The Follies of Globalisation Theory Jul 19 2022 Justin Rosenberg develops an erudite and lively critique of contemporary globalization theory.

Camden's Follies Nov 23 2022 Hold onto your hats, more follies ensue! The Garinthian Empire is reeling. James has become their biggest threat and yet, rumours of a new Pirate Clan alliance have reached the ears of the Emperor and his Amanor allies. Farak Khan's brother is leading the charge as the Dragon Helm scramble to aid their newest allies to join the new united clan; The Orleans. Cynthia and Sha'l Ter are now in charge of the good will and relief base as the Empire brings its reginal might to bare to lay siege on Varloons 5 - 7. The battle front has grown as has the shenanigans, politics and Jame's family! Stow your gear, man your stations and hold on to your hats; The Follies are back with interest!

The Excellent Empire Aug 20 2022 This remarkable account by an award-winning historian details the responses to the fall of Rome by the church fathers, who set the pattern for interpreting this momentous event for all succeeding centuries. "To speak about the decline and fall of the Roman empire as 'the social triumph of the ancient church' is to look at the events associated with that 'memorable revolution' . . . through the eyes of the victors," writes the author. "The thoroughness of the victors has often seen to it that there remains no other way for us to view those events. Not only are we--for this period as for so many others throughout most of human history--denied access to the mind of the common people as they watched this history in the making, such that we are forced to depend on the documents provided by various of the elites of the fourth and fifth centuries; but among the documents of those elites, only some have been permitted to survive." Jerome, Christian humanist and translator of the Bible into Latin, represents an apocalyptic view of the crisis. Eusebius, court theologian and founder of church history, saw the fall of Rome as the sign of a new order, the "Christian Empire." And Augustine, fountainhead of much of Western thought during the millennium that followed, used it as the basis for his City of God. The unifying theme in this historical panorama is the final revisionist view of the fall by its greatest historian, Edward Gibbon. All of these interpretations of the fall of Rome continue to live today and deeply influence our understanding of Western culture.

Verses Versus Empire Oct 10 2021 Hailed as a poet for the 21st century, Abdiel LeRoy has charted an epic course through the inferno of U.S. politics from Bush through Obama to Trump. Yet his verses are rendered with such wit and inventive force that the reader is entertained, rather than overwhelmed. Writing in the spirit of Shakespeare and the early prophets, LeRoy exposes the follies and fraud of Empire, while offering inspiration and deeply researched historical record for progressive forces at this critical time for Humanity. In the age-old contention between prophets and rulers, score one for the prophets!

Mrs. Queen's Chump Dec 12 2021 Mrs. Queen's Chump is the military memoir of a young man who, naively acquiescing to a period of "adventure" after leaving boarding school, soon found himself enmeshed in the agonies of subjugated peoples caught in the turmoil of a collapsing British Empire and demanding restoration of their dignity and rightful human freedoms. Left to deal as best he could with his own transition from boy to man - somewhat before PTSD became a recognizable quantity - he realized as a born Canadian citizen he might easily have avoided service in Britain's army - but he had committed himself, so entered with his eyes open and became a keen observer. In stories that are sometimes funny, sometimes frightening, yet somehow tinged with the sadness that always jolts the loss of innocence, the author tells of experiences as an infantry officer fighting in the jungles of both Kenya and Malaya. They are incident of another time, yet hauntingly contemporary - soldiers sent to far off corners of the world to secure the privileges of tough and ambitious colonizers, themselves champions of Empire (no matter whose) who feel full entitlement over both people and resources. Bring up the troops! Despite clear dangers, thousands of bright-eyed and brainwashed young Brits whose invincible dads had recently thrashed Hitler were now, by the late 1940's and 1950's, keen to do their bit, to head abroad and "have a go" at running the Empire. They sallied forth into what they thought a halcyon sunset in need of some burnishing, but in reality dazzling in its madness. By the end their military weight and wallop proved insufficient to address the anger of millions of very "restless natives" - or to douse the frenzies of the likes of Idi Amin. The initial disease was Empire Myopia. Within a short time, and like Kurtz in Heart of Darkness, those who had come to impose order themselves succumbed to an Idi-like dementia that tumbled the whole wretched Empire to its knees. About the Author Born in Vancouver, Canada, Jeremy Hespeler-Boulbee started school in Australia, continued in the United States and Canada, and graduated from high school in Britain - this last giving rise to the military service described in these pages. A young and insightful officer, whose views often ran counter to those expressed by his superiors, he was in a unique position to observe the collapsing British Empire. Later, as a journalist living in Lisbon, Portugal, he was again witness - this time to the revolutionary shake-up and demise of another of Europe's entrenched old orders. Hespeler-Boulbee has worked on major assignments in Canada, the United States, Portugal and numerous countries in Africa. In addition to writing, he is an architectural historian specializing in Renaissance Portugal. He considers "home" to be Victoria, British Columbia, Barrancos, Portugal and Bahir Dar, Ethiopia.

