provides a guide to help low- to middle-income individuals learn how to create wealth, overcome obstacles that prevent them from saving and investing, and manage money better. Rochelle describes her personal experiences with spending, saving, and investing to demonstrate techniques for creating financial stability. She discusses: ? Where wealth comes from ? The importance of organization ? The benefits of a good work ethic ? Credit and paying bills ? Banks, finance companies, and loan stores ? Coupons, rebates, reward points, and dollar stores ? How real savings begins ? Savings bonds, mutual funds, the stock market, real estate, and life insurance Look What Happened to My Pocket Change details techniques for wise investing, smart borrowing, and getting organized that anyone can adopt in order to enhance their lifestyles. Vols. for 1981- include four special directory issues. #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A "brilliant" (Lupita Nyong'o, Time), "poignant" (Entertainment Weekly), "soul-nourishing" (USA Today) memoir about coming of age during the twilight of apartheid "Noah's childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten."—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Times, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconditional love. Biomaterials for Oral and Dental Tissue Engineering examines the combined impact of materials, advanced techniques and applications of engineered oral tissues. With a strong focus on hard and soft intraoral tissues, the book looks at how biomaterials can be manipulated and engineered to create functional oral tissue for use in restorative dentistry, periodontics, endodontics and prosthodontics. Covering the current knowledge of material production, evaluation, challenges, applications and future trends, this book is a valuable resource for materials scientists and researchers in academia and industry. The first set of chapters reviews a wide range of biomaterial classes for oral tissue engineering. Further topics include material characterization, modification, biocompatibility and biotoxicity. Part Two reviews strategies for biomaterial scaffold design, while chapters in parts three and four review soft and hard tissues. Connects materials science with restorative dentistry Focuses on the unique field of intraoral tissues Highlights long-term biocompatibility and toxicity of biomaterials for engineered oral tissues When Marie Marvingt decided to ride the 1908 Tour de France she was told 'absolument, non!' by M. Degranges and the Societe du Tour de France. Instead she rode each stage 15 minutes after the official race had departed and finished all 4,488 kms of the parcours - a feat that only 36 of the 110 men who entered the race could equal. Her motto? "I decided to do everything better, always and forever." It's in the spirit of Breakneck Marie that this book has been written. This is not an anthology of women writing about women's cycling. Nor is it an anthology of women writing about men's bottoms in lycra, or peloton crushes or the curse of helmet hair. This is an book that celebrates the diversity of women's writing about the glorious, sometimes murky, often bizarre and frequently hilarious world of cycling in all its soapy operatic glory - from the professional sport to the club run, on the roadside and in the saddle, behind the scenes and on the massage table. Ride the Revolution represents the best new writing on cycling from women involved in the sport at all levels – as fans, key personnel, riders, photographers, journalists and presenters. These fresh and vibrant voices examine the sport from a new perspective to provide insights that rarely make it into the mainstream - what is it like to be a top women rider or work in their support team? Where is the women's sport heading and when will more women be represented at the highest level of sport's governance? And how do you get out and ride your bike when the news is full of stories of cyclists dying and you can't get clothing that fits? All the lowdown needed on Mexico's Caribbean playground is packed within this latest offering from Lonely Planet. Over 50 maps cover every beach, Mayan ruin, and hot dive site from Cancun to the Costa Maya; Isla Mujeres (called the backpacker's Cancun) and Isla Cozumel are included. A handy reference section focuses on local Spanish and slang. An amazing cuisine chapter gets beyond nachos and margaritas to showcase the genuine jewels of local food and drink. How to speed up business processes, improve quality, and cut costs in any industry In factories around the world, Toyota consistently makes the highest-quality cars with the fewest defects of any competing manufacturer, while using fewer man-hours, less on-hand inventory, and half the floor space of its competitors. The Toyota Way is the first book for a general audience that explains the management principles and business philosophy behind Toyota's worldwide reputation for quality and reliability. Complete with profiles of organizations that have successfully adopted Toyota's principles, this book shows managers in every industry how to improve business processes by: Eliminating wasted time and resources Building quality into workplace systems Finding low-cost but reliable alternatives to expensive new technology Producing in small quantities Turning every employee into a qualitycontrol inspector In Gy?nen's Transmission of the Buddha Dharma in Three Countries Ronald S. Green and Chanju Mun offer a translation and assessment of Gy?nen's perspective. They describe the innovated doctrinal classification system he created and suggest his political motivation for doing so. This book explores rising labor unrest in China as it integrates into the global political economy. The book highlights the tensions present between China's efforts to internationalize and accept claims to respect freedom of association rights, and its continuing insistence on a restrictive, and often punitive, approach to worker organizations. The author