Better Business offers the business content students need, but in a better way. By presenting the material in a stimulating Q&A format, Better Business encourages students to come to class prepared to have better conversations and a truly engaging classroom experience. One of the most significant shifts in the business environment since the first edition of Better Business is the explosive growth of social media in all parts of business. The Fourth Edition of Better Business continues to feature social media strategies and technologies in over 85% of its chapters, as well as significant updates to the technology chapter. Better Business is integrated with MyBizLab which gets students to interact with business, not just read about it. MyBizLab also assists instructors with their course prep, making it convenient to access and assign modern, interactive resources. Also available with MyBizLab. MyBizLab is an online homework, tutorial, and assessment program

designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Introduces concepts drawn from astronomy, biology, and geology to explain natural phenomena and to explore profound scientific questions about astrobiology. --From publisher description. 0321609204 / 9780321609205

For courses in Fitness and Wellness. Helping students find the path to lifelong fitness Get Fit, Stay Well! gives students the targeted, personalized guidance they need to get started, keep motivated, and approach the next level in their own fitness and wellness. With dynamic media and content that activates learning, Get Fit, Stay Well! takes a personalized approach to fitness and wellness that students can apply for life. Maintaining the highly praised hallmarks of previous editions--integrated case studies, three-pronged labs, graphics-rich design, and extensive strength training and flexibility photos and videos--the 4th Edition further engages students with new and vibrant infographics, programs, and activities to inspire thinking and discussion. Get Fit, Stay Well! also includes Mastering(TM) Health--helping instructors track and assess student progress, while giving students the tools they need to adopt healthy habits today and tomorrow. The Brief Edition contains chapters 1-10 of the "full edition" of Get Fit, Stay Well!, with a focus on fitness topics, nutrition, weight, stress, and preventing cardiovascular disease. Also available as a Pearson eText or packaged with Mastering Health Pearson eText is a simple-to-use, mobile-optimized, personalized reading experience that can be adopted on its own as the main course material. It lets students highlight, take notes, and review key vocabulary all in one place, even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily share their own notes with students so they see the connection between their eText and what they learn in class - motivating them to keep reading, and keep learning. Learn more about Pearson eText. Mastering(TM) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. With a variety of activities available, students can actively learn, understand, and retain even the most difficult personal health and fitness concepts. Learn more about Mastering Health. For college-level courses in medical terminology. Today's self-guided learning approach to medical terminology Medical Terminology Complete! presents the most current language of healthcare through a programmed, self-guided approach. Students learn the key medical terms used in medical offices, hospitals, and clinics -- alongside essential A&P information -- and get extensive step-by-step practice building medical terms. The 4th edition improves clinical training for students poised to enter healthcare careers. New types of exercises after

each chapter -- Define the Combining Form and Complete the Labels exercises -- round out a comprehensive series of practice opportunities. Also available with MyLab Medical Terminology MyLab(TM) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. With MyLab Medical Technology, students build a solid foundation of medical language through interactive games, Dynamic Study Modules, and narrated lectures. Note: You are purchasing a standalone product; MyLab Medical Terminology does not come packaged with this content. Students, if interested in purchasing this title with MyLab Medical Terminology, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab Medical Terminology, search for: 013476059X / 9780134760599 Medical Terminology Complete! PLUS MyLab Medical Terminology with Pearson eText--Access Card Package, 4/e Package consists of: 0134701224 / 9780134701226 Medical Terminology Complete!, 4/e 0134713524 / 9780134713526 MyLab Medical Terminology with Pearson eText--Access Card--for Medical Terminology Complete!, 4/e Teaching by Principles is a widely acclaimed methodology test used in language teacher education programs around the world. In this fourth edition, Dr. H. Douglas Brown and Dr. Heekyeong Lee offer a comprehensive survey of practical language teaching options firmly anchored in current research on second language acquisition and pedagogy. Features of the Fourth Edition A comprehensive update on current issues, new research findings, and innovative classroom teaching techniques, with additional and reworked chapters to reflect this information A description and analysis of new foundational principles, including: agency, identity, languaculture, communities of practice, embodied cognition, and self-regulation Pre-reading organizers at the beginning of each chapter Frquent statistics and pedagogical "tips" in each chapter Numerous "classroom connections" to stimulate practical applications of concepts and principles End-of-chapter group activities, discussion topics, and suggested additional readings A glossary of technical terminology For courses in Writing. A compact, colorful text for argument and research Envision in Depth: Reading, Writing, and Researching Arguments encourages students to look at an issue or idea from a new perspective through analysis, argument, source evaluation, and research-based essay writing. The authors employ visual culture as an intuitive way into rhetoric and writing. Because of its authentic examples, fresh readings, and thorough instruction, students will enjoy learning to read, analyze, and argue about a range of written and visual texts relevant to our contemporary culture. Also available with MyWritingLab(tm) MyWritingLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. In addition to the full eText, activities directly from the text are available within MyWritingLab. These include the written assignments, readings from the text, review exercises, and more. Note: You are purchasing a standalone product; MyWritingLab does not come packaged with this content. Students, if interested in purchasing