Memoirs of Eminent Pious Women of the British Empire, Vol. 2 of 3 (Classic Reprint) Feb 20 2020 Excerpt from Memoirs of Eminent Pious Women of the British Empire, Vol. 2 of 3 The Countess of Carbery, who died in the prime of life in the year 1650, was the lady of Richard, Earl of Carbery. The following character is extracted from a sermon preached at her funeral by the pious, learned, and eloquent Dr. Jeremy Taylor, and published in a collection of his discourses in folio: "I have now done with my text, but am yet to make you another sermon. I have told you the necessity and the state of death; it may be too largely for such a sad story; I shall, therefore, now, with a better compendium, teach you how to live, by telling you a plain narrative of a life, which if you imitate and write after the copy, it will make, that death shall not be an evil, but a thing to be desired, and to be reckoned amongst the purchases and advantages of your fortune. Decline and Fall of the Roman Empire: The Modern Library Collection (Complete and Unabridged) Mar 03 2021 This Modern Library eBook edition collects all three volumes of Edward Gibbon's towering masterpiece of classical history The Decline and Fall of the Roman Empire—complete and unabridged. Edward Gibbon's magnum opus narrates the history of the Roman Empire from the second century A.D. to its collapse in the west in the fifth century and in the east in the fifteenth century. Alongside the magnificent narrative lies the author's wit and sweeping irony, exemplified by Gibbon's famous definition of history as "little more than the register of the crimes, follies and misfortunes of mankind." An epic chronicle of uncommon literary distinction, The Decline and Fall of the Roman Empire is widely considered the greatest work of history ever written. This unabridged eBook bundle of the celebrated text edited by Professor J. B. Bury, considered a classic since it first appeared in 1896, includes Gibbon's own exhaustive notes, Bury's original Introduction and index, as well as a modern appraisal of Gibbon in an Introduction from Pulitzer Prize-winning historian Daniel J. Boorstin.

The Decline and Fall of the Roman Empire Dec 20 2019 Discusses the Roman Empire's rise to greatness as well as its eventual decline and fall brought about by increasingly dramatic military, economic, and social changes.

War, Empire, and the Military Feb 26 2023 These 127 essays, although organized under seven headings, have one underlying theme: opposition to the warfare state that

robs us of our liberty, our money, and in some cases our life. Conservatives who decry the welfare state while supporting the warfare state are terribly inconsistent. The two are inseparable. Libertarians who are opposed to war on principle, but support the state's bogus war on terrorism, even as they remain silent about the U.S. global empire, are likewise contradictory. Although many of these essays reference contemporary events, the principles discussed in all of them are timeless: war, militarism, empire, interventionism, and the warfare state. In chapter 1, War and Peace, the evils of war and warmongers and the benefits of peace are examined. In chapter 2, The Military, the evils of standing armies and militarism are discussed, including a critical look at the U.S. military. In chapter 3, The War in Iraq, the wickedness of the Iraq War is exposed. In chapter 4, World War II, the good war is shown to be not so good after all. In chapter 5, Other Wars, the evils of war and the warfare state are chronicled in specific wars: the Crimean War (1854-1856), the Russo-Japanese War (1904-1905), World War I (1914-1918), the Persian Gulf War (1990-1991), and the war in Afghanistan (2001). In chapter 6, The U.S. Global Empire, the beginnings, growth, extent, nature, and consequences of the U.S. empire of bases and troops are revealed and critiqued. In chapter 7, U.S. Foreign Policy, the belligerence, recklessness, and follies of U.S. foreign policy are laid bare.

