Robin Nixon's Html4 Crash Course Dec 12 2021 HTML is the markup language behind all websites. Developed over many years, and based on what users actually need, version 4.01 is the standard used across the web to build dynamic websites. In fact, you may have heard of HTML5 and all the wonderful things it can do, but did you know it is actually an extension of good old version 4 of HTML, and that in order to use it you need to thoroughly understand HTML 4.01 first? That's where this course comes in. Built around seven easy-to-follow lectures, it teaches you everything you need to know about HTML 4, quickly and simply. Once completed you'll be able to create your own websites, and (if you wish) be ready to learn HTML5 too. Written by the author of one of the biggest-selling books on web development in recent years, you are sure to find this book the quickest and easiest way to get up-to-speed with the latest web technology. Chapters include: 1. The Layout of an HTML 2. Document 3. The HTML Document Body 4. Fonts, Colors & Images 5. Lists & Tables 6. Links, Forms & Frames 7. List of HTML 4.01 Tags Why you will learn everything you need from this course: • Each Lecture begins by listing the key skills you will learn. • A summary reminds you what you have learned. • Useful, fully-tested examples illustrate every feature. • Each lecture features notes providing extra, handy advice. • All examples are available for free download.