Envision in Depth: Reading, Writing, and Researching Arguments In the highly litigated area of Special Education, it is imperative that professionals in the field understand the legal requirements of providing a free appropriate public education to students with disabilities. This indispensable textbook prepares the reader with the essential skills to locate pertinent information in law libraries, on the Internet, and other sources to keep abreast of the constant changes and developments in the field. Now in the third edition, the entire textbook has been thoroughly updated and revised with the latest information on the statutes, regulations, policy guidance, and cases on special education law, as well as the most current information on: the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act and the Elementary and Secondary Education Act, The Family Educational Rights and Privacy Act (FERPA), and the Health Insurance Portability and Accountability Act (HIPAA). Long-recognized as one of the top special education law books in the field, *The Law and Special Education, Third Edition*, presents the most important and necessary information for educators to understand the history and development of special education laws and the requirements of these laws in the field of special education. For Introduction to Psychology Courses √ The most learner-centered and assessment-driven text available √ With its engaging writing style and comprehensive coverage of key research, *Psychology, 4/e*, awakens students' curiosity and energizes their desire to learn more. This title draws learners into an interactive experience of psychology. The authors establish clear learning objectives tied to the most recent APA-recommended undergraduate learning guidelines. √ MyPsychLab is a valuable component to the Ciccarelli/White program. Engaging activities plus assessments provide a teaching and learning system that helps students master psychological concepts more readily. With MyPsychLab, students can develop critical thinking skills through writing, simulate classic experiments and surveys, watch videos on research and applications, and explore the Visual Brain in 3-D. √ Ciccarelli/White, *Psychology, 4e* will provide a better teaching and learning experience--for you and your students. This program: Personalizes Learning with MyPsychLab: MyPsychLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructor gauge individual and class performance. Connects Psychology to the Real World: Students will be able to relate chapter material to their own lives. Energizes a Desire to Learn: From Chapter 1, this title provides students with ample opportunities to study from wherever they are. Embeds Interactive Content: Throughout each chapter interactive content has been fully incorporated into all aspects of the text. *Psychology, Fourth Edition* is also available via REVEL(tm), an immersive learning experience designed for the way today's students read, think, and learn. Note: This is the standalone book, if you want

A comprehensive introduction to engineering analysis, this text highlights the topics taught in the first two years of the traditional engineering curriculum. It also introduces students to analysis methodology that they will utilize in the engineering disciplines they pursue. *Statistics: The Art and Science of Learning from Data, Fourth Edition*, takes a conceptual approach, helping students understand what statistics is about and learning the right questions to ask when analyzing data, rather than just memorizing procedures. This book takes the ideas that have turned statistics into a central science in modern life and makes them accessible, without compromising the necessary rigor. Students will enjoy reading this book, and will stay engaged with its wide variety of real-world data in the examples and exercises. The authors believe that it's important for students to learn and analyze both quantitative and categorical data. As a result, the text pays greater attention to the analysis of proportions than many other introductory statistics texts. Concepts are introduced first with categorical data, and then with quantitative data. A textbook for undergraduate and graduate courses in Play; also appropriate as a supplement for Child Development and Early Childhood Education courses. With significantly expanded discussions on key topics, this text ties play directly to child development. Addressing the full spectrum of play-related topics, including age-group chapters, its coverage is quite comprehensive and blends research, theory, and practical applications. *Play and Child Development, Fourth Edition*, is arranged to guide students through topics leading to a comprehensive understanding of play intended to help prepare them for guiding children's play in a number of contexts: preschools, elementary schools, park systems, and research programs. The text is developmentally-based, providing basic information about historical, theoretical, and practical approaches to promoting development through integrated play and learning approaches across various age or developmental levels. The book analyzes play theories and play therapy; presents a history of play; and discusses current play trends. It explores ways to create safe play environments for all children, and how to weave play into school curricula. Finally, the authors examine the role of adults in leading and encouraging children's natural tendencies toward learning by playing. Special coverage includes a full chapter on play and children with disabilities, and the value of field trips in supporting learning. Provides students with the tools they need to go from inquiry to understanding. *Psychology: From Inquiry to Understanding, 3/e* provides the framework students need to go from inquiry to understanding by continuously modeling the application of the six key principles of scientific thinking. The text teaches students how to test their assumptions, and motivates them to use scientific thinking skills to better understand the field of psychology and the world around them. MyPsychLab is an integral part of the Lilienfeld / Lynn / Namy / Woolf program. Key learning applications include writing assessment, MyPsychLab video series, and simulations. This text is available in a variety of formats - digital and print. Pearson offers its titles on the devices students love through Pearson's MyLab products, CourseSmart, Amazon, and more. Teaching & Learning Experience This program will

