"Este libro reúne, en una versión más ampliada, las biografías de mujeres que publiqué en el suplemento dominical de El País. No sé bien dónde encuadrar estos trabajos: aunque están muy documentados, no son ni biografías académicas ni artículos periodísticos, sino unos textos muy apasionados, muy personales. Son historias de mujeres singulares a las que intenté entender. Las hay generosas y las hay malvadas, cobardes o valientes, turbulentas o tímidas; todas son, eso sí, muy originales y algunas resultan pasmosas por lo extraordinario de sus peripecias. Pero creo que, por muy raras que parezcan, siempre podemos reconocernos en ellas. Y es que cada uno de nosotros encierra dentro de si todas las vidas". On the same day that the Mafia capo Umberto Anastasia is assassinated in a barber's chair in New York, a hippopotamus escapes from the Havana zoo and is shot and killed by its pursuers. Assigned to cover the zoo story, Joaquín Porrata, a young Cuban journalist, instead finds himself embroiled in the mysterious connections between the hippo's death and the mobster's when a secretive zookeeper whispers to him that he "knows too much." In exchange for a promise to introduce the keeper to his idol, the film star George Raft, now the host of the Capri Casino, Joaquín gets information that ensnares him in an ever-thickening plot of murder, mobsters, and, finally, love. The love story is, of course, another mystery. Told by Yolanda, a beautiful ex-circus performer now working for the famed cabaret San Souci, it interleaves through Joaquín's underworld investigations, eventually revealing a family secret deeper even than Havana's brilliantly evoked enigmas. In *Dancing to "Almendra,"* Mayra Montero has created an ardent and thrilling tale of innocence lost, of Havana's secret world that is "the basis for the clamor of the city," and of the end of a violent era of fantastic characters and extravagant crimes. Based on the true history of a bewitching

city and its denizens, *Almendra* is the latest "triumph" (*Library Journal*) from one of Latin America's most impassioned and intoxicating voices. "In the Palm of Darkness" tells the story of American herpetologist Victor Griggs and Haitian guide Thierry Adrien, who are searching for an amphibian known as the blood frog in the mountains of violence-torn Haiti. The rich and tragic tale of Thierry's family, his life and loves, and his curious destiny, forms a backdrop for the obsessive search of the two men from different cultures and opens a window onto another way of understanding the world. This book explores the writer's narrative journey into the inner depths of the human being through the study of the most important themes and aspects of her work. Instead of following one determined critical theory, the different subjects are approached from a variety of viewpoints, ranging from Aristotle to Marx, from Cervantes to Ortega y Gasset, and from Horace to Eagleton, according to their applicability. Contents: Note; Preface; About Rosa Montero; Winners and Losers; Love, Desire, Obsession; The Modern Jungle; Beloved Power, Elusive Wisdom; The Agony of Decline; Conquest Through Seduction; Bibliography; Index. *En vísperas de la caída de Jean Claude Duvalier, «Baby Doc», un marinero de goleta regresa a su Haití natal, tras veinte años de ausencia, atendiendo a la llamada de un sacerdote de vudú que había sido su mejor amigo de infancia. El encuentro del marinero con sus antiguos afectos,*

sus recuerdos y su tierra, su choque frontal con un país en plena ebullición, acaban precipitando la crisis de un personaje que, casi a su pesar, se ve arrastrado por la vorágine de los acontecimientos. Así pues, La trenza de la hermosa luna combina sabiamente, a la manera de la novela clásica, la narración psicológica con la crónica de actualidad, la descripción de un mundo exótico con la intriga de una trama dramática. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Taking a global approach, this insightful Handbook brings together leading researchers to provide a comprehensive overview of the state-of-the-art in railway regulation with a particular focus on countries that rely heavily on railways for transportation links. The Handbook also considers the most pressing issues for those working in and with railway systems, and outlines future trends in the development of rail globally. It is Holy Week, and the Haitian sugar cane harvesters can temporarily lose themselves in the fervor of voodoo. But amidst the colorful festival, a struggle for power, as well as a ferocious passion, develops between Mistress Zule, voodoo priestess and spiritual leader, and the infamous Simila Bolosse, a rival priest backed by the

bloodthirsty "tontons macoutes". Cloud computing presents a promising approach for implementing scalable information and communications technology systems for private and public, individual, community, and business use. Achieving Federated and Self-Manageable Cloud Infrastructures: Theory and Practice overviews current developments in cloud computing concepts, architectures, infrastructures and methods, focusing on the needs of small to medium enterprises. The topic of cloud computing is addressed on two levels: the fundamentals of cloud computing and its impact on the IT world; and an analysis of the main issues regarding the cloud federation, autonomic resource management, and efficient market mechanisms, while supplying an overview of the existing solutions able to solve them. This publication is aimed at both enterprise business managers and research and academic audiences alike. *All gasoline engines, 2WD and 4WD. Shifting States in Global Markets* contributes to the debates over the political economy of globalization by focusing attention on the increasingly important role of subnational governments in implementing economic policies. *Challenging the view that the effects of decentralization are positive or negative uniformly and can be explained by reference to the influence of national political institutions,* Alfred Montero uses his comparisons of industrial policy in Brazil and Spain, and between different regions in these countries, to argue that we need

