From its 1939 “Nickel, Nickel” jingle to pathbreaking collaborations with Michael Jackson and Madonna to its pair of X Factor commercials in 2011 and 2012, Pepsi-Cola has played a leading role in drawing the American pop music industry into a synergetic relationship with advertising. This idea has been copied successfully by countless other brands over the years, and such commercial collaboration is commonplace today—but how did we get here? How and why have pop music aesthetics been co-opted to benefit corporate branding? What effect have Pepsi’s music marketing practices in particular had on other brands, the advertising industry, and popular music itself? *Soda Goes Pop* investigates these and other vital questions around the evolving relationships between popular music and corporate advertising. Joanna K. Love joins musical analysis, historical research, and cultural theory to trace parallel shifts in these industries over eight decades. In addition to scholarly and industry resources, she draws on first-hand accounts, pop culture magazines, trade press journals, and other archival materials. Pepsi’s longevity as an influential American brand, its legendary commercials, and its pioneering, relentless pursuit of alliances with

American musical stars makes the brand a particularly instructive point of focus. Several of the company's most famous ad campaigns are prime examples of the practice of redaction, whereby marketers select, censor, and restructure musical texts to fit commercial contexts in ways that revise their aesthetic meanings and serve corporate aims. Ultimately, Love demonstrates how Pepsi's marketing has historically appropriated and altered images of pop icons and the meanings of hit songs, and how these commercials shaped relationships between the American music business, the advertising industry, and corporate brands. Soda Goes Pop is a rich resource for scholars and students of American studies, popular culture, advertising, broadcast media, and musicology. It is also an accessible and informative book for the general reader, as Love's musical and theoretical analyses are clearly presented for non-specialist audiences and readers with varying degrees of musical knowledge. American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. It's available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN. In one of the most triumphant high sea stories ever told, Kieran Doherty brings to life the true story of the ship that rescued the Jamestown settlement in 1610 and

ensured England's place in the New World. When the Sea Venture left England in 1609, it was flagship in a fleet of nine bound for Jamestown with roughly 600 settlers and badly needed supplies aboard. But after four weeks at sea, as the voyage neared its end, a hurricane devastated the fleet, leaving the Sea Venture shipwrecked on the island of Bermuda. It took Sea Venture's passengers nearly a year and half to reach their destination. Awaiting them was not a thriving colony, but instead the remaining fifty colonists—beleaguered, desperate and hungry. But, the question remains, would the English have lost their place in the New World if the ship never arrived? A story of strife and triumph, but above all, endurance, Sea Venture begins and ends in hope and remains one of the greatest "What Ifs?" in history. With a bravado reminiscent of Patrick O'Brien's legendary sea sagas, Doherty braves the elements, delivering a powerful history willed by a people destined to change the New World forever.

New York Times Bestseller What if America had a royal family? If you can't get enough of Harry and Meghan or Kate and William, meet American princesses Beatrice and Samantha. Crazy Rich Asians meets The Crown. Perfect for fans of Red, White, and Royal Blue and The Royal We! Two princesses vying for the ultimate crown. Two girls vying for the prince's heart. This is the story of the American royals. When America won the Revolutionary War, its people offered General George Washington a crown. Two and a half centuries later, the House of Washington still sits on the throne. Like most royal families, the Washingtons have an heir and a spare. A future monarch and a backup battery. Each child knows exactly what is expected of them. But these aren't just any royals. They're American. As Princess Beatrice gets closer to becoming America's first queen regnant, the duty she has embraced her entire life suddenly feels stifling. Nobody cares about the spare except when she's breaking the rules, so Princess Samantha doesn't care much about anything, either . . . except the one boy who is distinctly off-limits to her. And then there's Samantha's twin, Prince Jefferson. If he'd been born a generation earlier, he would have stood first in line for the throne, but the new laws of succession make him

third. Most of America adores their devastatingly handsome prince . . . but two very different girls are vying to capture his heart. The duty. The intrigue. The Crown. New York Times bestselling author Katharine McGee imagines an alternate version of the modern world, one where the glittering age of monarchies has not yet faded--and where love is still powerful enough to change the course of history. "The lives of the American royal family will hook you in the very first pages and never let go. Relatable, believable, fantastical, aspirational, and completely addictive." --Sara Shepard, #1 New York Times bestselling author of the *Pretty Little Liars* and *Perfectionists* series