provide a better teaching and learning experience -- for you and your students. Here's how: Personalize Learning - MyPsychLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructor gauge individual and class performance. Improve Critical Thinking - Numbered learning objectives and section summaries help readers build critical thinking and study skills. Engage Students - Visual activities, such as labeling of figures and completion of summary tables, help students review key concepts. Explore Research - "Apply Your Scientific Thinking Skills" questions are tied to outside research assignments. Support Instructors - Support Instructors--A full set of supplements, including MyPsychLab, provides instructors with all the resources and support they need. 0205961673 / 9780205961672 Psychology: From Inquiry to Understanding Plus NEW MyPsychLab with Pearson eText -- Access Card Package Package consists of: 0205206514 / 9780205206513 NEW MyPsychLab with Pearson eText -- Valuepack Access Card 0205959989 / 9780205959983 Psychology: From Inquiry to Understanding Normal 0 false false false Clear, accessible, and teachable, "Stats: Modeling the World" leads with practical data analysis and graphics to engage students and get them thinking statistically from the start. Through updated, relevant examples and data--and the authors' signature "Think, Show, and Tell" problem-solving method--students learn what we can find in data, why we find it interesting, and how to report it to others. The new Fourth Edition is even more engaging than previous editions, builds on the innovative features that have made the first three editions so popular, and includes revisions designed to make it even easier for students to put the concepts of statistics together in a coherent whole. These popular and proven workbooks help students build confidence before attempting end-of-chapter problems. They provide short exercises that focus on developing a particular skill, mostly requiring students to draw or interpret sketches and graphs. "For first-year or introductory courses in Engineering and Computer Science With a hands-on approach and focus on problem solving, this introduction to the powerful MATLAB computing language is designed for students with only a basic college algebra background. Numerous examples are drawn from a range of engineering disciplines, demonstrating MATLAB's applications to a broad variety of problems."--Publisher's website. Revised edition of the author's Discovering the life span, [2015] "Listen to This is designed to connect students' interest in the music on their own playlists with great music from throughout history and all over the world. It is based on the idea that all music is built on a combination of a few basic elements — melody, dynamics, rhythm, harmony, texture, timbre, form, and word-music relationships — and if students listen for those elements they can better understand how a piece of music works, no matter how unfamiliar it may seem at first. This elements-centered approach provides a strong foundation for learning about, and enjoying, many new musical styles. The Fourth Edition includes expanded coverage of timbre as well as new chapters on additional musical works. Included in this package, MyLab™ Music for the Music Appreciation course is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. MyLab Music also gives students access to the music and listening guides that accompany the text. Please note: this version of MyLab Music does not include an eText. Listen to This , Fourth Edition is also available via Revel™ , an interactive digital learning environment that