examines how the global labor movement can support the improvement of working conditions in Chinese factories. The book presents a novel multi-level approach capturing how trade unions and labor rights NGOs have mobilized along different pathways while attempting to influence labor standards in Chinese supply chains since 1989: within the ILO, within the European Union, leveraging global brands or directly supporting domestic labor rights NGOs. Based on extensive fieldwork in Europe, the US and China, the book shows that activists, by operating at multiple scales, were on some occasions able to support improvements over time. It also indicates how a politically and economically strong state such as China can affect transnational labor activism, by directly and indirectly undermining the opportunities that organized civil societies have to participate in the evolving global labor governance architecture. Part of the "Sport, Culture and Society" series, this book aims to illuminate the contribution of philosophy of sport to the understanding of contemporary sport. It addresses some of the different fields of philosophy and their application in philosophy of sport including: aesthetics, ethics, philosophy of education, and more. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Carmakers release new models every year with advanced technology to attract consumer interest and to satisfy increasingly stringent government regulations. Some of these technologies are firsts or leading-edge, and they start trends that more companies will soon follow. Snapshots of the direction of the automotive industry, along with OEM and supplier perspectives, are presented in these articles that have been collected by the Editors of Automotive Engineering whose aim is to provide the reader with a complete overview of the key advances that took place over the course of one model year. • Provides a single source for information on the key engineering trends of one year. • Allows the reader to skip to chapters that cover specific car models that interest them, or read about all models from beginning to end. • Includes plenty of big, full-color images and the facts about the most recent technology and engineering innovations. Each car manufacturer has its own chapter exploring new models in-depth. The yearly trends and innovations that make the automotive industry fascinating to both the engineer and the customer are all captured in the imagery and easy-reading of this full-color book. The Prisoners' World seeks to make the "prisoners' voice" come alive for regular college classroom students via author narrative essays as well as over sixty prisoner essays that shed light into prisoner experiences in California and Michigan penitentiaries. Brighton Kerrington Olivia North was everything I always wanted. From the moment I laid eyes on her, I knew nothing would stop me from having her. Not even her husband, Ryan. In the end, I got her. Maybe it wasn't all to myself, but Olivia was worth every sacrifice I made to be with her. What started as a chance to help Olivia heal from the loss of her babies, ended up changing us all forever. Because there wasn't anything Ryan and I wouldn't do to make her happy—including sharing her love. Forgiveness and healing are strange bedfellows, but when it comes to love, nothing is off limits. But everything comes at a cost, and there are key moments that end up changing our lives forever—altering the trajectory we were once on. Before all is said and done, the three of us end up paying more than we ever bargained for. Could our unorthodox love survive the hands of fate, or was it all just the beginning of the end? This conference book includes contemporary reports and corresponding studies on swim starts conducted by young scientists from around the world. The various topics relate to individual starts from the block, backstroke starts, and relay starts, highlighting different aspects and phases of the corresponding movement behavior. Most of the reports published in this book have been presented during the 2015 Young Experts Workshop of Swim Start Research supported by the Federal Institute of Sport Science in Germany. Enjoy a leisurely cruise in a 54' yacht on the rivers, lakes, waterways and canals of the United States and Canada, from New York City up the Hudson, thru the Erie Canal to Lake Ontario, then zigzag down the St. Lawrence River thru the Thousand Islands to Montreal. The cruise then moves across Ontario and Quebec to Hull and Ottawa on the Ottawa River into the historic 1820's Rideau Canal and its 45 colorful Lock Parks. This spectacular scenery of central Ontario leads back to Lake Ontario, at Kingston, then via the 55 locks of the Trent-Severn Waterway thru Canada's "cottage-country lakes" to gorgeous Georgian Bay. Here the journey turns south to Detroit, via Lakes Huron and St. Clair, then around Michigan's "thumb", to Sault St. Marie and Lake Superior. Moving across the Great Lakes to Chicago leads to the Illinois River into the Mississippi. The entire length of that mighty River then is cruised and described. Other tributary rivers explored town-by-city-by-town are the St. Croix, Ohio, Muskingum, Kentucky, Green, Kanawha, Allegheny, Monongahela, and Arkansas, most to their head of navigation. The White, Black, Atchafalaya, the West Gulf Intracoastal Waterway from Morgan City to Mobile, and the Tenn-Tom Waterway from Mobile Bay north to Columbus, Mississippi then follows, in detail. 190 marine charts and illustrations and 23 pages of color photos provide details of the magnificence encompassed in this book. The scenic wonders and delights of 16,000 miles of America's Waterways are explored and exposed, showing off America the Beautiful. This is a classic work--a highly-readable, wide-ranging study of the Trilateral Commission and the worldwide strategies of Trilateralism. It demystifies national and international events, power, propaganda, and policy making from World War II through the sixties and seventies and into the eighties.