Vols. - include the Shorthorn Society's Grading register for beef Shorthorn cattle; v. - include the society's Herd book of poll shorthorns. The book to drive biker fans hog wild. The most complete book on motorcycles covers everything from motorcycle maintenance and appropriate gear to safety tips, new rules and venues, recommended buys, and making the most out of trips on the

open road. It also includes a completely updated buyer's guide featuring photos and write-ups of latest street, sport, and dirt bikes. ? Revised edition with more than 400 photos ? Includes new information on the newest breed of fuel alternative and three-wheel bikes

The power of the Royal Stars is fading. But there is a brighter light that shines within Sera. Once unleashed, it will leave her and everyone around her forever changed. Sera must find the courage to accept her power and her fate. REBUILD THE NIGHT SKY. With the light of the Royal Stars nearing their end, a hidden power inside Sera is unleashed, leaving her forever changed. Battered and brokenhearted, Sera must find it within herself to wield a forbidden weapon and lead her companions in a final showdown against the stars of Draco. Collects issues #6 to #10 of the ten issue series. XVZ13A Royal Star/Boulevard (1996-2001), XVZ13LT Tour Deluxe (1997-2001), XVZ13AT Tour Classic (1996-2000), XVZ13TF Venture (1999-2010), XVZ13CT Tour Deluxe (2005-2010)

Accident reconstruction utilizes principles of physics and empirical data to analyze the physical, electronic, video, audio, and testimonial evidence from a crash, to determine how and why the crash occurred, how the crash could have been avoided, or to determine whose description of the crash is most accurate. This process draws together aspects of mathematics, physics, engineering, materials science, human factors, and psychology, and combines

analytical models with empirical test data. Different types of crashes produce different types of evidence and call for different analysis methods. Still, the basic philosophical approach of the reconstructionist is the same from crash type to crash type, as are the physical principles that are brought to bear on the analysis. This book covers a basic approach to accident reconstruction, including the underlying physical principles that are used, then details how this approach and the principles are applied when reconstructing motorcycle crashes. This second edition of *Motorcycle Accident Reconstruction* presents a thorough, systematic, and scientific overview of the available methods for reconstructing motorcycle crashes. This new edition contains: Additional theoretical models, examples, case studies, and test data. An updated bibliography incorporating the newest studies in the field. Expanded coverage of the braking capabilities of motorcyclists. Updated, refined, and expanded discussion of the decelerations of motorcycles sliding on the ground. A thoroughly rewritten and expanded discussion of motorcycle impacts with passenger vehicles. Updated coefficients of restitution for collisions between motorcycles and cars. A new and expanded discussion of using passenger car EDR data in motorcycle accident reconstruction. A new section covering recently published research on post-collision frozen speedometer readings on motorcycles. A new section on motorcycle interactions

with potholes, roadway deterioration, and debris and expanded coverage of motorcycle falls. This second edition of Motorcycle Accident Reconstruction is a must-have title for accident reconstructionists, forensic engineers, and all interested in understanding why and how motorcycle crashes occur. Presents a history of motorcycles, how they work, how to become street legal, the best types of motorcycles to buy, and more. AdrenalineMoto is an authorized dealer of Parts-Unlimited and claims no ownership or rights to this catalog. The Parts Unlimited 2014 Street catalog is more than “just a book.” It is designed to help you and your customers get the most out of your passion for powersports. It showcases the new, exciting, in-demand products, as well as highlighting trusted favorites. The well-organized catalog sections make it easy to find the items you want. And every part is supported with the latest fitment information and technical updates available. Looking for tires? See the Drag Specialties/Parts Unlimited Tire catalog. It has tires, tire accessories and tire/wheel service tools from all the top brands. And for riding gear or casual wear, see the Drag Specialties/ Parts Unlimited Helmet/Apparel catalog. Combine all three catalogs for the most complete powersports resource of 2014. The USAF "Thunderbirds" flew the McDonnell Douglas F-4E Phantom II aircraft from 1969 through 1973. This aircraft, arguably the best fighter aircraft of its time, was used extensively in the Vietnam War. The Thunderbirds used