replaces the print textbook, enabling students to read, practice, and study in one continuous experience. Revel is ideal for courses where student engagement and mobile access are important."--Publisher's description. For courses in Introductory C# Programming. Clear, Friendly, and Approachable Introduction to Visual C# Programming Clear, friendly, and approachable, this Fourth Edition of Starting Out With Visual C# is an ideal beginning text for students with no programming experience. Detailed walk-throughs and a readable, comprehensible style make the text inviting to new programmers, while numerous practical example programs highlight the most important programming topics. Gaddis's detailed, step-by-step instructions teach a GUI-based approach that motivates students with familiar graphical elements. Topics are examined progressively in each chapter, with objects taught before classes. The Fourth Edition has been completely updated for Visual Studio 2015 and contains new sections on debugging, accessing controls on different forms, and auto-properties. In Starting Out with Python®, 4th Edition, Tony Gaddis' accessible coverage introduces students to the basics of programming in a high level language. Python, an easy-to-learn and increasingly popular object-oriented language, allows readers to become comfortable with the fundamentals of programming without the troublesome syntax that can be challenging for novices. With the knowledge acquired using Python, students gain confidence in their skills and learn to recognize the logic behind developing high-quality programs. Starting Out with Python discusses control structures, functions, arrays, and pointers before objects and classes. As with all Gaddis texts, clear and easy-to-read code listings, concise and practical real-world examples, focused explanations, and an abundance of exercises appear in every chapter. Updates to the 4th Edition include revised, improved problems throughout, and new Turtle Graphics sections that provide flexibility as assignable, optional material -- page 4 of cover. Textbook for Intro to Psychology 10809198. The latest edition of Ready to Write marks 30 years of this easy-to-teach, user-friendly three book series. With a fresh four-color design and a variety of new activities, this classroom favorite provides guided writing instruction, dependable strategies, and many opportunities for students to hone the composition skills they need to be successful in personal and academic settings. New to This Edition Updated examples and model paragraphs illustrate organizing elements such as topic sentences, supporting details, and signal words. New Learning Outcomes let students know the goals of each chapter and what their learning experience will be. New Essential Online Resources contain the answer keys, plus additional activities for extra practice in grammar for writing with a focus on basic punctuation, writing mechanics, and paragraph structure. Other Highlights Extensive practice activities and clear teachable steps guide students through prewriting, writing, revising, and editing as they move from personal (emails, journals, letters) to academic (essays, lab reports, analyzing data, college applications) writing. Paragraph-writing assignments provide practice in various rhetorical writing types including narration, description, opinion, compare and contrast, cause and effect, and problem/solution. Grammar for Writing presents key grammar points and practice to boost accuracy. Varied contextualized writing assignments help students with real-life tasks. Writer's tips help students work toward unity, accuracy, and coherence in their paragraphs. Extended word banks help increase students' topic-based vocabulary. Mapped to the Global

Scale of English. Resource added for the Nursing-Associate Degree 105431, Practical Nursing 315431, and Nursing Assistant 305431 programs. Robbins Management: The Essentials covers the concepts essential to management in the 21st century in a fresh, lively format that's perfectly suited to a typical university semester. The second edition features new and in-depth coverage of sustainability, ethics and corporate social responsibility and new case studies from local and international businesses. Software -- Programming Techniques. ";The chapter on collaboration is an excellent addition that most texts of this type do not include, and I believe it is a unique, positive feature of this text. None of the introductory texts I've looked at have had such a thorough introduction to this topic."; Cynthia Herr, University of Oregon ";I like the balance achieved between professional delivery and family need. This degree of collaboration is long overdue and is welcomed."; James A. Siders, The University of Southern Mississippi ";One strength of the text is that. . .the parents are clearly included as a component of the team rather than an 'outside party.'"; Philip Lee Gunter, Valdosta State University This exciting new text's contemporary treatment of special education prepares teachers for their role in the education and well-being of students with special needs. Some features include. . . bull; bull;IDEA 2004 Update Edition: Special Education reflects the IDEA 2004 legislation in two ways: bull; bull;An ";IDEA 2004"; icon appears in the margins adjacent to relevant discussions throughout the book that have been revised to reflect IDEA '04. bull;";Guide to IDEA 2004"; has been included as an appendix. It provides side-by-side comparison of IDEA '04 versus the previous '97 legislation for each of the statutes and a little friendly ";background"; where it will help the reader better understand the practical implications of the law. bull;Real People, Real Stories: Special Education brings the experience of people with disabilities to life for your students. The text includes powerful stories of people with disabilities and the stories of the people who live and work with them. bull;Validated Teaching Practices: This text is filled with information and teaching approaches, strategies, and tips based on validated, peer-reviewed research findings. bull; bull;";Specialized Instruction"; highlights teaching applications for intensive instruction delivered by special education teachers in various educational settings. bull;";Inclusion Matters"; presents teaching applications for students with various needs in general education settings. bull;";Collaboration in Action"; explores the practical applications of collaborative school relationships. bull;";Positive Behavior Supports"; illustrates the many positive, proactive ways to address student behavior/social issues as part of overall classroom teaching and learning. bull;Unique Content Coverage: Recurring sections in all chapters include discussion of critical areas such as content area learning, social and emotional characteristics, early childhood, transition, parents and families, inclusive practices, best educational practices, and current trends and issues. If you would like to purchase both the physical text and MyMedicalTerminologyLab, search for: 0134320476 / 9780134320472 Medical Language: Immerse Yourself PLUS MyMedicalTerminologyLab with Pearson eText -- Access Card Package, 4/e Package consists of: \*0134318129 / 9780134318127 Medical Language: Immerse Yourself, 4/e \*0134318404 / 9780134318400 MyMedicalTerminologyLab with Pearson eText -- Access Card -- for Medical Language: Immerse Yourself. 4/e Textbook, with answers to selected exercises. For