Foreign Follies Apr 28 2023 The United States once was a traditional republic, remaining aloof from foreign conflicts. Today no problem on earth is exempt from Washington's meddling. The result is an overzealous military, perpetual intervention, and consistent conflict, according to Bandow, who says it's time for a new foreign policy. *The Follies of Globalisation Theory* Jun 25 2020 The Follies of Globalisation Theory is an erudite and lively critique arguing that current fashionable preoccupations, such as the concern with spatiality, have generated deep intellectual confusions that stand in the way of a clear understanding of the modern world. It shows how and why these confusions ultimately condemn the globalization theorists themselves to a peculiar and quixotic stance: the more clearly they attempt to articulate their arguments, the more equivocal and evasive those arguments become, yielding at best the intellectual equivalent of an architectural folly.

The Decline and Fall of the Roman Empire Mar 23 2020

The History of the Decline and Fall of the Roman Empire Jan 01 2021 All six volumes contained in the eBook, and there is a linked table of contents, the footnotes are also linked. Gibbon's masterpiece, which narrates the history of the Roman Empire from the second century a.d. to its collapse in the west in the fifth century and in the east in the fifteenth century, is widely considered the greatest work of history ever written. The History of the Decline and Fall of the Roman Empire (sometimes shortened to Decline and Fall of the Roman Empire) is a book of history written by the English historian Edward Gibbon, which traces the trajectory of Western civilization (as well as the Islamic and Mongolian conquests) from the height of the Roman Empire to the fall of Byzantium. Published in six volumes, volume I was published in 1776 and went through six printings. Volumes II and III were published in 1781; volumes IV, V, and VI in 1788-89. The original volumes were published in quarto sections, a common publishing practice of the time. The work covers the history of the Roman Empire, Europe, and the Catholic Church from 98 to 1590 and discusses the decline of the Roman Empire in the East and West. Because of its relative objectivity and heavy use of primary sources, at the time its methodology became a model for later historians. This led to Gibbon being called the first "modern historian of ancient Rome". Gibbon offers an explanation for why the Roman Empire fell, a task made difficult by a lack of comprehensive written sources, though he was not the only historian to tackle the subject. According to Gibbon, the Roman Empire succumbed to barbarian invasions in large part due to the gradual loss of civic virtue among its citizens. They had become weak, outsourcing their duties to defend their Empire to barbarian mercenaries, who then became so numerous and ingrained that they were able to take over the Empire. Romans, he believed, had become effeminate, unwilling to live a tougher, "manly" military lifestyle. In addition, Gibbon argued that Christianity created a belief that a better life existed after death, which fostered an indifference to the present among Roman citizens, thus sapping their desire to sacrifice for the Empire. He also believed its comparative pacifism tended to hamper the traditional Roman martial spirit. Finally, like other Enlightenment thinkers, Gibbon held in contempt the Middle Ages as a priest-ridden, superstitious dark age. It was not until his own age of reason and rational thought, it was believed, that human history could resume its progress. Gibbon sees the Praetorian Guard as the primary catalyst of the empire's initial decay and eventual collapse, a seed planted by Augustus at the establishment of the empire. He cites repeated examples of the Praetorian Guard abusing their power with calamitous results, including numerous instances of imperial assassination and incessant demands for increased pay. Gibbon's style is frequently distinguished by an ironically detached and somewhat dispassionate yet critical tone. He occasionally lapses into moralization and aphorism. "As long as mankind shall continue to bestow more liberal applause on their destroyers than on their benefactors, the thirst of military glory will ever be the vice of the most exalted characters". "The influence of the clergy, in an age of superstition, might be usefully employed to assert the rights of mankind; but so intimate is the connection between the throne and the altar, that the banner of the church has very seldom been seen on the side of the people"(Chapter Three). "History...is, indeed, little more than the register of the crimes, follies, and misfortune of mankind"(ibid). "If we contrast the rapid progress of this mischievous discovery [of gunpowder] with the slow and laborious advances of reason, science, and the arts of peace, a philosopher, according to his temper, will laugh or weep at the folly of mankind"(Chapter). Gibbon provides the reader with a glimpse of his thought process with extensive notes along the body of the text, a precursor to the modern use of footnotes. Gibbon's footnotes are famous for their idiosyncratic and often humorous style, and have been called "Gibbon's table talk." They provide an entertaining moral commentary on both ancient Rome and 18th-century Great Britain. This technique enabled Gibbon to compare ancient Rome to modern times. Gibbon's work advocates a rationalist and progressive view of history.