eleven of these machines. Two of them were lost to crashes, but nine remained for posterity. All but two are on display throughout the country. This book chronicles an exciting motorcycle trip by the author, a Thunderbird who flew in these aircraft during 1970-1972, to visit all of the remaining nine phantoms. His coast-to-coast journey covered nearly 8,000 miles and provided an endless array of wonder and a bottomless well of memories. Filled with scores of color images, it details the vistas, events and thoughts that constantly bombarded the authors senses as he pursued his quest to visit old friends from the past. Tech entrepreneurs, make your startup dreams come true by utilizing this invaluable, founder-to-founder guide to successfully navigating all phases of the tech startup journey. With the advent of the internet, mobile computing, and now AI/Machine learning and cloud computing, the number of new startups has accelerated over the last decade across tech centers in Silicon Valley, Israel, India, and China. From Startup to Exit shares the knowledge that pioneering, serial entrepreneur Shirish Nadkarni has gained from over two decades of success, detailing the practical aspects of startup formation from founding, funding, management, and finding an exit. With successful tech entrepreneurs interviewed and

featured throughout, *From Startup to Exit* will help you: Understand exactly what tech startups must do to succeed in all phases, from idea stage to IPO. Gain invaluable insights from the journeys of other successful tech founders that can be applied to your own situation. Learn how to raise millions of dollars of funding from angels and VCs to give your company the fuel it needs to take off and succeed. **NEW YORK TIMES BESTSELLER** • “A beautifully written, extraordinary quest in which two ordinary, overlooked women embark on an unlikely scientific expedition to the South Seas.”—Helen Simonson, author of *Major Pettigrew’s Last Stand* **WINNER OF THE WILBUR SMITH ADVENTURE WRITING PRIZE** • From the bestselling author of *The Unlikely Pilgrimage of Harold Fry* comes an uplifting, irresistible novel about two women on a life-changing adventure, where they must risk everything, break all the rules, and discover their best selves—together. She’s going too far to go it alone. It is 1950. London is still reeling from World War II, and Margery Benson, a schoolteacher and spinster, is trying to get through life, surviving on scraps. One day, she reaches her breaking point, abandoning her job and small existence to set out on an expedition to the other side of the world in search of her childhood obsession: an insect that may or may not exist—the golden beetle of New Caledonia. When she advertises for an assistant to accompany her, the woman she ends up with is the last person she had in

mind. Fun-loving Enid Pretty in her tight-fitting pink suit and pom-pom sandals seems to attract trouble wherever she goes. But together these two British women find themselves drawn into a cross-ocean adventure that exceeds all expectations and delivers something neither of them expected to find: the transformative power of friendship. Praise for Miss Benson's Beetle "A hilarious jaunt into the wilderness of women's friendship and the triumph of outrageous dreams."—Kirkus Reviews

The New York Times—bestselling author delivers "a riveting saga about Big Sugar flexing its imperialist muscle in Hawaii . . . A real gem of a book" (Douglas Brinkley, author of American Moonshot). Deftly weaving together a memorable cast of characters, *Lost Kingdom* brings to life the clash between a vulnerable Polynesian people and relentlessly expanding capitalist powers. Portraits of royalty and rogues, sugar barons, and missionaries combine into a sweeping tale of the Hawaiian Kingdom's rise and fall. At the center of the story is Lili'uokalani, the last queen of Hawai'i. Born in 1838, she lived through the nearly complete economic

transformation of the islands. Lucrative sugar plantations gradually subsumed the majority of the land, owned almost exclusively by white planters, dubbed the “Sugar Kings.” Hawai‘i became a prize in the contest between America, Britain, and France, each seeking to expand their military and commercial influence in the Pacific. The monarchy had become a figurehead, victim to manipulation from the wealthy sugar plantation owners. Lili‘u was determined to enact a constitution to reinstate the monarchy’s power but was outmaneuvered by the United States. The annexation of Hawai‘i had begun, ushering in a new century of American imperialism. “An important chapter in our national history, one that most Americans don’t know but should.” —The New York Times Book Review “Siler gives us a riveting and intimate look at the rise and tragic fall of Hawaii’s royal family . . . A reminder that Hawaii remains one of the most breathtaking places in the world. Even if the kingdom is lost.” —Fortune “[A] well-researched, nicely contextualized history . . . [Indeed] ‘one of the most audacious land grabs of the Gilded Age.’” —Los Angeles Times