undergraduate Introductory Management Information Systems courses. Exploring how people use IS to solve business problems, this engaging introduction explains why MIS is the most important course in the business school—showing students how businesses use information systems and technology to accomplish their goals, objectives, and competitive strategy. Three unique Guides per chapter focus on the themes of ethics, security, and other timely topics; a number of illustrative cases, exercises, projects, and other aids ensure that students connect the knowledge in the text to everyday life. With a new edition now publishing each year, MIS Essentials, Fourth Edition contains fresh, new, and current material to help keep your students up to date. Teaching and Learning Experience This program will provide a better teaching and learning experience—for you and your students. Here's how:

- \* Focus on important themes of ethics, security, and other timely topics through text's Guides, designed to help students improve their skills as future business professionals.
- \* Connect classroom knowledge to everyday life with illustrative cases and a number of exercises and other interactive features.
- \* Keep content current to help keep your students up to date with the most recent events.

This title is available with MyMISLab(TM), an online homework, tutorial, and assessment product designed to work with your Pearson text to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts. Students, if interested in purchasing this title with MyMISLab, ask your instructor for the correct package ISBN. Instructors, contact your Pearson representative for more information.

For graduate and undergraduate nutrition students Understanding and applying nutrition to everyday life The Fourth Edition of Nutrition for Life, MasteringNutrition Edition gives students the tools they need to effectively learn and master nutrition concepts and apply them to their daily lives. This visually rich text is packed with information and exercises to help students understand how the food they eat affects their bodies. Students will learn about essential nutrients, vitamins, minerals, and the chemical organization of micronutrients, while staying engaged with the material through self-assessments, case studies, and study aids. Nutrition for Life organizes information according to how nutrients function in the body, rather than by chemical classification, allowing students to more easily apply their knowledge to everyday situations. This new edition features new Meal Focus Figures, new Focus Figures to illustrate key concepts, and student learning outcomes listed in every chapter and correlated to the end of chapter Study Plan.. Also available as a Pearson eText or packaged with Mastering Nutrition Pearson eText is a simple-to-use, mobile-optimized, personalized reading experience that can be adopted on its own as the main course material. It lets students highlight, take notes, and review key vocabulary all in one place, even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily share their own notes with students so they see the connection between their eText and what they learn in class - motivating them to keep reading, and keep learning. Mastering combines trusted author content with digital tools and a flexible platform to personalize the learning experience and improve results for each student. Built for, and directly tied to the text, Mastering Nutrition enables an extension of learning, allowing students a platform to practice, learn, and apply outside of the