The Folly of Empire Nov 11 2021 The New York Times hailed John B. Judis's *The Emerging Democratic Majority* as "indispensable." Now this brilliant political writer compares the failure of American imperialism a century ago with the potential failure of the current administration's imperialistic policies. One hundred years ago, Theodore Roosevelt believed that the only way the United States could achieve peace, prosperity, and national greatness was by joining Europe in a struggle to add colonies. But Roosevelt became disillusioned with this imperialist strategy after a long war in the Philippines. Woodrow Wilson, shocked by nationalist backlash to American intervention in Mexico and by the outbreak of World War I, began to see imperialism not as an instrument of peace and democracy, but of war and tyranny. Wilson advocated that the United States lead the nations of the world in eliminating colonialism and by creating a "community of power" to replace the unstable "balance of power." Wilson's efforts were frustrated, but decades later they led to the creation of the United Nations, NATO, the IMF, and the World Bank. The prosperity and relative peace in the United States of the past fifty years confirmed the wisdom of Wilson's approach. Despite the proven success of Wilson's strategy, George W. Bush has repudiated it. He has revived the narrow nationalism of the Republicans who rejected the League of Nations in the 1920s. And at the urging of his neoconservative supporters, he has revived the old, discredited imperialist strategy of attempting to unilaterally overthrow regimes deemed unfriendly by his administration. Bush rejects the role of international institutions and agreements in curbing terrorists, slowing global pollution, and containing potential threats. In *The Folly of Empire*, John B. Judis convincingly pits Wilson's arguments against those of George W. Bush and the neoconservatives. Judis draws sharp contrasts between the Bush administration's policies, especially with regard to Iraq, and those of every administration from Franklin Roosevelt and Harry Truman through George H. W. Bush and Bill Clinton. The result is a concise, thought-provoking look at America's position

in the world -- then and now -- and how it has been formed, that will spark debate and controversy in Washington and beyond. The Folly of Empire raises crucial questions about why the Bush administration has embarked on a foreign policy that has been proven unsuccessful and presents damning evidence that its failure is already imminent. The final message is a sobering one: Leaders ignore history's lessons at their peril.

[Face of Imperialism](#) Feb 14 2022 The relationship between US economic and military power is not often considered within mainstream commentary. Similarly the connection between US military interventions overseas and US domestic problems is rarely considered in any detail. In this brilliant new book, Michael Parenti reveals the true face of US imperialism. He documents how it promotes unjust policies across the globe including expropriation of natural resources, privatisation, debt burdens and suppression of democratic movements. He then demonstrates how this feeds into deteriorating living standards in the US itself, leading to increased poverty, decaying infrastructure and impending ecological disaster. The Face of Imperialism redefines empire and imperialism and connects the crisis in the US with its military escapades across the world.

[The Siege of Krishnapur](#) Jan 13 2022 Winner of the Booker Prize. An insightful and thrilling novel about the British Empire in India during the Great Mutiny of 1857, as seen through the eyes of a young, love-struck idealist. India, 1857—the year of the Great Mutiny, when Muslim soldiers turned in bloody rebellion on their British overlords. This time of convulsion is the subject of J. G. Farrell's *The Siege of Krishnapur*, widely considered one of the finest British novels of the last fifty years. Farrell's story is set in an isolated Victorian outpost on the subcontinent. Rumors of strife filter in from afar, and yet the members of the colonial community remain confident of their military and, above all, moral superiority. But when they find themselves under actual siege, the true character of their dominion—at once brutal, blundering, and wistful—is soon revealed. *The Siege of Krishnapur* is a companion to *Troubles*, about the Easter 1916 rebellion in Ireland, and *The Singapore Grip*, which takes place just before World War II, as the sun begins to set upon the British Empire. Together these three novels offer an unequalled picture of the follies of empire.

