Library that includes self-assessment quizzes tied to this book, leading study aids, an outline starter, and Gilbert Law Dictionary. This is a completely new trusts and estates casebook and takes a new approach in its material and structure. The book includes a toolbox section, introducing students early on to the basics of wills, trusts, powers, joint tenancies, life insurance, and miscellaneous other forms. Thus, this book organizes material around planning properly, rather than around litigation. The book also covers barriers to succession, such as the rule against perpetuities, slayer statutes, revocation, and litigation (mental capacity, no-contest clauses, and the like). Rather than including long and lightly edited cases, this book utilizes several case squibs that illustrate different factual scenarios for each legal issue followed by the court's decision and reasoning. The book also includes many statutes with lengthy analyses of the different types of statutes using the UPC as the primary model.

The author also includes practice points, tax tips, and technology traps throughout the entire book. There are numerous problems throughout the materials, with the answers located at the back of the book. Excerpt from *The Law of Real Property, Vol. 3: Being a Complete Compendium of Real Estate Law, Embracing All Current Case Law, Carefully Selected, Thoroughly Annotated and Accurately Epitomized; Comparative Statutory Construction of the Laws of the Several States* In the preparation of this, the third volume of our serial, the general plan as established in the preceding volumes has been followed, the only material change being that we have used in this volume not only all the real estate cases contained in the official reports issued since our volume two, but by the aid of the National Reporter System we have worked into it every real estate case published during the period covered by it, thus bringing the work fully up to date. In the citation of those cases not yet published in the official volumes we have left

blank spaces for the appropriate references to the volume and page of the official reports. As these references become fixed by the publication of the official reports they will be supplied to our subscribers in convenient form without any extra charge. The index in this volume contains references to every legal principle contained in the entire series, has been made with the most scrupulous care, and then verified by a comparison of all the references with the sections cited. Again, we desire to make public acknowledgment of our gratitude for the generous patronage and the multitude of gratuitous words of praise which others have seen fit to bestow upon this publication. In return for these, we can only say that no exertion shall be spared to make each volume of this series an indispensable help to every one whose professional duties require of him an accurate knowledge of modern adjudications upon every principle embraced in this most important branch of the law.