classroom. Note: You are purchasing a standalone book; Pearson eText and Mastering Nutrition do not come packaged with this content. Students, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If your instructor has assigned Pearson eText as your main course material, search for: - 0135214149 / 9780135214145 Pearson eText Nutrition for Life, 4/e -- Access Card OR - 0135214157 / 9780135214152 Pearson eText Nutrition for Life, 4/e -- Instant Access If you would like to purchase both the physical text and MasteringNutrition search for: 0133878368 / 9780133878363 Nutrition for Life Plus MasteringNutrition with MyDietAnalysis with eText 2.0-- Access Card Package, 4/e Package consists of: 0133983099 / 9780133983098 MasteringNutrition with MyDietAnalysis with Pearson eText -- Valuepack Access Card -- for Nutrition for Life 0133853365 / 9780133853360 Nutrition for Life, 4/e For courses in Criminal Justice and Statistics for Criminal Justice. An accessible introduction to statistics in the criminal justice field. Elementary Statistics in Criminal Justice Research, Fourth Edition, provides an introduction to statistics for students in criminal justice and criminology. Created specifically for students who many not have strong backgrounds in mathematics, the text focuses primarily on the statistical theories and methods that criminal justice students need to understand. This text was adapted from the best-selling Elementary Statistics in Social Research, and provides broad and accessible coverage that will appeal to students and instructors alike. Fundamentals of International Business is the fourth edition of International Business by Dr Sumati Varma. The content of the book has been revised and mapped to the latest syllabus by the UGC under the CBCS system. The book captures the core essence of i Richard De Veaux, Paul Velleman, and David Bock wrote Intro Stats with the goal that you have as much fun reading it as they did in writing it. Maintaining a conversational, humorous, and informal writing style, this new edition engages readers from the first page. The authors focus on statistical thinking throughout the text and rely on technology for calculations. As a result, students can focus on developing their conceptual understanding. Innovative Think/Show/Tell examples provide a problem-solving framework and, more importantly, a way to think through any statistics problem and present their results. New to the Fourth Edition is a streamlined presentation that keeps students focused on what's most important, while including out helpful features. An updated organization divides chapters into sections, with specific learning objectives to keep students on track. A detailed table of contents assists with navigation through this new layout. Single-concept exercises complement the existing mid-to hard-level exercises for basic skill development. For Freshman Orientation, Introduction to College, College Survival, and College Seminar courses. The first book on the market written with the first-time community college student in mind, this text provides basic information as well as encouragement for the non-traditional student--it shows that going to college and balancing work and family can be accomplished without compromising students' success. The Community College Experience Brief covers a range of topics from making the transition into college culture, to practicing active learning and study skills, and preparing for a degree and a career. Each chapter, including the return of the time and energy management chapter, explores a major "college survival" topic in depth and provides a wealth of information for anyone who has stepped onto campus for the first time, all in a

straightforward, easy-to-read format. The third edition now offers exciting new features such Tech Tactics, using technology and websites to further understanding, and Emotional Intelligence Check-Up, which allows students to explore four key emotional intelligence characteristics that can help them succeed. For MBA/graduate students taking a course in corporate finance. Using the unifying valuation framework based on the Law of One Price, top researchers Jonathan Berk and Peter DeMarzo set the new standard for corporate finance textbooks. Corporate Finance blends coverage of time-tested principles and the latest advancements with the practical perspective of the financial manager. With this ideal melding of the core with modern topics, innovation with proven pedagogy, Berk and DeMarzo establish the new canon in finance. The second edition reflects the constantly changing world of finance, including information on the recent financial crisis, new behavioral finance research, and updated practitioner interviews. For Introduction to engineering courses. Inspire self-guided inquiry with an active learning model Thinking Like an Engineer: An Active Learning Approach, 4th Edition is designed to facilitate an active learning environment for first year engineering courses. The authors incorporate a model of learning that encourages self-guided inquiry and advances students beyond "plug-and-chug" and memorization of problem-solving methods. Checkpoints throughout each chapter provide worked out problem sets for students to solve using their own logic, before they are ready to tackle more difficult problems. An emphasis on reading and practice before class prepares students for in-class activities that reinforce the chapter's material. Students arrive prepared for class, allowing instructors to spend class time focusing on active learning through collaborative problem-solving, computer-based activities, and hands-on experiments that encourage guided inquiry. The 4th Edition provides new material and revisions based on input from instructors and students, as well as current software releases. Also available with MyLab Engineering. MyLab(tm) Engineering is an online homework, tutorial, and assessment program that truly engages students as it offers customized, self-paced learning with instant feedback. MyLab Engineering gives students unlimited opportunity for practice with feedback and help when they need it most. Students will be prepared ahead of class, allowing you to spend class time focusing on active learning. Note: You are purchasing a standalone product; MyLab(tm) Engineering does not come packaged with this content.