[Follies in America](#) Aug 08 2021 Follies in America examines historicized garden buildings, known as "follies," from the nation's founding through the American centennial celebration in 1876. In a period of increasing nationalism, follies—such as temples, summerhouses, towers, and ruins—brought a range of European architectural styles to the United States. By imprinting the land with symbols of European culture, landscape gardeners brought their idea of civilization to the American wilderness. Kerry Dean Carso's interdisciplinary approach in *Follies in America* examines both buildings and their counterparts in literature and art, demonstrating that follies provide a window into major themes in nineteenth-century American culture, including tensions between Jeffersonian agrarianism and urban life, the ascendancy of middle-class tourism, and gentility and social class aspirations.

[The March of Folly](#) Oct 22 2022 Pulitzer Prize-winning historian Barbara W. Tuchman, author of the World War I masterpiece *The Guns of August*, grapples with her boldest subject: the pervasive presence, through the ages, of failure, mismanagement, and delusion in government. Drawing on a comprehensive array of examples, from Montezuma's senseless surrender of his empire in 1520 to Japan's attack on Pearl Harbor, Barbara W. Tuchman defines folly as the pursuit by government of policies contrary to their own interests, despite the availability of feasible alternatives. In brilliant detail, Tuchman illuminates four decisive turning points in history that illustrate the very heights of folly: the Trojan War, the breakup of the Holy See provoked by the Renaissance popes, the loss of the American colonies by Britain's George III, and the United States' own persistent mistakes in Vietnam. Throughout *The March of Folly*, Tuchman's incomparable talent for animating the people, places, and events of history is on spectacular display. Praise for *The March of Folly* "A glittering narrative . . . a moral [book] on the crimes and follies of governments and the misfortunes the governed suffer in consequence."—*The New York Times Book Review* "An admirable survey . . . I haven't read a more relevant book in years."—John Kenneth Galbraith, *The Boston Sunday Globe* "A superb chronicle . . . a masterly examination."—*Chicago Sun-Times*

Edward Gibbon - The History of the Decline and Fall of the Roman Empire - Volume I (of VI) May 25 2020 For decades, perhaps centuries, the standard work of reference on Roman History has been courtesy of Edward Gibbon. In its original printing it was a best-seller and a publishing sensation. History was brought to the masses in vivid detail. Within its massive six volumes Gibbon put into context the entire sweep of this huge and complex Empire. We visit its far-flung regions, its most charismatic characters as we travel through centuries of its existence and its eternal influence on Western and, most probably, World culture. Considering the times and the resources at his disposal it quite incredible what Gibbon has been able to put together, to distil, to formulate and precisely plot in this most seducing of histories. [Follies of the Wise](#) Jan 21 2020 Bestselling author and Berkeley professor of thirty years Frederick Crews has always considered himself a skeptic. Forty years ago he thought he had found a tradition of thought — Freudian psychoanalytic theory — that had skepticism built into it. He gradually realized, however, that true skepticism is an attitude of continual questioning. The more closely Crews examined the logical structure and institutional history of psychoanalysis, the more clearly he realized that Freud's system of thought lacked empirical rigor. Indeed, he came to see Freudian theory as the very model of a modern pseudoscience. *Follies of the Wise* contains Crews's best writing of the past fifteen years, including such controversial and widely quoted pieces as "The Unknown Freud" and "The Revenge of the Repressed," essays whose effects still reverberate today. In addition, his topics range from "Intelligent Design" creationism to theosophy, from psychological testing to UFO zaniness, from American Buddhism to the current state of literary criticism. A single theme animates his bracing and witty discussions: the temptation to reach for deep wisdom without attending to the little voice that asks, "Could I, by any chance, be deceiving myself here?"
