Rosicrucian Manual Jul 26 2020 Originally published by The Supreme Grand Lodge of the Ancient Mystical Order Rosae Crucis (AMORC) in 1918 and again in 1929, with several reissues, the Rosicrucian Manual is an official manual for members of the AMORC and Rosicrucianism. The AMORC Emperor and author of the book, H. Spencer Lewis, describes the manual as a "Guide to the Work and Studies of the Order." It contains a greeting and preliminary instructions, as well as a description of the AMORC and its important officers, general and special instructions to Members and Lodges, Mystic Symbols and their meanings, magical and alchemical explanations, and a dictionary and FAQ. HARVEY SPENCER LEWIS (1883-1939), a well-known Rosicrucian author, mystic, occultist, alchemist, and inventor, was the founder of the Ancient Mystical Order Rosae Crucis (AMORC) in the USA, as well as its first Emperor from 1915 until his death. Born in Frenchtown, New Jersey, Lewis used his training as a commercial artist at an advertising company to promote the AMORC in its early days through print ads and pamphlets. Lewis believed it was his mission to spread modern mysticism throughout the United States, which he did by promoting AMORC tours, appearing on radio shows, giving demonstrations, writing books, and inventing mystical devices. His inventions included the Luxatone, the Cosmic Ray Coincidence Counter, and the Sympathetic Vibration Harp.

Manual on Hate Speech May 24 2020 The right to freedom of expression entails duties and responsibilities and is subject to certain limits, provided for in Article 10.2 of the European Convention on Human Rights, which are concerned, among other things, with protecting the rights of others. Identifying what constitutes "hate speech" is especially difficult because this type of speech does not necessarily involve the expression of hatred or feelings. On the basis of all the applicable texts on freedom of expression and the case law of the European Court of Human Rights and other bodies, the author identifies certain parameters that make it possible to distinguish expressions which, although sometimes insulting, are fully protected by the right to freedom of expression from those which do not enjoy that protection.