to pay attention to political conditions at the subnational level to account for the variation in economic success between regions. Two crucial conditions are emphasized in Montero's analysis: how much competition there is among political elites within any region, and how much competition there is between regions for scarce fiscal resources. Lower competition among elites leads to subnational governments delegating more autonomy to public agencies to develop ties with private businesses favoring allocative efficiency and innovation; higher competition between regions provides incentives for political leaders to support involvement in economic development efforts by a greater variety of public agencies, whose cooperation and mutual trust over time create the conditions for long-term success in these efforts. This analysis gives us a much more nuanced understanding of how countries are experiencing the challenges of globalization today. Como el anverso y el reverso de un bolero, esta novela proyecta, sobre el espacio urbano degradado de un local nocturno madrileño, la postal pintarrajeada de un improbable y suntuoso Tropicana cubano en días áureos, metáfora y mito que postulan e inventan unas existencias desahuciadas. En el vetusto local conocido como Desiré desfilan cupletistas venidas a menos, policías y tipos grises en sus diversas tonalidades, e incluso algunas almas cándidas como la solterona Antonia y su hermano Damián. Desde la condición humana, vulnerada e inerme,

esta tercera novela de Rosa Montero, farsa negra, o tragedia rosa, nos habla, con ácida verdad, de un mundo desportillado que se resquebraja y descubre, bajo los falsos colores de la pintura, la soledad de todos. Celia and Fernando, a long-married couple, embark on a Caribbean cruise in order to revitalize their fading marriage, but a mysterious passenger named Julieta leads them to lose their inhibitions and turn to others to fulfill their dark and passionate fantasies. La autora emprende un viaje al interior en un juego narrativo lleno de sorpresas. En él se mezclan literatura y vida en un cóctel afrodisíaco de biografías ajenas y autobiografía novelada. Y, así, descubrimos que el gran Goethe adulaba a los

poderosos hasta extremos ridículos, que Tolstoi era un energúmeno, que Montero, de niña, fue una enana, y que, con veinte años, mantuvo un estrafalario y desternillante romance con un famoso actor. Pero no deberíamos fiarnos de todo lo que la autora cuenta sobre sí misma: los recuerdos no son siempre lo que parecen. Un libro sobre la fantasía y los sueños, sobre la locura y la pasión, sobre los miedos y las dudas de los escritores, pero también de los lectores. El libro es, sobre todo, la tórrida historia de amor y salvación que hay entre Rosa Montero y su imaginación.

Overpass girders are risked by the impact of the traffic, over height vehicle, travelling under the structure, creating a hazard for the drivers over and under the bridge. When a bridge girder is damaged the repair solution adopted has to meet the following criteria: - Safety. The repaired structure has to provide a minimum level of service to guarantee the safety of the traffic during the life of the structure. - Repair time: The repair time has to be minimized to limit risks and inconveniences for the traffic. - Economy. The adopted solution has not only to fulfill the previous requirements, but also has to be the most economical. Nowadays a lot of construction projects have to confront this kind of issue. The Lyndon B. Johnson (LBJ) Express construction project had to solve this problem. The LBJ project is located on I-635 and I-35 in North Dallas, Texas. The bridge number 54 of the LBJ project was hit by a truck, causing

severe damage on one of its girders. The incident caused loss of concrete and exposed several strands. The solution adopted for the engineers was install fiber glass rebar and fill with repair mortar. This study models the damaged girder before and after the repair to analyze its structural behavior. The data obtained by this model have been compared to the data obtained by the field test. The ABAQUS software has been used to model the girder. The objectives of this study are provide a better understanding of the structural behavior and propose adequate modeling techniques of beams repaired with GFRP rebar. The proposed techniques will help to establish adequate repair procedures and to anticipate the structural behavior of damaged girders prior to the repair process

En esta historia se mezcla el pasado y el presente. Un pasado oscuro que irrumpe en un presente monótono porque alguien del pasado vuelve a reclamar lo que es suyo. Sofía Zarzamala, editora de libros medievales, recibe una llamada. Una voz de hombre le dice: "Te he encontrado". Se viste y huye de su apartamento sabiéndose perseguida por alguien, o algo, que relaciona con un pasado que creía olvidado. Durante 24 horas Zarza recorrerá el infierno: los bajos fondos urbanos, la miseria y la crueldad. De forma paralela, aparece la historia del libro que Zarza está editando: en el siglo XII una mujer convive con dos niños, prácticamente de la misma edad, uno es hijo de ella y de su marido y el otro de su marido y otra

mujer. La trama se desentrañará de a poco hasta la revelación final que cambiará la vida de la protagonista para siempre. Covers all U.S. and Canadian models of Cordia, Galant, Mirage, Montero, Pick-up, Precis, Sigma, Starion and Tredia.
