*Gospel Coach* Feb 02 2021 In order to help pastors and other Christian leaders to lovingly lead God's flock to Jesus Christ and into God's mission, Scott Thomas and Tom Wood clarify a process of coaching and shepherding that is rooted in the patterns of the Good Shepherd himself, a process in which leaders stir up the gifts, passion, and calling upon others' lives. This book addresses the needs of the leader, his or her sinful tendencies, and church leadership issues. It directs the leader to the person and work of Jesus. It provides a system to intentionally shepherd leaders to glorify God in their personal, spiritual, and missional lives. Many ministry leaders serving in churches find themselves overwhelmed, disillusioned, and depressed by the enormous and challenging task of leading and ministering in a congregation. As a result, the ministry suffers, the leaders suffer, and the result is often an unhealthy church existent with little or no Gospel influence. These leaders need someone to shepherd their soul so that they can lead others to the Chief Shepherd, Jesus Christ. We suggest that coaching for the church leader looks less like corporate consulting or humanistic psychology and more like biblical-shepherding. We suggest that every church leader needs a Gospel Coach to come alongside with words of truth, wisdom and experience to encourage, admonish, comfort and help—words drawn from Scripture and godly wisdom, grounded in the gracious saving work of Jesus Christ, and presented in the context of a trusting relationship. Gospel Coaching is an intentional relationship to skillfully care for others with four ancient shepherding principles: 1) Know the sheep, 2) Feed the sheep, 3) Lead the sheep, and 4) Protect the sheep. A Gospel Coach both inquires about the personal, spiritual, and missional aspects of a ministry leader's life in a loving yet focused manner, and also probes the church leader for compulsive unbelief or selfish motivation, or disobedience and sin, and leads the ministry leader back to the Gospel, through belief, repentance and obedience. Churches that desire to be rich in a Gospel application toward their city, their relationships with one another, their communication and worship, as well as their service, will benefit to a greater degree by having their leaders being coached by a Gospel-centered leader.

Beyond the Mountain Feb 14 2022 What does it take to be one of the world's best high-altitude mountain climbers? A lot of fundraising; traveling in some of the world's most dangerous countries; enduring cold bivouacs, searing lungs, and a cloudy mind when you can least afford one. It means learning the hard lessons the mountains teach. Steve House built his reputation on ascents throughout the Alps, Canada, Alaska, the Karakoram and the Himalaya that have expanded possibilities of style, speed, and difficulty. In 2005 Steve and alpinist Vince Anderson pioneered a direct new route on the Rupal Face of 26,600-foot Nanga Parbat, which had never before been climbed in alpine style. It was the third ascent of the face and the achievement earned Steve and Vince the first Piolet d'or (Golden Ice Axe) awarded to North Americans. Steve is an accomplished and spellbinding storyteller in the tradition of Maurice

Herzog and Lionel Terray. *Beyond the Mountain* is a gripping read destined to be a mountain classic. And it

**Behavioral Sport Psychology** May 17 2022 Sport psychology is a topic of growing interest. Many professionals read journals such as *The International Journal of Sports*, *Journal of Sport Behavior*, *Journal of Applied Sport Psychology*, *Research Quarterly for Exercise and Sport*, and *The Sport Psychologist*. In August 2008, *Monitor on Psychology*, the monthly publication of the American Psychological Association (APA), featured a special issue on sport psychology. Indeed, Division 47 of APA is devoted to "the scientific, educational, and clinical foundations of exercise and sport psychology." The North American Society for the Psychology of Sport and Physical Activity (NASPSPA) and the Association for the Advancement of Applied Sport Psychology (AAASP) convene conferences each year to present scientific findings and new developments in a rapidly expanding field. The AAASP and other organizations also qualify professionals as certified sport and exercise psychology consultants. Finally, a visit to any bookstore will reveal the lay public's fascination with sports, as revealed in numerous self-help books and guides to perfecting athletic performance. Behavioral psychologists have studied sport psychology for more than three decades (Martin, Thompson, & Regehr, 2004). Applied behavior analysis (ABA), in particular, has been an instrumental approach to behavioral coaching in many sports, including baseball (Osborne, Rudrud, & Zezoney, 1990), basketball (Pates, Cummings, & Maynard, 2002), figure skating (Ming & Martin, 1996), football (Ward & Carnes, 2002), golf (Pates, Oliver, & Maynard, 2001), ice hockey (Rogerson & Hrycaiko, 2002), soccer (Brobst & Ward, 2002), swimming (Hume & Crossman, 1992), and tennis (Allison & Ayllon, 1980). ABA stresses the application of learning theory principles, objective measurement of athletic skills, controlled outcome evaluation, and socially significant behavior-change. Cognitive behavior therapy, or CBT, also has been a dominant approach to psychological intervention in sports (Meyers, Whelan, & Murphy, 1996; Weinberg & Comar, 1994). CBT addresses athletic performance through cognitive-change methods combined with behavioral practice and environmental modifications. The purpose of the book described in this proposal is to compile the most recent experimental and applied research in behavioral sport psychology. Several journal articles have reviewed critical dimensions of behavioral sport psychology (Martin et al., 2004; Martin, Vause, & Schwartzman, 2005) but no book has covered the topic with an emphasis on ABA and CBT methodology and practice. Accordingly, *Behavioral Sport Psychology: Evidence-Based Approaches to Performance Enhancement* is a first of its kind volume.
